2023-2024 Phase One: Continuous Improvement Diagnostic for Districts	3
--	---

2023-2024 Phase One: Continuous Improvement Diagnostic for Districts

The **Comprehensive District Improvement Plan or CDIP** is defined as a *plan developed by the local school district with input of parents, faculty, staff, and representatives of school councils from each school in the district, based on a review of relevant data that includes targets, strategies, activities, and a time schedule to support student achievement and student growth and to eliminate achievement gaps among groups of students.*

The comprehensive school and district improvement plan process is outlined in 703 KAR 5:225. The requirements included in the administrative regulation are key components of the continuous improvement process in Kentucky and ultimately fulfillment of school, district, and state goals under the Kentucky State Plan as required by the Every Student Succeeds Act (ESSA).

While the regulation outlines a timeline for compliance purposes, the plan itself is a strategic and proven approach to improve processes and to ensure students achieve. The timeline for the district's 2023-24 diagnostics is as follows:

Phase One: August 1 - October 1

- Continuous Improvement Diagnostic for Districts
- Executive Summary for Districts

Phase Two: October 1 - November 1

- The Needs Assessment for Districts
- District Assurances
- District Safety Report

Phase Three: November 1 - January 1

- Comprehensive District Improvement Plan
- The Superintendent Gap Assurance

Phase Four: January 1 - December 31

- Non-Traditional Instruction Continuation of Learning Plan for Districts (Due May 1)
- English Learner Plan for Districts (Lau Plan) (Due May 1)
- Professional Development Plan for Districts (Due May 1)
- Progress Monitoring

As superintendent of the district, I hereby commit to implementing continuous improvement processes with fidelity to support student achievement and student growth and to eliminate achievement gaps among groups of students. I also assure that the comprehensive district improvement plan is developed by the district with input from parents, faculty, staff, and where applicable, representatives of school councils from each school in the district, and other appropriate groups pursuant to ESSA Section 1112(a)(1)(A).

---	---

2023-2024 Phase One: School Safety Report

School Safety Report

Pursuant to KRS 158.162, the local board of education shall require the school council or, if none exists, the principal in each school to adopt an emergency plan that must be utilized in case of fire, severe weather, earthquake, or a building lockdown and that: establishes evacuation routes; identifies the best available severe weather zones; develops earthquake protocols for students; and, develops and adheres to practices controlling access to the school building. The emergency plan shall be annually reviewed by the council, principal, and first responders and revised as needed.

In addition to the emergency plan requirements in KRS 158.162, KRS 158.164 requires the local board of education to direct the school council or, if none exists, the principal in each school to establish procedures to perform a building lockdown and to invite local law enforcement to assist in establishing lockdown procedures.

KRS 158.162 also requires the emergency plan be discussed with all school staff prior to the first instructional day of the school year and provided, along with a diagram of the facility, to appropriate first responders. Further, the principal in each school shall conduct, at a minimum, the following emergency response drills within the first 30 instructional days of the school year and again during the month of January: one severe weather drill, one earthquake drill, and one lockdown drill. In addition, required fire drills shall be conducted according to administrative regulations promulgated by the Department of Housing, Buildings and Construction.

Questions Related to the Adoption and Implementation of the Emergency Plan

1. Has the school council or, where applicable, principal adopted an emergency plan in accordance with local board policy and in compliance with the specifications in KRS 158.162(3) and is a copy maintained on file in the school office?

If the answer is "no", please explain in the comment box. Please note that Senate Bill 1 (2019) and Senate Bill 8 (2020) amended KRS 158.162(3)(d) to require, for example, classroom doors remain closed and locked during instructional time (with limited exceptions) as well as classroom doors with windows be equipped with material to quickly cover the window during a building lockdown. Schools are encouraged to comply with these changes as soon as practicable but, if needed, have until July 1, 2022 to fully implement. Accordingly, failure to comply with KRS 158.162(3)(d), as amended, shall be reported for the 2022-2023 school year and each year thereafter.

Yes, the school council has adopted a emergency management plan and it is in the office. (9/27/23-approval)

2. Has the school provided local first responders with a copy of the school's emergency plan along with a diagram of the school as required by KRS 158.162(2)(b)?

If the answer is "no", please explain in the comment box.

Yes, the emergency plan has been shared with local first responders along with a diagram of the school.

3. Has the school posted primary and secondary evacuation routes in each room by any doorway used for evacuation as required by KRS 158.162(3)(a)?

If the answer is "no", please explain in the comment box.

