VII. Hearing of Citizens - Superintendent Contract Hearing

The Board will permit the public to make comments on the proposed contract amendment. The Board, pursuant to Open Public Meetings Act, specifically N.J.S.A. 10:4-12(b), shall not publicly discuss personnel matters. However, the Board will give all comments appropriate consideration. Copies of the contract amendment were made available by contacting Robert Wright, School Business Administrator.

Please be aware that the Superintendent retains his right to privacy and shall retain all rights regarding defamation and slander according to the laws of New Jersey. The Board shall not be held liable for comments made by members of the public.

Hearing of Citizens will be restricted to three minutes per person for a total of thirty minutes for comments only.

Mr. Bradler began by asking the district's attorney, Mr. Nehme, to clarify the format for the Superintendent's contract hearing. Mr. Nehme stated that the purpose of the meeting was to obtain feedback from the public on the contract extension. He advised the Board not to engage in a back and forth discussion with the public. He pointed out that this is a personnel matter and Dr. Gamper has a right to privacy.

Mr. Bradler stated that thirty minutes will be allotted for comments and that all comments will be limited to three minutes.

The first to speak was Valerie. Valerie asked why the Board was unable to respond to questions. Mr. Nehme responded that there are certain topics the board cannot discuss publicly. Personnel matters is one of them. Valerie followed up by asking what the point was of having a discussion to which Mr. Nehme responded that the comments made by the public could impact the Board's decisions.

Nicole asked why the contract is on the Board agenda tonight. Mr. Nehme responded that the Board is unable to discuss that. Nicole then asked if the contract was up. Mr. Nehme responded that it was not but was being opened up.

Chris commented that parents need to make sure their kids are well educated. He felt that there was room for improvement at Park Ridge. He gave an example of his son being in his 2nd year at Stevens Tech. He indicated that his son was behind the other students and struggled through his first year. He also felt that the Superintendent should not automatically get a bonus. He felt improvement was needed. He suggested that rather than say great job, come up with an action program and evaluate him at end of his. He stated he does not expect people to be perfect but he does feel improvement is needed.

Nicole asked what was the increase being requested. She was informed that it was a five-year contract with 2% increase. She then asked if the Board would open up the teacher's contract. Mr. Nehme advised the Board not to speak about Negotiation topics.

Felix indicated that he was new to Park Ridge. He commented that he does not see much of a STEM program. He felt there should be more emphasis in this area. He also asked if there was a plan to address the increase in the number of people in town.

Matt asked what can the Board point to that warrants this advanced renewal and worthy of being one of the top five paid Superintendents in the County. He stated that the Borough sends 2.6 million in taxes each month

and asked what are they getting for it. He commented that Dr. Gamper does not answer emails. He felt that the Board should wait to decide whether to renew his contract. He did not feel the district was getting top notch service and he did not understand why this was being done now.

Ms. Diaz commented that the district has fantastic athletics but not every child is an athlete. She felt that there were certain basic services like guest Wi-Fi and color printers that should be available. She wanted to see more emphasis on making students more marketable giving time management and leadership skills as examples. Another issue she raised was that there were a large number of students going out of the district. She felt transparency is a big problem. She also expressed concern about the math and technology curriculum.

Valerie commented that Dr. Gamper is being paid as one of the top 5 Superintendent in Bergen County but test scores are only mediocre. She pointed that while Literacy scores are good, Science is low and Math is mediocre. She also expressed concern about transparency. She felt Dr. Gamper has a bad rap with parents. She did thank the Board for getting the signs up outside. She then expressed her disappointment with how the gowns were handled. She said that students took their Senior pictures in a different gown than they will graduate in. She felt the Board should cover the cost of the gowns. She stated that Dr. Gamper does what everyone else is doing. He is not a leader, he is a follower. She did not think this was good.

Janine stated that when she came into the district, Lisa Bernardo had a great program. The person hired to replace her was a disaster. She also said that she has emailed all of the Board members and Dr. Gamper, but never received a response. She mentioned that programs were taken away. She felt that as a leader, Dr. Gamper should not have let this happen. She would like to see the programs return and have it set as a goal for the new Special Services Director.

A resident commented that she currently has two daughters in the district. She felt that residents were not getting enough for what they pay in taxes. As an example, they spoke about an issue they had with a math class this year.

A resident spoke about a recent meeting they attended with Dr. Gamper at West Ridge regarding the changes in the Health curriculum. She indicated that many people left the meeting frustrated. She felt there was a lack of transparency and not enough open dialogue about what was going on. While she felt Dr. Gamper is entitled to make a living, more needs to be done and the Board shares equally in his success or failure.

A resident asked about the Long-range plan to address overdevelopment and School security concerns.

A resident was unhappy with Dr. Gamper's extra merit pay objectives. She felt that the additional pay he received for sending out "tweets" was not justified. She felt that the Teacher's reinvented the educational system during pandemic and deserve more credit.

