New Albany-Plain Local School District – Franklin County
Notes to the Five Year Forecast
General Fund Only

DISTRICT MISSION:

To ensure the development of high-achieving, ethical, self-directed, and intellectually curious citizens of the world.

STATEMENT OF PURPOSE:

To create a culture of accountability that achieves the best academic and developmental outcomes for each student.

2023-2024 CONTINUOUS IMPROVEMENT PLAN

Commitment to Excellence

The New Albany-Plain Local School District is committed to creating a culture of accountability that achieves the best academic and developmental outcomes for each student. The District aspires, by September 2023, to be ranked in the top 10 or higher of all public school districts for student achievement in the State of Ohio as reported by the Ohio Department of Education (ODE) Performance Index Ranking. As our long term commitment, we aspire to become and remain the best rated school district in the State of Ohio.

Focus

All employees will be accountable for implementing research-based practices including a rigorous and aligned curriculum, common assessments, focused instruction and data-driven decisions to achieve the best academic and developmental outcomes for every student within a fiscally sustainable budget.

Benchmarks and Indicators

Benchmark 1: Increase achievement

- Earn a District Performance Index result of 95% or greater on the Local Report Card.

Benchmark 2: Facilitate a year or more of growth for every year of instruction

- Earn a Progress Component Rating of Four Stars or greater on the Local Report Card. 1

Benchmark 3: Meet or exceed State’s achievement gap closing standards for identified subgroups

- Earn a Gap Closing Component Rating of Four Stars or greater on the Local Report Card.

Benchmark 4: Graduate students who are college and career ready

- Earn a Graduation Component Rating of Four Stars or greater on the Local Report Card.
- Students in the Class of 2023 taking the SAT will earn a mean score that is at least 20% higher than the state average as reported by the SAT Cohort Annual Report.
- Administer the PSAT to all eighth graders and the SAT to all juniors during the 2022-23 school year.

Benchmark 5: Enhance school culture and social-emotional well-being

- Administer age-appropriate student and staff surveys to measure the effectiveness of school climate factors (i.e. feel safe and supported at school, trusted adults for students, educational quality, communications, student services, curricula, well-being programming, fiscal management, etc.) impacting daily school culture.
- Implement strategies to increase engagement of parents with children enrolled in our school district (i.e. “Coffee & Conversations” with Board of Education Members, Citizen Advisory for Student Belonging, etc.) based upon parent survey results.

Benchmark 6: Demonstrate sustainable fiscal management

- Reduce FY24 Five Year Forecast Line Item 4.500 (Total Expenditures) by at least \$727,520 resulting in a 1% or greater reduction in total expenditures, to positively increase the District’s Five Year Forecast.

Introduction to the Five-Year Forecast

A forecast is somewhat like a future painting based on a snapshot of today. That snapshot, however, will be adjusted because the further into the future the forecast extends, the more likely it is that the projections will deviate from experience. A variety of events will ultimately impact the latter years of the forecast, such as state budgets (adopted every two years), tax levies (new/renewal/replacement), salary increases, or businesses moving in or out of the district. The five-year forecast is a crucial management tool and must be updated periodically. The five-year forecast enables district management teams to examine future years' projections and identify when challenges will arise. This then helps district management to be proactive in meeting those challenges. School districts are encouraged to update their forecasts with ODE when events significantly change their forecast or, at a minimum, when required under the statute.

In a financial forecast, the numbers only tell a small part of the story. For the numbers to be meaningful, the reader must review and consider the Assumptions of the Financial Forecast before drawing conclusions or using the data as a basis for other calculations. The assumptions are fundamental to understanding the rationale of the numbers, particularly when a significant increase or decrease is reflected.

Since the preparation of a meaningful five-year forecast is as much an art as it is a science and entails many intricacies, it is recommended that you contact the Treasurer/Chief Fiscal Officer (CFO) of the school district with any questions you may have. The Treasurer/CFO submits the forecast, but the Board of Education is recognized as the official owner of the forecast.

