INDEPENDENT AUDITOR'S REPORT

UNMODIFIED OPINIONS ON BASIC FINANCIAL STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY INFORMATION AND OTHER INFORMATION

Board of Trustees
Silsbee Independent School District
Silsbee, Texas 77656

Members of the Board:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Silsbee Independent School District (the District), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 11 and Required Supplementary Information, as listed in the table of contents (pages 53 through 61), be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying Supplementary Information (Required TEA Schedules on pages 62 through 66), and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, Supplementary Information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Silsbee Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2023. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net position was \$13,774,508 at August 31, 2023.
- During the year, the District's expenses were \$2,638,909 less than the \$39,607,261 generated in taxes and other revenues for governmental activities.
- The total cost of the District's programs was \$36,968,352.
- The General Fund reported a fund balance this year of \$11,812,243.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
- The *governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee* or *custodian* for the benefit of others, to whom the resources in question belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

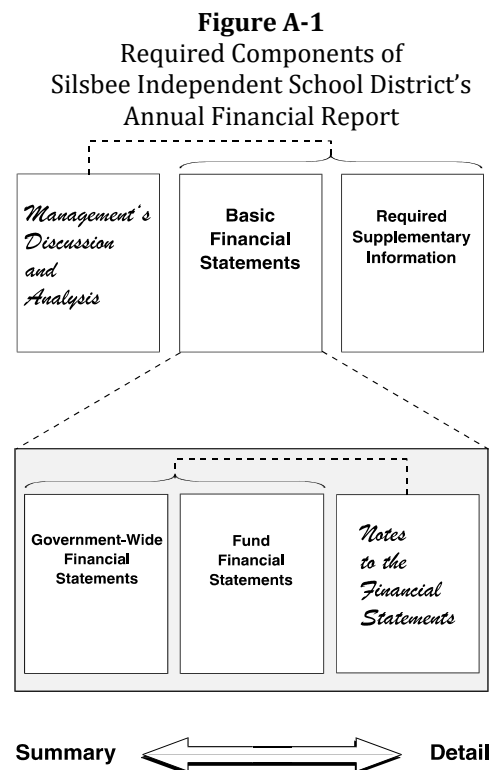

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of Management’s Discussion and Analysis explains the structure and contents of each of the statements.

Figure A-2. Major Features of the District’s Government-wide and Fund Financial Statements

<i>Type of Statements</i>	Fund Statements		
	Government-wide	Governmental Funds	Fiduciary Funds
Scope	Entire District's government (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary	Instances in which the District is the trustee or custodian for someone else's resources

Type of asset/liability information	All assets and liabilities both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	All assets and liabilities, both short-term and long-term, the District's funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes *all* of the government’s assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the end of the year, with the difference reported as net position. All of the current year’s revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the District’s *net position* and how it has changed. Net position – the difference between the District’s assets and liabilities – is one way to measure the District’s financial health or *position*.

- Over time, increases or decreases in the District’s net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District’s tax base, changes in the District’s student population, the makeup of the student population in regards to funding for special programs, and non-funded federal and state mandates.
- As of the 2022-23 fall PEIMS submission, the District employed 418 full-time positions, of which 249 were classroom teaching and paraprofessional positions. Total student enrollment was 2,772, with 2,762 being in membership. The District’s student population consisted of 33.77% minority students, 17.86% special education students, and 66.59% economically disadvantaged students.
- As of the first day of school, 2023-24, student enrollment was 2,580. As of October 31, 2023, enrollment has increased to 2,654.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District’s basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds* – not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the relationship (or differences) between them.
- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position. The District's *combined* net position was \$13,774,508 at August 31, 2023. (See Table A-1).

Total Net Position	<u>\$ 13,774,508</u>	<u>\$ 11,135,599</u>	23.7%

The District's restricted net position consists of \$4,955,881 for debt service.

Changes in net position. The District's total revenues were \$39,607,261. A significant portion, 35%, of the District's revenue comes from taxes. (See Figure A-3). 40% comes from state aid – formula grants, while only 3% relates to charges for services.

