GRADES 6-8 | SAN BENITO

ERNESTO BALLI

BIOLOGY

BIOGRAPHY

My name is Ernest Balli and I will have the pleasure of teaching 8th grade Biology at RSA. This is my 23rd year teaching. I have taught grades 2nd through 9th, ranging in content from Science to Math to Social Studies, with the 20 of my 23 years in Science. I hope to light a new flame for the love of Science that will become a part of your future as a student and as an individual in the real world. Albert Einstein once said, "Anyone who has never made a mistake has never tried anything new". Well, believe me, we will definitely be making several mistakes this year as we push the boundaries on thinking and application in the field of Biology in Middle School. I am a graduate from Med High, class of '94 and a class of 2000 graduate from UTPA with a major in Biology.

I live in San Benito with my beautiful wife Blanca and my amazing daughters Ilyana Espy Balli, 13 and Victoria Anya Balli, 10. My whole outlook in life is to have fun and enjoy the ride. Whether at school, work, home or on vacation, ALWAYS try to make the most of your time here on Earth as this life is precious and should not be taken for granted. I am originally from California and a Lakers, Raiders and Dodgers fan! I enjoy traveling, going to concerts and amusement parks.
