Prices & Terms

List prices shown apply to product only. Storage, sales tax and any installation charges are additional. All orders are shipped freight prepaid within the contiguous United States and Canada. Freight charges will be the responsibility of izzy+. FOB point is izzy+'s factory. The title of goods passes to the purchaser and our responsibility ceases when the carrier accepts shipment at our manufacturing facility.

Prices in effect when the order is received will apply. If the shipping date requested exceeds six (6) months from the order receipt, izzy+ may use the published list prices effective at the shipment date. Payment is due according to our invoice terms. In the event of delinquency, the customer shall be liable for reasonable collection costs, including attorney fees. If, in the judgment of izzy+, the financial condition of the purchaser at any time during the period of the agreement does not justify the previously agreed payment terms, izzy+ may require full or partial payment in advance.

Prompt Payment Terms: 1% 10 Days, Net 30 Days.

Canadian Customers

All prices listed are in United States (U.S.) Dollars. Customs charges are prepaid; however the Purchaser is responsible for GST tax. Contact Customer Service for current exchange rate.

International Customers

All prices listed are in United States (U.S.) Dollars. All freight, taxes, and export fees are the Purchaser's responsibility.

Orders

Send purchase orders to:

Fax to 800.831.9821 or Email to orders@izzyplus.com

Orders shall be deemed accepted by izzy+ only upon issuance of our written acknowledgment. All orders are subject to izzy+'s terms and conditions of sale. izzy+ is not required to accept changes to acknowledged orders. The customer will be charged for any expenses related to accepted changes, and the order may then be rescheduled at izzy+'s discretion. Fax orders are final as taken. The customer accepts responsibility for supplying correct information and should carefully check all acknowledgments.

Cancellations

If the customer terminates an order without izzy+'s consent, izzy+ may charge the customer for the portion of the order completed at the date of termination, plus the amount of profit lost on the remaining portion of the order. Custom items are not cancelable.

Returns

Each izzy+ product is manufactured according to the customer's exact specification; therefore, returns are not accepted. izzy+ will consider the return of parts that have been incorrectly ordered by the customer. Please note that any return of parts requires the prior approval of Customer Service and will be subject to a restocking fee.

Shipping

izzy+ reserves the right to ship by what is, in izzy+'s opinion, the best way. Merchandise may be delivered at one time or in partial shipments. Customer bears the risk of loss or damage during shipment. izzy+ is not liable for delay or failure to deliver or perform due to strikes, lockouts, or other labor difficulties, failure or delay of sources to supply, transportation difficulties, accidents, fires, acts of God, or other causes of like or unlike nature beyond izzy+'s control. We reserve the right, if the customer is unwilling or unable to accept delivery when the order is ready for shipment, to invoice the cost of the order, plus shipping, dispatching, insurance, warehouse expenses, and handling. izzy+'s responsibility ceases when the transportation company issues its receipt to us. If the shipment arrives damaged, the receiver should request that the delivering carrier inspect the shipment and note the details of all damage on the freight bill. If damage is discovered while unpacking, the transportation company should be contacted immediately for an inspection of the shipment, and request a written concealed damage report. The receiver must enter a claim with izzy+ within five (5) days of shipment receipt. Crating material or cartons should be saved until the inspection. Receiver is responsible for filing freight claims.

Small Order Fee

A small order fee of \$40 Net will apply on orders less than \$800 List.

izzy+ stands behind our products.

izzy+ warrants that its standard contract furniture and seating products are free from defects in material and workmanship during normal use.

Normal use is defined as a maximum of eight (8) hours per day, six (6) days per week (single shift) for the lifetime of the product with the following exceptions:

Ten Years

Furniture: All storage and nonadjustable legs are warranted for ten (10) years.

Seating: Gas cylinders, controls & functional parts, and the Dotti stool frame are warranted for ten (10) years.