The total cost of all programs and services was \$36,968,352; 71% of these costs are for instructional and student services.

Governmental Activities

Property tax rates were reduced from \$1.3231 to \$1.2809 per \$100 valuation. Of the \$1.2809, \$0.9695 is the Maintenance and Operations Rate, with \$0.3114 being the Interest and Sinking Rate. The total taxes levied increased by \$344,209 due to an increase in the appraised values. Average daily attendance decreased by 14.6 students from 2021/2022 to 2022/2023.

Table A-3 presents cost of each of the District’s largest functions as well as each function’s *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was \$36,968,352.
- The amount that our taxpayers paid for these activities through property taxes was \$13,758,781.
- Some of the cost was paid by those who directly benefited from the programs \$1,123,773, or
- By grants and contributions \$6,726,192.

FINANCIAL ANALYSIS OF THE DISTRICT’S FUNDS

Revenues from governmental fund types totaled \$40,369,968, an decrease of (0.7)% from the preceding year. Local revenues increased by \$934,151 due primarily to an increase in property tax values and investment income. State revenues decreased by \$(1,506,312) due primarily to a decrease in Foundation formula revenue. Federal revenues increased by \$284,825 due to an increase in ESSER revenue.

General Fund Budgetary Highlights

- The District had multiple revisions to its budget during the fiscal year. Actual expenditures were \$1,208,822 less than the final budget amounts. The most significant variances were Instruction under budget by \$434,691, Student (Pupil) Transportation under budget by \$303,489, and Facilities Maintenance and Operations under budget by \$123,454. Actual revenues were \$2,135,259 below budgeted amounts due to State Program Revenue being under budget.
- The District has made significant effort over the past several years to bring the General Fund budgeted expenditures in line with supporting revenues. In order to maintain this balance, the District must continuously monitor its General Fund revenues and expenditures, revenues and expenditures in specific program areas, and District staffing levels.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2023, the District had invested approximately \$35.7 million in capital assets, including land, equipment, buildings and vehicles. (See Table A-4). This amount represents a net decrease of \$(896,377) or (2.4)% from last year.

**Table A-4

Long-Term Debt

At the end of the fiscal year, the District had \$26.3 million in long-term debt outstanding as shown in Table A-5. The District's bonds presently carry a S&P Global rating of "Aaa" on its Permanent School Fund (PSF) guaranteed obligations, and a Moody's Investors Services rating of Aa3 on the General Obligation Unlimited Tax Bonds, and a rating of Aa3 on the Maintenance Tax Notes.

More detailed information about the District's debt is presented in the Notes to the Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Certified appraised value used for the 2024 (2023-2024) budget preparation will decreased by \$46,092,169, or 4.16% from 2023 due to the increased homestead exemption.
- General Operating Fund spending per student, exclusive of a major renovation program, increases in the 2024 budget from \$11,640 to \$12,225. This is a 5.02% increase from the preceding year.
- The District's 2024 refined average daily attendance is expected to be 2,520, which is slightly equal to the level of average daily attendance attained in 2023.

These indicators were considered when adopting the General Fund budget for 2024. Amounts available for appropriation in the General Fund budget are \$31.8 million which is an increase of 7.1% from the final 2023 actual revenues of \$29.5 million.

Operating expenditures are budgeted at \$32.3 million, an increase of 3.4% from the final 2023 actual expenditures of \$31.2 million.

If these estimates are realized, the District's budgetary undesignated General Fund fund balance is expected to decrease \$(542,621) at the close of 2024.

The District has committed \$7,042,506 for major deferred maintenance and renovation programs as of the fiscal year ended August 31, 2023.

