## DECEMBER 20, 2023

### LOST & FOUND

Our lost and found is overflowing. Ms. Julie, from the front office, has taken time to organize everything so you can quickly see what is there. Please take a moment to check for any lost or missing items so your child will have their coats, gloves, and hats, for break.

Items left will be donated on 1/12/2024

### CHARACTER

In January, we will begin teaching the character trait, fairness. Some topics students will learn about will be playing by the rules, taking turns, sharing, being open-minded, and to treat all people fairly.

Our students had an eventful week last week. We had the opportunity to see three wonderful concerts. Our 1st grade students presented their annual concert that showcased traditions around the world. They did such an amazing job and it was fun to see their personalities shine through the performance. We were also privileged to have our 5th and 6th grade choir, band, and orchestra performance.

It is fabulous to see the skills they are developing during music class. Many of our classes were also able to walk to Clayton Middle School for a special performance by their music department.

This week our students and families stepped up to demonstrate we are accepting of all and will treat each other with dignity and respect. Thank you again for your support.

### IMPORTANT DATES

December 20th - Short Day - Please pick up students at 12:50 PM

December 20th - No After Care Program

January 4th - Return to School

January 4th & 5th - No After Care Program

January 15th - No School

January 19th - PTO Meeting 1:00 PM

## ELECTRONICS PROTOCOL

In a recent School Community Council meeting, I presented information on how to keep students safe while using technology. This same information was presented to our faculty. In each meeting, parents and teachers expressed a strong desire to create a safer technology environment at Bonneville.

There were several issues brought up during these meetings for regarding phones and smart watches. It included disruptions in the instructional setting, reports of students taking pictures or videos of other students, and inappropriate use of personal devices in the bathroom or on the playground. Parents and teachers have asked for more enforcement of the S-ll policy, to address these concerns.

To support student safety and the instructional environment we will be implementing the following procedures when we return to school in January.

1. We are asking that parents do not send phones or smart watches to school with their children. While board policy states students may have electronic devices in their possession during the regular school day, it also states devices must remain out of sight during instructional time AND be turned off OR on silent mode. As such, any student who brings an electronic device to school will be asked to leave it in their locker and turned OFF during the day. Please remember, students who bring personal devices to school do so at their own risk and the school is not responsible for personal devices.
2. Violations of this procedure will result in the following actions:
  - a. First time, teachers will remind the student to place the device in their locker and to not take it back out.
  - b. Second time, teachers will keep the device for the remainder of the day and return to the student at the end of the day.
  - c. Third time, teachers will keep the device for the remainder of the day and the student's caregiver will be notified. Device will be given back to the student at the end of the day.
  - d. Fourth time, teachers will turn the device into the office where a caregiver will be required to pick it up.
3. Exceptions may be made for students with extenuating health circumstances. Please contact an administrator if this might apply to your child.
4. If you need to contact your child during the school day please call the school at 801-584-2913.

LIFELINES SUICIDE PREVENTION

# VIRTUAL INFO SESSION

5TH & 6TH GRADE PARENTS AND  
CAREGIVERS ARE ENCOURAGED TO