Five Years

Furniture: Gas lifts, exposed wood, screens, adjustable legs, adjustable mechanisms and glides for five (5) years.

Seating: Arm caps, casters, glides, backliners, and exposed wood parts (finished wood chairs and wood base caps) for five (5) years.

Three Years

Furniture: Panel and upholstery materials for three (3) years.

Seating: Upholstery materials (foam, mesh and textiles) for three (3) years.

One Year

Furniture: Glass, Resin and products sold by, but not manufactured by, ABCO and ABCO 2.0 for one (1) year.

Power: Electrical power components for one (1) year.

Multi-Shift Applications

In any multi-shift application, the warranty is reduced as follows: ten (10) year to six (6) year; five (5) year to three (3) year; three (3) year to one (1) year.

Service Parts

Service parts are warranted for one (1) year from defects from the date of replacement or for the remainder of the original product warranty (whichever is greater).

International Customer Warranty

One (1) year on parts. Freight will be paid to Port of Exit. Labor is excluded.

Customer's Own Material Warranty

izzy+ does not warrant the appearance, behavior or durability of customer furnished upholstery materials (COM/COL). The acceptance of the COM/COL by izzy+ only means that initial application of the COM/COL utilizing existing manufacturing processes was successful and does not imply that izzy+ warrants the COM/COL or its performance during use. izzy+ is not responsible for COM/COL appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM/COL.

izzy+ Flavors

Since textiles vary in weave, thickness and memory, some creasing and/or gathering may occur during the upholstery application process. Due to natural variations over which we have no control, all furniture is sold subject to minor irregularities of color, surface, grain and texture. Textiles are sold subject to minor variations of color. Leather upholstery materials are of the finest quality. Because leather is a natural product, variations of texture are common and should be expected. Leather will contain natural markings such as neck wrinkles, scratches, backbone marks and stretch marks. These distinctions give leather its unique characteristics and are considered to be a part of the natural beauty of leather.

Markerboard tables with urethane edges:

Black Bear urethane must be specified with markerboard laminate table products due to cleanability. Claims of this nature void the urethane warranty.

The Fine Print

Excluded from warranty is product that has unauthorized modifications, or if the customer fails to perform normal maintenance service on the product. This includes, but is not limited to, lubrication and cleaning, minor assembly and adjustment and periodic operational checks. Natural variations occurring in wood are not considered defects; izzy+ does not warranty the colorfastness or matching of color, grain or texture, normal wear and tear, or damages resulting from shipping, storage, or installation.

This warranty does not include defects from normal wear and tear, accidents, negligence, abuse, shipment, handling, storage, or environmental conditions. Any modifications to izzy+'s products by the purchaser, purchaser's employees or agents, void this warranty. izzy+ reserves the right to reasonably determine whether a defect resulted from a factor excluded from this warranty. If a defect in material or workmanship is determined to have occurred in normal use during the warranty period, izzy+ will repair or replace the warranted product with a product of like or comparable quality. The expressed warranties contained herein are in lieu of all other warranties, expressed or implied, including any warranty of merchantability and fitness for a particular purpose, and all other warranties arising from the course of dealing or usage of trade. Any action to enforce this warranty must be brought within three (3) months from the time an alleged defect in material or workmanship first occurs.

Repair and Replacement:

Repair or replacement of any defective izzy+ contract seating product for the period of time provided, shall constitute complete fulfillment of all the liabilities of izzy+, whether the claims of the purchaser are based in contract, in tort (including negligence and/or strict liability) or otherwise, with respect to, or arising out of, the product furnished hereunder. izzy+ is not liable for any special or consequential damages under this warranty. The remedies provided above are the purchaser's sole remedies for any failure of izzy+ to comply with its obligations regarding the material and workmanship of its products. All incidental or consequential damages which may arise, including but not limited to, business losses, personal damage and third party liability are hereby expressly excluded.

