Third Grade E-Learning

Name:_____ Teacher: _____

☑	Day 4
	Literacy: Close Reading-Camping and Crocodiles *Skills Covered: Recall, asking and answering questions, text evidence, summarizing, inferencing and problem solution and problem-solution and opinion writing*
	Math: Spiral Review-Number Bonds and Color by Code *Skills Covered: multiplication and division fact fluency*

	EL *(Students of Ms. O'Neal, Ms. Orbeck, Mr. Teig, or Ms. Wurdak):*
	• If unable to complete activities:
	  • If you have internet, work on Imagine Learning for 20 minutes.
	  • If you don't have internet, please complete EL activity attached, in the packet.

	STEM: Coding: We have spent time learning how to code on our iPads. Try this fun Dancy Party coding activity on code.org. You do not need to login to complete the activity. https://code.org/dance
	Physical Education: If you are able, please follow along and complete the video we have attached, AND choose two different activities to complete from the list below! Day 4: -Do mountain climbers for 20-30 repetitions. -Do the washing machine or trunk twister for 10-20 repetitions. - Shovel the driveway and sidewalk at your place or neighbor's place and build a snowman or snow fort. (Email picture of snowman if you want us to see your creation ☺) https://youtu.be/qF6jLw29Xdk Get outside and enjoy the snow!!!
	Music: Teach a game from music class to somebody at home.
	Art: Please choose either the offline option or the link for an online activity:

	Create a sculpture out of your laundry! https://www.smore.com/a2djt
	Character Education: Make a card/picture to show someone you care about them (Creativity & Gratitude)

Name:_____

Multiplication Number Bonds

Directions: Complete the multiplication number bonds.

Each number bond must have a 7 as a factor.

77 7 ( )	35 7 ( )	0 7 ( )	49 7 ( )
56 ( ) ( )	70 ( ) ( )	7 ( ) ( )	84 ( ) ( )
( ) 7 2	( ) 7 8	63 ( ) ( )	42 ( ) ( )
( ) 7 4	( ) 7 11	( ) 7 6	( ) 7 3
21 ( ) ( )	7 ( ) ( )	14 ( ) ( )	28 ( ) ( )

Read the passage 3 times.

Answer the questions below. Underline your evidence.

Name _____

Crocodiles

Crocodiles are large aquatic reptiles that can be found in the tropical areas of Africa, Asia, the Americas, and Australia. Some species, such as the saltwater crocodile, can grow to be 20 feet long and weigh over 2,000 pounds, even though they are only eight inches long at birth! A crocodile's body is specially designed for its life in the water. Its body is streamlined, so there is little resistance as it glides through the water. It also has webbed feet, allowing the crocodile to make sudden movements and fast turns while hunting for prey in the water.

Crocodiles are carnivores. They eat fish, turtles, birds, and small mammals. They have 24 sharp teeth, used for killing and tearing apart their prey. However, they cannot chew their food, so sometimes crocodiles swallow stones to crush the food in their stomachs and aid digestion. Crocodiles can often be seen basking in the sun with their jaws wide open. It may look like they are waiting for something to eat, but they actually are just trying to stay cool because they do not have sweat glands.

When it's time for a female crocodile to lay eggs, she will lay between 20 to 80 eggs in her nest. The temperature of the environment determines the gender of the babies. If it's warmer, males will develop, but if it's cold then the babies will be females. Only a small percentage of crocodile babies will live past their first year. Most will be eaten by large fish, mammals such as raccoons and hyenas, or even other crocodiles. If a baby is lucky enough to survive to adulthood, it can live about 50 to 60 years!

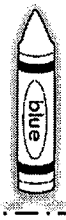

Crocodiles and alligators are both part of a group of animals called crocodilians, but they are in different families. A crocodile's head is longer and more pointed, but an alligator's head is shorter and round. Crocodiles are also lighter in color, more aggressive, and bigger than alligators.

Name _____

Crocodiles

Answer the questions below. Use crayons or colored pencils to underline your evidence in the passage.

How big can saltwater crocodiles be?

_____

_____

Describe a way that a crocodile's body is suitable for life in the water. _____

_____

Why don't many baby crocodiles live past one year?

_____

_____

Why do crocodiles swallow stones?

_____

_____

Describe one way crocodiles and alligators are different.

_____

_____

Make an inference. Can male and female babies come from the same nest of eggs?

_____

_____

_____

Circle words or phrases in the passage that gave you a clue.

If you saw a crocodile in the wild, what would you do?

_____

_____

_____

_____

_____

Read the passage 3 times.

Name _____

Camping

Trent was so excited about Friday. He was going camping with his friend John and his family. John frequently went camping, especially in the summertime, but this was going to be Trent's first time. He packed his backpack full of the things John suggested: extra clothes, a flashlight, granola bars, a water bottle, and a lifejacket.

When Friday finally came, John and his parents picked up Trent at seven in the morning. They wanted to get to the campsite early so they could get a good spot to pitch the tents. John and Trent were going to have their very own tent to sleep in. During the hour-long drive, Trent had a lot of time to imagine what camping would be like. He started thinking about how cold it might be sleeping on the ground. He also thought about all the wild animals that might be outside at night. Would he be able to sleep well without his special pillow? He wasn't so confident that he wanted to go camping after all. He noticed a funny feeling in the pit of his stomach.

"My stomach hurts," Trent said to John. "I think I need to go home."

"Maybe you are just hungry," John said. "When we get to the campsite, we can build a fire and cook some eggs and bacon. My dad is the best fire builder ever. He'll have it roaring in no time."

Soon, they pulled into the campground and found the perfect place to set up. It was in a little clearing in the woods, with a magnificent view of the lake. While John's dad got the fire going, Trent and John took a little walk on a trail through the woods. As they explored, Trent noticed his stomach wasn't feeling so funny anymore.

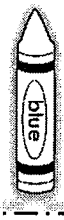

"Let's go back to the campsite and see if breakfast is ready," Trent said. "I can't wait for the rest of the weekend!"

Name _____

Camping

Answer the questions below. Use crayons or colored pencils to underline your evidence in the passage.

What did Trent bring in his backpack?

_____

_____

What is something Trent thought about on the drive?

_____

_____

Why did John think Trent's stomach hurt?

_____

_____

When did Trent start feeling better?

_____

_____

What did they eat for breakfast?

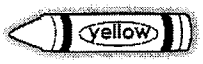

_____

_____

Make an inference. Why did Trent's stomach really hurt?

_____

_____

Circle words or phrases in the passage that gave you a clue.

How do you feel about camping?

_____

_____

_____

_____