Here are three essential purposes or objectives of the five-year forecast:

- (1) To engage the local board of education and the community in long-range planning and discussions of financial issues facing the school district
- (2) To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate"
- (3) To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

O.R.C. §5705.391 and O.A.C. 3301-92-04 require a Board of Education (BOE) to file a five-year financial forecast by November 30, 2023, and May 31, 2024, for the fiscal year 2024 (July 1, 2023, to June 30, 2024). The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. The fiscal year 2024 (July 1, 2023-June 30, 2024) is the first year of the five-year forecast and is considered the baseline year. Our forecast is updated to reflect the most current economic data available for the November 2023 filing.

Economic Outlook

This five-year forecast is submitted during the multiyear economic recovery following the 2020 COVID-19 Pandemic. The recovery began in the fall of 2020 and remains robust through this forecast date. Many supply chain concerns have lessened as manufacturing has caught up. However, persistently high inflation continues to impact our state, country, and broader globalized economy. Inflation in June 2022 hit a 40-year high of 9.1% before falling to the current annualized rate of 3.4% in August 2023. Costs in FY23 were notably impacted in areas such as capital and durable goods, diesel fuel for buses, electric, natural gas, and building materials for facility maintenance and repair. Increased inflation affecting district costs is expected to continue in FY24. However, the Federal Reserve is projecting inflation to be closer to their target rate of 2% sometime in calendar 2024. It remains to be seen if the cumulative cost increases over the past two years are transitory in goods and services or will last over several years, which could adversely impact our forecast.

The Federal Reserve Bank has made fighting inflation its number one concern. Interest rates are expected to increase again before December 2023, which may result in increased unemployment. Still, many economists anticipate a "full employment recession" in the first half 2024. In the history of our country, there has never been a full employment recession. However, the possibility of one underscores why this is a very unique time in our economic history.

As noted in the graphs below, the state of Ohio has enjoyed economic growth over the past three years, and the state's Rainy Day Fund is at \$3.7 Billion, which is a record high. School funding cuts made in FY20 have been fully restored, and a new state funding formula is in the third year of a projected five-year phase-in. While increased inflation impacting district costs is expected to continue over the next few years, the state's economy has grown, and many school districts

received new funding in HB33 for FY24 and FY25. The ongoing growth in Ohio’s economy should enable the state to continue the phase-in of the new funding formula even if a cyclical recession occurs. Regardless, the state is well-positioned to continue state aid payments to Ohio’s school districts.

While all school districts are being aided by three (3) rounds of federal Elementary and Secondary Schools Emergency Relief Funds (ESSER), which began in the fiscal year 2020, the most recent allocation of ESSER funds must be spent or encumbered by September 30, 2024. Any ongoing costs are absorbed back into the district General Fund. ESSER funds positively impacted school resources.

Data and assumptions noted in this forecast are based on the best and most reliable data available to us as of the date of this forecast.

The major lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer back to the forecast. It should be of assistance to the reader to review the assumptions noted below in understanding the overall financial forecast for our district. If you would like further information please feel free to contact Rebecca Jenkins, CFO/Treasurer at 614-855-2040.

General Fund Revenue, Expenditure and Ending Cash Balance:

Enrollment Growth

Enrollment growth is a key driver of District expenditures. Below is a snapshot of both actual historical and future projected growth. The 2021 Future Think enrollment projection report is the source of the actual and projected numbers below. The District began using the “Moderate” projection due to the lower to flat enrollment recently experienced. We will monitor this growth and revise accordingly as we learn more about any future developments.

Grade	FY14	FY15	FY16	FY17	FY18	FY19	FY20	FY21	FY22	FY23	FY24	FY25	FY26	FY27	FY28

Revenue Assumptions
Estimated General Fund Revenue for FY24

Real Estate Value Assumptions – Line # 1.010

Property Values are established each year by the County Auditor based on new construction, demolitions, BOR/BTA activity and complete reappraisal or updated values. A reappraisal update occurred in 2020 for collection in 2021 which produced a 10.98% increase in residential and a 7.34% increase for commercial/industrial property. A sexennial reappraisal will occur in 2023 for collection in FY24, for which we are estimating a 34% increase in residential and a 24% increase for commercial/industrial property based on preliminary information shared with us by the Franklin County Auditor. We anticipate residential/agricultural and commercial/industrial values to increase \$390 million or 35.2%, overall. HB126 may modify the way the Franklin County Auditor increases values. If passed this will have a negative impact to the District’s tax values/revenue. We will continue to monitor this and modify the forecast accordingly.