Total Net Change in Fund Balances - Governmental Funds	\$	881,481
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation.		(1,388,534)
Capital outlays		\$1,354,074
Depreciation expense		(2,746,294)
Gain (loss) on disposed assets		3,686
Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		123,374
Prior year delinquent taxes collected in the year ended August 31, 2023		\$84,203
Current year uncollected levy net of allowance for uncollectible portion		39,171
The repayment of the principal of long-term debt, leases, and SBITAs consumes the current financial resources of governmental funds. This transaction has no effect on net assets.		2,226,700
Governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		146,785
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$817,757. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in net position totaling \$642,332. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense (increased) decreased the change in net position by \$336,118. The net result is an increase (decrease) in the change in net position.		(160,693)
GASB 75 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$199,266. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in net position totaling \$172,529. Finally, the proportionate share of the TRS OPEB expense on the plan as a whole had to be recorded. The net OPEB expense (increased) decreased the change in net position by \$(783,059). The net result is an increase (decrease) in the change in net position.		809,796

NOTES TO THE FINANCIAL STATEMENTS

SILSBEE INDEPENDENT SCHOOL DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
AT AND FOR THE
YEAR ENDED AUGUST 31, 2023**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Silsbee Independent School District (the "District") is a public educational entity operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in GASB Statement No. 56, and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14 "The Financial Reporting Entity" and there are no component units included within this reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges for services such as food service or extracurricular activities and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

SILSBEE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
AT AND FOR THE
YEAR ENDED AUGUST 31, 2023

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT
PRESENTATION (CONTINUED)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Grant revenues and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **General Fund** is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund, and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board to implement its responsibilities.

The **Debt Service Fund** accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Additionally, the District reports the following Fiduciary Fund types:

Fiduciary Funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or custodial capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

Private-Purpose Trust Funds: These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments not reported in other fiduciary fund types. The District's private-purpose trust funds represent scholarship funds being held in trust for students.

Custodial Funds: These funds are used to account for resources held for others in a custodial capacity. The District utilizes this fund type to account for funds held on behalf of student clubs and organizations. Student activity organizations exist with the explicit approval of, and are subject to revocation by, the District's Board of Trustees.

SILSBEE INDEPENDENT SCHOOL DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
AT AND FOR THE
YEAR ENDED AUGUST 31, 2023**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (CONTINUED)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as *program revenues* include 1) charges for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

In accordance with the FASRG, the District has adopted and installed an accounting system, which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Accounting Code Section of the FASRG. Mandatory codes are utilized in the form provided in that section.

D. ASSETS, LIABILITIES, AND NET POSITION

1. Cash and cash equivalents

The District's cash and cash equivalents are considered to be cash on hand and demand deposits.

2. Property taxes

Property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to 25% of the outstanding property taxes at August 31, 2023.

3. Inventories

The consumption method is used to account for inventories of food products, school supplies and athletic equipment. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. The General Fund and The Food Service Special Revenue Fund reported inventories are offset by a nonspendable fund balance indicating that they are unavailable as current expendable financial resources.

4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

AT AND FOR THE
YEAR ENDED AUGUST 31, 2023

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. ASSETS, LIABILITIES, AND NET POSITION (CONTINUED)

4. *Capital Assets (Continued)*

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	30
Building improvements	30
Equipment	5-18
Buses	10
Vehicles	10

5. *Compensated absences*

Vacations are to be taken within the same year they are earned. Any liability would be immaterial and none has been accrued in the accompanying financial statements. Employees of the District are entitled to sick leave based on category/class of employment. Portions of the sick leave may accumulate but do not vest. Sick leave is paid only in the form of salary continuation while on medical leave. Silsbee Independent School District does not have a policy to pay any amounts when employees separate from service. Therefore, no liability for unused sick leave has been recorded in the accompanying financial statements.

6. *Leases*

The District is a lessee for noncancellable leases of equipment. The District recognizes a lease liability and an intangible right-to-use lease asset in the government-wide financial statements. The lease liability is initially measured at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of payments made. The lease asset is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. The lease asset is amortized on a straight-line basis over its useful life.

The District used the interest rate charged by the lessor as the discount rate if available. When the interest rate charged by the lessor is not available, the District uses its estimated incremental borrowing rate as the discount rate. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are the fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of the lease liabilities. Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. ASSETS, LIABILITIES, AND NET POSITION (CONTINUED)

7. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt services expenditures.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position (Exhibit A-1) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The District has two types of items that qualify for reporting in this category. Contributions made to the pension plan and the OPEB plan in the 2023 fiscal year are classified as deferred outflows of resources in the government-wide statement of net position.

