

Dec, 2023 Student Survey Results

For the last few years, students, teachers and parents have been asked about their school every six months. Mr. Licata and Mr. Flaschberger use this information to improve AAC and guide our efforts. We also share the information with our Executive and Community Boards. We would like to thank the 285 students who took time to answer the questions. The scores are out of 5, and anything over 3.0 means it was an overall positive response. We took out the Covid question this time.