Any labor charges for correcting a manufacturing problem for a product under warranty must be submitted in writing and approved by izzy+ Customer Service prior to corrective action. Labor charges will not be paid if the estimate was not submitted and approved prior to labor being completed.

Fabric Approval

All fabric must be evaluated and approved for use on izzy+ seating products.

Pre-Approved COM Fabrics

izzy+ has evaluated and pre-approved over 1,000 COM/COL materials produced by more than 100 different manufacturers. Please contact our Customer Service Department or check our website at izzyplus.com/services for a complete list of pre-approved fabrics/leathers.

Backing of COM Fabrics

Latex or acrylic backing is required for all COM upholstery fabrics. If a fabric arrives at izzy+ and is not backed, a handling charge of \$26 net, plus \$3.00 net per yard will be applied to each COM order. If izzy+ is to back the COM, a minimum of 5 yards is required and the fabric must be exactly 54" wide.

Fabric Evaluation

Fabric not already approved must be evaluated. A 12" x 12" fabric sample must be mailed to:

izzy+
Customer Service
11451 Harter Drive
Middlebury, IN 46540

Yardage

Price guide yardage estimates are approximate. Requirements are based on 54" usable width plain fabric for one chair. Additional yardage may be required for patterned material. Fabrics greater than or less than 54" wide, or less than 6 yards, cannot be backed by izzy+ and must be backed by the purchaser. For yardage requirements on 30 chairs or more or on patterned repeats, call customer service. Leather requirements based on 55 sq. ft. usable hide.

Shipping COM Fabric

All shipments must note:

- Dealer/Customer Name, Order Number,
- Yardage Shipped, Fabric Application
- Direction, Exterior Fabric Face.

Ship approved fabric freight prepaid to:

izzy+
COM Department
11451 Harter Drive
Middlebury, IN 46540

Fabric sent COD or freight collect will not be accepted.

California Technical Bulletin 133 (CAL TB133)

Any COM fabric to be used in a CAL TB133 application must be shipped with written certification of fire retardant treatment. The customer is responsible for having a fire retardant treatment added to the COM prior to shipment to izzy+.

Manufacturing Schedule

COM/COL orders will be scheduled for manufacturing and a shipping date issued after the factory receives all COM/COL for the order. If your order requires partial or split shipment, please contact customer service.

Warranty

izzy+'s ten (10), five (5), and three (3) year warranties do not cover COM/COL. COM/COL is not covered by any izzy+ warranty.

Conditions

izzy+ will inventory COM/COL for one month. COM/COL pricing may increase if material requires extra backing or labor. Any COM fabric purchased by izzy+ on behalf of a customer will be inspected at the time of production to ensure it meets izzy+'s upholstery standards. izzy+ will notify customers if the fabric fails to meet those standards.

izzy+ will assume that any COM fabric purchased by a customer and shipped to izzy+ has been inspected by that customer and has been approved for use. Customers indemnify and hold izzy+ harmless against all claims for damage or injury to property or persons by reason or failure of COM/COL to be merchantable, fit, or safe for use. izzy+ is not responsible for COM/COL wear, defects, or appropriateness.

izzy+ is not responsible for COM's received with bow and skew issues. It's assumed that the fabric vendor has shipped izzy+ usable fabric. COM is not inspected for bow and skew upon arrival, it is determined at the point of manufacturing the product. If a COM has bow and skew issues (regardless of whether izzy+'s vendor backed the fabric or it was received with backing), the customer will be contacted to have the fabric vendor issue an RA for pick up of the skewed fabric and ship replacement fabric to izzy+. At that point, the order will be unscheduled. It will be rescheduled upon receipt of replacement COM.

Wood Finishes

When ordering, specify finish number.

