Kelly M. Borchard, Principal

Middle School Technology Standards

1. Students will use online digital tools (such as Google Classroom and Student Connect) to manage workflow, seek and respond to feedback from teachers, and track and reflect upon learning goals (1c, 1a).
2. Students will be able to communicate safely and effectively with classmates and school staff while using technology (1c, 7a).
3. Students will be able to demonstrate an understanding of and abide by intellectual property usage rights (2c, 6b).
4. Students curate information from digital resources (including online curriculum) using a variety of tools and methods to create collections of artifacts that demonstrate meaningful connections or conclusions (3c).
5. Students are trained in a variety of platforms and are able to translate the skills to emerging technologies and choose the appropriate tool/platform for a specific task. For example, web design, video production, 3D printing, coding, presentation, etc. (4b).
6. Students will participate in algorithmic computer troubleshooting (1d).
