Forecast Purpose/Objectives

Ohio Department of Education's purposes/objectives for the five-year forecast are:

1. To engage the local board of education and the community in the long range planning and discussions of financial issues facing the school district.
2. To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate."
3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

Forecast Methodology - This forecast is prepared based upon historical trends and current factors. This information is then extrapolated into estimates for subsequent years. The forecast variables can change multiple times throughout the fiscal year and while cash flow monitoring helps to identify unexpected variances no process is guaranteed. The intent is to provide the district's financial trend over time and a roadmap for decisions aimed at encouraging financial sustainability and stability.

Forecast Summary

Note: Cash balance (Line 7.020) plus any existing levy modeled as renewed or new during the forecast.

Analysis Without Renewal Levies Included:

Revenue Surplus or Deficit w/o Levies	(1,469,566)	(1,605,495)	(2,191,368)	(3,010,711)	(4,167,063)
Ending Balance w/o Levies	16,819,170	15,213,675	13,022,307	10,011,596	5,844,533

The projected balance of \$5.6 million at June 30, 2026 compares favorably to the November 2021 forecast projected balance of \$3.3 million. While cash balance is certainly one factor to consider, the "Revenue Surplus or Deficit" is a concern given the \$2.1 million operating deficit in FY22 that continues at an increasing rate over the other four years of the forecast with the exception of FY23. FY23 operating deficit is slightly reduced from FY22 due to a reduction in the transfer amounts forecast for facility projects and projected operating deficits in athletics and food services. This forecast shows a projected ending cash balance for FY22 of \$16.8 million, an increase of approximately \$600,000 over the November 2021 forecast. This increase is primarily due to: tax revenue growth from new construction; increased tuition receipts post-pandemic; and a decrease in supplies and other objects expenditures. Expenditure growth is a concern that must be managed, and given our existence as a service provider of education to our students, our reliance on staffing is significant and these costs are not small and are not declining. The last new operating levy passed by Revere voters occurred in May 2011, and this is a topic that will require future discussion due to current and projected deficit spending needing to be offset with levy timing, type, and desirable millage rate.

Revenue Sources and Forecast Year-Over-Year Projected Overview

Sources of Revenue Over Time

Year-Over-Year Dollar & Percentage Change

3-Year Historical Actual Average Annual Dollar Change Compared to 5-Year Projected

	Historical Average Annual \$ Change	Projected Average Annual \$ Change	Projected Compared to Historical Variance	Total revenues are expected to increase in FY22 and out years primarily due to additional tax collections from continuing new residential and commercial construction, tax revenue growth from the 20 mill floor being realized in 2020 for residential properties, and additional tuition receipts post-pandemic and increased interest earnings as investment rates rise. The FY21 tax revenues were less than original estimates due to TIF adjustments (\$511,000) from 2018 and 2019 for the Nexen Tire and National Interstate TIF developments. State revenues (Unrestricted and Restricted Grants-in-Aid) are reduced beginning FY22 due to changes from the new Fair School Funding Plan approved by the State legislature and Governor for the FY22/23 biennium. Expenditure reductions for open enrollment, community school, and Peterson Scholarship students residing in Revere but attending other educational options, reflected in purchased services, more than offset the State funding losses.

Total Average Annual Change	\$486,538 1.32%	\$643,980 1.60%	\$157,443 0.28%	

Note: Expenditure average annual change is projected to be > \$1,436,373 On an annual average basis, expenditures are projected to grow faster than revenue.

1.010 - General Property Tax (Real Estate)

Revenue collected from taxes levied by a school district by the assessed valuation of real property using effective tax rates for class I (residential/agricultural) and class II (business).

Values, Tax Rates and Gross Collections							Gross Collection Rate Including Delinquencies
Tax Yr	Valuation	Value Change	Class I Rate	Change	Class II Rate	Change	
2020	1,134,193,250	91,043,050	28.50	-	32.47	-	98.5%
2021	1,139,356,210	5,162,960	28.57	0.07	32.80	0.32	99.7%
2022	1,150,431,210	11,075,000	28.58	0.01	32.69	(0.11)	99.7%
2023	1,193,931,210	43,500,000	28.30	(0.28)	32.26	(0.43)	99.7%
2024	1,204,006,210	10,075,000	28.33	0.03	32.16	(0.10)	99.7%
2025	1,214,081,210	10,075,000	28.36	0.03	32.07	(0.09)	99.7%

General Property Tax (Real Estate) accounts for 76.38% of District revenues.

