

South Texas ISD

Rising Scholars Academy

GRADES 6-8 | SAN BENITO

JANIE SANCHEZ

TECHNOLOGY APPLICATIONS

BIOGRAPHY

I have been in education for 31 years—all with STISD. I have been the accountant at Central Office, and have taught at The Teacher Academy (now World Scholars), Med High and now at Rising Scholars. I have taught BIM and various technology courses such as Graphic Design, Web Mastering, Digital Design and Media Production and this year 6th Grade Technology Applications. I have also been a sponsor of Business Professionals of America for 27 years—we are looking into bringing BPA to Rising Scholars this year!

My children are in Tulsa, San Antonio and Laredo which make family gatherings very special when we get to be together.

For fun I enjoy Pickleball and riding my bike. I have a dog named Caddo, but we should have named him Simba because he looks like a lion!

I strive for a welcoming classroom that is home for my students—Welcome everyone! Let's have a great year!
