SHARAI YBARRA

INTEGRATED PHYSICS
AND CHEMISTRY (IPC)

BIOGRAPHY

My name is Sharai Ybarra and I have the pleasure of teaching IPC at South Texas ISD Rising Scholars Academy. I am looking forward to establishing strong student-teacher connections that will allow me to help our students succeed throughout the course of their education. I strive to be a collaborative, approachable, and motivational teacher.

I graduated from University of Texas – Rio Grande Valley with a bachelor degree in Biology and am a proud product of UTeach, a preparation program that works to increase the number of qualified science, technology, engineering, and mathematics (STEM) teachers in secondary schools. I also received my Master’s degree from the University of Texas at Arlington in Curriculum & Instruction in Science Education. My passion is learning; I hope to further my education in the future and learn from my wonderful students and colleagues.

I live in Harlingen and enjoy spending time with my husband and pups. I love to travel and hope to do more of it in the future! I’ve recently become enamored with gardening but have yet to earn my green thumb. My favorite activities include reading and hunting for unique things at thrift stores.