The 9.02 mill substitute levy, which eliminated two emergency operating levies totaling the same millage, passed by Revere voters in November 2019 is included for this forecast.

Revenues are projected to increase in FY22 due to additional tax collections from continuing new residential and commercial construction, and tax revenue growth from the 20 mill floor being realized for residential properties with the valuation increase in 2020. Tax revenue growth from these impacts continues in FY23 to FY26.

FY21 tax revenues were reduced from prior forecast estimates due to TIF adjustments (\$511,000) from 2018 and 2019 for the Nexen Tire and National Interstate TIF developments. These are one-time refunds.

District collected approximately 100% of estimated tax revenues for tax years 2015 through 2021 except for the previously mentioned TIF adjustments, and this collection rate is continued for this forecast.

*Projected % trends include renewal levies

1.020 - Public Utility Personal Property

Revenue generated from public utility personal property valuations multiplied by the district's full voted tax rate.

Values and Tax Rates					Gross Collection Rate Including Delinquencies
Tax Year	Valuation	Value Change	Full Voted Rate	Change	
2020	29,906,370	2,448,120	57.86	(0.39)	100.4%
2021	30,606,370	700,000	57.90	0.04	100.0%
2022	31,306,370	700,000	57.89	(0.01)	100.0%
2023	32,006,370	700,000	57.66	(0.23)	100.0%
2024	32,706,370	700,000	57.66	0.00	100.0%
2025	33,406,370	700,000	57.66	0.00	100.0%

Public Utility Personal Property tax accounts for 4.50% of District revenues.

Revenues are projected to remain relatively flat for all forecast years.

This is a tax on property valuations reported by public utility companies and is taxed at the full voted millage rate.

*Projected % trends include renewal levies

1.030 - No Income Tax

Revenue collected from income tax earmarked specifically to support schools with a voter approved tax by residents of the school district; separate from federal, state and municipal income taxes.

The district does not have an income tax levy.

**Projected % trends include renewal levies*

1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

Unrestricted Grants-in-Aid accounts for 4.58% of District revenues.

Revenues are projected to reduce beginning FY22 due to changes from the new Fair School Funding Plan (FSFP) approved by the State legislature and Governor for the FY22/23 biennium. Expenditure reductions for open enrollment, community school, and Peterson Scholarship students residing in Revere but attending other educational options reflected in purchased services more than offset the State funding losses.

FY23 estimate increases slightly due to provisions in current law for the FSFP to increase transportation and preschool funding. FY24 to FY26 projects slight additional increases assuming some portion of the six-year phase-in of the FSFP continues in future State biennial budgets.

Casino revenues are included in this category.

1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted Grants-in-Aid accounts for .83% of District revenues.

Revenues are projected to remain flat for all forecast years. The FY22 amount is estimated to increase due to coding changes incorporated in the FSFP, as well as increases in catastrophic cost special education funding reimbursement allocations in the FY22/23 State budget.

1.050 - Property Tax Allocation

Includes funds received for Tangible Personal Property Tax Reimbursement, Electric Deregulation, Homestead and Rollback.

Property Tax Allocation accounts for 9.14% of District revenues.

This revenue source comes from homestead and rollback payments paid by the State on behalf of residential property tax owners. Residential, owner-occupied properties receive a 12.5% property tax reduction on existing tax levies, and residential, non-owner-occupied properties receive a 10.0% property tax reduction on existing tax levies, both of which are considered "rollback." The homestead payments made by the State help offset taxes for certain residential, owner-occupied properties wherein the owner meets certain age and income requirements. The substitute levy passed by Revere voters in November 2019 retains these payments from the State in same manner as the two emergency operating levies which were eliminated with passage of the substitute levy.

*Projected % trends include renewal levies

1.060 - All Other Operating Revenues

Operating revenue sources not included in other lines; examples include tuition, fees, earnings on investments, rentals, and donations.

