Independent Auditor's Report

To the School Board
Independent School District No. 111
Watertown-Mayer Schools
Watertown, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 111, Watertown-Mayer Schools, Watertown, Minnesota, as of and for the year ended June 30, 2020, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 111, Watertown-Mayer Schools, Watertown, Minnesota, as of June 30, 2020, and the respective changes in financial position thereof, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Implementation of GASB 84

As discussed in Note 8 to the financial statements, the District has adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, which follows this report letter, and the Required Supplementary Information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information identified in the Table of Contents is presented for purposes of additional analysis and is not a required part of the financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the financial statements.

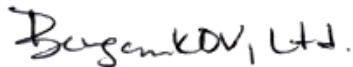

Other Matters (Continued)

Other Information (Continued)

The accompanying supplementary information identified in the Table of Contents and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2020, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Independent School District No. 111 Management's Discussion and Analysis

This section of Independent School District No. 0111 – Watertown-Mayer Public Schools' annual financial report presents the Management Discussion and Analysis (MD&A) of the District's financial performance during the fiscal year ended June 30, 2020. Please read it in conjunction with the District's financial statements, which immediately follow this section.

The MD&A is an element of required supplementary information specified by the GASB Statement No. 34 – *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* issued in June, 1999. GASB Statement No. 34 establishes reporting requirements that include financial statements, expanded disclosure and supplemental information, including the MD&A (this section).

FINANCIAL HIGHLIGHTS

Key financial highlight for 2019 – 2020 is that the District's total general fund balance increased by \$676,227.

OVERVIEW OF THE FINANCIAL STATEMENTS

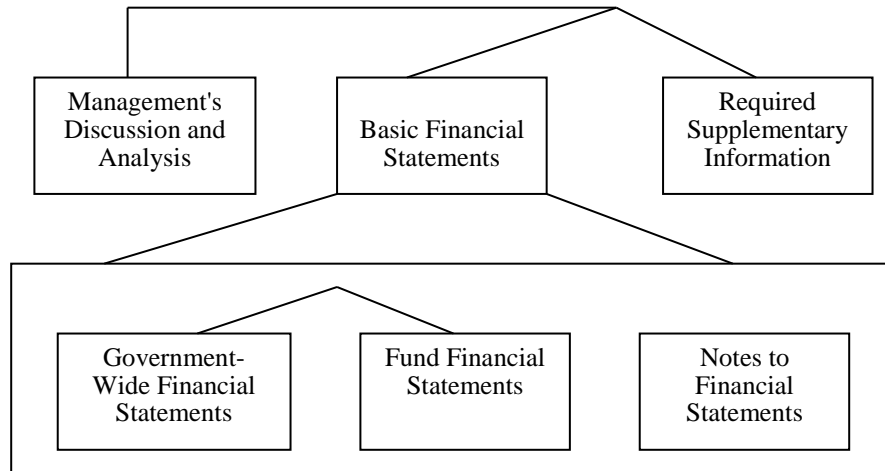

The financial section of the annual report consists of four parts: Independent Auditor's Report, required supplementary information, which includes the MD&A, the basic financial statements, and the supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of supplementary information that further explains and supports the financial statements. The diagram on the next page shows how the various parts of this annual report are arranged and related to one another.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are shown in one category:

- **Governmental Activities** – Most of the District's basic services are included here, such as regular and special education, transportation, administration, food services, and community education. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

The District has only one kind of funds:

- **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information following the governmental funds statements that explains the relationship (or differences) between them.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's combined net position on June 30, 2020, was \$9,449,287 (see details in Table A-1 below). This is an increase of \$2,841,406 from June 30, 2019. Of this increase, \$214,134 was the result of the implementation of GASB 84, Fiduciary Activities. We also had a prior period adjustment that decreased net position by \$77,898. See Note 9 for details on this adjustment. The increase was mainly due to the District's 2020 Bond Issuance.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenue and Expenditures

A comparison of General Fund Revenue and Expenditures are below in Table A-5. Total General Fund revenues increased by \$863,346 or about 4.98% from the previous year. Basic general education revenue is determined by multiple state formulas, largely enrollment driven, and consists of an equalized mix of property tax and state aid revenue. The increase in revenue is primarily due an increase in state funding formula and increase in the district's ADM.

Total General Fund expenditures increased \$1,055,986 or about 6.34% from the prior year. Factors contributing to the increase were capital purchases.

General Fund Budgetary Highlights

The District's final General Fund budget anticipated that expenditures would exceed revenues by \$159,039. The actual result was an increase in fund balance of \$676,227. Revenues were \$256,446 over budget (1.43% of the projected budget) and expenditures were \$391,683 under budget (2.16% of the projected budget). The final budget was modified from the original budget.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Asset

By the end of 2020, the District had invested \$75,583,756 in a broad range of capital assets, including land, construction in progress, school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Table A-7). Total accumulated depreciation increased \$1,633,005 from 2019. See Note 3 in the financial statement for further detail.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Enrollment is a critical factor in determining revenue, with approximately 75% of general Fund Revenue being determined by enrollment, therefore, understanding and making efforts to impact student enrollment choices is a key factor to the long-term fiscal health of the District. The district will need to remain diligent in watching the student count closely. The chart below displays the change in ADM for the past five years. 2020 shows an increase from 2019. Future enrollment will be monitored closely to assure accurate budgeting.

