About Free Preschool

Q. How do I find out if my child qualifies for free preschool?

A. Family income is the primary consideration to qualify for free preschool and the child's age. Preschool interest forms are reviewed for income eligibility first.

Children who turn 3 by December 1st are eligible for free preschool if the family's income falls below 100% of the federal poverty level.

Children who turn 4 by December 1st are eligible for free preschool if the family's income falls below 250% of the federal poverty level.

Values are updated each year, to learn more about the Federal Poverty Level guidelines, you can visit [HHS Poverty Guidelines](#).

Our free preschool programs are federally funded or state funded by the Michigan Department of Education and have a defined list of eligibility factors. Each child must qualify for the preschool program based on guidelines that include income verification and documentation of other school readiness eligibility factors.

Children are also eligible if they are homeless or in foster care, or if someone in their family receives Supplemental Security Income (SSI) or Cash Assistance (TANF/FIP).