In addition to liabilities, the statement of financial position (Exhibit A-1) will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items; the first arises only under a modified accrual basis of accounting that qualifies for the reporting in this category. Accordingly, the item unavailable revenue – property taxes, is reported only in the governmental funds balance sheet (Exhibit C-1). This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. The second is the deferrals of pension expense that result from the implementation of GASB Statement 68 which is reported only in the government-wide statement of net position (Exhibit A-1). The third is the deferrals of OPEB expense that result from the implementation of GASB Statement 75, which is reported only in the government-wide statement of net position (Exhibit A-1).

9. Fund equity

The District has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable fund balance* – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- *Restricted fund balance* – amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government), through constitutional provisions or by enabling legislation.
- *Committed fund balance* – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., Board of Trustees). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.
- *Assigned fund balance* – amounts the District intends to use for a specific purpose. Intent can be expressed by the Board or by an official or body to which the Board delegates the authority.
- *Unassigned fund balance* – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The Board establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. At August 31, 2023, the Silsbee Independent School District General Fund reported \$7,042,506 as committed for deferred maintenance, renovations and technology needs and \$475,000 as committed for Classroom Teacher Longevity Pay. At August 31, 2023, the District Special Revenue Funds reported \$363,827 as committed to campus level activities and \$889,957 as committed to food service activities.

10. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. ASSETS, LIABILITIES, AND NET POSITION (CONTINUED)

11. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

12. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

13. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

14. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

15. Change in Accounting Principle

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, was adopted effective September 1, 2022. GASB Statement No. 96 establishes standards for recognizing and measuring right-to-use subscription assets (intangible assets) and a corresponding subscription liability. The adoption of this standard did not result in a restatement of beginning fund balance or net position, but assets and liabilities were recognized, and more extensive note disclosures were required.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

Formal budgetary accounting is employed for all required Governmental Fund Types, as outlined in TEA's FASRG module, and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required Governmental Fund Types prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, the Debt Service Fund and the Food Service Special Revenue Fund. The remaining special revenue funds adopt project-length budgets which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles. The budget is amended throughout the year by the Board of Trustees. Such amendments are reflected in the official minutes of the Board.

B. REQUIRED INDIVIDUAL FUND DISCLOSURES

For the year ended August 31, 2023, no General Fund, Debt Service Fund or Food Service Special Revenue Fund functional expenditure categories exceeded budget and there were no fund balances in a deficit position.

C. DATA CONTROL CODES

Data control codes refer to the account code structure prescribed by the Texas Education Agency, Financial Accountability System Resource Guide.

D. HEALTH CARE

The District contributes to the State sponsored healthcare program \$200 per month per employee (in addition to the \$75 per month that is provided by the State of Texas). Employees, at their option, contribute for dependent coverage through payroll withholdings.

The District does not provide any post-retirement health benefits to its employees.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

E. RISK MANAGEMENT AND PARTICIPATION IN RISK POOLS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Most of these risks are protected by insurance. There were no significant reductions in coverage in the past fiscal year, and there were no settlements or significant losses exceeding insurance coverage or state and federal reimbursement awards for each of the past three fiscal years.

The District participates in the following risk pools:

During the year ended August 31, 2023, the District met its statutory workers' compensation obligations through participation, as a sponsor, in a Workers' Compensation Self-Insurance Joint Fund (the program, the plan). This program was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The program is authorized by Chapter 504 of the Texas Labor Code. All districts participating in the program as sponsors execute Interlocal Agreements that define the responsibilities of the plan sponsors and a third-party administrator. The program provides statutory workers' compensation benefits to its members and their injured employees.