Yes, each doorway has an evacuation route posted with evacuation routes noted on the sheet.

4. Has the school posted the location of severe weather safe zones in each room as required by KRS 158.162(3)(b)?

If the answer is "no", please explain in the comment box.

Yes, location of severe weather safe zones are noted on the evacuation routes.

5. Have practices for students to follow during an earthquake been developed as required by KRS 158.162(3)(c) and is a copy maintained on file in the school office?

If the answer is "no", please explain in the comment box.

Practices of students during an earthquake has been developed and is noted and maintained on file in the school office.

6. Are practices in place to control access to the school building, including but not limited to controlling outside access to exterior doors during the school day; controlling the main entrance of the school with electronically locking doors, a camera, and an intercom system; controlling access to individual classrooms; requiring classroom doors to remain closed and locked during instructional time (with limited exceptions outlined in statute); requiring classroom doors with windows to be equipped with material to quickly cover the windows during a lockdown; requiring all visitors to report to the front office of the building, provide valid identification, and state the purpose of the visit; and providing a visitor's badge to be visibly displayed on a visitor's outer garment as required by KRS 158.162(3)(d)?

If the answer is "no", please explain in the comment box.

Yes. We have a buzzer to come into the building and someone checks the camera and asks the visitor to state their reasoning. The person is buzzed into the building and then checked in through the raptor system. The person must wear the badge

the entire time while visiting our schools and then return the badge to be shredded at the end of their visit to maintain safety for our building.

7. Was the school's emergency plan reviewed following the end of the prior school year by the school council, principal, and first responders and revised as needed as required by KRS 158.162(2)(c) and is a copy maintained in the school office?

Please provide the most recent date of review/revision of the school's emergency plan in the comment box. If the answer is "no", please explain in the comment box.

Yes. 5/24/2023 by the SBDM council

8. Did the principal discuss the emergency plan with **all** school staff prior to the first instructional day of the current school year and appropriately document the time and date of such discussion as required by KRS 158.162(2)(d)?

Please provide the date the school completed this discussion in the comment box. If the answer is "no", please explain in the comment box.

Yes, we reviewed on 8/14/2023.

9. During the first 30 instructional days of the current school year, did the principal conduct at least one severe weather drill, one earthquake drill, and one lockdown drill as required by KRS 158.162(5) and are the drills maintained in the appropriate drill log for the given school year?

If the answer is "no", please explain in the comment box.

Yes, we conducted a severe weather, earthquake and lockdown drill in the first 30 instructional days of school.

10. During the month of January during the prior school year, did the principal conduct at least one severe weather drill, one earthquake drill, and one lockdown drill as required by KRS 158.162(5) and is a copy maintained on file in the school office?

If the answer is "no", please explain in the comment box.

Yes, one severe weather, earthquake and lockdown was completed in the month of January.

11. Over the immediately preceding twelve months, did the principal conduct fire drills in accordance with administrative regulations promulgated by the Department of Housing, Buildings and Construction as required by KRS 158.162(5)?

If the school did NOT meet the requirement, respond "no" and please explain further in the comment box.

Yes, all fire drills were administered in the twelve months.

2023-2024 Phase One: Executive Summary for Schools	3
--	---

2023-2024 Phase One: Executive Summary for Schools

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Perryville Elementary has a student body enrollment of 311 students preschool-5th grade. The school is located in the heart of Perryville, Kentucky and has a close-knit community connection.

School Stakeholders

Identify and describe the school's stakeholder groups. How does the school ensure stakeholder involvement and engagement in the improvement planning process?

Our stakeholder groups consist of our strong SBDM that is dedicated to ensuring our focus in on the education of the students, PLC groups (where we discuss data and performance of students) and our administrative team at both the school and district level to discuss student performance, data and how to meet individualized needs of students.

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs, including the year in which they were last reviewed or revised. Describe how the school embodies its purpose through its program offerings and expectations for students and how stakeholders are involved in its development.

Our top priority and center focus are the students at Perryville Elementary. Our highly qualified staff works to provide the optimum learning experience for each student. Our goal is focused on providing systematic instruction to help students meet and exceed a proficiency level.

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

Perryville Elementary, the smallest school in Boyle County, with 311 students and 21 teachers is now among the top performing elementary schools in the state of Kentucky according to the Kentucky performance for educational progress, a component of the national educational assessment initiative. Perryville Elementary led the district in Math, Science, Reading, Social Studies and Writing achievement on

KSA. Perryville Elementary is recognized as an ESEA National Distinguished School and a Blue Ribbon School.

