Members, Board of Education and Citizens Rockwood School District St. Louis County, Missouri

The Annual Comprehensive Financial Report (ACFR) of the Rockwood R-VI School District (the District), St. Louis County, Missouri, for the fiscal year ended June 30, 2023, is presented on the following pages. The District is governed by an elected seven member Board of Education (the Board). The Board is the basic level of government, which has financial accountability and control over all activities related to K-12 public school education within the District. The Board is not included in any other governmental reporting entity, as defined by Governmental Accounting Standards Board (GASB) pronouncements, since Board members are elected by the public and have decision making authority and primary accountability for fiscal matters. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe that data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds; and that all disclosures necessary to enable the reader of the statements to gain a full understanding of the District's financial status have been incorporated in the Report.

The report has been prepared by the District's Finance Department following the requirements and guidelines contained in the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>. The District's activities and funds are all presented in this report and have been audited by the District's Certified Public Accountants, Kerber, Eck & Braeckel LLP, who rendered an unmodified opinion for the District again this year.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Managements' Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A follows the independent auditors' report.

The District

History

The District began with the opening of Eureka High School in 1908. It was the first four-year high school in St. Louis County west of Kirkwood. The District, in its present form, was created on October 29, 1949 by a merger of 26 districts. The name was changed from Reorganized School District No. R-VI of St. Louis County, Missouri to Rockwood R-VI School District, St. Louis County, Missouri in April 1964. The District includes 150-square miles located in southwest St. Louis County and a small section of northern Jefferson County. The District is the largest public school in St. Louis County and geographically the District represents approximately 30% of St. Louis County. It encompasses all or parts of twenty communities including Ballwin, Chesterfield, Ellisville, Eureka, Fenton, Manchester and Wildwood. According to the 2020 Census, this represents approximately 156,223 residents in 59,967 households. The chart below summarizes the District's enrollment history over a 10 year period.

	Resident	VICC	Total
2013-14	19,894	1,604	21,498
2014-15	19,756	1,556	21,312
2015-16	19,485	1,541	21,026
2016-17	19,309	1,544	20,853
2017-18	19,396	1,465	20,861
2018-19	19,398	1,396	20,794
2019-20	19,647	1,265	20,912
2020-21	18,962	1,163	20,125
2021-22	19,190	1,096	20,286
2022-23	18,922	964	19,886

The District has experienced slight enrollment reductions in total over the last 10 years; however, the District was realizing residential enrollment growth beginning with the 2017-18 school year through the 2019-20 school year. This is attributable to new families moving and residential growth within the District. As noted in the above chart our 2020-21 enrollment did decrease as a result of the COVID-19 pandemic and although we experienced a small enrollment increase in 2021-22 as we returned to in-person learning, our 2022-23 enrollment decreased by 400 students. Our current enrollment projection for 2023-24 is 19,631 students, a decrease of 255 students. Annually the District updates our enrollment projections based on the current year September membership counts as well as any residential development or construction occurring within our boundaries. Based on our current enrollment figures our enrollment forecasting reflects the District's enrollment continuing to decrease through the 2027-28 school year.

General

The Rockwood School District continues to be a leader in the field of public education. Rockwood students are renowned for their achievements. The 2022-23 school year has reinforced the bedrock principles that make the Rockwood School District a special place to learn and grow. The school district's 34 schools and supporting programs collectively make up one of the highest performing school districts in the country. The following are some of the highlights of academic achievement in Rockwood.

- On the ACT, Rockwood students average a composite score of 23.2, outperforming the state average of 20.3 and national average of 19.8
- Rockwood students are performing at high levels in the content areas of Reading, Language Arts, Mathematics, Science and Social Studies on state assessment tests.
- Rockwood earned a 98.2 percent overall score on the Annual Performance Report (APR) released by DESE in its latest cycle
- Advanced Placement (AP) results shows 85% of students in Rockwood have scores of 3 or higher.
- The graduation rate for Rockwood students is 96.5% compared to the state average of 89.7%
- All four Rockwood high schools earned the Distinguished School designation by Project Lead the Way and are among 197 schools around the nation and 26 from Missouri.
- All four Rockwood high schools were named "Best High School" by the U.S. News and World Report.
- There were 30 Rockwood high school seniors that earned their associate degree at the same time as their high school diploma through the Early College Partnership, a joint venture with St. Louis Community College-Wildwood.
- The Transportation department earned the Exemplary School Bus Maintenance Award from the Missouri Department of Elementary and Secondary Education (DESE) as well as the Missouri Highway Patrol's "Fleet of Excellence Award"
- Rockwood earned "National District of Character" distinction and has a total of 21 National Schools of Character and 22 Missouri Schools of Character.
- Ridge Meadows and Wildhorse Elementary School's and Rockwood Valley and Selvidge Middle School's each earned Promising Practices Awards from Character.org which recognizes schools and districts for their innovative practices in the area of character education
- Three Rockwood Educators each received a 2022 Emerson Excellence in Teaching Award
- The United States Department of Education's "Blue Ribbon List" includes eleven Rockwood schools, and Missouri's "Gold Star" list includes fifteen Rockwood schools.

Learn more about the District with our <u>annual report</u> to the Community:

Rockwood has been one of Missouri's and St. Louis County's largest school districts. There were 19,886 students enrolled including our Special School District students. The District serves this student body in twenty elementary facilities (including a Center for Creative Learning), six middle schools (grades 6-8) and four high schools. The average age of our building is 47 years old with the oldest building being built in 1938 and our most recent building addition in 2019.

The District's nearly 3,500 teachers and staff members are dedicated to the same mission: We do whatever it takes to ensure all students realize their potential and prioritize the physical safety and mental and social-emotional health of our students through a multi-tiered system of support. We keep our focus on our students' education through cultivating positive, respectful relationships that build a solid foundation for learning.

Approximately 84% of the District's teachers hold advanced degrees and currently 162 teachers have earned their National Board Certification. The District encourages its staff to further their education by offering college class tuition reimbursement. The current budget includes \$350,000 for teacher assistance and \$50,000 to assist nurses, administrators and support staff professional development endeavors.

The District is governed by the Board of Education, whose membership is elected for staggered three-year terms of office. The Board is a policy-making body whose primary function is to establish policies for the District, provide for the general operation and personnel of the District and to safeguard the assets of the District.

The District's programs cover the spectrum from birth to senior citizens. A Parents as Teachers program offers services to prospective and new parents in skills related to child development and better parenting. Special programs exist at all levels for students with special needs ranging from talented and gifted to modified programs and special instruction. Rockwood, like the other districts of St. Louis County, has intervention for its students with special needs from the Special School District of St. Louis County (SSD). The majority of the special needs children are served on the District's campuses while certain limited cases are served on the SSD campus.

The District responds to the needs of students who are culturally different, at risk of educational failure, bilingual or have special needs by providing a broad spectrum of programs, services and resources. The District has received national recognition for both the successful Talented and Gifted program and the exemplary Community Education program. Also recognized are the Partners in Education program with local corporate sponsors. The District's high schools offer numerous Advanced Placement and College Credit courses to prepare the graduating student to enter either college or the working world.

These initiatives and investments in enrichment of the full curriculum with emphasis on acceleration and differentiation result in the District's students experiencing a high level of achievement. Students continue to score above state and national norms on achievement tests.

The percentage of District students going on to post-secondary education is 87.0% (2021-2022). To ensure that District students receive the individualized educational experiences necessary, the average building level pupil-teacher ratios is 17:1. Curriculum study and writing is a continuous improvement process. Each curriculum document is reviewed on an annual basis and is revised and updated (in-depth year) on a six-year cycle via approval of the Board of Education.

Rockwood transitioned to a district operated transportation system in the 2016-17 school year and provided transportation for resident students to and from school and on school district sponsored activity trips. Due to driver shortages the District has reduced the number of routes the last couple years but we still provide transportation services for a daily average of 9,708 resident students.

The District participates in a Voluntary Transfer Student (VTS) program in which St. Louis City resident students volunteer to transfer to the District's schools. The program is phasing out per State law; however, in our September 2022 official student count, this K-12 program represents 964 of our 19,886 students or about 4.8% of the population.

Accounting System and Budgetary Control

The District's accounting system for governmental funds reflects the modified accrual basis of accounting. At the end of the year, the governmental funds are converted from the modified accrual basis to the accrual basis for presentation in district-wide financial statements. In developing the accounting system, consideration has been given to the adequacy of internal accounting controls. Internal controls are designed to provide reasonable but not absolute assurance regarding the safekeeping of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of those controls should not exceed the benefits and the evaluation of costs and benefits requires estimates and judgements by management. The District believes the internal controls over our accounting system adequately safeguards our assets and provides reasonable assurance of proper recording of financial transactions.

The District's accounting system is organized on the basis of funds, each of which is considered its own entity. The District follows Missouri State Statutes in establishing budgetary data (Chapter 67, RSMo) for each major fund of the political subdivision. The District considers four funds (General, Special Revenue-Teachers', Debt Service and Capital Projects) as major. Changes in the overall revenue and expenditure of a fund's budget require full disclosure and Board resolution for approval. The Board receives a monthly financial report which summarizes the financial activities of the District's operating, debt service and self-sustaining funds. The District is not a component unit of another report entity.

Economic Condition

St. Louis County is the largest county in the State of Missouri and the major contributor to the economy of the state and the twelve-county metropolitan area with approximately one million residents. The service sector continues to show the largest job growth in the County. The areas of medical, bio-technical, business and technology services are expected to provide long term employment growth in the County as manufacturing jobs continue to decline. The District is located in Southwest St. Louis County and residents have full access to the large and diverse employment base in the AAA rated St. Louis County.

The four major revenue sources for the District are local property taxes, state foundation formula, voluntary transfer student (desegregation) aid and sales taxes and make up 83% of the District's total revenue. Local property taxes represent approximately 66% of the District's operating revenue budget.

The past three school years the District has navigated through the uncertainty of the COVID-19 pandemic both from an educational and financial setting. The District is carrying the strongest financial position in years as our students continue to excel in the classroom with the support of our amazing staff. From a financial perspective the District's overall current and future financial outlook is based on the following significant factors:

- Local assessed valuation continues to be strong (currently \$4.6 billion) and has increased over 29% the last six years
- Collections on current and delinquent taxes continue to match our budget and forecasted amounts
- State Basic Formula and Transportation is fully funded
- Local sales tax collections continued to be strong and increased 6% in the 2022-23 school year
- Receipt of one-time federal ESSER funds is allowing for key intervention programs for our students, providing students and staff with social, emotional and mental health assistance and addressing certain one-time air quality projects at our buildings

- Ability to offer strong salary commitments in the 2023-24 school year and contribute to the selfinsurance medical fund
- Addition of new safety initiatives including the hiring of four safety resource officers
- Adjustments to the expenditure budget for certain costs increases being experienced due to inflation or other economic situations, such as utilities and fuel
- Bond issue funds have been fully spent or allocated and in November 2023 our Community supported
 Proposition 3 that will allow the District to transition a portion of our debt service levy to capital
 projects providing an ongoing revenue source to address annual safety, technology and facility
 maintenance items

From a debt management standpoint, the District had outstanding long-term general obligation of \$119.5 million. The District continues to be a responsible steward of our community and we enjoy a bond rating among the highest in the nation - AAA. Rockwood is one of four school districts in the State of Missouri with this distinction.

