## KARINA MARQUEZ

SCIENCE AND IPC

### BIOGRAPHY

My name is Karina Marquez and I will have the honor of teaching 6th grade Science and 7th grade Integrated Physics and Chemistry (IPC) this year at RSA.

I was born and raised in Tamaulipas, Mexico. When I graduated from High school, I decided to continue my education in the United States, where I have been for the past 13 years. I graduated with a BS in Biomedical Science from UTRGV.

This is going to be my 5th year in education, I am new to the RSA family but I have been a science teacher for the past 4 years with experience in Biology and Chemistry content areas.

I have an amazing 2-year-old little girl at home that does take up most of my time. However, some of my hobbies include learning to cook new things, binge watching shows, nature walks (parks), traveling and some exercise.

My goal as a teacher is to be able to create an enjoyable and positive learning experience that can impact my students to become lifelong learners, critical thinkers, and compassionate individuals.