All Other Operating Revenues accounts for 3.49% of District revenues.

This category is comprised of tuition, student fees, investment earnings, mobile home taxes, and payments in lieu of taxes for Village of Richfield development agreements.

2.070 - Total Other Financing Sources

Includes proceeds from sale of notes, state emergency loans and advancements, operating transfers-in, and all other financing sources like sale and loss of assets, and refund of prior year expenditures.

	2021	2022	FORECASTED			
			2023	2024	2025	2026
Transfers In	-	-	-	-	-	-
Advances In	362,000	400,000	250,000	100,000	100,000	175,000
All Other Financing Sources	302,037	21,316	2,100	2,100	2,100	2,100

Total Other Financing Sources accounts for 1.08% of District revenues.

This revenue source primarily accounts for the return of advances to other funds of the District. These revenues are simply a return of temporary "loans" for cash flow purposes to these other funds, thus there is an offsetting expense in the prior or current fiscal year, resulting in no gain or loss to the District.

Expenditure Categories and Forecast Year-Over-Year Projected Overview

Expenditure Categories Over Time

Year-Over-Year Dollar & Percentage Change

3-Year Historical Actual Average Annual Dollar Change Compared to 5-Year Projected

	Historical Average Annual \$\$ Change	Projected Average Annual \$\$ Change	Projected Compared to Historical Variance	Total expenditures are expected to decrease in FY22 from the November 2021 forecast estimate primarily due to reduced personnel (wages) and supplies. FY23 expenditures increase over the previous forecast is due to 2.25% wage increase (2% prior estimate), five additional teaching and one additional custodial positions (partially offset by staffing attrition savings), and 8.9% medical/prescription insurance premium increase (7% prior estimate). FY23 to FY26 total expenditures continue to rise primarily due to annual increases in salaries/fringes, in addition to 2% inflationary increases assumed in other categories. Purchased services estimated expenditures decline in FY22 due to changes in the FSFP for financial handling of open enrollment, community school, and Peterson Scholarship students residing in Revere but attending other educational options. These students are now funded directly to the attending institution, rather than funded and charged to the resident public school district. Special education services and out-of-district placement costs continue to increase in Purchased Services.
Salaries	\$386,006	\$847,499	\$461,493	
Benefits	\$74,683	\$520,591	\$445,908

Total Average Annual Change	\$788,529	\$1,436,373	\$647,843	
	2.09%	3.75%	1.66%	

Note: Revenue average annual change is projected to be > \$643,980

On an annual average basis, revenues are projected to grow slower than expenditures.

3.010 - Personnel Services

Employee salaries and wages, including extended time, severance pay, supplemental contracts, etc.

Personnel Services accounts for 55.35% of District expenditures.

2021/2022 school year staffing counts as of April 2022 are used as the basis for this forecast. All provisions of current negotiated agreements are included. Base and step/education increases of 2% and 1.8% respectively are included for FY24 and out years. FY23 base increase is 2.25%, with steps estimated at 1.8%.

Five additional teaching positions (3 elementary, 1 intervention specialist, and 1 high school social studies) and one additional custodial position are included for FY23. These additional costs are partially offset by staff attrition savings. Additional staffing changes are not included at this time for FY24 and out years of this forecast.

3.020 - Employees' Benefits

Retirement for all employees, Workers Compensation, early retirement incentives, Medicare, unemployment, pickup on pickup, and all health-related insurances.

Employees' Benefits accounts for 21.05% of District expenditures.

Insurance counts and premiums for April 2022 are used for the base cost calculations, as well as the FY22 salaries which drive the retirement/medicare/workers' compensation costs. Insurance costs for five teaching and one custodial positions being added in FY23 are included.

Medical and prescription insurance premiums increased 3.2% for FY22. Dental and vision premiums remain unchanged. All employees will incur 1% annual employee share premium increases in FY22, the fourth consecutive 1% annual increase.