Current Initiatives

In Rockwood, we are striving to reach higher levels of excellence in order to meet the needs of our students and their learning. Our strategic plan (2019-2024), The Way Forward, represents our commitment to every child, every family and every employee of the Rockwood School District. The District's mission, vision and core values were defined through this movement.

Mission Statement: We do whatever it takes to ensure all students realize their potential

Vision: Every student loves life and finds success

Core Values: Affirm what we stand for and how we treat each other. These values define who we are as a school district – individually and collectively.

At the core of the Way Forward is the fundamental belief that we are all unique and gifted with a wide variety of skills, interests and talents. We learn in different ways and need support and opportunities to grow, learn and reach our highest potential. The District's goals and strategies outlined in our plan represent the priorities and major initiatives in the following areas:

- 1. Student success
- 2. Safe and Caring Schools
- 3. Extraordinary People
- 4. Customized Supports
- 5. Leadership

The Way Forward will take us through the 2024-25 school year. Our strategic direction will not change over time, but tactics may change as we learn, monitor and grow. Innovations will emerge from schools over time in response to their own unique improvement needs. The budget is structured to support the goals of our strategic plan.

Significant Board Policies

The District has entered into agreements with the Rockwood National Education Association, the Rockwood Custodial Education Association, the Rockwood Association of Nurses and the Transportation Local 610. Each of these agreements dictates the work environment and compensation for the members of each organization.

In March 2022, the Board of Education approved a negotiated current agreement with the Rockwood National Educational Association through the 2024-25 school year. The District has entered into agreements with the Rockwood Custodial Education Association (RCEA), the Rockwood Association of Nurses (RAN) and the Rockwood Association of Social Workers (RASW). Each agreement dictates the work environment and compensation for the members of the each organization. The agreement with the RCEA is through the 2025-26 school year, RAN through the 2024-25 school year, the RASW through the 2023-24 school year and the Transportation Local 610 through the 2024-25 school year.

Independent Audit

The Revised Statutes of the State of Missouri and the Board policies of the District require an audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants that are selected by the District's Board of Education. This requirement has been complied with and the auditors' unmodified opinion is included in this report.

Financial Reporting Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Rockwood School District for its annual comprehensive financial report for the fiscal year ended June 30, 2022. This was the eighteenth year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has been awarded the Association of School Business Officials International (ASBOi) Certificate of Excellence in Financial Reporting (CAFR) for the years ended June 30, 2004 - 2022. The District will also submit this 2023 financial report for that coveted award. The District also participates in ASBO International's Meritorious Budget Award (MBA) Program. For the past twenty-four years, the District has applied for and received the prestigious award for excellence in budgeting.

The Rockwood School District is the only school district in the State of Missouri to hold the distinction of earning a AAA rating, receiving the excellence in financial reporting awards from the GFOA and ASBOi as well as the MBA award from ASBOi.

Closing Statement

It is the District's intention that this Annual Comprehensive Financial Report will provide the District's management, parents and other interested patrons, outside investors and the local business community with the most meaningful financial presentation possible. In this report we intend to provide all readers a clear and concise picture of the District's financial condition as of June 30, 2023.

Rockwood School District is an award-winning district with exemplary students, staff and resources. We are thankful for the loyalty and support of our taxpayers, the vision of the Board of Education, the dedication and hard work of fellow employees and the success of our students. In return, we promise to thoughtfully and prudently spend the funds entrusted to us especially during these unprecedented times to ensure all students in our District realize their potential.

Respectfully submitted,

Dr. Curtis Cain Superintendent of Schools Ms. Cyndee Byous, SFO, CPA Chief Financial Officer Mr. Dan Steinbruegge, SFO, CPA Director of Finance

ROCKWOOD R-VI SCHOOL DISTRICT BOARD OF EDUCATION 2023/24

Jaime Bayes, President, Jaime Bayes was sworn into the Rockwood Board of Education in 2015. She holds a bachelor and master's degree in Education from Saint Louis University. Her family has lived in Rockwood for the past seven years and her two school-age children attend Rockwood Schools. She and her husband, Matt, also have a young child at home.

During her time in Rockwood she has been active as PTO Co-President, VP of Caring Schools Community, Co-Vice President of President's Forum, Girls on the Run coach, and has served on many other committees and forums in her children's schools as well as the district.

Lynne Midyett, Vice President, was appointed to the Rockwood Board of Education in June 2016. She has a history of service in public education, including her work as the former Assistant Superintendent of Partner Districts with Special School District. She began her career as a special education teacher serving Rockwood students. Ms. Midyett earned her master's degree in Special Education and her certification in Educational Administration. Her family has lived in Rockwood for many years, and her children graduated from Marquette High School. She currently has a grandchild attending Kehrs Mill Elementary School.

Karen (Kary) Bachert, Director, was elected to the Rockwood Board of Education in 2023. She is a lifelong resident of the Rockwood School District, attending Westridge, Selvidge, and Lafayette. A Mizzou graduate with an elementary education degree and masters degree in educational administration from UMSL, Kary taught in Rockwood from 1995-2006 at Crestview, Wild Horse and Kehrs Mill. She received teacher of the year honors twice. Kary currently works for the American Heart Association. Kary and her husband of 21 years, Jason (Lafayette '91) have two boys: Brady (Eureka '21) and Bennett (EHS Sophomore). Bachert has volunteered in the district for more than 15 years, and she currently works for the American Heart Association.

Robert (Bob) Cadigan, Director, was elected to the Board in 2023. He has nearly 30 years of corporate leadership experience in positions ranging from manager to vice president. He graduated with a bachelor of science from the United States Military Academy at West Point. He left the Army as a captain after 11 years of service and earned a Master of Business Administration from the University of Kansas. He has lived in the St. Louis area for 25 years, with the last six years in Rockwood. He has two children who have graduated from college and is married to a Rockwood educator who has two children currently enrolled in Rockwood schools.

Jessica Clark, Director, has four daughters who attend Rockwood schools. She hosts a daily radio show and has a background in banking. Her most recent role was as an operations analyst in a major financial institution's Global Wealth and Investment Management Department.

Izzy Imig, Director, was elected to the Rockwood Board of Education in 2022. She was born and educated in Baghdad, Iraq and served as an Arabic translator for the U.S. Army as well as Fortune 500 companies. She has three daughters enrolled in Rockwood schools, has volunteered and served on multiple committees, and currently serves as vice president of events for the Babler PTO. She also coaches basketball through Community Ed and volunteers through Rockwood's Partners in Education (PIE) to speak with students about her personal story. "Growing up in a Third World country, education played a huge role and how I survived three wars," says Izzy. "I hope my story will inspire students to realize the unlimited opportunities we have in America."

Tamara Jo Rhomberg, Director, is a 40 plus year resident of the Rockwood School District with two children and two grandchildren who have graduated from Rockwood Schools. As a mother, a grandmother, and a great grandmother, education remains front and center as her focus.

With 50 years in education – a bachelor's degree in Elementary Education from Southeast Missouri State University, and a masters in Educational Process from Maryville University- Ms. Rhomberg's educational experience covers a wide range of roles and positions - 6 years in second grade in the Lindbergh School District, 10 years as a reading specialist at Kellison Elementary, 13 years as language arts/ intervention coordinator, OASIS coordinator and Title I coordinator in the Rockwood School District. After retiring from education, Ms. Rhomberg joined Zaner-Bloser Publishing as a National Literacy Consultant and for 6 years traveled the United States delivering professional development to educators of all levels. Ms. Rhomberg continues to support educators as an adjunct professor at Webster University where she teaches undergraduate/ graduate reading courses.

Ms. Rhomberg is an active member of various professional organizations including the International Literacy Association and currently serves on the St. Louis Suburban Reading Council as a director and is the Missouri Literacy Association president. During the 2017-2018 school year she served as an appointed director on the Rockwood School District Board of Education. Her long term educational opportunities and her district historical perspectives provide her with the knowledge, training, and experience to make complex decisions affecting Rockwood students, staff, parents, and patrons.

Board of Education Rockwood R-VI School District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Rockwood R-VI School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Rockwood R-VI School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Rockwood R-VI School District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Rockwood R-VI School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rockwood R-VI School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Rockwood R-VI School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rockwood R-VI School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial

statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Rockwood R-VI School District's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditors' report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2023 on our consideration of the Rockwood R-VI School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Rockwood R-VI School District's internal control over financial reporting and compliance.

ROCKWOOD SCHOOL DISTRICT St. Louis County, Missouri MANAGEMENT'S DISCUSSION AND ANALYSIS THE YEAR ENDED JUNE 30, 2023 (UNAUDITED)

The Management's Discussion and Analysis (MD&A) of Rockwood School District's (District) financial performance provides a comprehensive overview of the District's financial activities and the results of operations for the fiscal year ended June 30, 2023. Readers of the District statements, including this MD&A, are encouraged to review the notes to the basic financial statements to enhance their understanding of the District's financial performance.

The MD&A is provided at the beginning of the Annual Comprehensive Financial Report (ACFR) to communicate the past and current position of the District's financial condition.

Financial Highlights

The key government-wide financial highlights for fiscal year 2022-23 are as follows:

At the government-wide level, the total net position was \$159.1 million at June 30, 2023 compared to a total net position of \$118.0 million at June 30, 2022 for an increase of \$41.1 million:

	(ded	crease crease) nillions
Net investment in capital assets Restricted for debt service Restricted for certificated employees' compensation and benefits Unrestricted	\$	19.3 (0.9) 3.4 19.3
Total increase at June 30, 2023	\$	41.1

(continued)

- Net investments in capital assets increased \$19.3 million due to a combination of capital assets
 net of depreciation decreasing \$9.2 million while the outstanding bonds payable issued for
 capital assets was reduced by \$28.4 million this year. The reduction of bonds payable results
 in an overall increase in our net investments in capital assets.
- The net position restricted for debt service decreased \$0.9 million. Since the tax collections raised in debt service is solely used to pay for principal and interest on our outstanding general obligation debt, the amount restricted for debt service will fluctuate from year to year based on the collection of taxes offset by the maturity schedule of our outstanding bonds.
- Net position restricted for certificated employees' compensation and benefits increased \$3.4 million is attributed to strong revenue collections from local assessed taxes as our collection rate was 97.8% compared to the budgeted 97.0% in fiscal year 2022-23. In addition to the collection rate on current taxes, collections from delinquent taxes increased \$1.3 million overall in 2022-23 compared to 2021-22. The District also allocates Prop C funding from the State to this fund and for the 2022-23 school year, Prop C revenue increased \$1.3 million.
- Unrestricted net position increased \$19.3 million as our total change in governmental funds increased \$9.0 million. The total unrestricted net position was also impacted by the net changes in other post-employment and pension benefits that will be described below.

