SOCIAL STUDIES

BIOGRAPHY

In 2016, I joined the Rising Scholars Academy team. I taught for 6 years before joining South Texas ISD and have taught in English, math, and social studies classrooms. I am very excited about this new year and about getting to know my students here at RSA.

After earning my bachelor's degree from the University of Texas – Pan American majoring in English and minoring in journalism, I worked as a newspaper reporter and photographer. I still have a love for photography and writing and enjoy opportunities to incorporate both in the classroom. I continued my education at Liberty University to obtain my Master's Degree in Curriculum and Instruction.

Along the way, I also developed a passion for music and use my free time playing guitar, piano, or bass in my home in Harlingen. You might also find me reading a good book, playing games on Xbox Live, cheering for the Spurs and Cowboys, or taking my two dogs Beans and Hulu for a walk.
