The advertised bid date and time for this bid is on **Friday, June 17 2016 @ 10:00 A.M.** No bids shall be received after the time designated in the bid advertisement. No extensions or exceptions will be made. The Business Office is opened Monday through Friday from 8:00 a.m. – 4:00 p.m. according to the school calendar and 8:00 a.m. – 3:00 p.m. during the summer. Access to the Business Office may be delayed because of security clearance into the Administration Building. Bidders may also submit bids to the Purchasing Agent or his designee at the bid opening meeting held in the Administration Building Conference Room located at 200 Ramsey Avenue, Lakewood, New Jersey, prior to the advertised bid opening date and time. Once again, bids will not be received after the time designated in the advertisement.

2. PARKING

Parking in the vicinity of the Lakewood Township Public Schools Administration Building is at a premium. ***Allow enough time to locate a parking space.*** Heavy traffic hours by the Board Offices on school days are from 7:00 a.m. to 8:30 a.m., and between 1:40 p.m. and 3:10 p.m., since the High School is adjacent to the Board Office location. Adjacent streets are also **blocked off** during student arrivals and dismissals. Also be aware of parking signs as you may receive a parking ticket or have your vehicle towed.

4. UPS / FED EX / AND OTHER EXPRESS DELIVERY SERVICES

Deliveries of this type usually begin at 10:00 a.m. These items are brought only to the receptionist at the main building entrance. The receptionist then calls the various departments with a request to pick up their items. There may be some delay in getting bids to the Business Office because of security clearance at the Administration Building.

5. HAND DELIVER BIDS – SUGGESTED PRACTICE

Keeping the aforementioned items in mind, the Board suggests that bidders arrange to hand deliver their bid to the Business Office, and personally turn it in to the office of the Purchasing Agent before the advertised date and time. 3. Payment for the month of June will be made by approximately July 15th.
4. In order to simplify the invoicing process, one 10th of the annual contract cost should be submitted monthly for the months of September through May. The Per diem contract cost

will be used to reconcile each contract in the final month of the school year (June) by calculating the actual number of days transportation services were performed for the entire school year.

5. Payments are subject to approval by the board of education. Therefore, payments may be delayed depending on the Board's meeting schedule.

EMERGENCY PROVISIONS

1. In the event the school is closed BID DUE to inclement weather or other emergencies, the contractor shall be notified as soon as possible by the public school authorities providing transportation. Contractors are advised to listen to school closing announcements broadcast over the local networks.
2. In an emergency where the contractor cannot meet the schedule, or if the school has a change in schedule, the party responsible for any change shall immediately notify the other party.

BASIS OF BID AND ADJUSTMENTS

1. The bidder shall submit the bid on the bid sheet contained in these bid specifications. Bids shall be submitted on a per diem or per annum basis as indicated on the enclosed bid sheet. Other bid sheets are not acceptable.
2. If any change in the described route results in increased or decreased miles, the amount of the contract shall be adjusted as specified in the bid. Bids, which do not include an adjustment amount, shall not be accepted.
3. The net result of any mileage adjustment to a nonpublic school transportation contract shall not exceed the maximum cost per student in accordance with N.J.S.A. 18A:39-1a. Calculations to determine per student cost shall include all students on the route, public and nonpublic.
4. The increase/decrease mileage adjustment for any route contracted by the board will require a daily difference of at least five additional or decreased miles before any adjustment is applied.

INSURANCE COVERAGE

1. Unless otherwise specified by the Board of Education, the contractor shall provide automotive liability insurance required by the state's motor vehicle commission and the Department of Education regulations in the amount of \$ 2,000,000 or more combined single limit per occurrence. Bidders will be required to provide, with the bid, evidence of their ability to obtain the required insurance coverage. A certificate of insurance for the duration of the contract is to be presented by the successful bidder. The certificate of insurance shall name the contracting board of education as an additional insured party of the policy.