Independent School District No. 111
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances to the
Statement of Activities - Governmental Funds
Year Ended June 30, 2020

Net change in fund balances - total governmental funds \$ 25,582,012

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the Estimated useful lives as depreciation expense.

Capital outlays	1,556,731
Depreciation expense	(1,636,308)
Disposal of capital assets	(508)

Compensated absences are recognized as paid in the governmental funds but recognized as the expense is incurred in the Statement of Activities. 12,816

Total OPEB are recognized as paid in the governmental funds, but recognized as the expense is incurred in the Statement of Activities. 15,669

Principal payments on long-term debt are recognized as expenditures in the governmental funds but have no effect on net position in the Statement of Activities. 3,823,180

Proceeds from the sale of bonds are recognized as other financing sources in the governmental funds increasing fund balance but have no effect on net position in the Statement of Activities.

Bonds payable	(26,102,663)
Capital lease payable	(186,301)

Governmental funds report the effect of bond premiums when the debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. 355,366

Governmental funds recognized pension contributions as expenditures at the time of payment whereas the Statement of Activities factors in items related to pensions on a full accrual perspective. (788,674)

Delinquent property taxes receivable will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds. 20,052

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and thus requires use of current expenditure in the funds when it is due and thus requires use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. 53,798

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District operates under a school board form of government for the purpose of providing educational services to individuals within the District areas. The governing body consists of a seven member board elected by the voters of the District to serve three-year terms.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant policies.

A. Reporting Entity

The financial statements present the District and its component units. The District includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate from such. Component units are legally separate organizations for which the elected officials of the District are financially accountable and are included within the basic financial statements of the District because of the significance of their operational or financial relationships with the District.

The District is considered financially accountable for a component unit if it appoints a voting majority of the organization's governing body and it is able to impose its will on the organization by significantly influencing the programs, projects, activities, or level of services performed or provided by the organization, or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the District.

As a result of applying the component unit definition criteria above, it has been determined the District has no component units.

As of July 1, 2019, the student activity accounts of the District have been taken under board control and will not be reported separately.

B. Basic Financial Statement Information

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basic Financial Statement Information (Continued)

The District applies restricted resources first when an expense is incurred for a purpose for which both restricted and unrestricted net position is available. Depreciation expense that can be specifically identified by function is included in the direct expenses of that function. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities. The effect of interfund activity has been removed from these statements.

Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner.

1. Revenue Recognition

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to *Minnesota Statutes* and accounting principles generally accepted in the United States of America. *Minnesota Statutes* include state aid funding formulas for specific years. Federal revenue is recorded in the year in which the related expenditure is made. Other revenue is considered available if collected within 60 days.

2. Recording of Expenditures

Expenditures are generally recorded when a liability is incurred. The exceptions to this general rule are that interest and principal expenditures in the Debt Service Fund, compensated absences and claims and judgments are recognized when payment is due.

The District applies restricted resources first when an expenditure is incurred for a purpose for which both restricted and unrestricted fund balances are available. Further, the District applies unrestricted funds in this order if various levels of restricted fund balances do not exist: committed, assigned, and unassigned.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus and Basis of Accounting (Continued)

Description of Funds:

Major Funds:

General Fund – This fund is the basic operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The general fund accounts for: administration, kindergarten through 12th grade instruction, transporting students to and from school, maintenance of facilities, equipment purchases, health and safety projects, and disabled accessibility projects.

Debt Service Fund – This fund accounts for the accumulation of resources for, and the payment of, general long-term obligation principal and interest. Assets of the Debt Service Fund are restricted to the payment of bond principal and interest.

Building Construction Fund – Capital Projects – This fund is used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue.

Nonmajor Funds:

Food Service Special Revenue Fund – This fund is used to account for food service revenues and expenditures. Revenues consist of state and federal aids and grants and sales to pupils and adults.

Community Service Special Revenue Fund – This fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, K-6 extended day programs, or other similar services. Revenues consist of state and federal aids and grants and program participant fees.

D. Deposits and Investments

Cash and investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the individual funds based on the average of month-end cash and investment balances.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments held by investment pools are measured at amortized cost.

Cash and investments at June 30, 2020, were comprised of deposits and shares in the Minnesota Trust (MNTrust) Investment Shares Portfolio.

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Deposits and Investments (Continued)

Minnesota Statutes requires all deposits be protected by federal deposit insurance, corporate surety bonds or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by Federal Deposit Insurance Corporation (FDIC) insurance or corporate surety bonds

Minnesota Statutes authorizes the District to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, shares of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota or its municipalities, bankers' acceptances, future contracts, repurchase and reverse repurchase agreements, and commercial paper of the highest quality with a maturity of no longer than 270 days.

In accordance with GASB Statement No. 79, the various MNTrust securities are valued at amortized cost, which approximates fair value. There are no restrictions or limitations on withdrawals from the MNTrust Investment Shares Portfolio.