The estimated liability for open claims is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred as of the date of the financial statements, and the amount of loss can be reasonably estimated. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing the liability does not result necessarily in an exact amount. The liability is the undiscounted estimate of the actuary. Changes in the balances of claims liabilities during the most recent two years are as follow:

	2023	2022
Claims liabilities (including incurred but not reported), beginning of year	\$ 89,859	\$ 26,653
Incurred claims (net of adjustment of prior year allowances)	47,760	89,229
Claims paid	(52,886)	(26,023)
Claims liabilities (including incurred but not reported), end of year	\$ 84,733	\$ 89,859

Claims are paid by the third-party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provisions of that agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through Midwest Employers Casualty Company, a commercial insurer licensed or eligible to do business in Texas.

During the year ended August 31, 2023, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

E. RISK MANAGEMENT AND PARTICIPATION IN RISK POOLS (CONTINUED)

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool. For the year ended August 31, 2023, the Fund anticipates that Silsbee ISD has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

During the year ended August 31, 2023, the District participated in the Property Casualty Alliance of Texas's (PCAT) Property Casualty Program. The Fund was created and is operated under the provision of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for the Property Casualty Program. The terms and limits of the stop-loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves.

Based on information currently available for the year ended August 31, 2023, the District will have no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in July of the following year. The fund's audited financial statements as of August 31, 2022, are available at the PCAT offices and have been filed with the Texas Department of Insurance in Austin.

NOTE 3. BUDGETARY LEGAL COMPLIANCE

The Official Budget was prepared for adoption for the General Fund, Food Service Fund and Debt Service Fund prior to August 20, 2022 and was adopted by the Board on August 30, 2022. The budget is prepared by fund, function, object, and organization. The budget is controlled at the organizational level by the appropriate department head or campus principal within Board allocations. Therefore, organizations may transfer appropriations as necessary without the approval of the Board unless the intent is to increase the overall budget allocations. Control of appropriations by the Board is maintained within Fund Groups at the function code level and revenue object code level.

The Budget is formally adopted by the Board at a duly advertised public meeting in accordance with law prior to the expenditure of funds. The approved budget is filed with the Texas Education Agency (TEA) through the Public Education Information Management System.

Should any change in the approved budget be required, budget amendment requests are presented to the Board for consideration. Amendments are to be requested and approved before the fact and once approved are reflected in the official minutes. During the year, the budget was properly amended in accordance with the above procedures.

NOTE 4. DEPOSITS AND INVESTMENTS

Under Texas state law, a bank serving as the school depository must have a bond or in lieu thereof, deposited or pledged securities with the District or an independent third party agent, an amount equal to the highest daily balance of all deposits the District may have during the term of the depository contract, less any applicable FDIC insurance.

1. Cash Deposits: At August 31, 2023, the carrying amount of the District's cash, savings and time deposits was \$3,669,037. The bank balance was \$3,681,011. During 2022-2023, the District's combined deposits were fully insured by federal depository insurance or securities pledged to the District and held by the depository's agent in the District's name.
2. Investments: The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, (1) obligations of the U.S. Treasury, U.S. agencies and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) securities lending programs, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools (9) guaranteed investment contracts and (10) commercial paper.

A private purpose trust fund, the earnings of which are restricted to scholarship awards, holds publicly traded common stock donated to the District by the initiator of the scholarship fund.

3. Deposit and Investment Risks:

Interest rate risk. In accordance with its investing policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to one year or less.

Credit risk. For fiscal year 2023, the District invested in TexPool and Lone Star Investment Pool. TexPool is duly chartered and administered by the State Comptroller's Office. As of August 31, 2023, the District's investments in TexPool were rated AAA by Standard & Poor's Investors Service. Lone Star Investment Pool is duly chartered by the State of Texas Interlocal Cooperation Act and is administered by First Public, LLC formerly the Texas Association of School Boards Financial Services. The District's investments in Lone Star Investment Pool were rated AAA by Standard & Poor's Investors Service.

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

3. Deposit and Investment Risks (continued):

Concentration of credit risk. The District’s investment policy does not limit an investment in any one issuer. The District monitors the need to diversify investments on a regular basis.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. As of August 31, 2023, District deposits at the local depository were insured and collateralized with securities held by the depository’s agent and in the District’s name.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District is not exposed to custodial risk due to the fact that investments are insured or registered, or the investments are held by the District or its agent in the District’s name.