Total assets and deferred outflows increased \$6.5 million in fiscal year 2022-23 compared to fiscal year 2021-22 as summarized by the table below:

	(dec	rease rease) illions
Cash and investments (restricted and unrestricted) Taxes, other receivables and prepaids Capital assets - net of depreciation Deferred pension outflow	\$	9.1 2.2 (9.2) 4.4
Total increase at June 30, 2023	\$	6.5

- Unrestricted cash and investments increased \$11.8 million in fiscal year 2022-23 compared to fiscal year 2021-22 as our operating revenues exceeded our operating expenditures which is further explained in our other financial highlights below. The increase in unrestricted cash and investments is offset by the \$2.7 million decrease in restricted cash as the District spent \$4.0 million in 2017 bond issues funds for various projects in 2022-23 while increasing cash \$1.3 million in the District's self-insurance plan to address rising medical and pharmacy claims.
- Taxes receivable from local property and sales taxes increased \$2.2 million as local assessed valuations increased 3.0% providing \$5.8 million additional revenue and Prop C sales tax collections from the State increasing 6.0% in fiscal year 2022-23 compared to fiscal year 2021-22.
- Capital assets had an overall \$9.2 million decrease in fiscal year 2022-23 compared to the prior year. The District spent \$5.6 million on construction in progress, building and land improvements and machinery, equipment and vehicles. This is offset by \$14.1 million in current year depreciation on District capital assets.

(continued)

• Deferred outflows of resources related to pensions increased \$4.4 million which is calculated by the Public School Retirement System of Missouri. These changes are referenced in footnote G.

Incress

Total liabilities and deferred inflows of resources decreased \$34.7 million in fiscal year 2022-23 compared to fiscal year 2021-22 as summarized by the table below:

		(decrease) in millions				
Accounts payable and other current liabilities	\$	(0.8)				
Medical and dental benefits payable		1.3				
Unearned revenue		0.7				
Noncurrent liabilities due within one year		(2.3)				
Net pension liability		155.9				
OPEB liability		2.5				
Other noncurrent liabilities due more than one year		(30.9)				
Pension deferred inflows of resources		(158.1)				
OPEB related deferred inflows of resources		(3.0)				
Total decrease at June 30, 2023	\$	(34.7)				

- Accounts payable and other current liabilities decreased \$0.8 million and is mainly attributed to a
 decrease in our capital projects fund accounts payable. Medical and dental benefits payable increased
 \$1.3 million as the District is experiencing a 9.5% increase in medical costs.
- Unearned revenue increased \$0.7 million which is related to the timing of grant reimbursements for allowable expenditures outside of our revenue recognition policy.
- The \$2.3 million decrease in noncurrent liabilities and \$30.9 million decrease in other noncurrent liabilities is based on the District's maturity schedule on the remaining principal payments on our outstanding general obligation bonds and capital leases. The District paid off an additional \$28.4 million in general obligation bonds and \$2.7 million in principal on our capital leases.
- The net pension liability increase of \$155.9 million and deferred inflows of resources decrease of \$158.1 million is related to our portion of the liability in the State pension program and is calculated by the Public School Retirement System of Missouri. These changes are referenced in Note G, Pension Plans.
- The net OPEB obligation liability and OPEB related deferred inflows decreased a net \$0.5 million. Additional information can be found in Note I, Other Post-Employment Benefit Obligation.

At the government-wide level, general revenues accounted for \$287.3 million or 86% of the District's \$332.5 million total revenue. Of this general revenue, \$238.0 million or 83% was from local effort including all taxes and the revenue from the Voluntary Student Transfer program. Program specific revenue in the form of charges for services and operating grants and contributions accounted for approximately \$45.2 million or 14% of the total revenue. At the government-wide level, the District had \$291.3 million in expenses. Of these expenses approximately \$45.2 million were offset by program specific charges for services, grants or contributions.

(continued)

Other financial highlights included in the government-wide level financial statements include:

- Revenue from locally assessed property taxes is the largest source of the District's revenue. The assessed valuation for the fiscal year ended June 30, 2023, which was a non-reassessment tax year, increased \$144,959,062 to \$4,639,005,137 (3.8%) from the prior year. The District's tax rate increased \$0.0231 and does include the recoupment of prior year settlements. The State statute allows a District to recoup lost taxes from settlement reductions with an individual taxpayer. The process involves recalculating the tax rate for each year affected by the settlement. For fiscal year 2022-23, this process had a net decrease of \$0.0167 towards the tax rate as compared to fiscal year 2021-22. Revenue recognized from local property taxes totaled \$190.2 million for fiscal year 2022-23
- Other tax collections, including Prop C sales tax increased \$1.3 million for the fiscal year ended June 30, 2023 which was a 6% increase over the prior year.
- The District is funded through the State Basic Formula and received \$35.1 million in fiscal year 2022-23. The State Basic Formula is fully funded with a State Adequacy Target of \$6,375 and the District was able to use our Weighted Average Daily Attendance from the 2019-20 school year of 18,549.
- Federal funding decreased \$7.5 million in the 2022-23 school year and is attributed to the Child Nutrition program returning to normal free and reduced program compared to the 2021-22 fiscal year in which the program received \$7.2 million in federal lunch and breakfast reimbursement related to the federal response to the COVID-19 pandemic as meals were free to all students
- The District is experiencing a shortage of staff in key areas that support our buildings which is
 resulting in a reduction in operating expenditures compared to prior years. Overall, we have an
 estimated 170 openings in custodial, food service and transportation compared to when we are
 fully staffed in those areas.
- As a result of the net pension liability increase and deferred inflow of resources decrease, the District recognized a \$6.5 million credit to pension expense at June 30, 2023.

Enrollment

The District served a student body of 19,886 students which included 18,685 resident students, 935 Voluntary Transfer Students (VTS) and 266 Special School District (237 resident and 29 VTS) students as of the September 2022 official enrollment. The District has experienced annual enrollment reductions in total over the last 10 years. Current enrollment forecasting reflects the District's enrollment continuing to decrease through the 2027-28 school year due to smaller incoming elementary classes while our larger middle and high school classes graduate.

(continued)

Using this Annual Report

The District's annual report consists of a series of financial statements that show information for the District as a whole and its individual funds. The Statement of Net Position on page 17 and the Statement of Activities on page 18 provide information about the activities of the Government as a whole based on the accrual basis of accounting and present a longer-term view of the District's finances. The Fund Financial Statements, the Balance Sheet–Governmental Funds and Statement of Revenue, Expenditures and Changes in Fund Balance, provide the next level of detail about the District's four required funds; the General Fund, the Special Revenue (Teachers) Fund, the Debt Service Fund and the Capital Projects Fund. These statements tell how the District financed program services in the short-term, as well as what remains for future spending. The fund level statements are prepared on the modified accrual basis of accounting and include bridge schedules to reconcile them to the government-wide level statements.

The annual report also includes the notes to the basic financial statements. The user of the annual report should read the independent auditors' report, as well as the notes to the basic financial statements, to gain a clear picture of the financial position of the District.

Reporting the District as a Whole

The District adheres to Missouri State requirements for school districts and uses four major funds to account for the revenues, programs and activities each fiscal year. These statements provide information on these funds individually, and the view of the District as a whole. The Statement of Activities answers the question of how well did the District do financially during the year.

The Statement of Activities explains the types of resources: revenues, charges for services, grants and contributions and the uses of resources: instructional and support services expenses. In addition, the Statement of Activities reports the District's net position and changes in the assets, deferred outflows, liabilities and deferred inflows. This statement tells the reader that, for the District as a whole, the financial position during the current year has either improved or diminished.

These statements report revenues and expenses, assets, deferred outflows, liabilities, deferred inflows and net position using the accrual basis of accounting similar to the accounting used by most private-sector entities. This basis of accounting recognizes all of the current year's revenues and expenses regardless of when cash is received or paid.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular and miscellaneous activities. The District does not have any business-type activities. The District also maintains an Internal Service Fund – Self Insurance Fund. These statements are shown separately.

(continued)

The District as a Whole

Table 1 provides a summary of the District's net position as of June 30, 2023 compared to June 30, 2022:

Table 1

Totals	\$ 687,035,152	\$ 683,561,553	\$ 3,473,599

Overall, gross capital assets increased \$3.5 million from June 30, 2022, below is a summary of the significant changes:

- Land improvements increased \$2.5 million with the addition of new tennis courts at Lafayette High School and the addition of a parking lot and drive at Babler Elementary. Of this amount, \$1.8 million was transferred from prior year construction in progress
- The District added \$0.6 million of machinery of equipment for facility maintenance and instructional purposes

Further information may be found in Note D, Changes in Capital Assets.

Debt Administration

At June 30, 2023, the District had general obligation bonds outstanding of \$119,490,000 and leases of \$3,149,161. Since 2015, the District has made major additions and renovations on its campuses in recent years including classrooms, athletic fields and STEM labs funded through two significant bond issues authorized by the Community.

(continued)

In April 2016, the Board authorized a lease purchase with respect to the acquisition, purchase, financing and leasing of school buses and certain equipment related thereto as the District transitioned to a District-owned transportation system. The amount of this lease purchase was \$12.5 million and is expected to be paid in full by July 2026. In August 2019, the District received \$873,950 of additional proceeds from this lease purchase that funded the rotation of 20 new buses to our fleet and is expected to be paid in full in July 2027.

In April 2017, the Community approved Proposition T, a \$95.5 million bond issue. The District sold \$62.8 million in March 2018 and sold \$31.1 million in November 2019 for a total of \$93.9 million of the \$95.5 million authorization. Due to better than expected premiums and investment returns the District was able to provide savings to our community by not selling the \$1.6 million of remaining bonds. Proceeds of these sales have funded the construction of the new Eureka elementary school, classroom additions at Geggie Elementary, Innovation Labs in all elementary schools as well as the STEM lab at Eureka and Marquette High School. As of June 30, 2023, all proceeds from the April 2017 authorization have been fully spent or allocated to projects that will be completed by August 2023.

Table 5 shows outstanding obligations at June 30, 2023 compared to June 30, 2022.

Table 5

Total all obligations	\$ 1	22,639,161	\$1	53,697,749	\$ (31,058	,588)

Other long-term obligations include accrued compensated absences, other post-employment benefit obligations and the net pension liability related to the State's retirement systems.

(continued)

Further information may be found in Note E, Changes in Long-Term Obligations, Note G, Pension Plans and Note I, Other Post-Employment Benefit Obligation.

Missouri statute allows school districts to incur debt up to an amount equal to 15% of the most current assessed valuation. The District's allowable debt level ceiling was \$699.4 million at June 30, 2023, far above the District's current level of debt. Missouri law also requires school districts to set a tax levy adequate to service the outstanding debt. The District's Debt Service levy for fiscal year 2022-23 was \$0.68 on each \$100 of assessed valuation. The Debt Service Fund balance at June 30, 2023, was \$19.9 million. The District maintains a AAA bond rating.

Reporting the District's Most Significant Funds

The District's Funds

The District's budget and reporting structure follow the statutes of the State of Missouri and as such consists of four major funds: the General Fund, the Teachers (Special Revenue) Fund, the Debt Service Fund and the Capital Projects Fund. At the fund level, the District accounts for the annual activities and prepares the budget using the modified accrual basis of accounting. The District's 2022-23 budget was formally adopted by the Board of Education on June 23, 2022 and budget adjustments were routinely taken to the Board of Education throughout the 2022-23 school year. Revenues are recognized in the accounting period in which they become measurable and available or collectible within sixty days after the end of the current period (June 30). Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due.

The District had actual revenues of \$331.4 million and actual expenditures of \$322.4 million which resulted in an overall fund balance increase of \$9.0 million from \$115.2 million in fiscal year 2021-22 to \$124.3 million in fiscal year 2022-23. Schedules showing the District's original and final budget compared with actual operating results are provided in the ACFR on pages 55 and 56 for the General Fund and Teachers (Special Revenue) Fund and on pages 60 and 61 for the Debt Service Fund and Capital Projects. Explanations on the changes in our fund balances by fund are described below.

