Budget Message 2020-21

Last year's D6 budget message began, "This biennium may provide the most optimistic budget picture for public schools in Oregon history." Nine months into that "optimistic" biennium the picture changed dramatically—we now face what is likely the most "uncertain budget picture in Oregon history" and that uncertainty is likely to remain for the next few years.

The Oregon economy moved quickly from thriving (the state had the largest reserve fund in Oregon history) to stalled, with COVID-19 related costs increasing by the hour. In April, while many businesses ground to a halt, school districts continued to operate in a distance learning model. Our budget was significantly impacted this spring (we purchased a lot of chromebooks but didn't use very many substitutes) and we expect to see even more dramatic shifts in our budget during the 20-21 school year, but until we have specific guidance from the state and determine our school structures, it is difficult to predict where those shifts in expenditures will be. Also, the usual suspects—increased healthcare costs, increases in insurance and unfunded ballot measures—impact our annual costs. However, significant increases in PERS won't impact us until next year.

To summarize, we're uncertain about the level of funding, how our schools will operate and where to expect significant increases in costs. We designed a budget based upon our best estimates. For the 2020-2021 school year, Central Point School District made adjustments to our budget in order to maintain current service level without accessing ending fund balance. We have also designed contingency scenarios with planned budget reductions should the state school fund be reduced.

Revenue

The 2020-21 school year is the second year in the biennium and the budget impact of COVID-19 on the state school fund will ultimately be determined in a special legislative session slated for late June and early July. Because the state recognizes public schools as an essential service that must be in place to support economic recovery, statewide leaders predict that funding for the state school fund is likely to remain at \$9 billion. The funds that are more likely to be impacted by the state budget crisis include reduced Measure 98 funding and potentially no funding for the Student Investment Account. However, because the level of funding for these programs is currently to be determined, we have budgeted for the projected revenue, but have not moved forward with additional hiring or additional projects associated with these funds. Should these funds be reduced (in the case of Measure 98) or non-existent (SIA), we simply won't

move forward with hiring or projects and there will be no impact on our ending fund balance.

Our projected beginning fund balance is about \$2.1 million and our projected general fund revenue is at \$55.5 million (this includes beginning fund balance, state school fund and property tax revenue). Our general fund revenue projection is also based on a slight escalation in ADMr of 1.5%—consistent with the Portland State University enrollment projection, our enrollment figures and the steady increase in enrollment over the past seven years.

Expenditures

The proposed 2020-21 budget will maintain existing services and programs. While the overall district programs and services are at current service level, some buildings have reduced staffing to align resource with enrollment and program needs. Although enrollment district-wide has consistently increased, SVE, MRE and Crater have had decreases and we don't anticipate enrollment changes for those buildings in the next year. In the past, we've been able to absorb decreases in enrollment at the building level, but the economic uncertainty this year requires us to made adjustments and reserve our ending fund balance for potential cuts in revenue this year, or over the next few years. All staffing reductions were accomplished through attrition.

It is important to note that on average, revenue for District 6 is consistently lower than other local districts (the combination of general fund revenue and federal fund revenue). Further, we're committed to attracting and retaining the best possible staff by offering competitive compensation packages that are above average. The current budget is aligned with our collective bargaining agreements and reflects a 3% increase in compensation (negotiated two years ago), across all employee groups, to assure that our compensation remains competitive. Because of fewer dollars in revenue and more dollars in expenditures, our class sizes are typically a bit higher than average and some programs such as elementary music and some activities and athletics are not as robust as some other districts in the state.

Challenges and Opportunities

Many of the challenges and opportunities identified last year, remain this year. However, the primary impact is the structure and operations of schools during the COVID-19 pandemic.

- School and district operations and structure for 2020-21 is a massive challenge that will require the district to adhere to Oregon Department of Education requirements, including the ability to shift seamlessly between distance learning, in person learning and a hybrid for schools, classes and individual students. This is also an incredible opportunity that will position District 6 well for the future and potentially result in attracting students who choose on-line or charter schools in order to have that flexibility.

