

Gahanna-Jefferson Public Schools  
Request For Proposals  
Classroom Technology and Services

Prepared By: The Department of Technology

January, 2024

## Introduction

Gahanna-Jefferson Public Schools is requesting quotes for classroom technology equipment and installation. The District has settled on a standard classroom equipment list and configuration and is not looking for alternative hardware. The equipment is to be installed at three school buildings. The District is also seeking installation and and removal services at two of these buildings.

The District reserves the right to split the equipment purchase among vendors. Vendors may quote some or all of the requested equipment and services. All vendors submitting quotes for the services portion must provide three references from Ohio school districts.

## Services

Please provide pricing for each service on a per-classroom basis.

### Obsolete Technology Removal

- Remove ceiling or wall mounted projector, screen/smart board/TV, and mounting brackets (exact equipment varies by room).
- Place obsolete equipment in District-designated collection area.
- Replace ceiling tile if needed in place of the removed projector. The District will provide the ceiling tile.
- Remove surface mounted raceway and the AV cabling within. Preserve the ethernet drops for relocation.

### Equipment Installation

District staff will work with the selected vendor in an example classroom to establish the standards for installation, configuration, location, and wiring of all components.

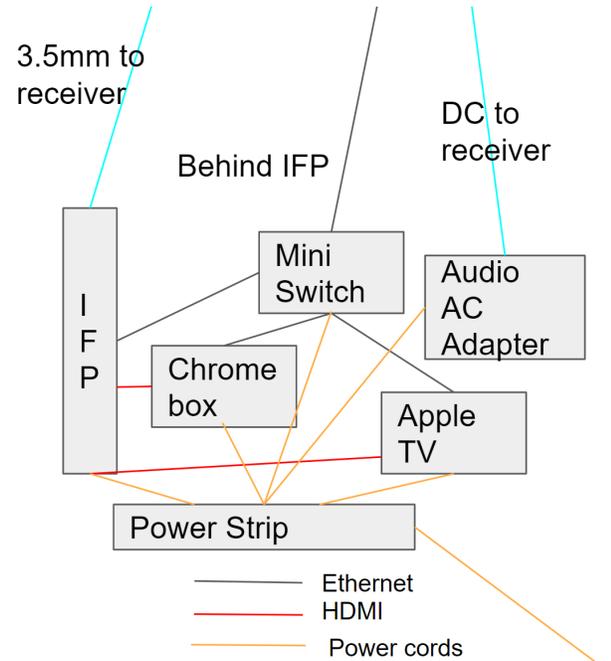

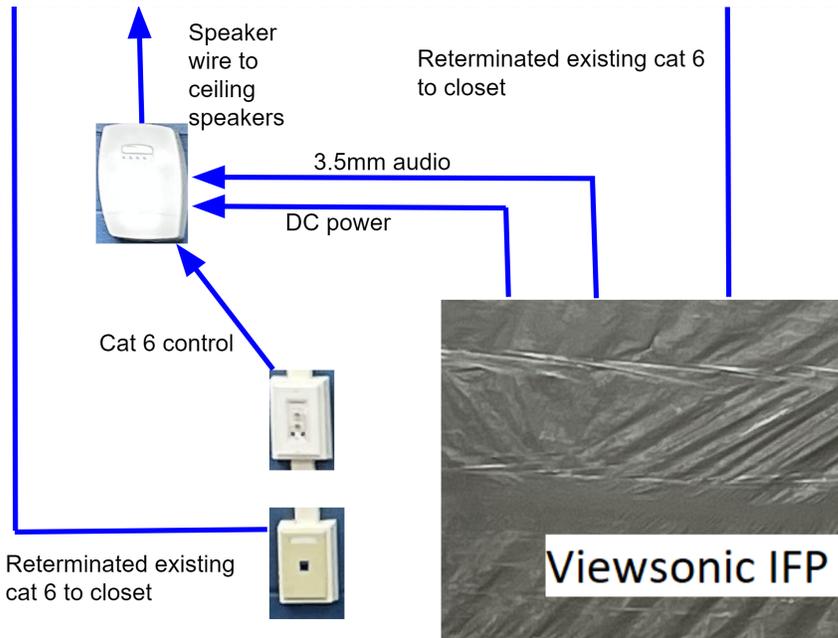

- Install Chief OB1U mount, Viewsonic flat mount, or trolley cart; Chromebox Bracket and Apple TV bracket.
- Install new plastic raceway from ceiling to the IFP mounting location.
- Reterminate and relocate existing ethernet drop to IFP mounting location if needed.
- Install Audio Enhancement wall-mount receiver.
- Install new plastic raceway from ceiling to receiver.
- Install Audio Enhancement ceiling speakers.
- Install new surface-mount wall boxes for Audio Enhancement wall plate and ethernet connection.
- Relocate and reterminate existing ethernet drop in wall box for phone.
- Install Audio Enhancement Wall plate in wall box
- Install new plastic raceway from ceiling to receiver and from the receiver to the wall box.
- Run 3.5mm stereo audio cable from IFP location to receiver.
- Install the IFP onto the Chief mount
- Connect all cabling, including speaker wire, HDMI patch cords, 3.5mm audio, ethernet patch cords, and power. District will provide patch cords and mini ethernet switch.

