

## NEW YORK MILLS UFSD

New York Mills, New York 13417

### SARS-CoV-2 Consent Form

As an athlete, I understand and agree to participate in higher-risk sports and that places myself at risk of exposure to SARS-CoV-2. I have read the attached information and hereby consent to ongoing participation and will be in full cooperation with case/ contact investigations and compliance with isolation/quarantine requests if indicated.

Date

As a parent, I give permission to my son/daughter \_\_\_\_\_ to participate in higher-risk sports that places them at risk of exposure to SARS-CoV-2. I agree that prior to the start of the athletic season, I have completed the required questionnaire/form and consent for testing form. I understand that if my child has previously tested positive for COVID-19, he/she must be medically cleared for interscholastic competition by a primary care physician, independent of the District. I have read the attached information and hereby consent to ongoing participation and will be in full cooperation with case/contact investigations and compliance with isolation/quarantine requests if indicated.

**Information provided by Oneida County Health Department Health Advisory  
Higher Risk K-12 School Sports**

- Participation in the higher-risk sport places the student-athlete at risk of exposure to SARS-CoV-2.
- Symptomatic and asymptomatic individuals can spread the virus.
- Masking, distancing, and other mitigation measures reduce, but do not eliminate risk
- At present, it cannot be predicted who will become severely ill if infected.
- SARS-CoV-2 can lead to serious medical conditions and death for people of all ages.
- The long-term effects of SARS-CoV-2 are, at present, unknown; even people with mild cases may experience long-term complications.
- There is a significant risk of transmission to those in the home of infected student athletes.
- Older people and people with underlying health conditions are at higher risk of more serious outcomes.