The District’s investments at August 31, 2023 are shown below:

	<u>Maturity</u>	<u>Governmental Funds Fair Value</u>	<u>Private Purpose Trust Funds Fair Value</u>
Lone Star Investment Pool		\$ 4,473,535	\$ -
TexPool		9,611,650	-

Certificate of Deposit	8/3/2024	-	10,000
		<u>\$ 14,085,185</u>	<u>\$ 344,426</u>

Investment Accounting Policy

The District’s general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term “short-term” refers to investments which have a remaining term of one year or less at time of purchase. The term “nonparticipating” means that the investment’s value does not vary with market interest rate changes.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

Fair values of TexPool are based on quoted market prices of the underlying assets as provided by the Fund Sponsor, The State of Texas. Fair values of Lone Star Investment Pool Liquidity Fund are based on quoted market prices of the underlying assets as provided by the Fund Sponsor, First Public, LLC. These investments are reported by the District at cost which approximates fair value. Governmental Accounting Standards Board Statement (GASB) No. 79, "Certain External Investment Pools and Pool Participants" allows the reporting of these investments at cost due to short-term maturities.

NOTE 5. PROPERTY TAXES

Property taxes are considered available when collected within the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. The assessed value of the property tax roll on August 1, 2022, upon which the levy for the 2022-2023 fiscal year was based, was \$1,094,990,892. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges plus 15% delinquent collection fees for attorney costs.

The tax rates assessed for the year ended August 31, 2023, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.9695 and \$0.3114 per \$100 valuation, respectively, for a total of \$1.2809 per \$100 valuation.

NOTE 5. PROPERTY TAXES (CONTINUED)

Current tax collections for the year ended August 31, 2023 were 95.3% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2023, property taxes receivable, net of estimated uncollectible taxes of \$632,292 and \$167,808, totaled \$1,896,876 and \$503,424 for the General and Debt Service Funds, respectively.

NOTE 6. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2023, are summarized below. All federal grants shown below are passed through the TEA or other pass-through entities and are reported on the combined financial statements as Due from Other Governments.

NOTE 8. DEFINED BENEFIT PENSION PLAN

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <http://www.trs.texas.gov/pages/aboutpublications.aspx> or by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698, or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the system's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

NOTE 8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Contributions (Continued)

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	<u>Contribution Rates</u>	
	2023	2022
Member	8.00%	8.00%
Non-Employer Contributing Entity (State)	8.00%	7.75%
Employers	8.00%	7.75%
Silsbee ISD Current Fiscal Year Employer Contributions		\$ 817,757
Silsbee ISD Current Year Member Contributions		\$ 1,658,178
Silsbee ISD 2022 Measurement Year NECE On-Behalf Contributions		\$ 1,144,366

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During the new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources or a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to:

- All public schools, must contribute 1.7 percent of the member’s salary beginning in fiscal year 2022, gradually increasing to 2 percent in the fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term Expected Rate	7.00%
Municipal Bond Rate as of August 2022	3.91%**
Last year ending August 31 in Projection Period (100 Years)	2121
Inflation	2.3%
Salary Increases Including Inflation	2.95% to 8.95%
Ad hoc Post Employment Benefit Changes	None

***Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index"*

The actuarial assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021.

Discount Rate. A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2022 are summarized on the following page:

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than or 1% greater than the discount rate that was used (7.00%) in measuring the 2022 Net Pension Liability.

Silsbee's proportionate share of the net pension liability:	<u>\$ 12,712,752</u>	<u>\$ 8,172,141</u>	<u>\$ 4,491,762</u>

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension. At August 31, 2023, Silsbee Independent School District reported a liability of \$8,172,141 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate share of the collective net pension liability	\$ 8,172,141
State's proportionate share that is associated with the District	<u>14,559,321</u>
 Total	 <u>\$ 22,731,462</u>

The net pension liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021 through August 31, 2022.

At August 31, 2022, the employer's proportion of the collective net pension liability was 0.0137653% which was an increase of 0.0006321% from its proportion measured as of August 31, 2021.

