January 2024

Dear Parents and Guardians,

As in previous years, the nurses in each building will be aided by the New Hartford Lions Club to perform our vision screenings. The New Hartford Lions Club members have been trained in the use of the Pediavision Spot Screener. The vision screener is capable of screening for Astigmatism, Myopia, Hyperopia, Anisometropia, Strabismus, Amblyopia, and Anisocoria. The individual screenings take just a few seconds and are performed from a distance of about three feet.

This service is offered free of charge by the New Hartford Lions Club under the Lions Eye Health Program administered by the Connecticut Lions Eye Research Foundation. This test is only a screening and does not constitute an examination or diagnosis of vision problems.

If you want to opt out of the screening, please see the form on the Friday Folder or call the school nurse for the opt out form.

The screenings will take place at all three schools the week of January 29th.

Thank you,

Marie Kitch