New construction growth is projected at 1% of total tax values as a base amount then known material new construction is added to the base amount in all future years. This forecast also includes the abated real estate values rolling onto the tax duplicate as the associated abatements expire. As explained in the “All Other Financial Sources” section below there is an offsetting reduction in the associated income tax sharing agreements which was included in those agreements and expected by the District. In most instances the real estate tax gain is greater than the reduction in income tax sharing. An additional increase in new construction is added to the projection in the years where the abatement expires. Outside of the impact of a new levy, tax collections are anticipated to grow at a rate consistent with new construction and any other value adjustments considered new construction made by the Franklin County Auditor.

It is important to note that Real Estate Collections have been at 100% collection for several years. This is due to the increased collection of delinquent taxes. This will be monitored to determine whether to extend the increased delinquent tax rate into future years.

ESTIMATED ASSESSED VALUE (AV) BY COLLECTION YEARS

	Estimated	Estimated	Estimated	Estimated	Estimated
	TAX YEAR2023	TAX YEAR2024	TAX YEAR2025	TAX YEAR2026	TAX YEAR2027
<u>Classification</u>	<u>COLLECT 2024</u>	<u>COLLECT 2025</u>	<u>COLLECT 2026</u>	<u>COLLECT 2027</u>	<u>COLLECT 2028</u>
Res./Ag.	\$1,229,420,576	\$1,232,570,576	\$1,235,720,576	\$1,288,299,399	\$1,297,449,399
Comm./Ind.	\$270,883,201	\$277,383,201	\$283,883,201	\$296,060,865	\$302,560,865
Public Utility (PUPP)	<u>\$76,929,160</u>	<u>\$75,244,470</u>	<u>\$75,994,470</u>	<u>\$76,744,470</u>	<u>\$77,494,470</u>
Total Assessed Valuation	<u>\$1,577,232,937</u>	<u>\$1,585,198,247</u>	<u>\$1,595,598,247</u>	<u>\$1,661,104,734</u>	<u>\$1,677,504,734</u>

Tax Rates

The county auditor sets tax rates for each levy voted on to provide tax revenues for the school district. Ohio law provides for “reduction factors” of all voted property tax levies to adjust the millage rates lower for the levy to not increase from inflation of property values for the taxes received by a district to that of the actual amount of the levy at the time of the election. The reduction factors are applied separately to Residential/Agriculture (Class I) and Commercial/Industrial (Class II), resulting in different effective millage rates. The district-voted rate for all levies is 58.84 mills while the Class I effective millage rate is 26.86 mills and the Class II effective millage rate is 33.28 mills. The Ohio law has a provision that the reduction factors cannot lower the total millage rate for each class less than 20 mills, which includes both the voted and the non-voted millage rates; this is called the “20-Mill Floor”. Currently, our district is not on the floor for either Class I or Class II.

ESTIMATED REAL ESTATE TAX (Line #1.010)

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Est. Prop. Taxes Including PUPP	\$58,645,596	\$59,900,504	\$59,571,579	\$60,334,976	\$61,167,455

In general, 53.5% of the new Res/Ag and Comm/Ind. is expected to be collected annually in February tax settlements and 46.5% is collected in August tax settlements. Public Utility tax settlements (PUPP taxes) are estimated to be received 50% in February and 50% in August settlement from the Franklin County Auditor.

State Foundation Revenue Estimates

Unrestricted State Foundation Revenue– Line #1.035

HB33, the current state budget, continued the Fair School Funding Plan for FY24 and FY25. We have projected FY24 funding based on the October 2023 foundation settlement and funding factors.

Our district is currently a formula district in FY24 and is expected to continue on the formula in FY25-FY28 on the new Fair School Funding Plan (FSFP). The state foundation funding formula has gone through many changes in recent years. The most recent funding formula began in FY14. It was dropped in FY19 after six (6) years, followed by no foundation formula for two (2) years in FY20 and FY21, then HB110, as amended by HB583 for FY22 and FY23, with continuation of this formula in HB33 for FY24 and FY25. The current formula introduced many changes to how state foundation is calculated and expenses deducted from state funding, which will potentially make the actual five-year forecast look different with estimates FY24 through FY28 compared to real data in FY21 through FY23 on Lines 1.035, 1.04, 1.06, and 3.03 of the forecasts.