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

2023-24 Phase Two: The Needs Assessment for Schools	3
Attachment Summary	7

2023-24 Phase Two: The Needs Assessment for Schools

Understanding Continuous Improvement: The Needs Assessment for Schools

The Needs Assessment Diagnostic will facilitate the use of multiple sources of data to determine the current reality and establish a foundation for decision-making around school goals and strategies. Once completed, the diagnostic will lead to priorities to be addressed in the comprehensive school improvement plan to build staff capacity and increase student achievement. The needs assessment is to be conducted annually as an essential part of the continuous improvement process and precedes the development of strategic goals (i.e. desired state).

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes).

The needs assessment provides the framework for all schools to clearly and honestly identify their most critical areas for improvement that will be addressed later in the planning process through the development of goals, objectives, strategies and activities. 703 KAR 2:225 requires, as part of continuous improvement planning for schools, each school to complete the needs assessment between October 1 and November 1 of each year and include: (1) a description of the data reviewed and the process used to develop the needs assessment; (2) a review of the previous plan and its implementation to inform development of the new plan; and, (3) perception data gathered from the administration of a valid and reliable measure of teaching and learning conditions.

Protocol

1. Clearly detail the process used for reviewing, analyzing and applying data results to determine the priorities from this year's needs assessment. Include names of school councils, leadership teams and stakeholder groups involved, a timeline of the process, the specific data reviewed, and how the meetings are documented.

The process used for reviewing, analyzing and applying data results included meetings with the school's leadership correlate, our site-based decision making council and through PLC's with grade-level specific teams. At the district level, we meet with our district staff/CIA academic team to review, analyze and make decisions based off of the data presented. Our chief academic officer leads the meets and discusses GAPS and looks for areas for improvement. The meetings are documented through an attendance sheet along with agenda and notes covered for each meeting held.

Review of Previous Plan

2. Summarize the implementation of the goals, objectives, strategies and activities from the previous year's Comprehensive School Improvement Plan (CSIP). What was successful? How does it inform this year's plan?

Due to the pandemic closures and the GAPS that we saw as a district, the district utilized ESSER funds to create an academic recovery grant that the schools could apply for. This allowed schools to create schedules that focused on math and reading with more minutes built into the schedules for these content areas. This also allowed us to get more resources such as a daytime waiver, after school ESS, more instructional assistants and resources to help build content delivery and close GAPS that we had seen in increase in. This academic recovery grant was successful and our Kentucky State Assessment (KSA) data showed an increase in academics compared to the prior school year. Overall our proficient/distinguish percentages grew from 70% in reading to 78% (8% increase) and math grew from 66% to 81% (15% increase). We were also recognized as a VERY HIGH performing school on the reading/math indicator. We have to utilize the remaining resources since the ESSER grant has continued this school year (with the remaining/limited funds). We analyzed what worked and what areas needed to be strengthened. We have focused on continuing to spend more time in reading and math and utilize one of our teachers as a reading interventionist and the daytime waiver to support the area of math.

Trends

3. Analyzing data trends from the previous two academic years, which academic, cultural and behavioral measures remain significant areas for improvement?

Example of Trends

- The number of behavior referrals increased from 204 in 2021-22 to 288 in 2022-23.
- From 2021 to 2023, the school saw an 11% increase in novice scores in reading among students in the achievement gap.

The number of behavioral referrals have remained steady from 2021-2022.

Students in 3rd grade reading saw a 9% increase in proficiency and a 16% in proficiency in math. Students in 5th grade reading saw a 21% increase in proficiency, 27% increase in math proficiency, 20% increase in social studies proficiency, and a 16% increase in combined writing.

Current State

4. Plainly state the current condition of the school using precise numbers and percentages as revealed by multiple sources of outcome data. Cite the source of data used.

Example of Current Academic State:

- Thirty-four percent (34%) of students in the achievement gap scored proficient on Kentucky Summative Assessment (KSA) in reading.
- Fifty-four percent (54%) of our students scored proficient in math compared to the state

average of 57%.

Example of Non-Academic Current State:

- Teacher attendance rate was 84% for the 2022-23 academic year.
- Survey results and perception data indicated 62% of the school's teachers received adequate professional development.
 - Seventy percent (70%) of students in the achievement gap scored proficient on Kentucky Summative Assessment (KSA) in reading.
 - Seventy-six percent (76%) of our students in the achievement gap scored proficient on Kentucky Summative Assessment (KSA) in math.