E. Property Tax Receivable

Current property taxes receivable are recorded for taxes certified the previous December and collectible in the current calendar year, which have not been received by the District. Delinquent property taxes receivable represents uncollected taxes for the past six years, and is deferred and included in the deferred inflows of resources section of the fund financial statements as unavailable revenue because they are not available to finance the operations of the District in the current year.

F. Property Taxes Levied for Subsequent Year's Expenditures

Property taxes levied for subsequent year's expenditures consist principally of property taxes levied in the current year which will be collected and recognized as revenue in the District's following year to properly match those revenues with the budgeted expenditures for which they were levied. This amount is equal to the amount levied by the School Board in December 2019, less various components and their related adjustments as mandated by the state. These portions of that levy were recognized as revenue in fiscal year 2020. The remaining portion of the levy will be recognized when measurable and available.

G. Inventories

Inventories of commodities donated directly by the U.S. Department of Agriculture are recorded at market value. Other inventories are stated at cost as determined on a first-in, first-out (FIFO) basis. Inventories are recorded as expenditures when purchased rather than when consumed.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as an expenditure at the time of consumption.

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Property Taxes

The District levies its property tax during the month of December. December 28 is the last day the District can certify a tax levy to the County Auditor. Such taxes become a lien on January 1. The property tax is recorded as revenue when it becomes measurable and available. Wright, Hennepin, and Carver Counties are the collecting agency for the levy and remit(s) the collections to the District three times a year. The Tax levy notice is mailed in March with the first half of the payment due on May 15 and the second half due on October 15. Delinquent collections for November and December are received the following January.

A portion of property taxes levied is paid by the State of Minnesota through various tax credits, which are included in revenue from state sources in the financial statements.

J. Capital Assets

Capital assets are recorded in the government-wide financial statements, but are not reported in the fund financial statements.

Capital assets are defined by the District as assets with an initial individual cost of more than \$2,500 and an estimated useful life in excess of one year. Such assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings and 5 to 15 years for equipment.

Capital assets not being depreciated include land and construction in progress. The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

K. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Financial Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The District has two items that qualify for reporting in this category. Deferred outflows of resources related to pensions and deferred outflows of resources related to OPEB are reported in the government-wide Statement of Net Position. Deferred outflows of resources related to pensions is recorded for various estimate differences that will be amortized and recognized over future years. Deferred outflows of resources related to OPEB is also recorded for various estimate differences that will be amortized and recognized over future years.

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the Statement of Financial Position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has four types of items which qualify for reporting in this category. The first item, unavailable revenue from property taxes, arises under a modified accrual basis of accounting and is reported only in the Governmental Funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available. The second item is property taxes levied for subsequent years, which represent property taxes received or reported as a receivable before the period for which the taxes are levied, and is reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the Governmental Funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied and in the governmental fund financial statements during the year for which they are levied, if available. The third item is related to pensions and is recorded on the government-wide statements for various estimate differences that will be amortized and recognized over future years. Deferred inflows of resources related to OPEB is recorded on the government-wide statements for various estimate differences that will be amortized and recognized over future years.

L. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether withheld or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Compensated Absences

Employees earn vacation pay at rates dependent upon each employee labor contract. Outstanding vacation liabilities are payable upon termination of employment. Vacation that is earned and unused as of June 30, 2020, is shown as a liability in the Statement of Net Position. Sick pay does not vest and is accounted for as an expenditure when paid.

N. Other Postemployment Benefits (OPEB)

The District provides postemployment health insurance benefits to some retired employees as established by contracts with bargaining units or other employment contracts.

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis, and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association (DTRFA) in 2015.

P. Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and injuries to employees for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three years. There were no significant reductions in the District's insurance coverage during the year ending June 30, 2020.

Q. Fund Balance

In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purpose for which amounts in these funds can be spent.

- Nonspendable Fund Balances – These amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact and include inventory and prepaid items.
- Restricted Fund Balances – These are amounts that are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
- Committed Fund Balances – These are amounts comprised of unrestricted funds that can only be used for specific purposes pursuant to constraints imposed by formal action (resolution) of the School Board and that remain binding unless removed by the School Board by subsequent formal action.

Independent School District No. 111
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Fund Balance (Continued)

- Assigned Fund Balances – These are amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed. The School Board, by a majority vote, may assign balances. The School Board also delegates authority to assign fund balances to the Superintendent and or the Budget and Finance Committee.
- Unassigned Fund Balances – These are amounts that have not been restricted, committed, or assigned to a specific purpose in the General Fund. Other funds may also report a negative unassigned fund balance if the total nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.
- Minimum Fund Balance Policy – The District will strive to maintain a minimum unassigned General Fund balance of not less than 7% and not more than 20% of the annual operating expenditures.

R. Net Position

Net position represents the difference between assets and deferred outflows of resources; and liabilities and deferred inflows of resources in the government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statement when there are limitations on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

S. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenditures/expense during the reporting period. Actual results could differ from those estimates.