- Special Education costs continue to increase. Autism numbers are increasing at a rapid pace, although all areas of SPED are growing. Three years ago, we initiated our own STEPS program (now PAWS and CLASS) with great success for students and for fewer dollars than the regional program. We continue to assess the value of services offered through SOESD and where it is both cost effective and best for our students, we will transition to in-district services.
- Our facilities continue to be a challenge, but the capital improvement bond passed by voters in May of 2019 will result in massive upgrades: heating and cooling issues; school safety; universal design for student access; classroom space in our in-town schools; remodeling in our out of town schools, the early learning center and many other projects are slated for the next three years. While we're excited about the bond projects, we'll continue to invest in capital projects (roofing, painting and other small projects) with general fund dollars, and maximize the \$2.5 million dollar grant for seismic upgrades at Hanby Middle School along with a second a \$2.5 million-dollar seismic grant at Crater (last year, both SVE and MRE seismic projects were completed).

District 6 remains committed to our communities and families. Our goal in the 2020-21 budget is to provide the best possible educational experience for our students, even as we meet requirements and guidelines from the Oregon Department of Education and the Oregon Health Authority during the COVID-19 pandemic. District 6 is also committed to prudent stewardship of public funds—our state school funds, our capital improvement bond dollars and grant funds. Our strategy includes identifying efficiencies, developing partnerships and making investments in the programs and services with the most significant impact on our kids.

Impact

District 6 is dedicated to helping each student reach his or her full potential. The outcomes identified in our strategic planning process in 2014 remain our focus: Core Knowledge; Creative Problem Solving; Collaboration; Transition; Communication and Character. Our 2020-21 budget reflects the programs and talented staff that we know will make a difference in every child's success.

District Enrollment and Funding

Student Enrollment

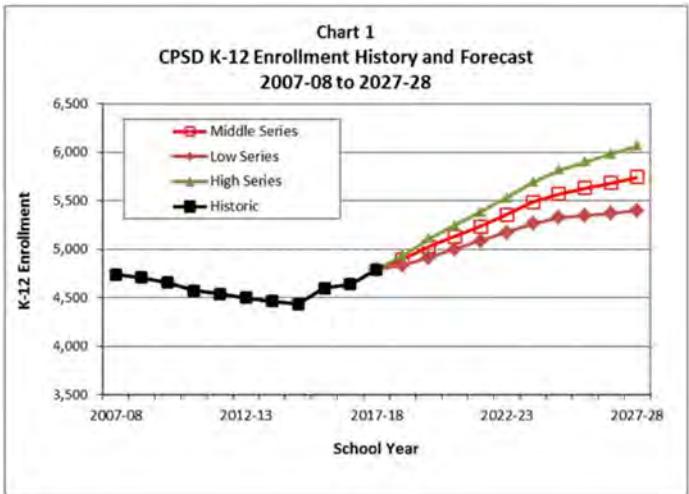

The District student population is counted multiple ways. There are three methods which are the basis of the per student funding level from the State of Oregon: Enrollment, ADMr and ADMw. Enrollment is simply a count of how many students were enrolled under the responsibility of the district on any specific day (a snapshot), whether absent or present on that day. Enrollment is the most common measurement used for daily management and planning. ADMr (Average Daily Membership, resident) is the average number of full-time students enrolled in District programs every day over the course of the entire school year. The ADMw count begins with the ADMr number and is adjusted to compensate for the high costs of educating certain groups of students such as ESL, Special Education, or those at or below the poverty level. The State per student funding allocation is multiplied by the ADMw to determine the District's portion.

Portland State University's School District Enrollment projections predict an increase in student count growth for CPSD6. While relying on recent enrollment trends and expected housing growth, PSU has estimated highest current growth within the elementary schools, specifically Mae Richardson due to the uptick in residential construction activity and subdivision development. Larger increases are expected at both the middle school and high school in the upcoming years.¹

Due to the current situation with COVID-19 and the surrounding uncertainty, there is no guarantee that these projections will hold true and adjustments might be necessary. Until more information is available and released, effects are unknown. However, the projected outlook on increased enrollment through 2027 derived from increased residential construction and population growth looks positive.