Change Since the Prior Actuarial Valuation

The actuarial assumptions and methods have been modified since the determination of the prior year's Net Pension Liability. These new assumptions were adopted in conjunction with an actuarial experience study. The primary assumption change was the lowering of the single discount rate from 7.25 percent to 7.00 percent.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension (Continued)

For the year ended August 31, 2023, the District recognized pension expense of \$2,370,156 and revenue of \$1,391,706 for support provided by the State.

At August 31, 2023, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 118,495	\$ 178,168
Changes in actuarial assumptions	1,522,736	379,508
Difference between projected and actual investment earnings	807,382	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	340,125	217,956

Contributions paid to TRS subsequent to the measurement date	817,757	-
Total	\$ 3,606,495	\$ 775,632

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of \$817,757 will be recognized as a reduction of the net pension liability for the year ending August 31, 2024. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

NOTE 9. OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care’s fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the TRS web-site at <http://www.trs.texas.gov/pages/aboutpublications.aspx>; by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701-2698; or by calling the TRS Communications Department at (512) 542-6592.

Benefits Provided. TRS provides basic health insurance coverage to retirees from public schools who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic postemployment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium for Retirees

	<u>Medicare</u>	<u>Non-Medicare</u>
Retiree*	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree* and Children	468	408
Retiree and Family	1,020	999

* or surviving spouse

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

NOTE 9. OTHER POST-EMPLOYMENT BENEFIT PLANS (CONTINUED)

Contributions (Continued)

Texas Insurance Code, section 1575.202 establishes the state’s contribution rate which is 1.25% of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	<u>Contribution Rates</u>	
	<u>2023</u>	<u>2022</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding Remitted by Employers	1.25%	1.25%
Silsbee ISD Current Fiscal Year Employer Contributions		\$ 199,266
Silsbee ISD Current Year Member Contributions		\$ 134,728
Silsbee ISD 2022 Measurement Year NECE On-Behalf Contributions		\$ 210,458

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether they participate in the TRS Care OPEB program). When employers hire a TRS retiree, employers are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$83 million in fiscal year 2022 for consumer protections against medical and health care billing by certain out-of-network providers.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2022. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2021 TRS pension actuarial valuation that was rolled forward to August 31, 2022:

Rates of Mortality	Rates of Disability
Rates of Retirement	General Inflation
Rates of Termination	Wage Inflation

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale MP-2018.

Actuarial Assumptions (continued)

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.3%
Single Discount Rate	3.91% as of August 31, 2022
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05%, including inflation
Ad hoc post-employment benefit changes	None

Discount rate. A single discount rate of 3.91% was used to measure the total OPEB liability. There was an increase of 1.96% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2021 using the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis: The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (1.95%) in measuring the Net OPEB Liability.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2023, the District reported a liability of \$5,029,624 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective Net OPEB Liability	\$ 5,029,624
State's proportionate share that is associated with the District	<u>6,135,351</u>
Total	<u>\$ 11,164,975</u>

The Net OPEB Liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

At August 31, 2022 the employer's proportion of the collective Net OPEB Liability was 0.02100577% which was a decrease of 0.00009559% from its proportion measured as of August 31, 2021.

The following schedule shows the impact of the NET OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rate assumed.

	<u>1% Decrease</u>	<u>Current Single Healthcare Trend Rate</u>	<u>1% Increase</u>
Silsbee's proportionate share of the Net OPEB liability:	<u>\$ 4,144,433</u>	<u>\$ 5,029,624</u>	<u>\$ 6,177,160</u>

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the Total OPEB liability.

Medicare Part D On-Behalf Payments. The Medicare Prescription Drug Act of 2003, which became effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments for Silsbee Independent School District for the years ended August 31, 2023, 2022 and 2021 were \$110,699, \$82,910, and \$83,388, respectively.

The Early Retiree Reinsurance Program (ERRP) is a provision of the Patient Protection and Affordable Care Act (PPACA) and provides reimbursement for a portion of the cost of health care benefits to retirees between the ages of 55-64 and their covered dependents. TRS-Care did not participate in this program for the year ended August 31, 2023.