**Independent School District No. 111
Notes to Financial Statements**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

T. Budgetary Information

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to July 1, the Superintendent submits to the School Board, a proposed operating budget for the year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. The Superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the School Board.
3. Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. Formal budgetary integration is not required for the Debt Service and Capital Project Funds; however, during the year, the District approved Debt Service and Capital Project Fund budgets.
4. Budgets for the General, Special Revenue, Debt Service, and Capital Project Funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
5. Budgets are as originally adopted or as amended by the School Board. Budgeted expenditure appropriations lapse at year-end.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Deposits

In accordance with applicable *Minnesota Statutes*, the District maintains deposits at depository banks authorized by the School Board.

Custodial Credit Risk – Deposits: This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District requires collateral for deposits over FDIC insurance amounts. At June 30, 2020, the District deposits were not exposed to custodial credit risk.

As of June 30, 2020, the District had the following deposits:

Pooled	
Checking	\$ 677,845
Savings deposit account	3,251,190
Certificate of deposit	3,173,437
Nonpooled - Bond proceeds	
Savings	<u>25,206,854</u>
Total	<u><u>\$ 32,309,326</u></u>

B. Investments

As of June 30, 2020, the District had the following investments:

Investment Type	Investment Maturity (In Years)		
	Fair Value	Less Than 1 Year	Moody's Rating
Pooled			
MN Trust Investment Shares Portfolio	\$ 1,399,626	\$ 1,399,626	AAAm
Nonpooled			
MN Trust Investment Shares Portfolio	204,271	204,271	AAAm
Total	\$ 1,603,897	\$ 1,603,897	

Interest Rate Risk: This is the risk that the market value of securities will be adversely affected due to the changes in market interest rates. The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper and corporate bonds to those in the top two ratings issued by nationally recognized statistical rating organizations. It is the District's policy to invest in securities that meet the ratings requirements set by state statute. Investments are rated as indicated in the table above.

Concentration of Credit Risk: This is the risk of loss attributed to the magnitude of a District's investment in a single issuer. The District has no policy in place that would limit its investment in a single issuer. The District's investments were not exposed to concentration of credit risk.

Custodial Credit Risk – Investments: For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The following is a summary of total deposits and investments.

D. Capital Lease Obligations

The District entered into a lease purchase option agreement on July 2, 2018 with Vantage Financial, LLC for technology equipment. The capital lease obligation and corresponding improvements totaled \$86,423. The capital lease agreement includes annual principal payments of \$28,029 for the life of the agreement.

On July 2, 2018, the District entered into a lease purchase agreement with Vantage Financial, LLC for the acquisition of technology equipment. The capital lease obligation and corresponding equipment totaled \$27,755. The capital lease agreement includes annual principal payments of \$5,460 for each of the five years of the agreement.

On July 2, 2019, the District entered into a lease purchase agreement with Vantage Financial, LLC for the acquisition of technology equipment. The capital lease obligation and corresponding equipment totaled \$186,297. The capital lease agreement includes annual principal payments of \$52,370 for the first three years of the agreement and \$33,551 for the last year of the agreement.

The future minimum lease obligations and the net present value of these minimum lease payments were as follows:

Year Ending June 30,

NOTE 5 – FUND BALANCES/NET POSITION (CONTINUED)

A. Fund Balances (Continued)

Restricted/Reserved for Long-Term Facilities Maintenance (LTFM) – This balance represents available resources to be used for LTFM projects in accordance with the 10-year plan (*Minnesota Statutes* 123B.595, subd. 12).

Restricted/Reserved for Operating Capital – This balance represents available resources in the General Fund to be used to purchase equipment and facilities.

Restricted/Reserved for State Approved Alternative Programs – Per *Minnesota Statutes*, section 123.05, subd. 2, each district that is a member of a state approved alternative learning program must restrict/reserve revenue in an amount equal to the sum of (1) at least 90 and no more than 100 percent of the district average General Education Revenue per adjusted pupil unit minus an amount equal to the product of the formula allowance according to section 126.10 subd. 2, times .0466, calculated without basic skills revenue, local optional revenue, and transportation sparsity revenue, times the number of pupil units attending a state-approved public alternative program, plus (2) the amount of basic skills revenue generated by pupils attending the alternative learning program.

Restricted/Reserved for Basic Skills Programs – This balance represents resources available for the basic skills uses listed in *Minnesota Statutes* 126C.15, subd. 1.

Restricted/Reserved for Student Activities – This balance represents available resources to be used for the extracurricular activity funds raised by the students.

Restricted/Reserved for Medical Assistance – This balance represents available resources to be used for medical assistance expenditures (*Minnesota Statutes* 125A.21, subd. 3).

Restricted/Reserved for Safe Schools Levy – The unspent resources available from the safe schools levy must be restricted in this account for future use.

Restricted/Reserved for Capital Projects – This balance represents resources available for the District's school building capital project.

Restricted/Reserved for Debt Service – This balance represents resources available for payment of G.O. bond principal, interest, and related costs.

Restricted/Reserved for Food Service – This balance represents the positive fund balance of the Food Service Fund not already spent on inventory.

Restricted/Reserved for Community Education – This balance represents the resources available to provide programming such as nonvocational, recreational and leisure time activities, programs for adults with disabilities, noncredit summer programs, adult basic education programs, youth development and youth service programming, early childhood and family education and extended day programs.