Overview of Key Factors that Influence State Basic Aid in the Fair School Funding Plan

- A. Student Population and Demographics
- B. Property Valuation
- C. Personal Income of District Residents
- D. Historical Funding- CAPS and Guarantees from prior funding formulas

Base Cost Approach- Unrestricted Basic Aid Foundation Funding

The new funding formula uses FY18 statewide average district costs and developed a base cost approach that includes minimum service levels and student teacher ratios to calculate a unique base cost for each district that includes base funding for five (5) areas:

1. Teacher Base Cost (4 subcomponents)
2. Student Support (7 subcomponents-including a restricted Student Wellness component)
3. District Leadership & Accountability (7 subcomponents)
4. Building Leadership & Operations (3 subcomponents)
5. Athletic Co-curricular (contingent on participation)

State Share Percentage – Unrestricted Basic Aid Foundation Funding

Once the base cost is calculated, which is currently at a state-wide average of \$8,242.19 per pupil in FY24, the FSFP calculates a state share percentage (SSP) calculation. The state share percentage, in concept, will be higher for districts with less capacity (lower local wealth) and be a lower state share percentage for districts with more capacity (higher local wealth). The higher the district’s ability to raise taxes based on local wealth, the lower the state share percentage. HB33 increased the minimum state share from 5% in FY23 to 10% for FY24 and FY25. The state share percentage will be based on 60% property valuation of the district, 20% on federally adjusted gross income, and 20% on federal median income, as follows:

1. 60% based on most recent three (3) year average assessed values or the most recent year, whichever is lower divided by base students enrolled.
2. 20% based on most recent three (3) year average federal adjusted gross income of district residents or the most recent year, whichever is lower divided by base students enrolled
3. 20% based on most recent year federal median income of district residents multiplied by number of returns in that year divided by base students enrolled
4. When the weighted values are calculated and Items 1 through 3 above added together, the total is then multiplied by a Local Share Multiplier Index from ranging from 0% for low wealth districts to a maximum of 2.5% for wealthy districts.

When the unrestricted base cost is determined and multiplied by the state share percentage, the resulting amount is multiplied by the current year enrolled students (including open enrolled students being educated in each district), and finally multiplied by the local share multiplier index for each district. The result is the local per pupil capacity amount of the base per pupil funding amount. The balance of this amount is the state share to pay.

Categorical State Aid

In addition to the base state foundation funding calculated above, the FSFP also has unrestricted categorical funding and new restricted funding beginning in FY22, some of which will have the state share percentage applied to these calculations as noted below:

Unrestricted Categorical State Aid

1. Targeted Assistance/Capacity Aid – Provides additional funding based on a wealth measure using 60% weighted on property value and 40% on income. Uses current year enrolled average daily membership (ADM). Also will provide supplemental targeted assistance to lower wealth districts whose enrolled ADM is less than 88% of their total FY19 ADM.
2. Special Education Additional Aid – Based on six (6) weighted funding categories of disability and moved to a weighted funding amount and not a specific amount. An amount of 10% will be reduced from all districts’ calculation to be used toward the state appropriation for Catastrophic Cost reimbursement.
3. Transportation Aid – Funding based on all resident students who ride including preschool students and those living within 1 mile of school. Provides supplemental transportation for low density districts. Increases state minimum share to 29.17% in FY22 and 33.33% in FY23.

Restricted Categorical State Aid

1. Disadvantage Pupil Impact Aid (DPIA)- Formerly Economically Disadvantaged Funding, DPIA is based on number and concentration of economically disadvantaged students compared to state average and multiplied by \$422 per pupil. Phase in increases are limited to 0% for FY22 and 33.34% in FY23. No legislation indicates the percentage increase for FY24 and beyond for DPIA.
2. English Learners – Based on funded categories based on time student enrolled in schools and multiplied by a weighted amount per pupil.