2. The district Board of Education in the Executive County Superintendent shall be notified by the insured whenever any policy is canceled. Notification shall be made within 48 hours of the receipt of the notification of the cancellation by the insured, and before the cancellation takes effect.
3. The contractor will protect, defend, and save harmless the Board of Education from any suits or actions of every nature and description brought against it for or on account of any injuries or damages received or sustained by any party or parties by or from any acts of the contractor, its servants or agents as a result of the performance of the contract.

BID GUARANTEE

1. Each transportation bid shall be accompanied by a bid bond, cashiers or certified check for five percent (5%) of the amount of the annual contract cost. This guarantee shall be made payable to the Lakewood Board of Education. Such deposit shall be forfeited upon refusal of a bidder to execute a contract; otherwise, checks shall be returned when the contract is executed and a surety (performance) bond is filed with the Board of Education (N.J.S.A. 18A:39-4). The bid guarantee shall be identified by the bid number assigned to the bid for which it is submitted. The bid guarantee for all unsuccessful bidders, except for the three lowest bidders, will be returned within 10 days after the bid opening (Saturdays, Sundays and holidays excepted). The annual contract amount of per diem contracts shall be calculated by multiplying the total per diem cost by the number of school calendar days.
2. Each bid shall be accompanied by a Consent of Surety licensed to do business in the state of New Jersey.

PERFORMANCE GUARANTEE

1. A corporate/personal performance surety bond in an amount equal to the annual amount of the contract shall be required of the successful bidder. A signed Prescribed Form of Questionnaire, included in these specifications, shall accompany each bid. The bond to be provided for per diem contracts shall be equal to the total per diem bid multiplied by the number of school calendar days.
2. If personal bonds are permitted by these specifications, a contractor who submits a personal bond will ensure that the bondspersons providing the performance guarantee provide a list of all school districts in which they are bonding contracts and the amount of the contracts bonded. Additionally, evidence of the value of the property listed as security shall be provided upon request.
3. For the purpose of this bid, personal bonds will NOT be permitted.
4. Performance bonds must be submitted within 10 days of receipt of the contract. NO PAYMENTS WILL BE MADE UNTIL ALL REQUIRED DOCUMENTS HAVE BEEN SUBMITTED IN COMPLIANCE WITH STATE REGULATIONS.

BREACH OF CONTRACT/PENALTIES

1. In the event the contractor fails to provide service in accordance with these specifications and stated requirements, the contractor shall be considered in breach of contract. Cancellation of the contract and/or enforcement of contractor's performance bond may result. **At the board's discretion, it may choose to keep contract in force, but impose a daily penalty in the amount equal to the per diem payment (or \$300.00 per day, whichever is greater) for the subject route for each day of noncompliance. Noncompliance includes, but is not limited to, arriving outside the specified window (early or late), no route ID Card for current route , multiple route IDs displayed, no two-way radio, no GPS system, no video recording system, etc.**
2. If the Contractor fails to provide **timely transportation** pursuant to the scheduled routes and times set forth herein, the Contractor shall pay to the Board of Education the sum of \$300.00 per day as liquidated damages, not as a penalty, for each school day the Contractor fails to provide timely transportation pursuant to the scheduled routes and times set forth in the parties' agreement. BID DUE to the inability of the parties to calculate damages with any degree of certainty, said sum is deemed a fair and equitable figure for ascertaining the damages for the delay or inability of the Contractor to provide transportation services in accordance with the established schedule.

TRAINING PROGRAMS

1. The contractor will ensure that drivers and aides are properly trained to perform their duties.
2. The contractor shall administer a safety education program for all permanent and substitute drivers and bus aides.
3. Drivers and aides will be required to participate in scheduled school bus evacuation drills.

