PEDRO JOEL VALDEZ

TECHNOLOGY APPLICATIONS

BIOGRAPHY

My name is Pedro J. Valdez and I am proud to be part of the South Texas ISD family. I have a Texas Educator Certificate in Secondary Spanish and Technology Education (6-12). It is my honor to be the new Technology Applications teacher at Rising Scholars Academy. This will be my 20th year as an educator. The last 18 years I was employed at Brownsville ISD at the high school level and previous to that I worked at the school district in Los Fresnos. I have always been fascinated with technology and how it has become a staple in our everyday life. Being able to teach a subject I really enjoy along with nurturing our young minds gives me a sense of fulfillment and accomplishment. I strive to help my students achieve and succeed in their educational goals.

On a more personal note, I have been married for 22 years and have a daughter who is 13 and currently a Rising Scholars student. I love hunting, traveling, and barbequing when I have the chance. I look forward to assist any student in any goal they are interested in achieve!!