3. **Gifted Funds** –Based on average daily membership multiplied by a weighted amount per pupil.
4. **Career-Technical Education Funds** – Based on career technical average daily membership and five (5) weighted funding categories students enrolled in.
5. **Student Wellness & Success Funding** – These funds are based on initiatives similar to those for DPIA. They are restricted funds for school climate, attendance, discipline, and academic achievement programs.

State Funding Phase-In FY24 and FY25 and Guarantees

While the FSFP was presented as a six (6) year phase-in plan, the state legislature approved the first two (2) years of the funding plan in HB110, which was amended by HB583 in June 2022 and has now extended the plan in HB33 for FY24 and FY25. The FSFP does not include caps on funding; instead, it will consist of a general phase-in percentage for most components of 50% in FY24 and 66.67% in FY25.

The funding formula includes three (3) guarantees: 1) “Formula Transition Aid,” 2) Supplemental Targeted Assistance, and 3) Formula Transition Supplement. The three (3) guarantees in both temporary and permanent law ensure that no district will get fewer funds in FY24 and FY25 than they received in FY21.

Future State Budgets Projections Beyond FY23

Our funding status for FY26-28 will depend on unknown (2) new state budgets. There is no guarantee that the current Fair School Funding Plan in HB33 will be funded or continued beyond FY25; therefore, our state funding estimates are reasonable, and we will adjust the forecast when we have authoritative data to work with. For this reason, funding is held constant in the forecast for FY26 through FY28.

Casino Revenue

On November 3, 2009 Ohio voters passed the Ohio casino ballot issue. This issue allowed for the opening of four (4) casinos one each in Cleveland, Toledo, Columbus and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% GCR that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year which began for the first time on January 31, 2013.

The casino revenue has recovered from the pandemic from closing the casinos in 2020. Total funding in FY21 was 73.83 million or \$42.18 per pupil. In FY22, the funding was increased to \$109.39 million for schools or \$62.86 per pupil, and in FY23, the funding totaled \$113.1 million or \$64.90 per pupil. We expect the Casino revenues to have resumed their historical growth rate and are assuming a 2% annual growth rate for the remainder of the forecast.

A) Unrestricted State Foundation Revenue – Line #1.035

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Basic Aid-Unrestricted	\$4,284,228	\$4,899,975	\$4,899,975	\$4,899,975	\$4,899,975

B) Restricted State Revenues – Line # 1.040

HB33 has continued Disadvantaged Pupil Impact Aid (formerly Economic Disadvantaged funding) and Career Technical funding. In addition, new restricted funds have been added under “Restricted Categorical Aid” for Gifted, English Learners (ESL), and Student Wellness. The amount of DPIA is limited to a 50% phase in growth for FY24 and 66.67% in FY25. We have flat-lined funding at FY25 levels for FY26-FY28 due to uncertainty on continued funding of the current funding formula.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>

C) Restricted Federal Grants in Aid – line #1.045

There are no restricted federal funds projected for the forecast period.

State Taxes Reimbursement/Property Tax Allocation Line 1.050

Rollback and Homestead Reimbursement

Rollback funds are reimbursements paid to the district from the State of Ohio for tax credits given owner occupied residences equaling 12.5% of the gross property taxes charged residential taxpayers on tax levies passed prior to September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013 which is the effective date of HB59. HB66 the FY06-07 budget bill previously eliminated 10% rollback on Class II (commercial and industrial) property.

Homestead Exemptions are also credits paid to the district from the state of Ohio for qualified elderly and disabled tax payers. In 2007 HB119 expanded the Homestead Exemption for all seniors 65 years of age or older or who are disabled regardless of income. Effective September 29, 2013 HB59 changed the requirement for Homestead Exemptions. Individual taxpayers who do not currently have their Homestead Exemption approved or those who do not get a new application approved for tax year 2013, and who become eligible thereafter will only receive a Homestead Exemption if they meet the income qualifications. Taxpayers who currently have their Homestead Exemption as of September 29, 2013 will not lose it going forward and will not have to meet the new income qualification. This will generally reduce homestead reimbursements to the district over time, and as with the rollback reimbursements above, the state is increasing the tax burden on our local taxpayers.