ROUTES

1. Within ten (10) days of the start of the contract (except in cases where the route start date is more immediate than the ten (10) day window), the contractor shall submit to the district board of education a description of the actual streets traveled for routes for the transportation of special education students for which the streets to be traveled are not described by the board of education on the route description contained in the bid. **Under no circumstances will drivers be permitted the discretion of changing a child stop to a "HOUSE STOP". The contractor of a route done with unauthorized housetops created by the driver will have the option to pay a daily penalty equal to the amount of the per diem cost for the route or \$300 whichever is greater; or, suspend the driver without pay for a first offense or terminate the driver for repeated offenses.**
2. Bus routes and bus stops shall be provided to the Contractor by the School District. During the course of the operation of the routes from the first day of school until October 15th, the Contractor is authorized to adjust the structure of the routes without prior authorization of the School District but is required to inform the School District Transportation Department in writing within five (5) business days of what structural changes have been made. However,

the Contractor is not authorized to add, change, or eliminate any bus stops without the prior written approval of the School District. The route structural changes are subject to the approval of the School District. Once the routes are firmly established for the school year, but not later than October 15th, the Contractor shall not deviate from the design designated routes except by prior written consent of the School District or in the case of an emergency, which shall be reported promptly thereafter to the School District. Routes may be modified at the sole discretion of the School District, and they shall be subject to the needs of the School District and the provisions of the rules of the State Department of Education as well as the policies and administrative regulations of the Lakewood Township schools.

3. The School District reserves the right to revise or make modifications of any and all routes subject to the needs of the School District, the provisions of the rules of the State Department of Education, and the policies and procedures of the Lakewood Township Board of Education. Such revision shall be deemed an ordinary part of the contract. Any revision that shall create an increase or decrease of mileage, not to exceed 5 miles of the total base service mileage as of the date of the original or the renewal for subsequent years, as specified in routes attached, shall be deemed an ordinary part of the contract. A monthly adjustment will be made for mileage in excess of 5 miles. Said adjustment will result in either a credit to the School District or added compensation to the Contractor.

The School District reserves the right to ask for a copy of the Contractor's records to validate the additional mileage claimed and also reserves the right to validate the mileage on its own. In the event of a discrepancy between the Contractor's claim of mileage and the School District review of mileage, the School District review shall prevail.

4. Within five (5) business days prior to the first day of service under the contract each regular driver will make at least one (1) trial morning and one (1) trial afternoon run at the times in which the routes will be operating, and these trial runs are to include all stops assigned on the route. The Contractor will identify any routes where there is a projected indication of an inability to perform regular scheduled routes to serve the students safely and timely. Contractor will advise the Transportation Department of the School District in writing within five (5) business days of any problems along with any suggestions for improvement.

Failure to provide the School District with information on any problems with the structure of the route(s) will be deemed as the route operating as initially designed, and any changes by the Contractor can be considered a violation of the contract.

For bus drivers permanently assigned to routes after the start of school, within five (5) business days prior to their operation of the route, they will make at least one (1) trial morning and one (1) trial afternoon run at the times the route(s) will be operating.

5. Vehicles shall arrive between fifteen (15) and five (5) minutes before the scheduled school start time. In the afternoon they shall be at their designated parking areas no later than ten (10) minutes prior to the scheduled dismissal of school unless the School District shall determine otherwise.
6. Once the vehicle arrives at the school, the bus driver shall remain within their vehicle.