Table Veneers:

AJ	Maple (natural stain on Maple veneer)
AK	Sand (on quarter sawn white oak)
AL	Oak (clear on quarter sawn white oak)
AM	Cherry (on quarter sawn white oak)
AN	Mahogany (on quarter sawn white oak)
AO	Walnut (on quarter sawn white oak)
AP	Anthracite (on quarter sawn white oak)
AQ	Wenge (on quarter sawn white oak)

Seating Veneers:

BJ	Maple (on beech)
BK	Sand (on beech)
BB	Beech (clear on beech)
BM	Cherry (on beech)
BN	Mahogany (on beech)
BO	Walnut (on beech)
BP	Anthracite (on beech)
BQ	Wenge (on beech)
BI	Opaque White (on maple for Cyclus, Arc, Sling and Forum)

Tablet Arm Laminates

Tablet Arms cannot be stacked or ganged, nor can they be added in the field. Refer to individual product for proper edge detail. When ordering, specify finish letters and colorway:

Tablet Arm Laminates and T-Mold Edges:

LAS	Black	LDQ	Platinum
LBT	Dover White	LCB	Earth
LDM	Pearl	LDA	Citadel
LB4	Folkstone	LCD	Graphite

Tablet T-Molds:

V37	Black	V36	Citadel
V35	Graphite	V39	Earth

Frame Finishes

P06	Silver	P11	Alloy
P07	White	P54	Mirror
P09	Charcoal	P55	Polished
P10	Black		

Casters

HARD WHEEL:

Recommended for use on soft flooring such as carpets and carpet tiles. Will match frame finish color. *If no caster is specified, hard casters will be provided.*

SOFT WHEEL:

Recommended for use on hard flooring such as wood or linoleum. Will match frame finish color.

Table Tops and Edge Options

Table Tops/3form® Glass

CONSTRUCTION:

3form® pressed glass tops are 0.50" thick and feature a top and bottom chamfered, polished edge. Square and rectangle tables have a corner radius of 0.25". The interior color is pressed between clear glass and backed with a white out layer. The glass is mounted to the table base with a 0.75" thick particleboard substrate. The particleboard substrate permanently bonds to the glass with a double-sided 3M tape product. The substrate is pre-drilled for mounting and is shipped with complete instructions and positioning template for installation in the field. The standard size substrate is 16" in diameter, except on those tables noted below.

Table Top Size

Substrate Size

Rectangle:

30"x54", 36"x54", 42"x54", 42"x60" 18"x30" rectangle

Racetrack:

30"x54", 36"x54", 42"x54", 42"x60" 17"x38" oval

Oval:

33"x54", 36"x60" 17"x38" oval

Table Tops/3form® Chroma

CONSTRUCTION:

3form® Chroma tops are 1" thick and feature a top and bottom 1/8" radius. Square and rectangle tables have a corner radius of 1/8". The izzy+ Chroma product has a "C3" color film that is laminated to the bottom side of the clear Chroma material and backed with an opaque white layer (called White Out) to prevent the table base from showing through the table top. Top layer: 1" Chroma clear, 2nd layer: 12 mil C3 color layer, 3rd layer: C3 color layer White Out. The top surface finish is always Renewable Matte and the edges are always polished. The Chroma is mounted to the table base with a 0.75" thick particleboard substrate. The particleboard substrate permanently bonds to the glass with a double-sided 3M tape product. The substrate is pre-drilled for mounting and is shipped with complete instructions and positioning template for installation in the field. The standard size substrate is 16" in diameter, except on those tables noted below.

Table Top Size	Substrate Size

Tables

Table Top

Veneer: .025" thick veneer over .9375" thick MDF with .025" thick backer. Grain direction for X and C base tables is parallel to the table depth. Veneer is quartered Oak except Maple which is shown on composite Obeche veneer. Knife edge with matching 2mm edge and stained mdf through the recessed section. Stain is same as specified on top. Grains do not match at seams.

Laminate: .028" thick laminate on .9375" thick MDF surface with .028" thick HPL backer. Knife edge with 2mm edge and black stained mdf through the recessed section.