The General Fund actual revenues of \$118.9 million were \$2.9 million greater than final budgeted revenues of \$116.0 million. The General Fund actual expenditures of \$106.7 million were \$4.2 million less than the final budgeted expenditures of \$110.9 million. Total fund balance in the General Fund increased \$10.7 million for a balance of \$61.8 million at June 30, 2023 and can be attributed to the following:

- Collections from local property taxes (current and delinquent) increased \$2.5 million. The overall assessed valuation increased 3.0% as well as the collection rate on current taxes being 97.7% which was an improvement compared to the prior year rate of 96.7%
- Earnings on cash balances and investments improved due to the current interest rate environment and averaged 4.3%
- The State of Missouri fully funded the transportation reimbursement for school district in 2022-23 for the first time since 1991 resulting in an additional \$2.9 million in general fund revenue.

(continued)

- The General Fund includes the Child Nutrition and Community Education (self-supporting) programs and combined the fund balance for these two programs increased \$2.5 million. The Child Nutrition program finished with a \$1.9 million increase in fund balance which was mainly attributed to the program having on average 50 positions open resulting in approximately \$1.0 million of expenditures budgeted but not incurred. The Community Education department which provides various fee-based youth and adult programs experienced a 3.5% increase in participation which contributed to their \$0.6 million increase in fund balance.
- The general fund transferred \$1.6 million of fund balance to the capital projects fund in accordance with the reporting of capital expenditures per State of Missouri accounting guidelines

The Teacher's (Special Revenue) Fund actual revenues of \$170.5 million were \$2.4 million greater than final budgeted revenues of \$168.1 while actual expenditures of \$167.6 million were \$1.8 less than the final budgeted expenditures of \$169.4 million. Total fund balance in the Teacher's (Special Revenue) Fund increased \$2.9 million for a balance of \$35.1 million at June 30, 2023 and can be attributed to the following:

- Collections from local property taxes (current and delinquent) increased \$4.2 million. The overall assessed valuation increased 3.0% as well as the collection rate on current taxes being 97.7% which was an improvement compared to the prior year rate of 96.7%
- Prop C Sales tax collections increased 6% or \$1.3 million
- Due to rising medical and pharmacy costs, the District made an additional supplement to the District's self-insurance fund that helped stabilize the fund, of which \$3.2 million was charged as expense to the Teacher's Fund

The Debt Service Fund actual revenues of \$32.7 million were \$0.3 million greater than the final budgeted revenues of \$32.4 million while actual expenditures of \$34.3 million were \$0.3 million less that the final budget of \$34.6 million. The debt service fund experienced a decrease in fund balance of \$1.6 million to a final balance of \$19.9 million at June 30, 2023. Expenditure activity in the debt service fund is in the form of principal and interest payments on our outstanding general obligation debt and for fiscal year 2022-23 it included the \$9.7 million defeasance of our Series 2015 General Obligation Bonds placed in an irrevocable trust for the purpose of satisfying the debt payment in February 2024.

The Capital Projects Fund actual revenues of \$9.3 million were \$0.1 million greater than the final budgeted revenues of \$9.2 million while actual expenditures of \$13.8 million were \$3.9 million less than the final budgeted expenditures of \$18.9 million. The Capital Projects Fund also recognized \$1.6 million in transfers from the General Fund to meet required state accounting requirements for capital expenditures. Overall fund balance decreased \$3.0 million to a balance of \$7.5 million at June 30, 2023 and is attributed to the following activity in the Capital Projects fund, including:

- Bond issue funds from the April 2017 bond authorization spent in 2022-23 totaled \$4.2 million which included the purchase of technology devices, network hardware as well as routine cycle maintenance facility projects at various buildings across the District
- Construction and remodeling of the Wildwood transportation facility
- Purchase of 20 new air-conditioned buses in November 2022
- Complete HVAC replacement at Ridge Meadows Elementary as well as district wide HVAC control upgrades reimbursed through the ESSER III federal funding

(continued)

For the Future

Rockwood School District continues to be in excellent financial health and is committed to wise financial management. The District is proud to hold the distinction of being one of four school districts in Missouri to have a "AAA" bond rating by S&P as well as achieving awards through the Meritorious Budget Award and Certificate of Achievement for financial reporting programs. In June 2023, the Board of Education adopted a balance operating budget for the 2023-24 school year with the following factors included:

- Local property taxes provide 63% of operating revenue and are driven by strong local assessed valuations that have risen on average 8% the last three reassessment years
- District enrollment is declining and is a factor in revenue from the State. However, for the 2023-24 budget year, the State extended State Statute 163.021.(4) which has held school districts hold harmless in revenue due to the impact on student attendance by the COVID-19 pandemic. The District expects the provision to expire with the 2023-24 budget year resulting in a future decline in State Revenue.
- Federal ESSER funds will be fully spent in the 2023-24 school year. In total, the District received \$11.5 million from ESSER II and III funds over the course of four budget years and were primarily used on one-time purchases limiting the ongoing commitments when the funds are not available.
- Salaries and benefits make up 83% of total operating expenditures and overall 70% of our operating expenditures support instruction of our students.
- Continuing the District's long-range plan for funding capital projects, the Board of Education placed Proposition 3 (Prop 3) on the November 2023 ballot. This measure, which authorizes a \$0.54 increase in the capital projects levy that will be offset by a \$0.54 decrease in the debt service levy, received overwhelming approval by 66.3% of the voters. Prop 3 will provide a dedicated revenue stream for addressing routine safety, technology and cycle maintenance needs beginning with the 2024-25 budget year.
- The District's operating fund balance is expected to be 33% at the end of the 2023-24 budget year which is above the Board required 22%.

The Rockwood School District has a long tradition of success and has demonstrated an ability to make appropriate changes to meet the needs of District students. The District's systems for financial planning, budgeting and internal control are well regarded. The District will continue to be prudent in financial management to ensure the resources are available for all our students to realize their full potential.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2023

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balance - governmental funds		\$ 124,262,306
Capital assets and intangible assets reported in District activities are not financial resources and		
therefore are not reported as assets in the funds statements.		
The cost of capital assets and right-to-use leases is	\$ 687,035,152	
Accumulated depreciation and amortization is	(290,437,244)	396,597,908
Some property taxes receivable will be collected this year, but are not available soon enough to		
pay for the current period's expenditures, and therefore are deferred in the funds statements.		4,505,123
Certain deferred outflows and inflows represent a consumption or acquisition of net position		
in a future period and, therefore, are not reported in the governmental funds. Deferred pension contributions		74,916,162
Deferred OPEB contributions		1,186,102
Pension deferrals		(14,009,560)
OPEB related inflows		(14,696,812)
Long-term liabilities, including bonds payable, are not due and payable in the current period		
(net of retirements) and therefore are not reported as liabilities in the funds. These liabilities		
consist of:		
Net pension liability	(215,888,855)	
OPEB liability	(52,561,895)	
Bonds payable	(119,490,000)	
Accrued interest payable	(1,953,670)	
Leases	(3,149,161)	
Compensated absences	(6,587,547)	
Bond premium - unamortized	(14,324,522)	
Bond discount - unamortized	307,086	(413,648,564)
Total net position - governmental activities		\$ 159,112,665

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS WITH THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2023

Total net change in fund balances - total governmental funds		\$ 9,014,780
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for government-wide activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which capital assets exceed depreciation in the period.		
Capital asset purchases Depreciation expense	\$ 5,614,895 (14,174,122)	(8,559,227)
Because some property taxes and other revenues will not be collected for several months after the District's fiscal year ends, they are not considered as available revenues in the governmental funds, and		
are instead counted as deferred property taxes. They are, however, recorded as revenues in the Statement of Activities. This includes the reversal of the prior year and the accrual of the current year.		1,054,476
Repayment of long-term obligations is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities in the government-wide statements. The net effect of these differences in the treatment of long-term		
obligations is as follows: Repayment of bond principal	\$ 28,400,000	
Repayment of lease obligation	2,658,588	31,058,588
The changes in liabilities for compensated absences are recorded in the Statement of Activities and are based on actual days outstanding and estimated employees who are affected.		
These liabilities are not recognized in the fund statements.		175,305
Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest		
expense is recognized as the interest accrues, regardless of when it is due.		572,162
Other post employment benefit (OPEB) expense in the Statement of Activities differs from the amount reported in the governmental funds because OPEB expense is recorded as an expenditure in the funds when it is due, and thus requires		
the use of current financial resources. In the Statement of Activities, however, OPEB expense is recognized based on the present value of the projected benefit payments for current and past employees.		455,874
The fund statements do not recognize the establishment or amortization of premium or discount on the general obligation bonds or other debt outstanding.		1,445,302
Pension benefit (expense) in the Statement of Activities differs from the amount reported in the governmental funds because pension expense is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, pension benefit (expense)		
the use of current financial resources. In the Statement of Activities, however, pension benefit (expense) is recognized based on the present value of the projected benefit payments for current and past employees.		6,580,434
In the Statement of Activities, the loss or gain on the sale or disposal of capital assets is recognized. The fund financial statements recognize only the proceeds from the assets.		
Loss on disposal of capital assets		(646,790)
Change in net position of governmental activities		\$ 41,150,904

The notes to the basic financial statements are an integral part of this statement.

NOTE A | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Rockwood R-VI School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant accounting policies of the District.

Rockwood R-VI School District (the District) was established under the Statutes of the State of Missouri. The District operates as a "six director" district (with seven members of the Board of Education) as described in RSMo Chapter 162. The District provides educational services to primarily pre-kindergarten through high school students. The Rockwood School District Board of Education (The Board) is the basic level of government that has financial accountability and control over all activities related to public education in the District.

Reporting Entity

Generally accepted accounting principles require that the financial reporting entity is to include (1) the primary government, (2) organizations for which the primary government is financially accountable and, (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in the applicable GASB statements have been considered and there are no other agencies or entities, which should be presented with the District.

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities include the financial activities of the primary government, as a whole. Proprietary fund activity is eliminated to avoid 'doubling up' revenues and expenses. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange transactions.

The government-wide statements are prepared using the economic resources measurement focus and accrual basis of accounting. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. These financial statements include a reconciliation with brief explanations to better identify the differences between the government-wide statements and the statements for governmental funds.

Government-Wide Financial Statements

The government-wide Statement of Net Position presents the financial condition of the governmental activities at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Amounts reported as program revenues include (a) charges paid by the recipient of the goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

The fund financial statements report detailed information about the District's funds. The District segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds (if applicable) are aggregated and presented in a single column. The internal service fund, which funds the District's self-insured health benefits, is presented in a single column on the face of the proprietary fund statements.

Fund Financial Statements

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are the balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities and fund balances arising from revenues and expenditures. The measurement focus is upon determination of changes in the financial position rather than upon net income determination. District resources are allocated to and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following are the District's major funds:

Governmental Funds

General Fund: This fund is the general operating fund of the District, and accounts for expenditures for non-certified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program and any expenditures not required or permitted to be accounted for in other funds.