NOTE 5 – FUND BALANCES/NET POSITION (CONTINUED)

A. Fund Balances (Continued)

Restricted/Reserved for Early Childhood and Family Education – This balance represents the resources available to provide for services for early childhood and family education programming.

Restricted/Reserved for School Readiness – This balance represents the resources available to provide for services for school readiness programs (*Minnesota Statutes* 124D.16).

Restricted/Reserved for Community Service – This balance represents the positive fund balance of the Community Service Fund not restricted for other programs.

Assigned for Technology – This balance represents the resources available for technology lease payments.

B. Net Position

Net position restricted for other purposes is comprised of the total positive General Fund restricted fund balance plus the positive fund balances of the Food Service and Community Service, adjusted to full accrual.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE

The District participates in various pension plans. Total pension expense for the year ended June 30, 2020, was \$1,649,791. The components of pension expense are noted in the following plan summaries.

The General Fund typically liquidates the Liability related to the pensions.

Teachers' Retirement Association

A. Plan Description

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with *Minnesota Statutes*, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools and certain TRA-covered educational institutions maintained by the state are required to be TRA members (except those teachers employed by St. Paul Schools or Minnesota State Colleges and Universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through the Define Contribution Plan (DCR) administered by the State of Minnesota.

Teachers' Retirement Association (Continued)

B. Benefits Provided

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by *Minnesota Statute* and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits

Tier 1	Step Rate Formula	Percentage
Basic	First ten years of service	2.2% per year
	All years after	2.7% per year
Coordinated	First ten years if service years are up to July 1, 2006	1.2% per year
	First ten years if service years are July 1, 2006, or after	1.4% per year
	All other years of service if service years are up to July 1, 2006	1.7% per year
	All other years of service if service years are July 1, 2006, or after	1.9% per year

With these provisions:

- Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- 3% per year early retirement reduction factor for all years under normal retirement age.
- Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7% per year for coordinated members and 2.7% per year for basic members is applied. For years of service July 1, 2006, and after, a level formula of 1.9% per year for Coordinated members and 2.7% for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under *Minnesota Statute*. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Teachers' Retirement Association (Continued)

B. Benefits Provided (Continued)

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

C. Contribution Rate

Per *Minnesota Statutes*, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year ended June 30, 2018, June 30, 2019, and June 30, 2020, were:

	<u>June 30, 2018</u>		<u>June 30, 2019</u>		<u>June 30, 2020</u>	
	<u>Employee</u>	<u>Employer</u>	<u>Employee</u>	<u>Employer</u>	<u>Employee</u>	<u>Employer</u>
Basic	11.0%	11.5%	11.0%	11.71%	11.0%	11.92%
Coordinated	7.5%	7.5%	7.5%	7.71%	7.5%	7.92%

The following is a reconciliation of employer contributions in TRA's CAFR "Statement of Changes in Fiduciary Net Position" to the employer contributions used in Schedule of Employer and Non-Employer Pension Allocations. Amounts are reported in thousands.

Employer contributions reported in TRA's CAFR Statement of Changes in Fiduciary Net Position	\$ 403,300
Deduct Employer contributions not related to future contribution efforts	(688)
Deduct TRA's contributions not included in allocation	<u>(486)</u>
Total employer contributions	402,126

C. Contribution Rate (Continued)

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. TRA has rounded percentage amounts to the nearest ten thousandths.

D. Actuarial Assumptions

The total pension liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information

Valuation date	July 1, 2019
Experience study	June 5, 2015
	November 6, 2017 (economic assumptions)
Actuarial cost method	Entry Age Normal
Actuarial assumptions	
Investment rate of return	7.50%
Price inflation	2.50%
Wage growth rate	2.85% before July 1, 2028 and 3.25% thereafter
Projected salary increase	2.85% to 8.85% before July 1, 2028 and 3.25% to 9.25% thereafter
Cost of living adjustment	1.0% for January 2019 through January 2023, then increasing by 0.1% each year up to 1.5% annually.

Mortality Assumptions

Pre-retirement	RP 2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP 2015 scale.
Post-retirement	RP 2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projections uses the MP 2015 scale.
Post-disability	RP 2014 disabled retiree mortality table, without adjustment.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

D. Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	35.5 %	5.10 %
International equity	17.5	5.30
Private markets	25.0	5.90
Fixed income	20.0	0.75
Unallocated cash	2.0	0.00
Total	<u>100 %</u>	

The TRA actuary has determined the average of the expected remaining services lives of all members for fiscal year 2016 is six years. The "Difference Between Expected and Actual Experience," "Changes of Assumptions," and "Changes in Proportion" use the amortization period of six years in the schedule presented. The amortization period for "Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments" is over a period of five years as required by GASB 68.

Changes in actuarial assumptions since the 2018 valuation:

- The cost of living adjustment (COLA) was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.