Markerboard: .028" thick markerboard laminate on .9375" thick MDF surface with .028" thick HPL backer. Knife edge with 2mm edge and black stained mdf through the recessed section. Markerboard surface is for dry-erase markers only. Polished surfaces such as the markerboard will show scratches and wear sooner than matte laminates. Not recommended for high-use applications.

Table Base

Table base is available in 6 finishes. Yoke and Foot are specified together. The vertical leg is specified independently. Yoke and Foot are die-cast aluminum. Vertical leg is extruded aluminum.

Glides: Adjusts .5" for uneven floors
Plastic glides are standard and felt glides are optional

Raceway: Standard for all C-leg tables and X-leg tables larger than the 102x54. Door is powder-coated extruded aluminum and available with or without the perforated leaf pattern. The raceway underneath the table top is powder-coated matte black steel. Allows power and data wires to pass horizontally through the table, to the base.

Power and Power Data Options

Power Options: Power and Data ports are mounted flush to a black powder-coated plate mounted flush within the raceway. 6-outlets.

Power/Data Options: 3 power outlets, and a space to accommodate (2) 3.5" single height Extron Architectural Adapter Plates (AAP) brackets. These can be found in the power & accessories section of the price guide. AAP brackets are shipped and installed separately. These can be added or modified at a later time.

Empty Options: raceway without power or power/data accommodates optional Storage Tray.

The 20-amp hardware and corded infeeds contain a modular power connector on the end that connects into a union referred to as "H-block." Infeed type must be specified separately upon order submission. The power and power/data modules have a modular power connector that also connects to the H-block. Power is distributed between power and power/data modules from this union through a jumper(s) – included.

15-amp power infeed: available on some configuration through the custom modification process. Contact customer service.

20-amp corded power infeed: plug several power and/or power/data modules into this infeed. This infeed is 10' long, and plugs into the power source via 20-amp plug. UL Recognized.

20-amp Hardwire infeed: plug several power and/or power/data modules into this infeed. This infeed is 10' long, and connects directly to the power source. Licensed Electrician required for installation. UL Listed.

Capacity: Table capacity is an estimate only, and will vary based on chair selection.

Raceway Configuration

Each code represents the configuration for the entire table. Example shown with 102x54 table.

Black	P10
Alloy	P11
Polished (standard)	P55

Construction

Frame	Aluminum base and vertical column. Model with height adjustable column available.
Surface	Laminate w/ urethane edge: surface 3/4" thick; high pressure laminate on particleboard core; molded urethane edges; specify colors
Casters	Glides standard, casters available at an upcharge. Casters add 1-3/4" in overall height.

Table Tops/Laminate, Veneer

Construction: Tops are 1" thick and constructed with a laminate, or veneer face, 100% recycled particle-board core, then edged and backed with moisture-resistant coverings to form a completely sealed outside surface. Tops are shipped pre-drilled for easy assembly to bases.

Material:

Table Top	Laminate: Wilsonart, and Formica in various patterns and colors. Wood veneer and solids: European steamed Beech, quarter-cut, slip-matched, stained and/or clear-coated.
Edging	Wood trim, ApplePly®, laminate self-edge, or 2mm ABS.
Core	Particle board, MDF, or ApplePly (plywood).
Backer	Moisture-resistant material, such as Polyback (phenolic resin paper), to provide stable, balanced construction.
Finish:	
Veneer	Maple is a natural stain on maple species. All others are stained on quarter sawn white oak.
Edging	Wood stained (if applicable) and clear-coated ApplePly®: clear-coated.

Table Tops/Resin

Construction: 3form Chroma tops are 1" thick, feature 1/8" radius edges that have been beautifully polished with ghosted backing.

Chroma surfaces are mounted to the table base utilizing a 3/4" thick particle board substrate. The particle board permanently bonds to the Chroma with a double-sided 3M tape product. The substrate is pre-drilled for mounting and is shipped with complete instructions and positioning template for installation in the field.

