

Outdoor Education

Overnight Field Trip Dates:

Your child's class is headed to Foothill Horizons Outdoor School for an overnight field trip! Foothill Horizons, commonly called sixth grade science camp, is an overnight school where students live onsite and learn about science. Our school attends because it is an engaging learning experience that cannot be done in the classroom. Your child will come home excited to learn, more connected with their class and relaxed after spending time in nature. This experience includes all of the sixth graders of Stanislaus County and now your child gets to join the tradition!

Included in this packet:

- ∞ Outdoor School Family Information
- ∞ Health/Permission Form
- ∞ Medication Request Form
- ∞ Fundraising Information