During the fiscal year ended August 31, 2023, the District paid \$10,700 for previously retired public school employees for whom the District had a TRS-Care Premium payment responsibility.

NOTE 10. BONDS AND TAX NOTE PAYABLE

The District's bonds and tax note payable consist of general obligation bonds, unlimited tax bonds issued to provide funds for the construction of major capital facilities, and a limited maintenance tax note. General obligation bonds and unlimited tax bonds are direct obligations and pledge the full faith and credit of the District. The current requirements for general obligation bonds and unlimited tax bonds and related interest expenditures are accounted for in the Debt Service Fund. The maintenance tax note is secured by and payable from a pledge of ad valorem taxes in the General Fund.

As of August 31, 2023, the District did not have any authorized but unissued bonds.

In October 2020, the District issued \$8,339,997 of unlimited tax refunding bonds (Series 2020). The proceeds of the refunding bonds were used to prefund call options on 12/01/2020, 8/15/2022, and 8/15/2023. This action retired \$8,340,000 of previously issued District bonds in order to lower its overall debt service requirements. The reacquisition price exceeded the net carrying value of the old debt by \$771,693. This balance is being amortized over the life of the new issue. The refunding resulted in an economic gain of \$783,003.

NOTE 13. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The District has several arrangements subject to the requirements of GASB Statement No. 96 *Subscription-Based Information Technology Arrangements* (SBITA's). These arrangements can be described in groups – those related to educational assistance and those used for administrative purposes. The District makes monthly, quarterly, or annual payments and the agreements are for varying terms. The SBITA liability is the present value of these payments using the district's incremental borrowing rate of 3%. The liability is amortized providing the principal and interest components of the payments over the SBITA term. The SBITA asset is measured as the SBITA liability plus any capitalized expenditures incurred in the initial implementation stage. The SBITA asset is depreciated (amortized) using a straight-line depreciation method over the term of the SBITA arrangement. There were no outflows of resources paid for the SBITA arrangements during the current fiscal year. There were no additional commitments made before the commencement of the SBITA terms. There were no impairments or modifications to be reported during this fiscal year.

NOTE 18. LITIGATION AND CONTINGENCIES

The District is a party to various actual and threatened legal actions none of which is believed by the administration to have a material effect on the financial condition of the District. Accordingly, no provision for potential losses or legal expenses has been recorded in the accompanying financial statements.

The District participates in numerous state and Federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2023 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Silsbee Independent School District
Silsbee, Texas 77656

Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Silsbee Independent School District (the District), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 12, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE;
AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE**

Board of Trustees
Silsbee Independent School District
Silsbee, Texas 77656

Members of the Board:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Silsbee Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SILSBEE INDEPENDENT SCHOOL DISTRICT

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2023**

1. The accompanying Schedule Of Expenditures Of Federal Awards (Schedule) includes the federal grant activity of Silsbee Independent School District (the District) under programs of the Federal government for the year ended August 31, 2023. The information in this Schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.
2. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. The information in this Schedule is presented in accordance with the requirements of OMB Circular Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of the general purpose financial statements.
3. The District utilizes the fund types specified in the Texas Education Agency’s Financial Accountability System Resource Guide. Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
4. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All federal grant funds were accounted for in the Special Revenue Fund, a component of the Governmental Fund type. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund Types and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.

5. The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date or as specified in a program regulation, in accordance with provisions in Office of Management and Budget (OMB) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* – Section 200.343 Closeout.
6. Silsbee Independent School District does not record indirect costs for any of its Federal Programs.
7. A reconciliation of Federal Revenue reported on Exhibit C-3 to Federal Revenue reported on the Schedule of Expenditures of Federal Awards (Exhibit K-1) follows:

Federal Revenue Reported on Exhibit K-1	\$ 5,933,857
SHARS Medicaid Revenue	524,445
Medicaid Revenue passed through TMHP	<u>306,457</u>
 Federal Revenue Reported on Exhibit C-3	 <u><u>\$ 6,764,759</u></u>