Funding

While the district has a multitude of funding sources, State School Fund revenue consists of more than 70% of the CPSD6's annual general fund resources. Because of this, the various factors that affect the SSF funding level become important to diligently monitor. The SSF formula is designed to allocate funds

¹ Portland State University School District Enrollment Forecast Reports:
<https://pdxscholar.library.pdx.edu/enrollmentforecasts/120/>

based on each district's ADMr while also applying the different student "weights" for adjustment. Some of these weights include poverty, English as a second language, and IEP students. Separate state funding is also provided for high cost disability students through the High Cost Disability Grant.

Local revenue plays a part in the SSF's funding allocation. An increase in local revenues, such as property tax revenue, common school fund and federal forest fees, will cause a hydraulic effect and decrease the amount the district receives from the State School Fund distribution. These adjustments can happen several times a year based upon the collective data of all Oregon school districts and educational support districts.

Property tax collection is another large source of revenue. The district's local property tax rate is set permanently at \$4.4134. Based on current property tax assessment data available through the county any effect from COVID-19 will not be reflected in assessed values until fiscal year 21-22.

Other resources consist of ESD passthrough dollars which are the remaining funds left unused from the Choice in Equity options provided by the local ESD.

General Fund

100

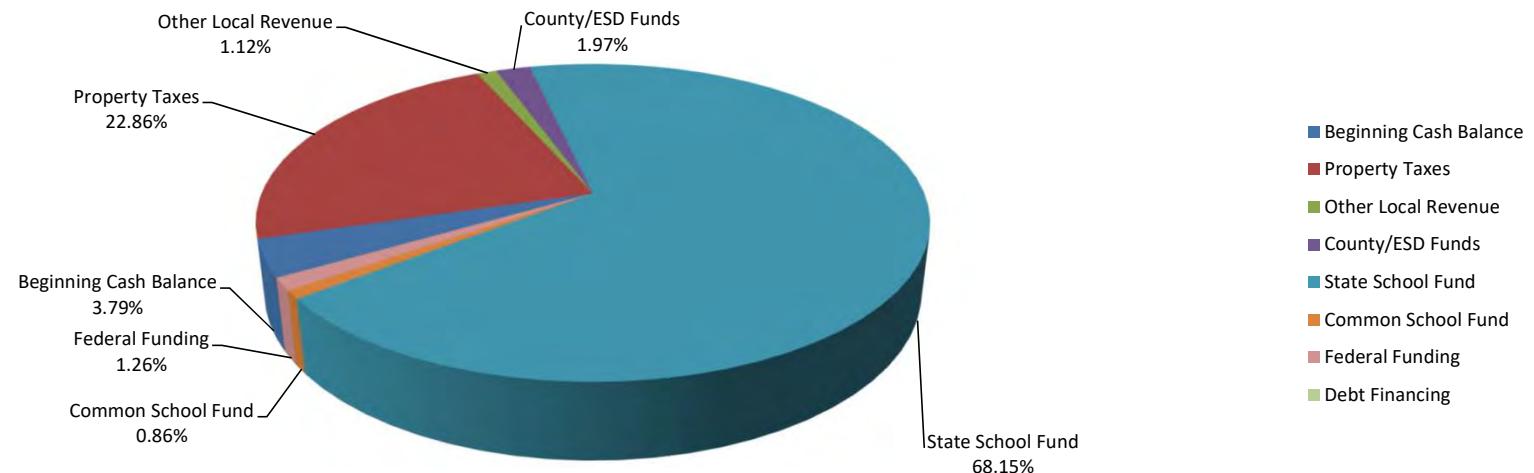

The General Fund is the District's main operating budget. The majority of the money that makes up the General Fund comes from local Property Taxes and the State School Fund. Expenditures are for instructional programs, support, and daily operations of our Schools and District as a whole.

