

Avon Community School Corporation is requesting proposals for self-provisioned fiber construction or services provided over third party networks in order to provide WAN connections between eligible sites. Fiber Service must be active by May 1, 2025. Bidders are advised that this project will be contingent upon the successful obtaining of E-Rate funding and an Applicant-issued Notice to Proceed, and the contract agreement between the Applicant and the selected vendor must recognize that contingency. Sites to be connected are listed in the RFP. All viable proposed fiber paths will be considered. The RFP may be accessed at <http://tinyurl.com/4wk9eauc> An FCC Form 470 # 240006283 has been posted and can be found at www.USAC.org/sl