Summary of State Tax Reimbursement – Line #1.050

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Rollback and Homestead	<u>\$5,817,757</u>	<u>\$5,966,467</u>	<u>\$5,985,730</u>	<u>\$6,019,004</u>	<u>\$6,063,269</u>

Other Local Revenues – Line #1.060

Revenues from all other sources are based on historical growth patterns. This revenue largely consists of income tax sharing revenue and pay-to- participate fees as well as some rental income, tuition payments, and investment income. The income tax sharing portion is projected to decrease based on conversations with the City of New Albany. As abatements begin to expire real estate tax collections will increase as explained in the “Real Estate Value Assumption” section above. This also causes income tax sharing to decrease in accordance with the abatement agreements in place. The district has also expanded its All-Day Kindergarten program which is a tuition based program.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Tuition (All Day K; JV Adjustments)	\$1,052,099	\$1,073,141	\$1,094,604	\$1,116,496	\$1,138,826
Interest	\$1,909,281	\$1,947,467	\$1,908,518	\$1,870,348	\$1,795,534
Income Tax Sharing	\$3,426,640	\$3,426,640	\$3,426,640	\$3,426,640	\$3,426,640
Other Income and rentals	<u>\$717,996</u>	<u>\$735,946</u>	<u>\$754,345</u>	<u>\$773,204</u>	<u>\$792,534</u>
Total Line # 1.060	<u>\$7,106,016</u>	<u>\$7,183,194</u>	<u>\$7,184,107</u>	<u>\$7,186,688</u>	<u>\$7,153,534</u>

Comparison of Local Revenue and State Revenue:

Short-Term Borrowing – Lines #2.010 & Line #2.020

There is no short term borrowing planned in this forecast at this time from any sources.

Transfers In / Return of Advances – Line #2.040 & Line #2.050

Returns of advances to other funds from the previous year comprise most of the historical revenue in this category.

All Other Financial Sources – Line #2.060

This funding source is typically a refund of prior year expenditures that is very unpredictable. We received several Bureau of Workers Compensation refunds over the past two years and do not expect to receive a refund in future years. These revenues are inconsistent year to year and we will not project that occurring in the remainder of the forecast.

Expenditures Assumptions

The district's leadership team is always looking at ways to improve the education of the students, whether it be with changes in staffing, curriculum, or new technology needs. As the administration of the district reviews expenditures, the education of the students is always the main focus for resource utilization.

Estimated General Fund Expenditures for FY24

Wages – Line #3.010

The model reflects the most recent negotiated agreement base increases of 2%, 2% and 1% for FY22, FY23 and FY24 respectively. 1% is included in FY25 through FY28 for planning purposes. The negotiated agreement reflects a standardized 2.5% step increase due to a complete change to the PLEA salary schedule where all steps are 2.5% over a 26-year period. This change ensures the district will not see a “boom and bust” salary cycle. The district included an average step increase of 1.73% for classified bargaining unit members in FY23-FY27. Future negotiations can effect these assumptions. The current negotiated agreements expire on June 30, 2024. New hires have been included in FY24-FY28 for growth and critical need areas as determined by the Superintendent. All new employees hired and funded as part of ESSER funding to address learning gaps due to the pandemic have been brought into FY25 of this forecast. The Superintendent and his team will review the added positions for efficacy to determine their continuance.

The Board of Education also implemented a financial goal of reducing current year (FY23) expenditures (Line 4.50) by \$709,817. This was accomplished in reduced spending in several lines of the forecast with the major reductions taking place in Personnel Services and Fringe Benefits. Wages are running under projections and have been adjusted accordingly.

<u>Source</u>	FY24	FY25	FY26	FY27	FY28
Base Wages	\$41,828,947	\$43,937,582	\$46,580,805	\$48,815,072	\$51,036,955
Increases	\$418,289	\$439,376	\$465,808	\$488,151	\$510,370

Total Wages Line #3.010	<u>\$47,427,372</u>	<u>\$50,118,998</u>	<u>\$52,402,523</u>	<u>\$54,674,537</u>	<u>\$56,975,760</u>

Fringe Benefits Estimates Line 3.02

This area of the forecast captures all costs associated with benefits and retirement costs, which all except medical insurance being directly related to the wages paid. The district pays 14% of each dollar paid in wages to either the State Teachers Retirement System (STRS) or the School Employees Retirement System (SERS) as required by Ohio law.