Crater School of Business, Innovation, & Science

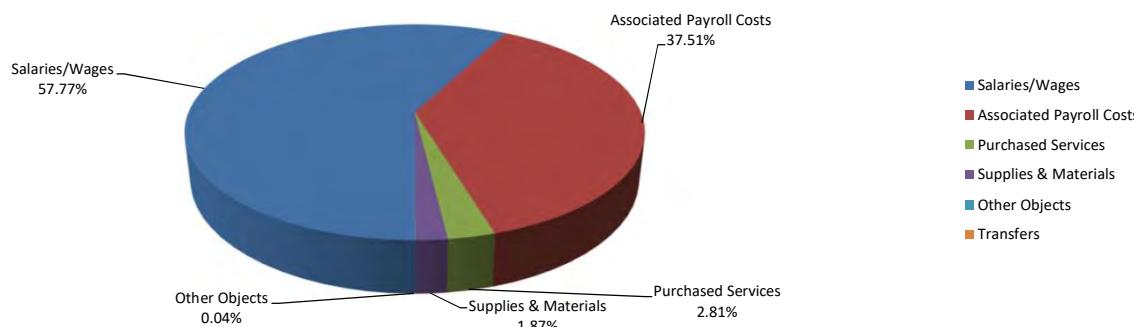

BIS seeks to provide a strong educational base through integrated subjects to prepare students for college and the professional world. Organizational and curricular philosophies aim to encourage persistence in setting and attaining goals, maximize a student's potential, and inspire curiosity to go further. Students gain valuable technology skills through innovative core projects in business and marketing, math, science, art and design, world languages, and the humanities. Students are encouraged to actively participate in campus-wide clubs and events, and to engage in the community through the internship program and community service opportunities.

Debt Service Fund

300

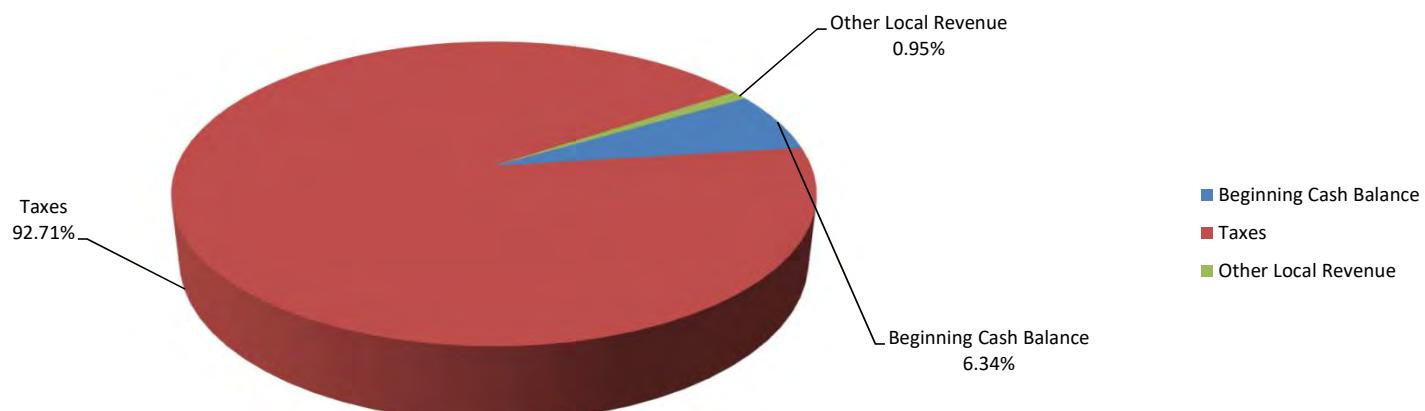

The Debt Service Fund is a fund set up to provide a means to receive money and make payments on principal and interest that are allocated from our taxpayers (through property taxes) to repay the General Obligation Bond debt associated with the voter-approved construction bond levy.