Material:

Chroma

Chroma is an eco-friendly resin-based material with a renewable matte finish. Chroma colors have a ghosted back to provide an opaque design hiding both the substrate and the mounting hardware.

Table Tops/Glass

Construction: 3form® pressed glass tops are 7/16" thick and feature a rounded, polished edge. The interior color is pressed between clear glass and backed with a white out layer. The glass is mounted to the table base with a 3/4" thick particle board substrate. The particle board substrate permanently bonds to the glass with a double-sided 3M tape product. The substrate is pre-drilled for mounting and is shipped with complete instructions and positioning template for installation in the field. The standard size substrate is 16" in diameter, except on those tables noted below.

<u>Table Top Size</u>	<u>Substrate Size</u>
Rectangle: 30"x54", 36"x54", 42"x54", 42"x60"	18" x 30" rectangle
Racetrack: 30"x54", 36"x54", 42"x54", 42"x60"	17" x 38" oval
Oval: 33"x54", 36"x60"	17" x 38" oval

Material:

Glass	Annealed, multi-layered safety glass with permanent center color layer and rounded, polished edges.

Table Bases

Material:

Round

Disc Base Base: 3/8" thick laser-cut steel plate
 column: 3" O.D. x 14 gauge steel tube on
 17", 22" and 25" round bases
 column: 4" O.D. x 14 gauge steel tube on
 28" and 32" bases

Oval

Disc Base Base: 3/8" thick laser-cut steel plate
 column: 3" O.D. x 14 gauge steel tube on
 17" x 23" and 20" x 32" bases
 column: 4" O.D. x 14 gauge steel tube on
 22" x 38" bases

X Base

Base: 2" O.D. x 14 gauge steel tube
 column: 2" O.D. x 14 gauge steel tube on
 22" and 26" bases
 column: 3" O.D. x 16 gauge steel tube on
 32" and 36" bases

Finish:

Disc Bases Mirror or powder coat paint in various colors

Glides:

Disc Bases Non-adjustable urethane pads
 (Round and Oval)
 X Base Adjustable screw levelers

Profile

X Base is optional. See Optional Base Selections below.

Construction	<p>Back Shell Upholstery Fully upholstered Fabric or leather over CAL. 117 The upholstered Sling chair is manufactured with a resilient membrane that is attached to the seat and back of the frame and supports the user. This elastic membrane or "sling" is a distinguishing feature of this chair and provides it with great comfort. Slipcovers made from Harter carded upholstery and approved COM are applied over the frame and securely attached to the chair, providing Harter Sling with its loose, unconstructed look. These covers may acquire some loose fabric as the chair is used. This is considered normal for this type of chair construction.</p> <p>Arms Polypropylene</p> <p>Base Swivel only; 1" diameter steel tube, stack ½" steel rod</p> <p>Casters 2¼" hard casters #94 (for use on carpet) or soft casters #63 (for use on hard surfaces)</p> <p>Tablet Arm Laminate with T-mold edge</p>

Construction

Frame: 5/16" Diameter steel rod; non-marring glides standard

Surfaces:

- Veneer, Lumber Edge:** 1" thick tabletops are sequence matched, rift cut European beech with a 1/8" thick wood edge; specify color from veneer palette; wood edge is stained to match top
- Veneer, ApplePly Edge:** 1" thick tabletops are sequence matched, rift cut European beech on ApplePly with edges left exposed; specify color from veneer palette; wood edge is stained to match top
- Laminate, ApplePly Edge:** 1" thick tabletops are high-pressure laminate applied to an ApplePly core; edges of plywood are left visible and finished in clear lacquer; specify laminate color
- Laminate, Self Edge:** 1" thick tabletops are high-pressure laminate on top surface and edges; specify laminate color
- Glass Top:** 5/16" thick glass tops are made using film inner layer to provide color and safety film inner layer; edges are polished; specify clear, frosted, or color
