**FOR IMMEDIATE RELEASE:
Statement on potential threat to LSC schools**

Dear LSC Families,

This morning, the Lafayette School Corporation was made aware of a social media post that is circulating, which serves as a reminder that we take any potential or perceived threats made against our schools and students very seriously.

This post – which the Lafayette Police Department has determined is not credible – concerns potential violence in conjunction with Homecoming-related activities. It has been investigated, and the alleged threats are clearly not aimed at any Lafayette School Corporation – nor any Tippecanoe County – schools. The threat came from another state and has been determined to be a hoax.

We will continue to work with the Lafayette Police Department, and our standard security measures remain in place. We want to assure you that, as always, the health and safety of our students, staff and the public are always our No. 1 priority.

Sincerely,

Les. L. Huddle
Superintendent