Special Revenue (Teachers) Fund: A special revenue fund is required to be established by state law which accounts for expenditures for certified employees involved in instruction and administration, and includes revenues restricted by the state and local tax levy allocations for the payment of teacher salaries and certain benefits.

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term obligations.

Capital Projects Fund: Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets.

Fund Accounting

Proprietary Funds

The Proprietary Fund focuses on the determination of changes in net position, financial position, and cash flows and is classified as either enterprise or internal service. The District does not have any enterprise funds. The District's Proprietary Fund is:

Internal Service Fund – Accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost-reimbursement basis. This fund was established to account for the District's self-funded medical and dental insurance benefits for participating employees and their families. The revenues received by the internal service fund represent District contributions and premiums withheld as payroll deductions from employees. Claims paid, direct insurance payments, and administrative costs are the only expenses of this fund. A liability for estimated claims incurred, but not reported, is recorded in this fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue (property and sales taxes), the recording of deferred inflows and outflows, and in the presentation of expenses versus expenditures.

Government-wide financial statements prepared on the accrual basis of accounting recognize and record revenues when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes, sales taxes, grants and similar revenue are susceptible to accrual

and so have been recognized as revenues of the current fiscal year. Property taxes are recognized as revenues in the year they are levied. Grants and similar revenue are recognized as revenue as soon as all of the eligibility requirements have been met.

Government fund financial statements prepared on the modified accrual basis of accounting recognize revenues as soon as they are both measurable and available. The District considers available to mean collectible within sixty days after the end of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds at the fund reporting level.

Basis of Accounting

Amounts reported as program revenues include 1) charges to users for goods, services, or privileges provided, 2) operating grants and contributions 3) capital grants and contributions (if applicable).

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. The District does not have any business-type activities.

Proprietary funds distinguish between operating and non-operating revenues and expenses. Operating revenues and expenses normally result from providing services and producing and delivering goods in connection with the fund's principle function. The principal operating revenue in the internal service fund includes payroll withholdings or payments on insurance premiums. Operating expenses are related to providing insurance coverage and paying third party administrative fees. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

It is District policy to use restricted resources prior to unrestricted when both are available for use.

Revenues – Exchange and Non-Exchange Transactions

Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

Revenues – Exchange and Non-Exchange Transactions

Non-exchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are

required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from non-exchange transactions must also be available before they can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end within the availability period: property taxes, sales tax, interest, tuition, grants, student fees and rentals.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds at the fund reporting level.

Pooled Cash and Temporary Investments

Cash resources are combined to form a pool of cash and temporary investments, which is managed by the District Treasurer, except resources from the Debt Service Fund, as state law requires these deposits to be separately maintained.

The District may invest in bonds of the State of Missouri, of the United States, or any wholly-owned corporation of the United States; or in other short-term obligations of the United States. Interest income earned is allocated to contributing funds based on each funds' proportionate shares of funds invested.

For purposes of the statement of cash flows, the District's internal service fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Restricted Cash and Investments

Restricted cash and investments represent amounts whose use is limited by legal requirements and consist of unspent bond proceeds.

Inventories and Prepaid Items

Inventories are valued at cost, on a first-in, first-out (FIFO) basis, and consist of purchased food and supplies of \$1,145,699. An expenditure is recorded at the time the inventory is used. Prepaid items of \$1,996,382 consist of insurance premiums on policies that provide coverage past the current year-end. These premiums will be expensed through the balance of the policy terms within one year. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Receivables

Taxes receivable include property taxes and sales taxes. Property taxes receivable is reported net of an allowance for uncollectible calculated from historical collection rates. Other receivables include interest earned but not yet credited to the District's cash or investments accounts, amounts due the District from the State, amounts due to the District from federal grants, and some miscellaneous receivables from various local activities.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Capital Assets/Intangible Assets

Capital assets, which include land, land improvements, buildings, machinery and equipment, technology, automobiles and other vehicles, and construction in progress, are reported in the governmental activities column of the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. All land purchases are capitalized. Intangible assets include right-to-use lease assets. Assets are recorded at historical cost or estimated historical cost if actual historical cost is not available and are updated for additions and retirements during the year. Donated assets are recorded at their acquisition value as of the date received. The District does not own any infrastructure.

The cost of routine maintenance and repairs that do not add to the value of the asset or materially extend the asset life are not capitalized.

Capital assets under construction and not yet in use by the District as of the date of the financial statements are reported as construction in progress. Assets reported as construction in progress will include individual assets with a cost less than \$5,000.

All reported capital assets except land and construction in progress are depreciated using the straightline method over the useful lives of the assets.

	Estimated
Capital asset type	useful life
Land improvements	20
Buildings	50
Machinery and equipment	15
Technology (including machinery	
and equipment)	5
Automobiles and other vehicles	5-10
Right-to-use	10

Deferred Outflows of Resources

The District reports consumption of net assets that applies to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary fund statements of net position. The only deferred outflows of resources reported in this year's financial statements are deferred amounts related to the District's defined benefit pension plans as further discussed in Note G. No deferred outflows of resources affect the governmental funds financial statements in the current year.

Deferred Inflows of Resources

The District's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to future periods. Deferred inflows of resources are reported in the District's statement of net position for actual pension plan investment earnings in excess of the expected amounts included in determining pension expense and changes in assumptions for the OPEB plan. These deferred inflows of resources are attributed to pension and OPEB expense over multiple years, including the current year. In its governmental funds, the only deferred inflow of resources is for revenues that are not considered available. The District will not recognize the related revenues until they are available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting. Accordingly, unavailable revenues from property taxes are reported in the governmental funds balance sheet.

Compensated Absences and Early Retirement

An accrual for certain salary related payments associated with vacation time and unused sick leave are included in the government-wide financial statements.

District employees earn vacation time throughout the fiscal year to be taken by the end of the subsequent fiscal year. Any unused vacation days remaining will be forfeited by the employee. Unused vacation is payable to the employee upon termination. Employees who meet certain requirements may receive compensation for unused sick leave payable at time of retirement.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, special termination benefits, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds, leases and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Post Employment Benefits

COBRA Benefits - Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured on or before the tenth (10th) day of the month for the actual month covered. The program provides continuation of benefits for the number of months as prescribed by law.

There is no associated cost to the District under this program. The District prepares the initial COBRA enrollment forms and the former employee makes the premium payments directly to a division of the third party administrator.

The District also offers continued healthcare benefits to retired employees who elect to participate. The retiree pays the premium.

Fund Balances – Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only by the Board. The District does not have any committed fund balances.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Amounts are assigned by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Under the District's adopted fund balance policy, amounts may be assigned by the Chief Financial Officer.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, a negative unassigned fund balance may be reported.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned

funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions. The District has not reported any committed fund balance.

The details of the fund balances are included in the Balance Sheet – Governmental Funds.

Net Position

Net position represents the difference between assets, and deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets, net of any unspent bond proceeds, plus deferred amounts on refundings resulting from advance refundings. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The remaining balance of net position is reported as unrestricted. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources as they are needed.

Interfund Activity

Interfund transfers are reported as other financing sources / (uses) in governmental funds. Missouri statute requires the District to report all equipment purchases in the Capital Projects Fund. During the year the District accounts for certain capital outlay expenditures in the various General Fund subcategories (Student Activity, Community Education and Child Nutrition). The District then records a transfer for these expenditures to the Capital Projects Fund at year end. For the year ended June 30, 2023, these transfers amounted to \$1,526,775.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. However, it is management's belief that the actual results will materially approximate the estimates used.

Teachers Salaries

The salary payment schedule of the District for the 2022-23 school year requires the payment of salaries over a twelve month period. Consequently, the final three teacher payrolls related to the 2022-23 school year are included in accrued liabilities on the basic financial statements.

NOTE B | CASH AND INVESTMENTS

Cash balances from all funds, except the Debt Service Fund, are combined and invested to the extent available in short-term securities. State laws require that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District. Earnings from such investments are allocated to the General Fund, Teachers Fund and Capital Projects Fund on the basis of the applicable cash balance participation by each fund. Separate accounts are maintained for the Debt Service Fund and the Internal Service Fund. Interest is deposited directly into these accounts. State statutes authorize the District to invest in obligations of the United States government or any agency or instrumentality, including repurchase agreements; bonds of the State of Missouri, or the United States, or of any wholly owned corporation of the United States, and other short-term obligations of the United States; under limited circumstances, commercial paper and bankers' acceptances; and deposit accounts with insured financial institutions, provided the accounts are entirely insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized with government securities that have a fair value exceeding the deposit amount.

The cash deposits and temporary investments are summarized and presented in the financial statements at fair value as follows as of June 30, 2023:

Cash deposits Cash on hand Investments	\$ 66,719,226 12,712 68,472,994
mvestments	 00,112,331
Total	\$ 135,204,932
Cash and investments - governmental funds	\$ 125,928,443
Restricted cash and investments - governmental	
funds	2,513,868
Cash and investments - proprietary funds	6,762,621
Total reporting entity	\$ 135,204,932

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At June 30, 2023, the carrying amount of the deposits under District control was \$66,719,226 and the bank balance was \$77,927,933, which was covered by federal depository insurance and collateral held at the Bank of New York, the District's safekeeping agent, pledged in the name of the District.

Investments

The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States Government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. Government agencies or instrumentalities of any maturity, as provided by law. The District has investments managed by the Missouri Securities Investment Program. All funds in this program are invested in accordance with Section 165.061 RSMo. Each school district owns a pro rata share of each investment, which is held in the name of the program. The investments are stated at amortized cost, which approximates fair value. The value of the investments was \$68,472,994 at June 30, 2023. A separate financial report for the MOSIP program can be obtained from the PFM Asset Management LLC, 77 West Port Plaza Drive, Suite 220, St. Louis, Missouri 63146. The MOSIP program is exempt from regulatory oversight as it is a Local Government Investment Pool.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. One of the ways the District manages its exposure to interest rate risk is by purchasing investments with short-term maturities to provide the cash flow and liquidity needed for operations, and by timing cash flows from maturities so a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments that can be held by government agencies to safe high quality securities. The investments authorized under the investment policy are limited to federal government-backed securities, certificates of deposit, bankers' acceptance, repurchase agreements (under certain conditions), local and state government bonds (limited to one of the highest three credit ratings) and District policy is also to use diversification to minimize credit risk. The District has a formal policy and supporting regulation which governs the investment funds. District administrators will be guided by the criteria of legality, safety, liquidity and yield. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in MOSIP are rated AAAf by Fitch and AAAm by Standard and Poor's.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in possession of an outside party. The District's investment policy states that the District will manage custodial credit risk by prequalifying the financial institutions and advisors with which the District will do business; and, diversifying the portfolio so that potential losses on individual securities will be minimized. The District's investment

policy further mandates that all securities purchased be perfected in the name of or for the account of the District and be held by a third-party custodian as evidenced by appropriate safekeeping receipts.

Concentration of Credit Risk

As a means of limiting its exposure to losses arising from concentration of investments, the District's investment policy mandates that the portfolio not have a concentration of assets in specific maturity or specific class of securities. At a minimum, diversification standards by security type and issuer are established as (a) U.S. treasuries, securities issued by State of Missouri, and securities having principal and/or interest guaranteed by the U.S. Government – 100%; (b) collateralized time and demand deposits – 100%; (c) U.S. Government agencies, and government sponsored enterprises, no more than 60%; (d) collateralized repurchase agreements, no more than 50%; (e) U.S. Government callable securities, no more than 15%; (f) qualified commercial paper, no more than 25%; and (g) bankers' acceptances, no more than 25%.