A) STRS/SERS

As required by law the BOE pays 14% of all employee wages to STRS or SERS.

B) Insurance

Due to another high claim year the District's health insurance premium increase is 18% for calendar year 2024. Because insurance premiums are on a calendar year basis the rate is blended to convert to a fiscal year rate of 15.3% in FY24 and 14% in FY25. FY26-28 include a 10% premium increase for planning purposes.

The Further Consolidated Appropriations Act of 2020, included a full repeal of three taxes originally imposed by the Affordable Care Act (ACA): the 40% Excise Tax on employer-sponsored coverage (a.k.a. "Cadillac Tax"), the Health Insurance Industry Fee (a.k.a. the Health Insurer Tax), and the Medical Device Tax.

C) Workers Compensation & Unemployment Compensation

Workers Compensation is expected to be about .04% of wages FY24– FY28. Unemployment is expected to remain at a very low level FY24-FY28. The district is a direct reimbursement employer, which means unemployment costs are only incurred and due if we have employees who are eligible and draw unemployment.

D) Medicare

Medicare will continue to increase at the rate of increases in wages. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

E) Other Tuition

The district reimburses employees for the tuition to further their education in order to maintain licensure for teaching. The district does not anticipate any increase during the forecast.

Summary of Fringe Benefits – Line #3.020

<u>Source</u>	FY24	FY25	FY26	FY27	FY28
STRS/SERS	\$7,267,266	\$7,675,724	\$8,035,065	\$8,386,661	\$8,742,162

Purchased Services – Line #3.030

HB110, the previous state budget, impacted Purchased Services beginning in FY22 as the Ohio Department of Education direct pays these costs to the educating districts for open enrollment, community and STEM schools, and for scholarships granted students to be educated elsewhere, as opposed to deducting these amounts from our state foundation funding and shown below as expenses. We have continued to show these amounts below as zeros and reduced amounts to help reflect the difference between projected FY24-FY28 Line 3.03 costs and historical FY21 through FY23 costs on the five year forecast. College Credit Pus, excess costs and other tuition costs will continue to draw funds away from the district, which will continue in this area and have been adjusted based on historical trend. The district added \$150,000 for an additional SRO beginning in FY23.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Base Services	\$1,431,115	\$1,474,048	\$1,518,269	\$1,563,817	\$1,610,732

Equipment – Line #3.050

Capital outlay is estimated based on historical trends. The district passed a replacement 1.75 mill five (5) year permanent improvement levy in FY22 to collect in CY23 which collects approximately \$2.0 million each year. The Board of Education committed to continuing to spend the \$500,000 it was spending prior to the levy so the levy ask could be as low as possible. This levy will expire December 2027. The District prepared a long-range capital improvement plan which identifies \$2.5 million in capital maintenance/repairs each year. Focused capital expenses are included in this forecast. These funds are only spent when necessary.

<u>Source</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>
Capital Outlay	\$198,997	\$204,967	\$211,116	\$217,448	\$223,971

HB264 Note Repayment/Interest and Fiscal Charges – Lines 4.050 and 4.060

The District completed an energy conservation project in 2005 under HB264 legislation. HB264 allows districts to use the energy savings from replacing inefficient HVAC and mechanical systems with energy efficient systems to repay un-voted debt needed to finance the replacements. The District financed these improvements over a 15-year period and will make its final HB264 debt payment in FY20. The final payment was made in FY21.

Other Expenses – Line #4.300

The category of Other Expenses consists primarily of Auditor & Treasurer fees. Auditor and Treasurer Fees will increase anytime a new operating levy is collected. All other expenditures in this line assume a 3% inflation rate.

Source	FY24	FY25	FY26	FY27	FY28
County Tax Fees & Election Costs	\$831,435	\$839,749	\$848,146	\$856,627	\$865,193

Total Expenditure Categories Actual FY21 through FY23 and Estimated FY24 through FY28

Transfers Out/Advances Out – Line #5.010

This account group covers fund to fund transfers and end of year short term loans from the General Fund to other funds until they have received reimbursements and can repay the General Fund. Advances are limited in impact to the General Fund as the amounts are repaid as soon as dollars are received in the debtor fund. Transfers are not repaid to the general fund. Transfers to the Permanent Improvement Fund and Termination Benefits are projected in this line as well as transfers to fund McCoy Performing Arts Center operating costs and Win-Win payments.