SCHOOL CANCELLATION, DELAYED START OF SCHOOL, AND EMERGENCY PROVISIONS

1. The Superintendent, or his/her designee, shall have the sole responsibility of altering, delaying or canceling the service during inclement weather or for any other reason. The Contractor agrees to abide by the decision of the Superintendent, or his/her designee, and operate on the assigned schedules and routes. Any obligations the Contractor may have to other School Districts must not interfere with any schedule being used by the Lakewood Township Board of Education on any given day, inclusive of inclement weather emergencies. The School District expects the Contractor to be "on time" regardless of the schedule the School District is required to use on any given day. Per Diem fines will be applied to any route that is reported late on these alternate scheduled days. Contractors are expected to be prudent with the sharing of their services between districts, should they choose to do so, to allow sufficient contingency operations to fully and timely meet their obligation to the Lakewood Township Board of Education on these alternate scheduled days.
2. The Contractor shall also be responsible for providing regularly scheduled buses in the event schools are closed early on any school day BID DUE to weather conditions or other emergency declared by the Superintendent or his/her designee. It is understood that time is of the essence in providing such buses, and that such buses will be provided as soon as possible, but in no event will the arrival of buses at the designated locations be more than one (1) hour after notification is given to the Contractor by the School District.
3. The Contractor understands that the nature of the Lakewood Township Board of Education's state-mandate to provide school buses to nonpublic schools based on their approved schedule will sometimes require that their drivers will be required to work on holidays. Please keep this in mind when bidding and staffing.

MODIFICATIONS

1. Any modifications to these specifications after the public advertisement for bids and prior to the scheduled bid opening will be made known by certified mail or return receipt email to all bidders who requested specifications.

2. The Board of Education reserves the right to make modifications of routes subject to the provisions of the bid and of the rules of the State Board of Education.

RIGHT OF THE BOARD TO REVIEW THE OPERATIONS OF THE CONTRACTOR

1. The Board reserves the right at any time and at their discretion, to review the operations of any contractor servicing Board routes. This will be done as many times as necessary to ensure the interests and responsibilities of the Board to the children transported and the taxpayers. At the very least, it will be done once a year for each contractor's operational site.
2. Furthermore, the buses of any contractor may be boarded by a supervisor from the board to review any concerns for the safety of the children. The district's transportation supervisor may, at their discretion, choose to ride along on the route to review concerns with any part of the service being provided.
3. The maintenance and inspection records of any bus, along with the training/credential files of any driver servicing the Board may be immediately reviewed at any time, either in the Board's offices or on the Contractor's premises.
4. Penalties for noncompliance on any route by deficient bus, driver or operational service will be imposed and the daily amount equal to the per diem rate or \$300.00 per day (whichever is greater) for each affected route shall be forfeited. Severe deficiencies that could compromise the safe transport of the children may warrant a complete "breach of contract" for the subject contractor for all of their contracted routes and subsequent bond relief to the full extent allowed by the terms of the bid and state law.

LAKEWOOD TOWNSHIP BOARD OF EDUCATION ADDENDUM #1

TO TRANSPORTATION CONTRACTS FOR PUBLIC/NON-PUBLIC IN-DISTRICT AND OUT-OF-DISTRICT STUDENTS AND IN-DISTRICT AND OUT-OF-DISTRICT SPECIAL EDUCATION STUDENTS

This addendum applies to the extension of all transportation contracts between the Lakewood Township Board of Education and school bus Contractors for the period specified in the attached bid specifications for contract renewal. This addendum has been part of previous bids or renewals and will be subject to the approval of the Ocean County Executive Superintendent.

GENERAL PROVISIONS

1. All terms and conditions of the previous transportation contracts between the Lakewood Township School District and school bus Contractor shall remain in force and subject to the original bid terms and this addendum. If any original language is found to be redundant or contradictory to the language contained in this version, the language in this addendum will supersede the original language.
2. The transportation contract between the Lakewood Township School District and the school bus Contractor may be increased by the amount approved by the board, not to exceed the New Jersey Department of Education consumer price index percentage as approved by the Commissioner of Education.
3. The Lakewood Township Board of Education reserves the right to waive what it deems information that is relating to this addendum if it deems to be in the best interest of the School District.

NON-PERFORMANCE/DAMAGES

The School District has included non-performance/damages in the event that financial remedies are needed to ensure a high-quality transportation service. It is not that School District's intention, nor desire, to utilize this option unless it is deemed necessary by the actions of the Contractor. The School District envisions a cooperative and harmonious relationship with the Contractor that is based upon mutual trust, and understanding of the responsibilities of both parties, and conforms to the requirements of the contract and all addendums.

