Lafayette School Corporation strongly believes in the educational value provided through electronic services and digital devices. LSC also recognizes their potential to support curriculum and student learning by facilitating resource sharing, innovation, and communication. The Lafayette School Corporation strives to promote a learning environment that promotes college and/or career development, global competency, and digital citizenry.

LSC uses a filtering system, and will make every effort to protect students and teachers from any misuses or abuses as a result of their experience with an information service. This places LSC in compliance with CIPA (Children's Internet Protection Act). You and your child's signatures will indicate acknowledgment and understanding of the following standards. As a user of this service, your child will be expected to abide by the following rules of network etiquette. (References are not an exhaustive list).