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond what is provided by law. There were no investments in any one issuer representing 5% or more of total investments (excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investment pools and other pooled investments).

NOTE C | TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. All unpaid taxes become delinquent January 1 of the following year. The county collects the property taxes and remits them to the District on a monthly basis. An allowance for uncollectible taxes has been provided for delinquent taxes.

At the fund reporting level, property tax revenues are recognized when they become measurable and available. Available includes those property tax receivables expected to be collected within sixty (60) days after year-end. Revenue recognition of delinquent property taxes not collected within sixty (60) days of fiscal year end is deferred.

The District also receives sales tax collected by the State of Missouri and remitted to the District based on eligible pupil counts. The District is required to reduce its sales tax levy by one-half of the amount of sales tax estimated to be received in the subsequent calendar year, Prop C rollback. However, the District's voters approved a full waiver of the Prop C rollback in the 1994/1995 school year, so sales taxes are not reduced to the District. The final assessed valuation of the tangible taxable property (excluding state assessed railroad and utilities) for the calendar year 2022 for purposes of local taxation was:

Real estate	
Residential	\$ 3,059,959,890
Agricultural	2,844,010
Commercial including locally assessed	
railroad and utility	922,984,280
Personal property including locally assessed	
railroad and utility	723,332,907
	4,709,121,087
Less tax increment financing	46,566,790
	\$ 4,662,554,297

Accounts receivable-property taxes at June 30, 2023, were \$5,375,601 (less an allowance for uncollectible taxes of \$537,560).

The tax levy per \$100 of the assessed valuation of tangible taxable property for the fiscal year ending June 30, 2023 for purposes of local taxation was:

	Un	Unadjusted		Adjusted	
General Fund	Ś	1.4975	ς.	1.4975	
Special Revenue Fund	Ų	1.8908	Ų	1.8908	
Debt Service Fund		0.6800		0.6800	
Capital Projects Fund		0.0800		0.0800	
	\$	4.1483	\$	4.1483	

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2023, aggregated approximately 97.28% of the current assessment computed on the basis of the levy as shown above.

NOTE D | CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2023 was as follows:

	Balance	Tuomofouo	Additions	Dalations	Balance
Governmental activities	July 1, 2022	Transfers	Additions	Deletions	June 30, 2023

NOTE E | CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes in long-term obligations for the year ended June 30, 2023:

	Balance July 1,			Balance June 30,	Amounts due within
	2022	Additions	Reductions	2023	one year
Governmental activities					
Bonds payable					
General obligation bonds	\$ 147,890,000	\$ -	\$ (28,400,000)	\$ 119,490,000	\$ 16,890,000
Deferred amounts for					
issuance discounts	(332,887)	-	25,801	(307,086)	-
Deferred amounts on					
issuance premiums	15,795,625	-	(1,471,103)	14,324,522	-
Total bonds payable, net	163,352,738	-	(29,845,302)	133,507,436	16,890,000
Leases	5,807,749	-	(2,658,588)	3,149,161	1,379,492
Interest	2,525,832	1,953,670	(2,525,832)	1,953,670	1,953,670
Compensated absences	6,762,852	6,587,547	(6,762,852)	6,587,547	1,111,940
	_				
Total governmental					
activity long-term					
obligations	\$ 178,449,171	\$ 8,541,217	\$ (41,792,574)	\$ 145,197,814	\$ 21,335,102

Payments on the general obligation bonds are made by the Debt Service Fund. The obligations under leases are paid by the Capital Projects Fund. The compensated absences, pension and OPEB will be liquidated by the General Fund or the Teachers Fund depending on which fund the employee's salary was charged.

The District issues general obligation bonds to provide funds to erect, improve and equip school buildings. The District has built three new elementary schools, one middle school and major renovations to each of the four high schools in addition to improvements to every school site in the District in recent years. From time to time the District issues general obligation bonds to refund prior bond issuances to reduce cash flows and interest costs.

On September 1, 2022, the District defeased \$9,655,000 of outstanding Series 2015 general obligation bonds. \$9,760,589 was placed in an irrevocable trust fund to purchase government obligations. The principal and interest to be earned on the government obligations will be in an amount sufficient for the payment of the principal and interest on the call date of February 1, 2024. The defeasance was undertaken to reduce total debt service payments by \$3,845,331 which resulted in an economic gain of \$3,365,425 (the difference between the present value of the debt service payments on the original amount of debt and the new value of debt).

Bonds payable consist of the following at June 30, 2023:

Date issued	Maturity date	Rate of interest	Original issue amount	Balance at June 30, 2023
9/10/10 6/11/15 3/15/18 11/7/19 11/18/21	2/1/27 2/1/35 2/1/38 2/1/29 2/1/33	4.75% 3.25% - 5.00% 2.65% - 5.00% 2.00% - 4.00% 1.50% - 4.00%	\$ 7,295,000 35,000,000 62,800,000 31,085,000 15,995,000	7,295,000 16,605,000 61,460,000 18,135,000 15,995,000
				\$ 119,490,000

The annual requirements to amortize all general obligation (GO) bonded debt outstanding as of June 30, 2023, including interest payments are as follows:

	Principal	Interest	Total
Year ending June 30,			
2024	\$ 16,890,000	\$ 4,682,465	\$ 21,572,465
2025	16,445,000	3,961,965	20,406,965
2026	31,120,000	3,240,015	34,360,015
2027	10,360,000	1,747,465	12,107,465
2028	6,860,000	1,278,353	8,138,353
2029-2033	22,345,000	3,929,132	26,274,132
2034-2038	15,470,000	2,165,603	17,635,603
			_
	\$ 119,490,000	\$ 21,004,998	\$ 140,494,998

Legal Debt Margin

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a district to fifteen percent of the assessed valuation of a district (including state-assessed railroad and utilities). The legal debt margin of the District calculated using the December 31, 2022, assessed valuation and excluding state-assessed railroad and utilities was as follows at June 30, 2023.

Constitutional debt limit	\$	699,383,145
General obligation bonds payable		(119,490,000)
Amount available in Debt Service Fund		19,858,519
Available bonding capacity	<u> </u>	599,751,664
Available boliding capacity	Ų	JJJ, IJI, 00 1

Leases

In 2016, the District entered into a \$12,500,000 lease purchase agreement with Banc of America Public Capital Corp. Proceeds were used to purchase school buses for the District. The original term of the lease was one year and provided for nine consecutive renewal terms and the final renewal term ending June 10, 2026, subject to earlier termination. In August 2019, the District received additional proceeds of \$873,950 under this lease purchase agreement for the purchase of school buses for the District extending the term of the original lease agreement to August 26, 2027. The principal balance at June 30, 2023, was \$3,149,161. The cost for such equipment as of June 30, 2023 was \$8,596,495 and the accumulated depreciation was \$3,425,947. The lease may be terminated if the District does not receive sufficient allocations to continue the lease. In the event sufficient funds are not allocated, the lease shall be subject to termination upon at least a thirty-day prior written notice.

The annual requirement to amortize the leases as of June 30, 2023, including interest payments are as follows:

		Principal	Interest	Total
Year ending June 30,				_
2024	\$	984,895	\$ 50,370	\$ 1,035,265
2025		1,002,882	32,383	1,035,265
2026		1,021,211	14,054	1,035,265
2027		119,862	2,437	122,299
2028		20,311	72	20,383
	<u>-</u>			
	\$	3,149,161	\$ 99,316	\$ 3,248,477

NOTE F | TAX ABATEMENTS

Saint Louis County has granted four tax incentives in the Rockwood R-VI School District. The total amount of tax abated for 2022 was \$811,068. These tax abatements are considered immaterial to the overall financial statements.

NOTE G | RETIREMENT PLAN

Public School and Education Employee Retirement System of Missouri

The District contributes to the Public School Retirement System of Missouri (PSRS) and the Public Education Employee Retirement System (PEERS), a cost-sharing multiple-employer defined benefit pension plan.

Plan Description

PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of the Systems, Missouri State Teachers' Association, Missouri State High School

Activities Association, and certain employees of the State of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989.

The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "two-thirds statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all non-certified public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of PSRS must contribute to PEERS. Employees of the Systems who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of PSRS.

Benefits Provided

PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

PEERS is a defined benefit plan providing retirement, disability, and death benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary benefit until reaching minimum Social Security age (currently age 62), which is calculated using a 0.8% benefit factor. Actuarially age-reduced retirement benefits are available with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at www.psrs-peers.org.

Cost-of-Living Adjustments ("COLA")

The Board of Trustees has established a policy of providing COLAs to both PSRS and PEERS members as follows:

- If the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.
- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions

PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2021, 2022 and 2023. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2021, 2022 and 2023. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District's contributions to PSRS and PEERS were \$19,903,311 and \$3,132,333, respectively, for the year ended June 30, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District recorded a liability of \$196,487,485 for its proportionate share of the PSRS net pension liability and \$19,401,370 for its proportionate share of the PEERS net pension liability. In total, the District recorded net pension liabilities of \$215,888,855. The net pension liability for the plans in total was measured as of June 30, 2022 and determined by an actuarial valuation as of that date. The District's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$19,403,322 and \$3,074,207, respectively, for the year ended June 30, 2022, relative to the total contributions of \$763,765,597 for PSRS and \$133,912,935 for PEERS from all participating employers. At June 30, 2022, the District's proportionate share was 2.5405% for PSRS and 2.2957% for PEERS.

For the year ended June 30, 2022, the District recognized pension expense of \$14,501,206 for PSRS and \$1,969,024 for PEERS, its proportionate share of the total pension expense. Pension expense is the change in the net pension liability from the previous reporting period to the current reporting period, less adjustments. This may be a negative expense (pension income).

At June 30, 2023, the District reported deferred outflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Outflows of Resources							
Balance of Deferred Outflows Due to:	PSRS		PEERS		District Total			
Differences between expected and actual experience	\$	35,199,565	\$	3,095,417	\$	38,294,982		
Changes of assumptions		12,822,595		725,256		13,547,851		
Changes in proportion and differences between Employer contributions and proportionate share of contributions		37,685		-		37,685		
Employer contributions subsequent to the measurement date		19,903,311		3,132,333		23,035,644		
Total	\$	67,963,156	\$	6,953,006	\$	74,916,162		

At June 30, 2023, the District reported deferred inflows of resources from the following sources related to PSRS and PEERS pension benefits:

		De	eferred I	nflows of Resources	5	
Balance of Deferred Inflows Due to:	PSRS		PEERS		District Total	
Differences between expected and actual experience	\$	2,892,296	\$	20,583	\$	2,912,879
Net difference between projected and actual earnings on pension plan investments		5,665,848		482,839		6,148,687
Changes in proportion and differences between Employer contributions and proportionate share of contributions		3,733,284		1,214,710		4,947,994
Total	\$	12,291,428	\$	1,718,132	\$	14,009,560

Amounts reported as deferred outflows of resources resulting from contributions subsequent to the measurement date of June 30, 2022, will be recognized as a reduction to the net pension liability in the year ended June 30, 2024.

