WHAT IS FUTSAL AND WHY PLAY?

Futsal is the only form of indoor soccer endorsed by FIFA. This is the game that outdoor soccer players around the globe play to refine and maintain their control, skills, and touch.

Main rules for Futsal

- 4 field players and a goal keeper (No goal keepers K-2)
- No offsides
- Kick ins, no throw ins
- Unlimited subs on the fly
- The GK can only play the ball (by feet or hands) for 4 seconds in their own half. Unlimited touches and time on the ball if half field is crossed (For K-4, players will be able to play the keeper an unlimited amount)

WHY PLAY FUTSAL?

1. Makes players comfortable with the ball in all situations
 2. All players on the court are involved in the game, both defensively and offensively
 3. Transition (Learn how to defend and attack 1v1 and in small groups)
 4. Players get more touches and Decision making on/off the ball = faster development
 5. Strong emphasis on creativity and problem solving
 6. Futsal rewards the same basic tactics and knowledge of the game as outdoor soccer.
