

Computers and Launchpad Procedures

Please Use Google Chrome

Computer Login

Username: (usually found in the front page of their planner)

Their password: should also be in their planner

Launchpad

Go to the Golden West webpage and click the Launchpad Icon

Username and password are the same as the computer.

Science - Amplify

Once in LaunchPad, click Learning Resources

Then click Amplify

If Amplify does not log in correctly, RIGHT CLICK the icon, then click update password

Select Delete, then reopen Amplify and put in the student's information. Once in Amplify, confirm that the Amplify page belongs to the student by checking the menu button in the top left corner.

Username: **Their Permanent ID#** (same number they use for lunch)

Password: **student** (all lower case)

Office365 (Microsoft Word and OneDrive online cloud storage) through Launchpad

If you are getting an error message while logging into Office365 through Launchpad, reset by using the following steps:

Close the Office365 Error page.

In Launchpad, RIGHT CLICK on the App that is showing the error message then:

Click Update Password, Then **Delete**

Then double click on the app again and re-enter the information with the **correct username and password**.

Username + @student.travisusd.org

Example: Charli.Brown.P2@student.travisusd.org

Password: same as logging into the computer