Ending Unencumbered Cash Balance “The Bottom-line” – Line #15.010

This amount must not go below \$-0- or the district General Fund will violate all Ohio Budgetary Laws. Any multi-year negotiated contract which is knowingly signed which results in a negative unencumbered cash balance is a violation of ORC5705.412, punishable by personal liability of \$10,000, unless an alternative “412” certificate can be issued pursuant to HB153 effective September 30, 2011. The district does not drop below a 30-day ending cash balance during this forecast period.

General Fund Ending Cash Balance

RISK ASSESSMENT

- Tax revenue does not grow with inflation due to HB920. This means current programming may not be sustainable without new revenue. Revenue is largely voter approved in an 86% locally funded school district such as New Albany.
- Due to the high reliance on local property tax revenue property valuations continue to be a major area of risk given the current economic climate. Franklin County went through a reappraisal in calendar year 2020 and collected in calendar year 2021. The district realized a 10.98% increase in residential and a 7% increase in commercial property values. The next update will occur in calendar year 2023 to collect in 2024. Based on preliminary information shared by the Franklin County Auditor our District is projecting a 36% increase in Res/Ag values and a 24% increase in Comm/Ind values. HB126 may change the method used to correct sales to market ratios which could, in turn, reduce these increases.

- Utility costs are also a risk factor depending on weather conditions and cost increases from year to year. The district anticipates a large increase in electric costs beginning in FY24.
- HB33 direct pays costs associated with open enrollment, community and STEM schools, and for all scholarships including EdChoice Scholarships. These costs will no longer be deducted from our state aid. However, there are still education option programs such as College Credit Plus which continue to be deducted from state aid which will increase costs to the district. Expansion or creation of programs that are not directly paid by the state of Ohio can expose the district to new expenditures that are not currently in the forecast. We are monitoring closely any new threats to our state aid and increased costs as any new proposed laws are introduced in the legislature.
- HB33, the current state budget, continues to phase in what has been referred to as the Fair School Funding Plan (FSFP) for FY24 and FY25. FY24 reflects 50% of the implementation cost at year three of a six-year phase-in plan, which increases by 16.66% each year. FY25 will result in 66.66% funding of (FSFP), however, the final two years of the phase-in are not guaranteed. The FSFP has made many significant changes to how foundation revenues are calculated for school districts and how expenses are charged off. State foundation basic aid will be calculated on a base cost methodology with funding paid to the district where a student is enrolled to be educated. We have used the most recent simulations published by the Department of Education and Workforce for our forecasted revenues in FY24 and FY25. The District realized a significant increase in State funding beginning in FY24.
- Revenue from the income tax sharing agreement with the City of New Albany is also a potential major risk. The district continues a regular dialogue with the City of New Albany leadership for guidance on projecting this revenue source. This revenue source is expected to be approximately \$3.4 million to New Albany-Plain Local Schools in FY24. This revenue will decrease as abatements expire as planned and with any economic fluctuation. The unabated property value will then transition into real estate values and the related tax collections will be added to the real estate revenue line. The abatement expiration schedule as reported to the district by the City of New Albany has been included in the real estate and other income lines.
- Enrollment growth is a risk to the five-year forecast. As noted on page six (6) of these assumptions, we expect to gain an additional 168 students from FY24 to FY28. The district has uses the “Low” enrollment growth estimate from the Future Think enrollment projection report due to current enrollment trends for planning purposes.
- The District recently learned of a \$20 billion investment by Intel to locate within the New Albany City limits. Though in the City limits it will not be within the NAPLS boundaries. However, the District does expect some enrollment impact from this new development. As always, we will continue to work with our City and Community partners to understand what new housing developments are expected. The Board of Education is researching potential third party companies with expertise in helping gauge the development and enrollment impact. A sharp increase or decrease could have a substantial effect on the ending cash balance and must be monitored closely.
- Negotiated agreements expire June 30, 2024.