**Independent School District No. 111
Notes to Financial Statements**

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

D. Actuarial Assumptions (Continued)

- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019, and ending July 1, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to 0.0% beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers was reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

E. Discount Rate

The discount rate used to measure the total pension liability was 7.5%. There was no change since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal 2019 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

F. Net Pension Liability

On June 30, 2020, the District reported a liability of \$8,228,861 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis, and Minneapolis School District. District proportionate share was 0.1291% at the end of the measurement period and 0.1305% for the beginning of the year.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the district as its proportionate share of the net pension liability, the direct aid and total portion of the net pension liability that was associated with the district were as follows:

District's proportionate share of net pension liability	\$ 8,228,861
State's proportionate share of the net pension liability associated with the District	728,100

F. Net Pension Liability (Continued)

For the year ended June 30, 2020, the District recognized pension expense of \$1,467,358. It also recognized \$55,344 as an increase to pension expense for the support provided by direct aid.

On June 30, 2020, the District had deferred resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,237	\$ 202,757
Net difference between projected and actual earnings on plan investments	-	677,628
Changes in assumptions	7,369,409	11,063,590
Changes in proportion	20,622	919,869
District's contributions to TRA subsequent to the measurement date	594,861	-
Total	\$ 7,986,129	\$ 12,863,844

\$594,861 reported as deferred outflows of resources related to pensions resulting from District contributions to TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and (deferred inflows of resources) will be recognized in pension expense as follows:

Year Ended June 30,	Pension Expense
2021	\$ 410,445
2022	(136,136)
2023	(3,425,729)
2024	(2,291,759)
2025	(29,397)
Total	\$ (5,472,576)

G. Pension Liability Sensitivity

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5% as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percent lower (6.5%) and 1 percent higher (8.5%) than the current rate.

1% decrease (6.5%)	Current (7.5%)	1% increase (8.5%)
\$ 13,118,817	\$ 8,228,861	\$ 4,197,165

The District's proportion of the net pension liability was based on the employer contributions to TRA in relation to TRA's total employer contributions including direct aid contributions from the State of Minnesota, City of Minneapolis, and Minneapolis School District.

H. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That can be obtained at www.MinnesotaTRA.org, or by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000, or by calling (651) 296-2409 or (800) 657-3669.

Public Employees' Retirement Association (Continued)

A. Plan Description

The District participates in the following cost-sharing multiple-employer defined benefit pension plan administered by PERA. PERA's defined benefit pension plan is established and administered in accordance with *Minnesota Statutes* Chapters 353 and 356. PERA's defined benefit pension plan is tax qualified plan under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan

All full-time and certain part-time employees of the District other than teachers are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

B. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

Independent School District No. 111
Notes to Financial Statements

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

B. Benefits Provided (Continued)

General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1 the annuity accrual rate for a Coordinated Plan member is 1.2% of average salary for each of the first ten years of service and 1.7% of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1.0% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

C. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

General Employees Fund Contributions

Coordinated Plan members were required to contribute 6.5%, of their annual covered salary in fiscal year 2020 and the District was required to contribute 7.5% for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2020, were \$205,907. The District's contributions were equal to the required contributions as set by state statute.

D. Pension Costs

General Employees Fund Pension Costs

At June 30, 2020, the District reported a liability of \$2,150,694 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2019. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled \$66,830. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2018, through June 30, 2019, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2019, the District's proportionate share was 0.0389%, at the end of the measurement period and 0.0418% for the beginning of the period.

District's proportionate share of net pension liability	\$ 2,150,694
State's proportionate share of the net pension liability associated with the District	<u>66,830</u>
Total	<u><u>\$ 2,217,524</u></u>

For the year ended June 30, 2020, the District recognized pension expense of \$182,433 for its proportionate share of the General Employees Plan's pension expense. In addition, the District recognized \$5,005 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

General Employees Fund Pension Costs (Continued)

At June 30, 2020, the District reported its proportionate share of GERF's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 62,396	\$ -
Changes in actuarial assumptions	-	180,364
Difference between projected and actual investment earnings	-	236,644
Change in proportion	-	155,478
District's contributions to PERA subsequent to the measurement date	205,907	-
Total	\$ 268,303	\$ 572,486

The \$205,907 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year End June 30,	Pension Expense

Public Employees' Retirement Association (Continued)

E. Actuarial Assumptions

The total pension liability in the June 30, 2019, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50 % Per year
Active member payroll growth	3.25 % Per year
Investment rate of return	7.50 %

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25% per year.

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. Economic assumptions were updated in 2018 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions occurred in 2019:

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions:

- The employer supplemental contribution was changed prospectively, decreasing from \$31 million to \$21 million per year. The State's special funding contribution was changed prospectively, requiring \$16 million due per year through 2031.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

**Independent School District No. 111
Notes to Financial Statements**

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Public Employees' Retirement Association (Continued)

E. Actuarial Assumptions (Continued)

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic stocks	35.5%	5.10 %
International stocks	25.0%	5.90
Bonds	20.0%	0.75
Alternative assets	17.5%	5.90
Cash	2.0%	0.00
Total	<u>100%</u>	

F. Discount Rate

The discount rate used to measure the total pension liability in 2019 was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in *Minnesota Statutes*. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	<u>1% Decrease Discount Rate (6.5%)</u>	<u>Discount Rate (7.5%)</u>	<u>1% Increase in Discount Rate (8.5%)</u>
District's proportionate share of the PERA net pension liability	\$ 3,535,625	\$ 2,150,694	\$ 1,007,158

NOTE 7 – POST EMPLOYMENT HEALTH CARE PLAN

A. Plan Description

The District provides a single-employer defined benefit OPEB plan which provides medical and dental benefits to eligible retired employees and their dependents in accordance with the terms of the plan. It is the District's policy to periodically review its medical coverage and to obtain requests for proposals in order to provide the most favorable benefits and premiums for District employees and retirees. No assets are acclimated in a trust.

