

**POLICY - DISTRIBUTION OF MATERIALS**

**4321**

The Board recognizes that valuable social, recreation, and educational opportunities are available to families and students through nonprofit organizations and government entities in Thurston County providing services for students. The District may choose to make information available to students and families about these programs so long as doing so does not interfere with the educational process.

The Superintendent shall authorize guidelines for the distribution of information to students and families through District channels.

Adopted: November 18, 1985  
Amended: May 21, 2007