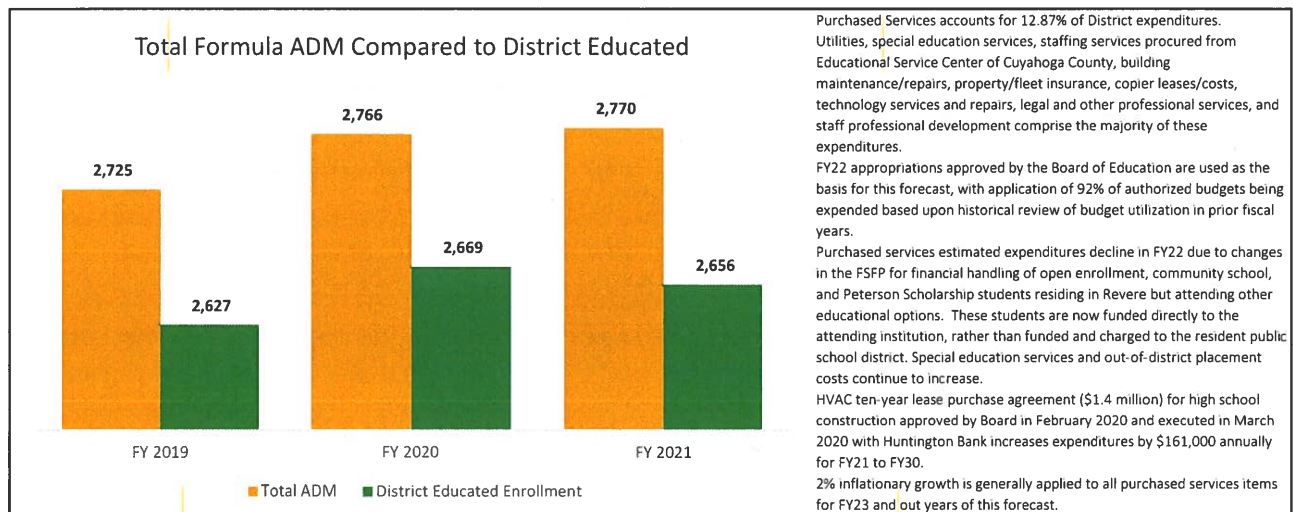

Medical and prescription insurance premiums will increase 8.9% in FY23. Dental is unchanged. Vision will increase 27.25%. Insurance premium increases of 7% are included for FY24 and out years.

Medical and prescription insurance premiums have changed as follows: FY22-8.9%, FY21 - 7.02%, FY20 - (2.0%), FY19 - 6.85%, and FY18 - 9.20%. Dental premiums increased by 2.0% for FY21, with no change for FY22.

All provisions of current negotiated agreements are included.

3.030 - Purchased Services

Amounts paid for personal services rendered by personnel who are not on the payroll of the school district, expenses for tuition paid to other districts, utilities costs and other services which the school district may purchase.

Purchased Services accounts for 12.87% of District expenditures. Utilities, special education services, staffing services procured from Educational Service Center of Cuyahoga County, building maintenance/repairs, property/fleet insurance, copier leases/costs, technology services and repairs, legal and other professional services, and staff professional development comprise the majority of these expenditures.

FY22 appropriations approved by the Board of Education are used as the basis for this forecast, with application of 92% of authorized budgets being expended based upon historical review of budget utilization in prior fiscal years.

Purchased services estimated expenditures decline in FY22 due to changes in the FSFP for financial handling of open enrollment, community school, and Peterson Scholarship students residing in Revere but attending other educational options. These students are now funded directly to the attending institution, rather than funded and charged to the resident public school district. Special education services and out-of-district placement costs continue to increase.

HVAC ten-year lease purchase agreement (\$1.4 million) for high school construction approved by Board in February 2020 and executed in March 2020 with Huntington Bank increases expenditures by \$161,000 annually for FY21 to FY30.

2% inflationary growth is generally applied to all purchased services items for FY23 and out years of this forecast.

3.040 - Supplies & Materials

Expenditures for general supplies, instructional materials including textbooks and media material, bus fuel and tires, and all other maintenance supplies.

Supplies & Materials accounts for 2.68% of District expenditures.

Textbooks, custodial and maintenance supplies, software, technology supplies, and paper and other building/office supplies comprise the majority of these expenditures.