Other amounts reported as collective deferred (inflows)/outflows of resources are to be recognized in pension expense as follows:

Year Ending June 30:	 PSRS	PEERS	D	istrict Total
2024	\$ 5,225,912	\$ 871,406	\$	6,097,318
2025	476,635	(25,834)		450,801
2026	(6,037,078)	(1,758,220)		(7,795,298)
2027	34,048,721	3,015,188		37,063,909
2028	2,054,228	-		2,054,228
				_
	\$ 35,768,418	\$ 2,102,540	\$	37,870,958

Actuarial Assumptions

Actuarial valuations of the Systems involve assumptions about probability of occurrence of events far into the future in order to estimate the reported amounts. Examples include assumptions about future employment, salary increases, and mortality. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year and from Board policies concerning investments and COLAs. The most recent comprehensive experience studies were completed in May 2021. All economic and demographic assumptions were reviewed and updated, where appropriate, based on the results of the studies and effective with the June 30, 2021 valuation. Significant actuarial assumption and methods were reviewed and are detailed below. For additional information please refer to the Systems' Annual Comprehensive Financial Report (ACFR). The next experience studies are scheduled for 2026.

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date – June 30, 2022 Valuation Date – June 30, 2022

Expected Return on Investments – 7.30%, net of investment expenses and including 2.00% inflation.

Total Payroll Growth PSRS -2.25% per annum, consisting of 2.00% inflation, 0.125% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.125% of real wage growth due to productivity.

Total Payroll Growth PEERS – 2.50% per annum, consisting of 2.00% inflation, 0.25% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.25% of real wage growth due to productivity.

Future Salary Increases PSRS – 2.625% - 8.875%, depending on service and including 2.00% inflation, 0.125% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.125% of real wage growth due the productivity, and real wage growth for merit.

Future Salary Increases PEERS – 3.25% - 9.75%, depending on service and including 2.00% inflation, 0.25% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.25% of real wage growth due to productivity, and real wage growth for merit.

Cost-of-Living Increases PSRS & PEERS

Given that the actual increase in the CPI-U index from June 2021 to June 2022 was 9.06%, the Board approved an actual cost-of-living adjustment (COLA) as of January 1, 2023 of 5.00%, in accordance with the Board's funding policy and Missouri statutes, compared to an assumed COLA of 2.00%. Future COLAs assumed in the valuation are 2.00% as of January 1, 2024, and 1.35% each January 1, thereafter. This COLA assumption is based on the 20-year stochastic analysis of inflation performed in the 2021 experience study, the application of the Board's COLA policy, and the short-term expectations of COLA due to recent CPI activity. It is also based on the current policy of the Board to grant a COLA on each January 1 as follows:

- If the June to June change in the CPI-U is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.
 - If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
 - If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
 - If the CPI decreases, no COLA is provided.

The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60), and does not apply to the spouse with children pre-retirement death benefit, the dependent children pre-retirement death benefit, or the dependent parent death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receive a COLA on the fourth January after retirement.

Morality Assumption

Actives PSRS: Experience-adjusted Pub-2010 Teachers Mortality Table for Employees with generational
projection using the MP-2020 improvement scale. Experience adjustments are equal to the healthy
retiree experience-based adjustment factors at all ages for both males and females.

- Actives PEERS: Experience-adjusted Pub-2010 General (Below-Median Income) Mortality Table for Employees with generational projection using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.
- Non-Disabled Retirees, Beneficiaries and Survivors PSRS: Mortality rates for non-disabled retirees and beneficiaries are based on the Pub-2010 Teachers Mortality Table for Healthy Retirees and the Pub-2010 Teachers Mortality Table for Contingent Survivors, respectively. The tables are projected generationally using the MP-2020 improvement scale and multiplied by the experience-based adjustment factors shown in the tables below at all ages for both males and females.

	Males	Females
Non-disabled	1.10	1.04
Contingent survivor	1.18	1.07

 Non-Disabled Retirees, Beneficiaries and Survivors PEERS: Mortality rates for non-disabled retirees and beneficiaries are based on the Pub-2010 General (Below-Median Income) Mortality Table for Healthy Retirees and the Pub-2010 General (Below-Median Income) Mortality Table for Contingent Survivors, respectively. The tables are projected generationally using the MP-2020 improvement scale and multiplied by the experience-based adjustment factors shown in the tables below at all ages for both males and females.

	Males	Females
Non-disabled	1.13	0.94
Contingent survivor	1.01	1.07

- Disabled Retirees PSRS: Experience-adjusted Pub-2010 Teacher Disability Mortality Table, projected generationally using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.
- Disabled Retirees PEERS: Experience-adjusted Pub-2010 General Disability Mortality Table projected generationally using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.

Changes in Actuarial Assumptions and Methods PSRS & PEERS

 An experience study was completed in May 2021 resulting in an updates to the actuarial assumptions for the June 30, 2021 valuation. There were no further updates to the actuarial assumptions and methods for the June 30, 2022 valuation.

Fiduciary Net Position: The Systems issue a publicly available financial report (ACFR) that can be obtained at www.psrs-peers.org.

Expected Rate of Return

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on the Systems' investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems' target allocation as of June 30, 2022 are summarized below:

		Long-term
		Expected Real
	Target Asset	Return Arithmetic
Asset Class	Allocation	Basis
U.S. Public Equity	23.00 %	4.81
Public Credit	-	0.80
Hedged Assets	6.00	2.39
Non-U.S. Public Equity	16.00	6.88
U.S. Treasuries	15.00	(0.02)
U.S. TIPS	-	0.29
Private Credit	8.00	5.61
Private Equity	21.00	10.90
Private Real Estate	11.00	7.47
Total	100.00 %	

Discount Rate

The long-term expected rate of return used to measure the total pension liability was 7.3% as of June 30, 2022 and is consistent with the long-term expected geometric return on plan investments. The actuarial assumed rate of return of 7.3% is consistent with the June 30, 2021 valuations and is based on the actuarial experience studies conducted during the 2021 fiscal year. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The sensitivity of the District's net pension liability to changes in the discount rate is presented below. The District's net pension liability calculated using the discount rate of 7.30% is presented as well as the net pension liability using a discount rate that is 1.0% lower (6.30%) or 1.0% higher (8.30%) than the current rate.

	1	1% Decrease 6.30%	 Current Rate 7.30%	 1% Increase 8.30%		
Proportionate Share of the Net Pension Liability PSRS		373,337,575	\$ 196,487,485	\$ 49,996,855		
PEERS	\$	38,909,015	\$ 19,401,370	\$ 3,119,342		

NOTE H | DEFERRED COMPENSATION PLANS

The District offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) or 457(b). These plans, available to all District employees, permit them to defer a portion of their salary until future years. The District makes these Plans available to its employees as an accommodation only. The District's role in connection with the Plans is generally limited to processing the paperwork necessary to remit participant's salary withholdings (deferrals) to annuity providers and custodians.

NOTE I | OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description

In addition to providing the pension benefits described above, the District (under the provisions of the Rockwood Self-insurance Plan) provides continuation of medical, dental and vision insurance coverage, including prescription drugs to employees who are eligible for normal or early retirement under a single employer plan. The plan is not accounted for as a trust fund since an irrevocable trust has not been established. A stand-alone financial report is not available for the plan. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

Retirees who elect to participate must pay the premium in effect for the current plan year or any subsequent year at the premium rates in effect at that time. Since the retirees pay the premium for each year, the District's share of any premium cost is determined on the basis of a blended rate or implicit rate subsidy calculation.

Employees covered by benefit terms at July 1, 2021:

	Number	Average Age	Average Service
Actives Inactive Currently Receiving Benefit Payments	2,231 259	43.5 63.7	12.7
Total	2,490		

Contributions

The District currently pays for the implicit rate subsidy associated with these postemployment health care benefits on a pay-as-you-go basis. The implicit rate is the difference between the calculated claims cost and the premiums paid by retirees. The District determines contribution requirements and they may be amended by the District. For fiscal year 2023, claims paid for retirees totaled \$3,234,401 and retirees contributed \$3,387,861 through premiums.

Total OPEB Liability

The District's total OPEB liability of \$52,561,895 was estimated as a 1.05% increase based on measurement as of June 30, 2021 with estimated disclosures for the year ended June 30, 2023, and the total liability used to calculate the total OPEB was determined by an actuarial valuation as of July 1, 2020.

Actuarial Assumptions

The total OPEB liability in the June 30, 2021 valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation – 2.50% long-term inflation, 1.10% real GDP growth and 1.50% medical technology.

Discount Rate – 2.16% for determining fiscal 2020 disclosure and estimated fiscal 2021 expense, 3.50% for determining fiscal 2019 liability and fiscal 2020 expense.

Salary Increase Rate – 3.00%, based on actual and anticipated experience.

Healthcare Cost Trend Rates – 2.40% in 2020 and increasing to an ultimate rate of 4.04% for 2089.

Mortality Rates – SOA RP-2014 Combined Mortality Table backed off to 2006 and projected generationally with Scale MP-2018.

Participation – It is assumed that 50% of participants will continue coverage under the plan upon retirement.

Actuarial Cost Method - Entry Age Normal.

Changes in Total OPEB Liability

The components of the total OPEB liability of the District at June 30, 2022, are as follows:

	Total OPEB				
		Liability			
Balances at June 30, 2021	\$	50,058,948			
Service cost		3,128,524			
Interest		1,015,949			
Benefits paid		(1,641,526)			
Balances at June 30, 2022	\$	52,561,895			

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB Liability, calculated using the discount rate of 2.16%, as well as what the total OPEB Liability would be if it were calculated using a discount rate that is one percentage point lower (1.16%) and 1 percentage point higher (3.16%) than the current discount rate:

	1% Decrease	(Current Rate	1% Increase
	 1.16%		2.16%	3.16%
				_
Total OPEB Liability	\$ 57,792,415	\$	52,561,895	\$ 47,692,405

Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trends

The following presents the total OPEB liability of the District, calculated using the trend rate starting at 2.40%, as well as what the total OPEB Liability would be if it were calculated using a trend rate that is one percentage point low (1.40%) and 1 percentage point higher (3.40%) than the current health care trend rate:

	1	% Decrease 1.40%	C	Current Rate 2.40%	1% Increase 3.40%		
Total OPEB Liability	\$	\$ 45,163,953		52,561,895	\$ 61,368,539		

OPEB Expense and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2023, the District recognized OPEB expense of \$455,874. At June 30, 2023, the District reported net deferred inflows of resources related to OPEB of \$13,510,710 related to changes in assumptions.

As of June 30, 2023, the deferred inflows and outflows of resources are as follows:

	De	ferred Inflows	Deferred Outflov			
	C	of Resources	0	f Resources		
Difference between expected and actual experience	\$	(10,822,247)	\$	-		
Changes of assumptions		(3,874,565)		1,186,102		
Total	\$	(14,696,812)	\$	1,186,102		

Amounts reported as net deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year ending June 30,	Annual Net Inflows of Resources
2024 2025 2026 2027 2028 Thereafter	\$ 2,958,821 2,958,821 2,958,821 2,534,149 2,100,098
	\$ 13,510,710

NOTE J | SELF INSURED MEDICAL BENEFITS

The District is under a self-insured plan to provide medical and dental benefits to participating employees and their families. The participating employees contribute to the self-insurance fund through payroll deductions based on their coverage election. The District's maximum liability for each employee and in the aggregate for a one-year period is limited by insurance coverage. Transactions for the self-funded insurance are recorded in the Internal Service Fund.