Prior to the implementation of any penalty, the Transportation Coordinator will attempt to contact the Contractor or his/her representative to determine if there are any mitigating circumstances that have caused the service issue that might lead to the issuance of a penalty. After reviewing the circumstances surrounding the non-performance, the Transportation Coordinator will make a decision within five (5) business days of the occurrence and implement the penalty if appropriate.

If the Contractor disagrees with the determination of the Transportation Coordinator, the Contractor has the right to appeal the Transportation Coordinator's decision within five (5) business days to the School Business Administrator or his/her representative who will make the determination within five (5) business days. If the Contractor disagrees with the determination of the School Business Administrator or his/her representative, the Contractor has the right to appeal the School Business Administrator's or his/her representative's decision within five (5) business days to the Superintendent of Schools. The Superintendent of Schools will make a determination with thirty-five (35) business days and such decision will be final.

If at any point in the appeals process a decision is made in favor the Contractor, the Contractor shall be reimbursed for any verifiable financial loss he/she incurred.

In view of the difficulty the School District will suffer by reason of the defaults on the part of the Contractor, the following sums shall be deemed damages for breach of the contract.

1. If the Contractor does not have sufficient number of spare vehicles to replace a vehicle in service to the School District that is undergoing maintenance, inspection, or is out of service for any reason, the School District shall deduct from the monthly payments the pro-rata cost of the vehicle(s) for that day contracted through other sources to meet the deficit plus an additional \$50.00 per bus.
2. In the event the Contractor does not have the required operational video/GPS systems on any bus used to service this contract, the Contractor shall be liable for penalty of \$50.00 per day/per bus where such devices were absent or not working on the first offense for any vehicle in their fleet. For a second offense for this or any other bus in the subject Contractor's fleet, a fine will be assessed at \$300.00 per bus/per incident in violation of the specifications. Third and subsequent offenses committed by this bus or any of the bus in the subject Contractor's fleet will be assessed at \$500.00 per bus/per incident. The systems are very important and the board absolutely requires them to be operating as expected.
3. This contract envisions a quality, responsive, transportation program that minimizes the School District's involvement in the day-to-day operation of the program. Should operating problems occur which require the involvement of the School District; the School District reserves right to officially put the Contractor on notice of such problems. Should similar operating problems recur within thirty (30) days, the School District reserves the right to deduct \$200.00 or the per diem rate (whichever is greater) for each poor-performing route from the monthly payment for each such occurrence. If the problem continues beyond thirty (30) days, the School District reserves right to deduct \$300.00 or the per diem rate (whichever is greater) from the monthly payment for each occurrence.

4. If at any time the Contractor uses a driver in the performance of this contract, who does not meet the requirements of State of New Jersey, including, but not limited to, appropriate licensure and training, the Contractor is liable for deductions of \$300.00 per day/per driver plus nonpayment for the route(s) operated by the driver(s) from the monthly billing for service for each driver so employed. This fine(s) will be assessed for each day the deficient driver was performing work on behalf of the Lakewood Township Board of Education.
5. The School District considers the retention in service to the School District of the driver, aide, or vehicle for more than 24 hours after the School District has instructed the Contractor in writing that the driver, aide, or vehicle is to be removed as a serious breach of contract. If this flagrant contract violation should continue to occur, the School District will withhold payment for the route(s) driven by the driver, on which the aide serves, or where the vehicle is used plus \$100.00 for each day the driver, aide, or vehicle remains in service to the School District.
6. A reliable transportation system is important to meet the educational requirements of the students in School District. To this end, students must be brought to school in the morning in a timely and consistent manner, and students must be picked up at school in the afternoon in a timely manner. If a bus arrives later than five (5) minutes before scheduled school start time or is not in its designated area at least ten (10) minutes before the scheduled school end time for more than ten (10) days in the school year in the morning and/or afternoon, the School District reserves the right to deduct \$50 or the per diem rate (whichever is greater) per bus for each late arrival at school from the monthly billing retroactive to the first lateness. Should situations beyond the control of the Contractor cause the late arrival (i.e. weather, traffic, etc.) the penalty may not be assessed.
7. Drivers are required to traverse their routes at least five (5) days before they begin the operation of the routes. Purpose of this requirement is to insure that drivers are familiar with the routes including the location of bus stops and the school location, and the driver is able to operate the routes in a timely manner. Failure to be knowledgeable of the routes (including the location of bus stops and the school) shall result in a deduction of \$100 or the per diem rate (whichever is greater) per bus for each route for each day the bus driver is unable to operate them properly and timely.

