Special Facility Construction Committee
Florida Department of Education
325 West Gaines Street Suite 1214
Tallahassee, FL 32399

Dear Committee Members,

As Superintendent of Hendry County Schools, I would like to start out by thanking you on behalf of our staff, teachers and most importantly, our students for the tremendous opportunity to present the project to build a new LaBelle High School in our District.

This project is critical to our District in order to meet the exponential growth LaBelle has experienced and the influx of students to our existing LaBelle High School. The new LaBelle High School will provide a safe, state of the art learning environment that will prepare our students to challenge their futures.

The students and community of Hendry County are ready for a new LaBelle High School and they will benefit from this modern facility that will provide the community with a place to gather for school events, sporting and other educational activities.

I would like to thank you for your consideration for placing the new LaBelle High School Project as a top priority for the Special Facility Construction Program.

Sincerely,

Michael Swindle
Superintendent
Hendry County School District