Liabilities of the fund are recorded when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated based upon recent claim settlement trends. Settlements have not exceeded coverage for each of the past three fiscal years.

Changes in the balance of claims liabilities are as follows for the years ended June 30,:

Unpaid claims, at July 1, 2022	\$ 5,511,807
Incurred claims (including IBNRs)	33,111,593
Claim payments	 (31,860,779)
Unpaid claims, at June 30, 2023	\$ 6,762,621

NOTE K | INSURANCE PROGRAM

The District, along with various other local school districts, participates in the Missouri United School Insurance Council (MUSIC), an insurance association for workers' compensation, general liability and property casualty insurance. The purpose of MUSIC is to distribute the cost of self-insurance over similar entities. MUSIC requires an annual premium payment to cover estimated claims payable and reserves for claims for each entity. Part of the assessment then goes to buy excess insurance contracts for the group as a whole. Should the contributions received by MUSIC be in excess or not be sufficient, rebates or special assessments can be made of the member Districts. There have been no significant changes in insurance coverage from the prior year. Settlements have not exceeded coverage for each of the past three fiscal years.

NOTE L | COMMITMENTS AND CONTINGENCIES

Litigation – Various claims and lawsuits are pending against the District. In the opinion of District management, the potential loss on all claims and lawsuits will not be significant to the District's financial statements taken as a whole.

Grants – The District received financial assistance from federal and state agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District at June 30, 2023.

Construction – The District has entered into various contracts for building and grounds renovations and improvements which are included in the amount designated in the capital projects fund in the fund financial statements.

NOTE M | SUBSEQUENT EVENTS

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through December 8, 2023, the date the financial statements were available to be issued.

On July 20, 2023, the Board of Education approved the prepayment of \$6,515,000 of outstanding Series 2015 General Obligation Bonds and defeasance of \$10,500,000 of outstanding Series 2018 General Obligation bonds. \$10,500,000 was placed in an irrevocable trust fund to purchase government obligations. The principal and interest to be earned on the government obligations will be in an amount sufficient for the payment of the principal and interest on the call date of February 1, 2026.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2023

I. BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with Chapter 67, RSMo, the District adopts a budget for each major fund of the political subdivision.
- 2. Prior to July, the Chief Financial Officer, who serves as the budget officer, submits to the Board of Education a proposed modified accrual basis budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all funds. Budgeted expenditures cannot exceed available monies plus estimated reserves for the year.
- 3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4. In June 2022 the budget was legally enacted by a vote of the Board of Education.
- 5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the budgetary comparison schedules.
- 6. Budgets are presented on the modified accrual basis of accounting for all governmental funds.

SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY AND RELATED RATIOS- UNAUDITED June 30, 2023

	2023	2022	2021	2020	2019	2018

Total OPEB liability as a percentage of covered payroll	28.64%	28.87%	28.43%	32.55%	31.95%	39.26%

Note: This schedule is intended to show information for ten years. Additional years will be displayed as they become available.

Plan Assets: No assets are accumulated in a trust that meets all of the following criteria of GASB No. 75, paragraph 4, to pay benefits:

Contributions from the employer and any nonemployer contributing entities, and earnings thereon, must be irrevocable.

Plan assets must be dedicated to providing OPEB to Plan members in accordance with the benefit terms.

Plan assets must be legally protected from the creditors of the employer, nonemployer contributing entities, the Plan administrator, and Plan members.

Annual
Comprehensive
Financial
Report

2023

Statistical Section

SUMMARY OF STATISTICAL INFORMATION JUNE 30, 2023

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial position.

Co	<u>ntents</u>	<u>Page</u>
•	Continuing Disclosure Information These schedules are required as part of the District's ongoing general obligation bonded debt disclosures and give additional information to investors about the financial position of the District.	63-65
•	Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and position have changed over time.	66-69
•	Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source – the property tax.	70-74
•	Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	75-79
•	Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	80-81
•	Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	82-92

Source: St. Louis and Jefferson County Assessor's Offices

Note: On January 1 of every second year the property values are rendered for appraisal (reassessment). The appraisal process for the Rockwood School District is conducted by the St. Louis or Jefferson county Assessor's office. For Rockwood School District residential real estate is appraised at 19% of market value, commercial at 32% of value, agricultural at 12% of value and personal property at 33% of value.

The Assessor's Office submits preliminary values to the school district by June. These values are usually a realistic estimate of the ultimate certified values that come by August. The preliminary values are good estimates upon which to base the tax levies for the operating and debt service budgets. Once the certified values are received by the district, the tax rate adoption is completed prior to September and the budgeting process can be begin for the subsequent fiscal year.

Property owners (both Real Estate and Personal Property) are taxed by the various taxing authorities (including the school district) in their county of residence. Tax levy rates (so much per \$100 of assessed valuations) are set by the taxing authorities according the State law. Assessed valuations are set by the county in which the property resides and every other year is a reassessment year. The tax obligation is billed by the county department of revenue and paid through that department to the taxing authorities. The tax billed is simply the levy rate multiplied by the assessed valuation. There are normally multiple taxing authority obligations included on one tax bill which is typically mailed to tax payers in November with a due date of December 31. The District receives the majority of its revenue in late December and January.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. Percentage of overlap is calculated by the Collector of Revenue's Office as follows: For the purpose of determining the appropriate composite property tax rates, all properties are within areas defined by what are called school district sub-codes. Each sub-code accounts for what taxing districts have jurisdiction over a particular parcel, or property. Periodic ledgers comprising the total assessed values for each sub-code area are generated by County Revenue. Appropriate percentage overlap values have been culled from the appropriate ledger.

Rockwood R-VI School District CAPACITY SCHEDULES INFORMATION June 30, 2023

The capacity of a school building depends on how many rooms are available for general classrooms and District standards regarding the number of students to be served in each classroom. In order to be used for classroom space, the size of the room needs to be appropriate, and it cannot be occupied by another program (e.g. SSD, early childhood, adventure club, remedial services, etc.) offered within the building. In general, when enrollment exceeds capacity, the school is likely using non-standard rooms as classroom space or the number of students in the classrooms exceed the guidelines. The non-standard rooms may include:

- The library, multi-purpose or cafeteria for classrooms
- Using a dedicated art or music room and providing that curriculum within each classroom
- If the over-capacity relates to projected enrollment, it may signal that a special program within the building may need to be relocated to accommodate the projected enrollment.

For grades 6-8, the District organizes students into middle school teams. There are eight curricular areas covered with four being offered in a general classroom and four offered in specially equipped rooms. Two of the specially equipped rooms are core classes offered to all students (science and PE) and two are encore classes (business, FACS, fine arts, gifted and technology). To determine the capacity of a middle school, it is important to determine the number of teams that can be served within these constraints and the number of students to be served in each room.

For high school, there are many more specialized rooms. Additionally, students have a wide range of courses they can select. Using the final master schedule, the class offerings are separated into those that are taught in general classrooms vs. specialized. Likewise, the rooms are separated into the same classifications. A capacity calculation can be created for each type of room. Due to scheduling conflicts, it is highly likely that some rooms will have open periods throughout the day. This is especially true when using a block schedule. An efficiency factor can be determined by dividing the total number of occupied periods by the number of classrooms times seven periods. To determine the capacity for a high school building, add the following:

- The number of regular classrooms times the average number of students to be served in each room times the efficiency factor for that category of room
- The number of specially equipped rooms times the average number of students to be served in each room times the efficiency factor for that category of room
- Some students enroll in work skill classes and, for a portion of the school day, the student is not being served within the classroom. Determine the full-time equivalency for these students.

When reviewing the capacity information on the attached chart, the following information is important:

- The capacity for each elementary school is computed the same and follows the approach outlined in the first paragraph above.
- With the exception of LaSalle Middle School and Eureka High School, the capacity numbers are based on the 2013 study by an outside demographer, RSP. Due to the rapid growth in the Eureka quadrant, a more in-depth analysis was completed using the approach described above.

Independent Accountants' Report on Compliance with Specified Requirements of Missouri Laws and Regulations

Board of Education Rockwood R-VI School District

We have examined Rockwood R-VI School District's compliance with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures; accurate disclosure by Rockwood R-VI School District's records of average daily attendance and average daily transportation of pupils and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2023. Management of Rockwood R-VI School District is responsible for Rockwood R-VI School District's compliance with the specified requirements. Our responsibility is to express an opinion on Rockwood R-VI School District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether Rockwood R-VI School District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether Rockwood R-VI School District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on Rockwood R-VI School District's compliance with specified requirements.

In our opinion, Rockwood R-VI School District complied, in all material respects, with the aforementioned requirements for the year ended June 30, 2023.

This report is intended solely for the information and use of the members of the Board of Education, District management, the Missouri Department of Elementary and Secondary Education and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other **Matters Based on an Audit of Financial Statements** Performed in Accordance with Government Auditing Standards

Board of Education Rockwood R-VI School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rockwood R-VI School District as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Rockwood R-VI School District's basic financial statements, and have issued our report thereon dated December 2, 2023.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rockwood R-VI School District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rockwood R-VI School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Rockwood R-VI School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rockwood R-VI School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Keller, Eck & Brackel LLP

St. Louis, Missouri December 8, 2023

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by The Uniform Guidance

Board of Education Rockwood R-VI School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Rockwood R-VI School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Rockwood R-VI School District's major federal programs for the year ended June 30, 2023. Rockwood R-VI School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Rockwood R-VI School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Rockwood R-VI School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Rockwood R-VI School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Rockwood R-VI School District's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Rockwood R-VI School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Rockwood R-VI School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Rockwood R-VI School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Rockwood R-VI School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Rockwood R-VI School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2023

NOTE A | BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of the Rockwood R-VI School District under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of *OMB Uniform Guidance, Cost Principles, and Audit Requirements for Federal Awards*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

NOTE B | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Rockwood R-VI School District prepares its Schedule of Expenditures of Federal Awards on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related liabilities are incurred.

NOTE C | INDIRECT COST RATE

The District has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D | SUBRECIPIENTS

There have been no awards passed through to subrecipients.

NOTE E | FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed by the District during the fiscal year ended June 30, 2023.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2023

SECTION I – SUMMARY OF AUDITORS' RESULTS

Financial Statements

Type of report issued on financial statements: <u>Unmodified opinion</u>

Internal control over financial reporting:

Material weaknesses identified? None noted.

Significant deficiencies identified that are not considered to be material weaknesses? None noted.

Noncompliance material to the financial statements noted? None noted.

Federal Awards

Internal control over major programs:

Material weakness identified? None noted.

Significant deficiencies identified that are not considered to be material weaknesses? <u>None noted.</u>

Type of auditors' report issued on compliance for major programs: <u>Unmodified</u> opinion

Any audit findings disclosed that are required to be reported under section CFR200 of OMB Uniform Guidance? None noted.

The programs tested as a major program are as follows:

Name of Program or Cluster
COVID-19 - Education Stabilization Fund
Child Nutrition Cluster

AL Numbers 84.425D, 84.425U, 84.425W 10.553, 10.555

The dollar threshold used to distinguish between type A and type B programs: \$750,000

Auditee qualified as a low-risk auditee? Yes