FY22 appropriations approved by the Board of Education are used as the basis for this forecast, with application of 85% of authorized budgets being expended based upon historical review of budget utilization in prior fiscal years.

2% inflationary growth is generally applied to all supplies and materials items for FY23 and out years of this forecast.

3.050 - Capital Outlay

This line includes expenditures for items having at least a five-year life expectancy, such as land, buildings, improvements of grounds, equipment, computers/technology, furnishings, and buses.

Capital Outlay accounts for 0.63% of District expenditures.

Equipment for technology and other instructional uses, custodial/maintenance, security, and transportation comprises the majority of these expenditures.

FY22 appropriations approved by the Board of Education are used as the basis for this forecast, with application of 94% of authorized budgets being expended based upon historical review of budget utilization in prior fiscal years.

This category is increased in FY21 due to technology equipment needs for ipads for 1:1 kindergarten usage in light of covid-19 pandemic and increased student enrollment.

2% inflationary growth is generally applied to all capital outlay items for FY23 and out years of this forecast.

3.060-4.060 - Intergovernmental & Debt

These lines account for pass through payments, as well as monies received by a district on behalf of another governmental entity, plus principal and interest payments for general fund borrowing.

Intergovernmental & Debt accounts for .55% of District expenditures.

The District completed a House Bill 264 energy conservation project in various buildings, and the debt repayment from operational savings from reduced energy consumption occurs in this category. The District is obligated for a \$215,000 annual principal payment, and estimated annual interest of \$10,000, until December 1, 2026 (FY27). Payments for FY27 and FY26 will be eliminated and/or reduced due to investment of these annual principal funds in a "sinking fund" for debt retirement for the 15-year time period.

4.300 - Other Objects

Primary components for this expenditure line are membership dues and fees, ESC contract deductions, County Auditor/Treasurer fees, audit expenses, and election expenses.

Other Objects accounts for 1.73% of District expenditures.

FY22 appropriations approved by the Board of Education are used as the basis for this forecast, with application of 93% of authorized budgets being expended based upon historical review of budget utilization in prior fiscal years.

Tax collection fees charged by Summit County, liability insurance, and memberships comprise the majority of these expenditures. As tax collections continue to increase due to valuation growth from new construction, these fees will increase.

2% inflationary growth is generally applied to all other objects items for FY23 and out years of this forecast.

5.040 - Total Other Financing Uses

Operating transfers-out, advances out to other funds, and all other general fund financing uses.

	2021	2022	2023	FORECASTED		
				2024	2025	2026
Transfers Out	269,106	1,827,281	538,300	608,400	608,500	683,600
Advances Out	400,000	250,000	100,000	100,000	175,000	200,000
Other Financing Uses	-	-	-	-	-	-

Total Other Financing Uses accounts for 5.14% of District expenditures. Advances and transfers to food services and athletics are recorded in this category. Advances are simply a temporary "loan" for cash flow purposes to these other funds, thus there is offsetting revenue in the current or subsequent fiscal year, resulting in no gain or loss to the District. These amounts are \$250,000 and \$150,000 in FY21 due to pandemic-related cash flow and revenue loss issues. Transfers are permanent allocations of resources to the receiving funds, used to help offset operating costs. Transfers will be made in the next fiscal year to only provide funding for the actual operating deficit from the prior fiscal year. Estimates for annual transfers to food services and athletics are typically \$150,000 and \$100,000; however, these amounts are reduced due to covid pandemic financial assistance received by these two programs in FY22. This represents general fund savings for the District. For FY23, the transfer amount to athletics is estimated at \$30,000 and \$0 for food services. FY24 and FY25 includes \$100,000 for athletics and \$0 for food services. FY26 includes \$100,000 for athletics and \$75,000 for food services.

FY22 transfer amount includes: \$1,000,000 for Richfield Elementary School parking lot replacement; \$200,000 for technology needs including classroom technology upgrades at Richfield ES and Revere MS to mirror state-of-the-art equipment at Bath ES and Revere HS, STEM, robotics, AP computer science, and 1:1 technology replacements/additions; \$300,000 for roof repairs needed at Richfield ES and Revere MS. The technology and roof amounts are continued in FY23 to FY26.
