STEAM @ STIPE

GRADES TK - 6TH

STEAM@Stipe is a TK-6 school providing the earliest access to Science, Technology, Engineering, Arts, and Mathematics (STEAM) within project based learning and SEAL educational designs. We inspire and engage all students with a transformational approach where students learn by doing.

ROOTED IN CULTURAL IDENTITY

We value the diverse cultural backgrounds of our students, teachers, families, and community.

EARLIEST ACCESS

Starting in Kindergarten, students engage in opportunities that explore real-world problems and learn to identify as STEAM scholars who collaborate and share their unique ideas. ★

DEVELOPMENT OF MINDSETS

Through design challenges and project-based learning (PBL), students practice problem solving skills, guide their own learning, and see challenges as opportunities to grow. ★

INTEGRATED APPROACH

Culturally responsive instruction guides students to make connections across the content areas while developing strong academic language and literacy skills.

COMMUNITY ENGAGEMENT

★ We work closely with all stakeholders and leverage our Silicon Valley high-tech partners to provide access to real world applications of STEAM and facilitate authentic experiences. ★