B. Benefits Paid

Teachers hired before January 15, 2010, are eligible for the District to contribute \$200 per month toward medical insurance coverage until they are Medicare eligible. Various other employee groups also receive health insurance contributions at varying rates until they are Medicare eligible. The General Fund, Food Service Funds, and Community Service Fund typically liquidate the liability related to OPEB.

C. Members

As of July 1, 2018, the following were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	8
Active employees	<u>227</u>
Total	<u><u>235</u></u>

D. Contributions

Retirees contribute to the health care plan at the same rate as District employees. This results in the retirees receiving an implicit rate subsidy. Contribution requirements are established by the District, based on the contract terms. The required contributions are based on projected pay-as-you-go financing requirements. For the year 2020, the District contributed \$55,374 to the plan.

E. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Key Methods and Assumptions Used in Valuation of Total OPEB Liability

Discount Rate	3.10%
Salary Increases	3.00%
Inflation	2.50%
Healthcare cost trend increases	6.25% in 2019, decreasing to 5.0% over five years
Mortality Assumption	RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale

The actuarial assumptions used in the July 1, 2018, valuation was based on the results of an actuarial experience study for the period July 1, 2017 – July 1, 2018.

The Discount rate was based on the 20-year Municipal Bond yield.

The following changes in actuarial assumptions in 2019:

Assumption changes:

- For the year ending June 30, 2020: The discount rate changed from 3.50% to 3.10%.

F. Total OPEB Liability

The District's total OPEB liability of \$659,674 was measured as of July 1, 2019, and was determined by an actuarial valuation as of July 1, 2018.

G. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$39,705. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Liability gains	\$ -	\$ 119,708
Changes of assumptions	10,349	-
Subsequent contributions	55,374	-
Total	\$ 65,723	\$ 119,708

\$55,374 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Year Ending June 30,	Total
2021	\$ (27,852)

2023	(27,852)
2024	(27,853)
2025	2,050
Total	\$ (109,359)

NOTE 8 – CHANGE IN ACCOUNTING PRINCIPLE

For the year ended June 30, 2020, the District implemented GASB Statement No. 84, *Fiduciary Activities*. As a result, the District moved student activity accounts and scholarships with administrative control in the amount of \$214,134 to the general fund and the governmental activities.

Independent School District No. 111
Notes to Financial Statements

NOTE 9 – PRIOR PERIOD ADJUSTMENT

A prior period adjustment was required to recognize two capital leases entered in to 2019. The total amount that beginning net position had to be adjusted by was \$77,898.

NOTE 10 – COMMITMENT

As of June 30, 2020, the District had outstanding construction commitments that totaled \$2,235,974.

NOTE 11 – GASB STANDARDS ISSUED BUT NOT YET IMPLEMENTED

GASB Statement No. 87, Leases establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This statement will be effective for the year ending June 30, 2022.

2019 Changes

Changes in Actuarial Assumptions

- None

2018 Changes

Changes in Actuarial Assumptions

- The discount rate was increased to 7.5% from 5.12%.
- The cost of living adjustment (COLA) was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019, and ending July 1, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers was reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2017 Changes

Changes in Actuarial Assumptions

- The discount rate was increased to 5.12% from 4.66%.
- The cost of living adjustment (COLA) was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045.
- The COLA was not assumed to increase to 2.5% but remain at 2.0% for all future years.
- Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0% and the non-vested inactive load increased from 4.0% to 9.0%.
- The investment return assumption was changed from 8.0% to 7.5%.
- The price inflation assumption was lowered from 2.75% to 2.5%.
- The payroll growth assumption was lowered from 2.5% to 3.0%.
- The general wage growth assumption was lowered from 3.5% to 2.85% for ten years followed by 3.25% thereafter.

TRA Retirement Fund (Continued)

2017 Changes (Continued)

Changes in Actuarial Assumptions (Continued)

- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

2016 Changes

Changes in Actuarial Assumptions

- The discount rate was decreased to 4.66% from 8.0%.
- The COLA was not assumed to increase for funding or the GASB calculation. It remained at 2% for all future years.
- The price inflation assumption was lowered from 3% to 2.75%.
- The general wage growth and payroll growth assumptions were lowered from 3.75% to 3.5%.
- Minor changes as some durations for the merit scale of the salary increase assumption.
- The pre-retirement mortality assumption was changed to the RP 2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP 2015 scale.
- The post-retirement mortality assumption was changed to the RP 2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP 2015 scale.
- The post-disability mortality assumption was changed to the RP 2014 disabled retiree mortality table, without adjustment.
- Separate retirement assumptions for members hired before or after July 1, 1989, were created to better reflect each group's behavior in light of different requirements for retirement eligibility.
- Assumed termination rates were changed to be based solely on years of service in order to better fit the observed experience.
- A minor adjustment and simplification of the assumption regarding the election of optional form of annuity payment at retirement were made.

