RACHEL REYNOLDS

SCIENCE

BIOGRAPHY

My name is Rachel Reynolds, and I am so honored to be teaching 6th grade science this year.

I was born and raised in Rio Hondo and attended high school at Rio Hondo High School. I graduated from Southwest Texas State University in San Marcos, Tx with a BS in Education. Teaching science is my passion. When I did my student teaching, some of that experience was done abroad in London, England. It was a wonderful experience and I hope to travel abroad again someday. I have taught in Weslaco, Houston, and Kansas. I have been a teacher for 30 years. Most of those years have been teaching 5th grade and middle school science.

I have been married to my husband, Sam Reynolds for 32 years. We have one daughter and three crazy cats. Along with taking care of my family, I like to watch movies and binge on Netflix whenever my husband and I get the chance. My family and I love going to church and we are active members.

My goal is to make science engaging to my students and encourage them to love learning. I hope to inspire them to be the best they can be and to become productive citizens in our great country. I am a very positive person and I enjoy the career I have chosen very much.
