

Registering With an Account

If you **already have an account** in the registration system and want to register for a course or event, go to <http://mresa.geniussis.com>.

You do NOT need to login to browse the catalog, but you will need to login to register.

Click **Sign In** and enter your login and password.

If you cannot remember your password, click the words **Recover your password**.

Do NOT create a new account if you cannot remember your login.

If you cannot remember your login, email registrar@mresa.org for help.

Once you are logged in to the registration system, you may browse the catalog and select courses or events.

If you were sent a link to register for a course or event, **click on the link** and it should take you to the login page.

Click **Already Have an Account?** to login.

Do NOT create a new account if you already have one.

If you do not remember your password, go to the main page and **recover your password** as described above.

IMPORTANT: Once you are logged in to the registration system, **go back to the link** you were sent and click on it again to add the course or event to your cart.

Your login and password for registration will also be your login and password for the Blackboard Learning Management System if your course uses Blackboard.

ALWAYS change your password through the registration system, NOT Blackboard.

[Here is a brief video tutorial to register with a link.](#)