If substitute drivers are operating a route for five (5) or more consecutive operating days, the substitute drivers will be considered permanent drivers for the purpose of this requirement.

8. In the event of a strike or other occurrence causes an interruption of services for more than 24 hours, the School District shall have the right to secure such other transportation as may be necessary and charge the cost of this other transportation to the account of the Contractor. There will be no payment to the Contractor for days no service is provided, and the Contractor is responsible for the financial liability to the School District.

The Contractor will be liable for any incremental costs, administrative costs, and reasonable attorney fees that the School District may incur in seeking another Contractor and having the other Contractor operate its routes for the interrupted period of service. In addition, the School District retains the right to cancel the contract in order to secure another school bus operator. In this event, the Contractor shall also be responsible for any incremental costs (including reasonable attorney fees and administrative costs) to operate the School District's transportation program for the remainder of the school year.

9. Failure of the Contractor to immediately report an accident involving a bus in service to the School District or an injury involving a student on a bus in service to the School District; not submitting all accident reports on a time (including the Contractor's internal forms); interfering, or not allowing the School District to participate in the Contractor's internal investigation, or preventing the School District from conducting its own accident investigation will result in a penalty of \$300.00 per accident.
10. The Contractor is to provide the School District with any parental complaints, concerns, or information requests they receive. Parents are the direct public "consumers" whose children are served by the School District. Failure to respond appropriately within a five (5) business days of receiving a complaint or concern will result in a penalty of \$50.00 per day beginning from the sixth (6th) day onward for a maximum of \$300.00.
11. If at any time the Contractor fails to provide sufficient personnel (i.e. supervisors, drivers, aides) or sufficient number of vehicles as required by the contract, the School District shall deduct from its monthly payment \$300.00 per day/per vehicle or person/day for each occurrence said personnel or vehicles are not supplied, plus there will be no payment services that were not provided.
12. Given the legal and professional mandates the School District has to be responsible for its transportation program, it is very important that the School District has full information on the drivers, aides, and vehicles used by the Contractor. In the event the Contractor fails to provide the information within the time stipulated in the specifications on the drivers, aides, and/or vehicles, the Contractor shall be liable for penalty of \$300.00 per day for each driver, aide, and/or vehicle.

13. As noted in the specifications, the Contractor and/or drivers are prohibited from changing any route(s) or bus stop(s) without prior School District approval. If such unauthorized changes are made, the School District reserves right to withhold payment for any route(s) that are modified in an unauthorized fashion.

It is especially understood by the Contractor that the School District, by not exercising its rights, or by waiving any of the provisions of this contract, or by exercising the provisions of this contract in a particular way, shall not be deemed to have waived any of its rights or the contract requirements.

APPENDIX A
AMERICANS WITH DISABILITIES ACT OF 1990
Equal Opportunity for Individuals with Disability

The contractor and the Lakewood Township Public Schools (hereafter "owner") do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") (42 U.S.C. S121 01 et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the owner pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the owner in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the owner's grievance procedure, the contractor agrees to abide by any decision of the owner which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the owner, or if the owner incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the contractor shall satisfy and discharge the same at its own expense.

The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim, If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.

It is expressly agreed and understood that any approval by the owner of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the owner pursuant to this paragraph.

It is further agreed and understood that the owner assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.