Priorities/Concerns

5. Clearly and concisely identify the greatest areas of weakness using precise numbers and percentages.

NOTE: These priorities will be thoroughly addressed in the Comprehensive School Improvement Plan (CSIP) diagnostic and template.

Example: Sixty-eight percent (68%) of students in the achievement gap scored below proficiency on the Kentucky Summative Assessment (KSA) in reading as opposed to just 12% of non-gap learners.

Thirty percent (30%) of students in the achievement gap scored below proficiency on the Kentucky Summative (KSA) in reading as opposed to just 12% of non-gap learners.

Strengths/Leverages

6. Plainly state, using precise numbers and percentages revealed by current data, the strengths and leverages of the school. Explain how they may be utilized to improve areas of concern listed above.

Example: Reading achievement has increased from 37% proficient to its current rate of 58%. The systems of support we implemented for reading can be adapted to address our low performance in math.

- Reading achievement has increased from 70% to 80%. The system of support we utilized through the ESSER grant by allocating more instructional minutes to this area with target focus has helped to address our GAP areas and to increase proficiency school-wide.

-Math achievement has increase from 66% to 81%. The system of support we utilized through the ESSER grant by allocating more instructional minutes to this

area with target focus has helped to address our GAP areas and to increase proficiency school-wide.

Evaluate the Teaching and Learning Environment

7. Consider the processes, practices and conditions evident in the teaching and learning environment as identified in the six Key Core Work Processes outlined below:

KCWP 1: Design and Deploy Standards

KCWP 2: Design and Deliver Instruction

KCWP 3: Design and Deliver Assessment Literacy

KCWP 4: Review, Analyze and Apply Data Results

KCWP 5: Design, Align and Deliver Support

KCWP 6: Establish Learning Environment and Culture

Utilizing implementation data, perception data, and current policies and practices:

a. Complete the [Key Elements Template](#).

- b. Upload your completed template in the attachment area directly below.

ATTACHMENTS

Attachment Name

23-24 School Key Elements

8. After analyzing the Key Elements of your teaching and learning environment, which processes, practices or conditions will the school focus its resources and efforts upon in order to produce the desired changes?

Note that all processes, practices and conditions can be linked to the six Key Core Work Processes.

NOTE: These elements will be thoroughly addressed in the Comprehensive District Improvement Plan (CSIP) diagnostic and template.

During the pandemic, GAPs were created. We have continued focusing on math and reading deficiencies. When analyzing the data, we would like to decrease novice scores in all academic areas. We will focus on strategies for implementing a targeted approach for skill deficiencies in third along with all grade levels within our school to try to lessen the gap. We are also targeting science, social studies and writing to decrease anything below proficiency.

Key Elements of the Teaching and Learning Environment – School

Utilizing implementation data, perception data, and current policies and practices, analyze the Key Elements of your teaching and learning environment. Identify in the chart below any processes, practices or conditions the school will focus its resources and efforts upon in order to produce the desired changes and improvement. Note that each element identified for focus should be addressed in the strategies of the Comprehensive School Improvement Plan (CSIP).

Key Elements	Is this an area of focus? Yes/No	Specific Processes, Practices or Conditions Identified for Focus
KCWP 1: Design and Deploy Standards Does our school continually assess, review, and revise school curricula to support the assurance that all students have the knowledge, skills, and dispositions for future success?	N	School administration collaborates with the district academic support team along with SBDM committees to make decisions regarding professional development. During our PD work, the district forms teams of teachers across the district to review standards, revise common assessments amongst the district schools along with pacing guides, learning targets, and formative/summative assessments. The district meets individually with school administrators to analyze data to check for congruency, mastery/non-mastery and GAP areas to make decisions throughout the school year.
KCWP 2: Design and Deliver Instruction Does our instructional program include consistent implementation of evidence-based instructional practices essential for academic, behavioral, and social-emotional competencies that are aligned to Kentucky Academic Standards and current research?	N	The evidence that we have that shows our instruction program is consistently being implemented Iready data, summative common assessment data/percentages/averages, KSA data (analyzed by sub groups), formative assessment (immediate feedback for teachers to review misconceptions), and common assessment data amongst district schools. We also analyze behavior with our district teams along with quality controlling any academic content to make sure it is congruent to the KAS.
KCWP 3: Design and Deliver Assessment Literacy Does our school have a comprehensive, balanced assessment system that provides a variety of evidence to support educational decision making and includes	Y	Each instructional day consists of a flashback of prior targets, an exit slip to check for understanding of the target/standard, verbal formative assessments and a common assessment (summative) at the end of each unit for each content area taught. The Iready

