

District Goals

2023 - 2024

Student Achievement

Increase proficiency and achievement in student performance in English Language Arts and Mathematics as measured by district approved assessments.

To build an inclusive school environment that ensures equity for all students and an educational program that reflects the diverse experiences and backgrounds of all members of the school community.

Finance / Facilities

Appropriately budget funds to address district technology needs to ensure a learning environment that provides viable internet service and up-to-date devices for staff and students.

Upgrade district facilities to ensure safe, effective, and well-maintained structures and equipment.

Community Outreach

Improve the district's ability to disseminate information and increase visibility through various methods, including social media platforms, district mobile app, district email and website postings, as well as in-person activities for parents and students.
