BIOGRAPHY

Greetings scholars! My name is Cynthia Ortega and I'm going to be the Math 6 and Math 8 teacher this year at Rising Scholars Academy.

I graduated from The University of Phoenix with a degree in Business Management. I have taught middle school Math for 7 years at various local districts.

I have 3 adult children, my oldest daughter is an engineering teacher at PSJA, my son is a mechanical engineer for an engineering firm based in Illinois, and my youngest daughter is a UTRGV graduate, looking to begin her career. My husband Gabriel and I have been married for 31 years. We enjoy spending time together on the weekends and looking for a great bargain.

I am excited to join the RSA community. I look forward to getting to know each of you, learning and growing together.