Key Elements of the Teaching and Learning Environment – School

Key Elements	Is this an area of focus? Yes/No	Specific Processes, Practices or Conditions Identified for Focus
four primary assessment purposes: formative, diagnostic, interim/benchmark, and summative?		assessment is given three times per year (fall, winter, spring) to measure growth and is normed reference at the district and national level. All of the assessments given are to help make instructional decisions for each individual student.
KCWP 4: Review, Analyze and Apply Data Does our school communicate and implement a sustainable system for reviewing, analyzing, and applying data results to ensure a uniform way to elicit, interpret, and act on meaningful evidence of student learning?	N	Through PLC's, common planning amongst grade level teachers, district team meeting to analyze data and our system of review (teachers turn in exit slips, data from the formative and summative assessments weekly) and they are analyzed for congruency, mastery, and non-mastery. We also have a system of extended school services to try to meet and close gaps of students not performing on grade level.
KCWP 5: Design, Align and Deliver Support Has our school established a framework that organizes systems, data, and practices to promote positive, equitable and inclusive learning experiences for all students?	N	Our "data" review system is in place and systematic. The teachers turn all formative, summative and data is tied to these daily and are reviewed to ensure mastery/non-mastery and ways each teacher is differentiating to meet the student's needs.
KCWP 6: Establishing Learning Culture and Environment Has our school intentionally designed the learning environment to be inclusive and accessible for all students within a culture where learning and continued growth is the primary focus and foundation for all actions?	N	The school intentionally designs the learning environment to meet all students where they are to make instructional decisions within the classroom and at the school level. We use ability grouping through small groups. We also have a basic needs survey to help gauge needs and social/emotional needs for each student. We have the gifted and talented program that helps with enrichment for those students who are on an accelerated pathway. We also have goal breaking and meeting celebrations for the students.

2023-24 Phase Two: School Assurances	3
--------------------------------------	---

2023-24 Phase Two: School Assurances

Introduction

Assurances are a required component of the improvement planning process (703 KAR 5:225). Please read each assurance carefully and indicate whether your school complies by selecting the appropriate response (Yes, No or N/A). If you wish to provide further information or clarify your response, space for comments is provided. Comments are optional. You may upload any supporting documentation as needed.

Federal Programs

1. If the school receives Title II, Part A funds, the school provides professional development for staff that is in accordance with the purpose of Title II, Part A of ESSA (job-embedded, evidence-based, sustainable, data-driven and classroom-focused); addresses the needs of all students; and, strives to ensure all students are transition ready as intended by Section 2103 of ESSA, which governs the local use of Title II, Part A funding.

☒ Yes

☐ No

☐ N/A

COMMENTS

2. The school ensures that the use of federal funding, including expenditures for certified or classified positions (e.g. counselors, nurses, media specialists, etc.), is reasonable and necessary in compliance with 2 CFR 200.403 and 200.405.

☒ Yes

☐ No

☐ N/A

COMMENTS

Title I Programs

3. The school distributes to parents and family members of participating children in a targeted assistance program, or all children in a schoolwide program, a written parent and family engagement policy, which is agreed on by such parents, and describes the means for carrying out the requirements of ESSA Section 1116 (c) through (f). The school makes the policy available to the local community and updates it periodically to meet the changing needs of parents and the school. For reference, Section 1116(b) of

ESSA allows existing parent and family engagement policies the school may have in place to be amended to meet the requirements under Title I, Part A.

☒ Yes

☐ No

☐ N/A

COMMENTS

4. The school convenes an annual meeting, at a convenient time, to which all parents of participating children in a targeted assistance program, or all children in a schoolwide program, are invited and encouraged to attend, to inform parents of their school's participation in Title I, Part A and to explain the requirements of Title I, Part A, and the right of the parents to be involved, as required under Section 1116(c)(1).

☒ Yes

☐ No

☐ N/A

COMMENTS

5. The school offers a flexible number of meetings to parents, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement (ESSA Section 1116(c)(2)).

☒ Yes

☐ No

☐ N/A

COMMENTS

6. The school involves parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs under Title I. This includes the planning, review, and improvement of the school parent and family engagement policy and the joint development of the schoolwide program plan under section 1114(b). If a school has in place a process for involving parents in the joint planning and design of the school's programs, the school may use that process, if such process includes an adequate representation of parents of participating children (ESSA Section 1116 (c)(3)).

