What is the Education Portal?
Education Portal is a robust and secure web-based system to transfer high school transcripts to participating colleges and universities. The Education Portal also provides students the opportunity to monitor progress and apply for the ND State Academic or CTE scholarship. For those students that enroll and complete dual credit college courses, those courses will be tracked within their eTranscript. Data for the Education Portal is pulled from the ND Statewide Longitudinal Data System (SLDS).

Other Good Information
The Education Portal accesses data from the eTranscript application currently in use by North Dakota school districts to send transcripts electronically.