A resident indicated that they were an educator in another district. She stated that an evaluation cannot be done with a rubric. She was concerned that there was a lack of such a feedback tool in policy. She was also critical of the use of Schoology by the district. She felt it was an inferior program and spoke about working on a Google platform. She indicated that there is better communication with this method. She conveyed that she has complained about this for two years but nothing has been done. Feels this is a failure of leadership.

A resident commented that he felt the discussion was constructive. He hoped that a decision was not already made. He asked the Board to take real hard look at this. He recommended a Special hearing to discuss this further and felt that making a decision now, is disrespectful to the people present. He urged the Board to do the right thing in the right order.

The Board Members responded.

Ms. Wagner thanked everyone for coming. She mentioned that she has children in the district. Everyone present wants the best education possible for students. She ran for the Board, because she felt the frustration. Her time on the Board has been humbling. She stated that there are many things they are not able to share with the public. It is frustrating and unique to School boards. She thanked them for their comments and valued their feedback. She mentioned that they often sit at meetings for months and do not hear feedback. She stated that the Board wants to hear your questions and concerns. She was also hopeful that regardless of what happens tonight, they can move forward with continued dialogue.

Ms. Agoos indicated that she has been angry in the past. After getting on the Board, she now realizes how complicated it is. She stated that there are many things that are wonderful about the district and other things can be done better. She commented that the Board gets valuable feedback at these meetings on what to do. She felt that she believed Dr. Gamper has a hard job and has done a good job. He gets pulled in many different directions. She has learned a lot of things over the past two years and wanted the public to know that the Board does listen and cares.

Ms. Sum stated that she appreciated the feedback they received tonight. Due to a legal conflict of interest, she will need to abstain from the vote. She indicated that the criticisms were noted and will be considered as they go into the next school year.

Mr. Bradler stated that the Board hears ideas at these meetings which can result in future district goals. Comments do not go unheard.

XVI. Hearing of Citizens

Hearing of Citizens will be restricted to three minutes per person for a total of thirty minutes for questions and/or comments on non-agenda items only.

Mr. Montalbano stated that he sat on the Board for 13 years. He did not think most people understand how difficult it is to balance things with the money we have. It is a hard job and the Pandemic made it harder. He gave Dr. Gamper and the Board a lot of credit.

Mr. Halton asked if the concerns raised at the meeting will be made public. He commented that he did not see the Board discuss the matter with each other.

Mr. Nehme informed Mr. Halton that the vote was conducted already. The Board was required to take concerns of the public into account. He finished by stating that the Board followed procedure.

A resident thought the contract renewal was absurd. And asked what the rush was.

A resident stated that she understood that it is hard job but felt the district is not where they should be now. She expressed disappointment in the Board.

A resident asked about the PTO awnings and why they are not up. She commented that her child was sunburned after eating outside. Dr. Gamper responded that he heard about conversations concerning an amphitheater but not awnings. He indicated he would speak with the PTO president.

A resident asked if there will be another health meeting in August. Many parents still have questions and felt that communication was lacking. She indicated that there was a lot of mistrust with Dr. Gamper and the entire Board of Education. Dr. Gamper responded that another meeting would be scheduled.

Ms. Holten asked about the graduation gowns. Dr. Gamper stated that a decision was made after the order had been placed to make the gowns all the same color. Ms. Holten asked why parents were not informed back then. She felt it was a big oversight and a transparency issue. She commented that parents paid for something they thought they were getting but did not.

A resident commented that the pictures they purchased were a different color than the graduation gowns and wanted to know if the Board would reimburse them or pay to have the pictures retaken. Dr. Gamper responded that he was not familiar with picture taking process and was not directly involved in the gown decision. He indicated he would check with the photographer to see if a reshoot was possible but was not hopeful due to the timing.

Mr. Feliz commented that he hoped that the comments made are not taken as a personal attack. He hoped the Board would take what was said tonight into consideration going forward.

A resident asked if the Board can speak to what is in the contract. Mr. Nehme indicated that it is a public document and can be requested by anyone.

XVII. Board Comments – New/Unfinished Business

Ms. Wagner spoke about the revised Use of School Facilities policy. She pointed out that the old policy had inconsistencies and encouraged Board members to read the new one. The first review is tonight and the second (and final) reading will be at the August meeting.

Ms. Comeau asked if there were differences between the group classifications. Ms. Wagner indicated that there was but they are being condensed in the revision. Mr. Wright will provide an analysis of the difference in classifications.

Mr. Pierotti commented that the Board is still waiting for the breakdown of the number of units being planned at the Sony site. He also commented on the need for a demographic study and to continue the discussion on school security.

Ms. Sum agreed with Mr. Pierotti's statements on school security coming to full Board. She believes keeping students safe should be a high priority.

Ms. Wagner asked what the process was for Maternity leave replacements

Dr. Gamper responded that the first step was for the staff member to request a leave of absence. The opening is then posted and applications are received. He pointed out that the person hired must be certified in the area of teaching being filled, and that certain areas are easier to fill than others. The candidates then interview with the administration who then makes a recommendation, which is brought to the Board. He also stated that is becoming more of a challenge to fill these openings due to teacher shortages.