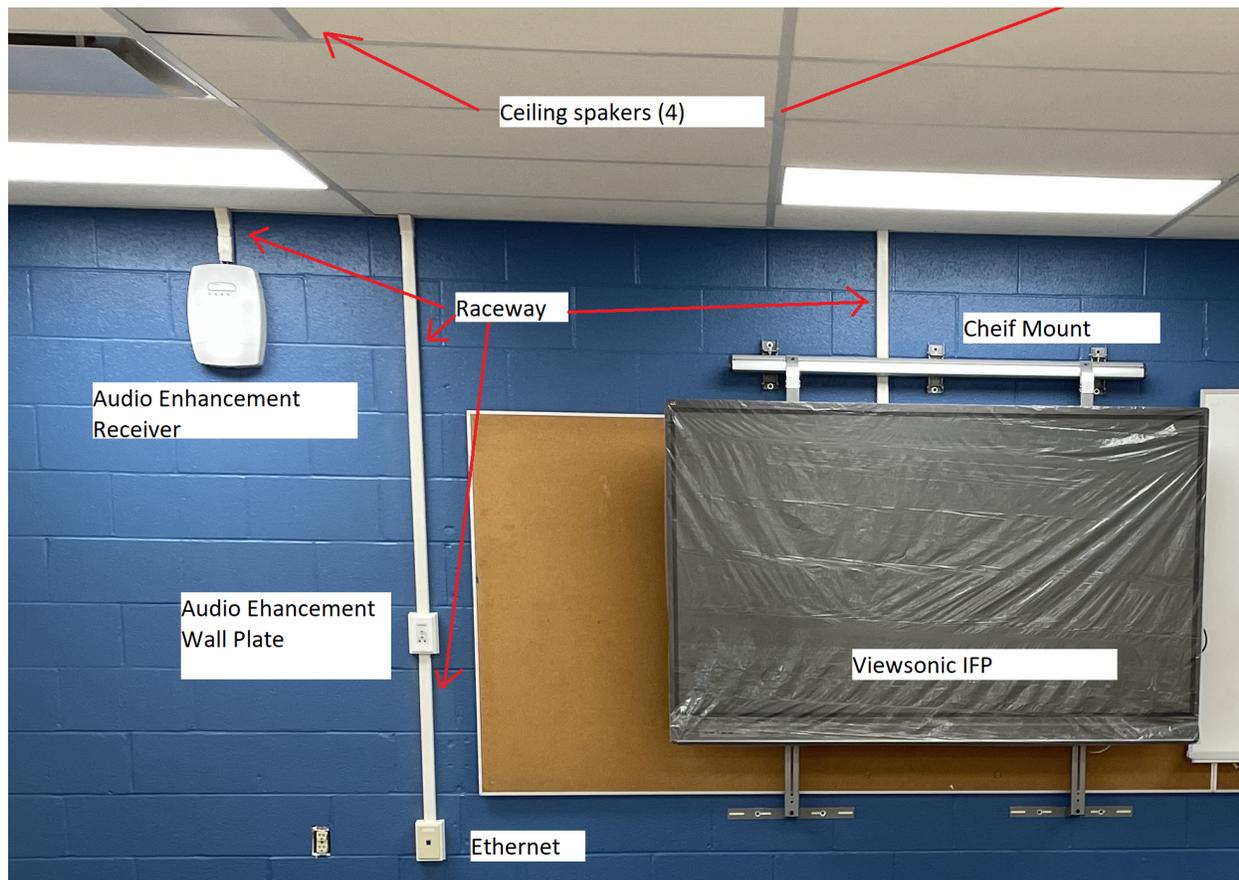

- Secure all cabling behind the IFP in a neat and orderly fashion using velcro cable ties.
- Vendor to provide all raceway (approx 8 ft per room), wall boxes (1 per room), ethernet jacks (2 per room), ethernet wall plates (1 per room), cable management supplies, and any necessary wall anchors and screws.
- All raceway and boxes are to be anchored to the wall

### Ethernet Drops

Some rooms may require that a new ethernet drop be installed to the nearest technology closet. The District will provide the patch panel and patch cables. The vendor should provide the bulk cable and jacks. Please quote this per-drop. The number of drops needed is unknown.