2015 Changes

Changes of Benefit Terms

- The DTRFA was merged into TRA on June 30, 2015.

Changes in Actuarial Assumptions

- The annual COLA for the June 30, 2015, valuation assumed 2%. The prior year valuation used 2% with an increase to 2.5% commencing in 2034. The discount rate used to measure the total pension liability was 8.0%. This is a decrease from the discount rate at the prior measurement date of 8.25%.

2019 Changes

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreasing from \$31 million to \$21 million per year. The State's special funding contribution was changes prospectively, requiring \$16 million due per year through 2031.

2018 Changes

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.0% per year through 2044 and 2.5% per year thereafter to 1.25% per year.

Changes in Plan Provisions:

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.0% to 3.0%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.0% per year with a provision to increase to 2.5% upon attainment of 90% funding ratio to 50% of the Social Security Cost of Living Adjustment, not less than 1.0% and not more than 1.5%, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 Changes

Changes in Actuarial Assumptions

- The CSA loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15% for vested deferred member liability and 3% for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5% per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The State's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2016 Changes

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.

Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, the inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 Changes

Changes in Plan Provisions

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.

Post Employment Healthcare Plan

2019 Changes

- The discount rate was charged from 3.50% to 3.10%

2018 Changes

Changes in Actuarial Assumptions

- The healthcare trend rates were changed to better anticipate short term and long term medical increases.
- The mortality tables were updated from the RP-2014 white collar mortality tables with MP-2016 Generational Improvement scale to the RP-2014 white collar mortality tables with MP-2017 Generational Improvement Scale.
- The discount rate was changed from 3.40% to 3.50%.

Independent School District No. 111
Notes to the Schedule of Expenditures of Federal Awards

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of the financial statements.

NOTE 2 – PASS-THROUGH GRANT NUMBERS

All pass-through entities listed above use the same CFDA numbers as the federal grantors to identify these grants and have not assigned any additional identifying numbers.

NOTE 3 – INVENTORY

Inventories of commodities donated by the U.S. Department of Agriculture are recorded at market value in the Food Service Fund as inventory. Revenue and expenditures are recorded when commodities are used.

NOTE 4 – INDIRECT COST RATE

The District did not elect to use the 10 percent de minimis indirect cost rate.

Independent Auditor's Report

To the School Board
Independent School District No. 111
Watertown-Mayer Schools
Watertown, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 111, Watertown-Mayer Schools, Watertown, Minnesota, as of and for the year ending June 30, 2020, and the related notes to financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 29, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings Questioned Costs in Accordance with the Uniform Guidance that we consider to be a material weakness as audit finding 2020-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to the Findings

The District's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned costs in Accordance with the Uniform Guidance. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program and on Internal Control over Compliance Required by the Uniform Guidance

Independent Auditor's Report

To the School Board
Independent School District No. 111
Watertown, Minnesota

Report on Compliance for Each Major Federal Program

We have audited Independent School District No. 111's, Watertown, Minnesota compliance with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on the District's major federal program for the year ended June 30, 2020. The District's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs in Accordance with the Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Independent School District No. 111 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION II – FINANCIAL STATEMENT FINDINGS

Audit Finding 2020-001

Criteria or Specific Requirement:

Internal control that supports the District's ability to initiate, record, process and report financial data consistent with the assertions of management in the financial statements requires adequate segregation of accounting duties.

Condition:

The District does not have adequate segregation of accounting duties.

Context:

This finding impacts the internal control for all significant accounting functions.

Effect or Potential Effect:

The lack of adequate segregation of accounting duties could adversely affect the District's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

Cause:

There are a limited number of office employees.

Recommendation:

Continue to review the accounting system, including changes that may occur. Implement segregation whenever practical.

Management's Response:

CORRECTIVE ACTION PLAN (CAP):

1. Explanation of Disagreement with Audit Finding
There is no disagreement with the audit finding.
2. Actions Planned in Response to Finding
Administration will review current segregation of accounting duties to determine if further segregation is possible.
3. Official Responsible for Ensuring CAP
The Superintendent, is the official responsible for ensuring corrective action of the deficiency.
4. Planned Completion Date for CAP
The planned completion date for the CAP is ongoing.

Minnesota Legal Compliance
Independent Auditor's Report

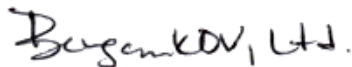

To the School Board
Independent School District No. 111
Watertown-Mayer Schools
Watertown, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Independent School District No. 111, Watertown-Mayer Schools, Watertown, Minnesota, as of and for the year ended June 30, 2020, and the related notes to financial statements, and have issued our report thereon dated October 29, 2020.

The *Minnesota Legal Compliance Audit Guide for School Districts* promulgated by the State Auditor pursuant to *Minnesota Statutes* § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for school districts. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for School Districts*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

The purpose of this report is to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.
