MCS Virtual Technology Fair Catalog

November 3, 2020 * 8am-3pm

Engaging the Virtual Learner and Family

Presenter: Kassidi Adams

By the end of the session, participants will be able to...

- Build a repertoire of engaging virtual learning strategies.
- Use a variety of online tools to engage the virtual learner.
- Use multiple methods to engage families in virtual learning.

Additional Information:

This session will cover useful strategies to engage learners and families via Zoom, Canvas, and more!

Engaging with Nearpod

Presenter: Krista Lee

By the end of the session, participants will be able to...

- Create a Nearpod activity using different media types.
- Share out a Nearpod activity and toggle between teacher and student view.
- View activity reports after a Nearpod session has ended.

Additional Information:

Nearpod helps educators make any lesson interactive whether in the classroom or virtual. The concept is simple! A teacher can create interactive presentations that can contain Quizzes, Polls, Videos, Collaborate Boards, and more. You can access thousands of pre-built K-12 standards-aligned lessons or upload your existing lessons and make them interactive.

Creating Assessments in Synergy

Presenter: Julie Martin

By the end of the session, participants will be able to...

- Navigate Synergy Assessment
- Create a Quick Assessment
- View the Assessment Results

Additional Information:

If you would like, you can follow along and create your own Quick Assessment during the session. Have a PDF of an assessment (any simple quiz will do), with multiple choice questions, accessible on the computer you will be using.

Google File Stream

Presenter: Jeremy Harber

By the end of the session,

- Teachers will make sure that Google File Stream is set up on their teacher's station.
- Teachers will learn how to install Google File Stream on a home computer.
- Use Google File Stream to easily store documents that are available at work, home, and anywhere there is Internet access.

Additional Information:

Teachers will need to have Denise install Google File Stream on their teacher station. The Google Meet will be recorded.

Bitmoji Classroom

Presenter: Chrissy Emmendorfer

By the end of the session, participants will be able to...

- Create a basic Bitmoji.
- Create a Bitmoji classroom with links.
- Have the tools to share the Bitmoji Classroom with their students.

Healing and Repair in the Classroom: Strategies for Teaching Traumatized Students

Presenter: Brooke Albert M.A., IMH-E®

By the end of the session, participants will be able to...

- Identify at least 1 student with whom they will implement strategies.
- Identify at least 2 strategies to try with their chosen student(s).
- Identify 1 new strategy they will use to practice self-care.

Additional Information:

Plan to share your experiences and be ready to learn from one another!

Tips on Using Canvas

Presenter: Tracey Whittey

By the end of the session, participants will be able to...

- Create and organize modules so it is easier for students to navigate.
- Nickname courses so that you can copy and paste assignments from class to class quickly.
- Use “apps” in Canvas instead of links.

Google Workspace

Presenter: Ron Madison

By the end of the session,

- Reduce anxiety of Google Classroom.
- Share announcements and assignments with students.
- Enable co-teaching in Google Classroom.

Grading with Google Classroom & Canvas

Presenter: Chris Root

By the end of the session, participants will be able to...

- Sync Google Classroom to Synergy
- Handle typical Google Classroom grading scenarios.
- Set up and use the Canvas grading platform.

Additional Information:

Afterwards they'll be able to know how to grade assignments remotely using two sites.

Canvas: Quizzes, Buttons and Speedgrader

Presenter: Erin Maturen

By the end of the session, participants will be able to...

- Create a quiz/pretest.
- Use SpeedGrader effectively with Google Classroom.
- Create buttons on their homepage of Canvas.
