## ISABELLA HERNANDEZ

### BIOLOGY

#### BIOGRAPHY

I am so honored to be a part of the STISD family here at Rising Scholars Academy. This will be my thirteenth-year teaching. I have taught in the United States and in Mexico. I was the first in my family to attend college and I graduated from Ottawa University. I am originally from Phoenix, Arizona, but I now live in Harlingen with my wonderful husband of 22 years and my two amazing children. I have many pets including a dog, three cats, and a ball python snake. I tend to spend my free time playing board or card games with my family or fixing up my 70-year-old house. I also love to go to comedy shows or live boxing matches whenever I get the chance.
