MATH

### BIOGRAPHY

I am thrilled to be a part of the founding team at Rising Scholars Academy! I was born and raised in Brownsville, Texas. It was very fulfilling to be the first in my family to obtain a Bachelor of Science with a major in Mathematics in 1997.

After working a couple of years for the University of Texas at Brownsville, I decided to pursue my teaching certification to be able to work with students outside of the university setting. As such, I have been teaching students mathematics at the high school and university levels for the past 24 years.

I love spending time with my family. Whether it is having a movie night, walking on the trail, or traveling.

I am really looking forward to an exciting year as I get to know all my students and their parents.
