Caledonia, New York 14423

**RE: 6 month AHERA Inspection**

Dear Mr. Whaley:

In accordance with AHERA and EPA regulations, a visual inspection of ACBM was conducted on 10/06/20 at Caledonia-Mumford Central School District at the following locations:

- Cal-Mum Middle/High School
- Cal-Mum Elementary School

The inspection was conducted to determine the condition of previously identified asbestos containing building material within the school building. Changes in material condition have been noted in the following pages. The inspection was limited to area's that were accessible during the school day. Classrooms occupied by students at the time of inspection were not accessed. Only accessible interior building materials were assessed. If the inspector / planners were denied access, or not shown areas of the building, or given building floor plans identifying all areas of the building, they will not be held responsible for the materials contained in these areas. Asbestos containing building materials may also be located in other areas not accessible at the time of inspection including but not limited to horizontal and vertical pipe chases and between walls and above ceilings. Caution must be taken when working in these areas, not to disturb materials which could contain asbestos.

If you have any questions please feel free to contact the Health-Safety-Risk Management Office at (585) 538-3405

Sincerely,

Valerie Lungert  
Environmental Health and Safety Specialist