☒ Yes

☐ No

☐ N/A

COMMENTS

7. The school provides parents of participating children, or all children in a schoolwide program—

A. timely information about programs under Title I;

B. a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the challenging state academic standards; and

C. if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible (ESSA Section 1116 (c)(4)).

☒ Yes

☐ No

☐ N/A

COMMENTS

8. The school jointly develops with parents for all children served under this part a school-parent compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the state's high standards. The compact meets the requirements outlined in ESSA 1116(d)(1-2).

☒ Yes

☐ No

☐ N/A

COMMENTS

9. The school provides assistance to parents of children served by the school in understanding such topics as the challenging state academic standards, state and local academic assessments, the requirements of Title I, and how to monitor a child's progress and work with educators to improve the achievement of their children, as required by ESSA Section 1116(e)(1).

☒ Yes

☐ No

☐ N/A

COMMENTS

10. The school provides materials and training to help parents to work with their children to improve their children's achievement, such as literacy training and using technology (including education about the harms of copyright piracy), as appropriate, to foster parental involvement, as required in ESSA Section 1116(e)(2).

☒ Yes

☐ No

☐ N/A

COMMENTS

11. The school educates teachers, specialized instructional support personnel, principals, other school leaders, and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school, as required in ESSA Section 1116(e)(3).

COMMENTS

20. In a school implementing a schoolwide program, the school developed a comprehensive plan (CSIP) that is based on a comprehensive needs assessment, which included a review of academic achievement data, and includes, among other items, a description of the strategies the school will implement to address school needs as required by Section 1114(b)(6) of ESSA. The comprehensive needs assessment was developed with the participation of individuals who will carry out the schoolwide program plan, and the school documents how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results, as required by 34 CFR 200.26 (Code of Federal Regulations).

22. The school regularly monitors the implementation and results achieved by the schoolwide program, using data from the state's annual assessments and other indicators of academic achievement. The school determines whether the schoolwide program has been effective in increasing the achievement of students in meeting the challenging state academic standards, particularly for those students who had been furthest from achieving the standards. The school revises the plan as necessary based on student needs and on the results of the regular monitoring, to ensure continuous improvement of students in the schoolwide program and to ensure that all students are provided opportunities to meet the challenging state academic standards, as required by Section 1114 (b)(3) of ESSA and 34 CFR 200.26.

Schools Identified for Targeted Support and Improvement

31. If identified for targeted support and improvement, including additional targeted support and improvement, pursuant to Section 1111(d)(2) of ESSA, the school

developed and implemented a plan to improve student outcomes that, among other items, was informed by all indicators, including student performance against long-term goals; included evidence-based interventions; and, approved by local leadership. For reference, "evidence-based" is defined in ESSA Section 8101(21).

2023-24 Phase Three: Comprehensive School Improvement Plan

Rationale

School improvement efforts are a collaborative process involving multiple stakeholders. During the improvement planning process, leaders focus on priority needs, funding, and closing achievement gaps between identified subgroups of students. When implemented with fidelity, the Comprehensive School Improvement Plan (CSIP) cultivates an environment that promotes student growth and achievement.

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes).

For those schools operating a Title I Schoolwide Program, this plan meets the requirements of Section 1114 of the Every Student Succeeds Act as well as state requirements under 703 KAR 5:225. **No separate Schoolwide Program Plan is required.**

Operational Definitions

Goal: Long-term three- to five-year targets based on the required school level goals. Elementary/middle schools must have goals for state assessment results in reading and mathematics, state assessment results in science, social studies and writing, achievement gap, English learner progress, and quality of school climate and safety. High schools must have goals for state assessment results in reading and mathematics, state assessment results in science, social studies and writing, achievement gap, English learner progress, quality of school climate and safety, postsecondary readiness, and graduation rate. Long-term targets should be informed by the Needs Assessment for Schools.

Objective: Short-term target to be attained by the end of the current academic year. Objectives should address state assessment results and/or aligned formative assessments. There can be multiple objectives for each goal.

Strategy: An approach to systematically address the process, practice, or condition that the school will focus its efforts upon, as identified in the Needs Assessment for Schools, in order to reach its goals or objectives. There can be multiple strategies for each objective. The strategy can be based upon Kentucky's six (6) Key Core Work Processes listed below or another established improvement approach (i.e. *Six Sigma*, *Shipley*, *Baldrige*, etc.).

Key Core Work Processes: A series of processes identified by the Kentucky Department of Education that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth.

[KCWP 1: Design and Deploy Standards](#)

[KCWP 2: Design and Deliver Instruction](#)

[KCWP 3: Design and Deliver Assessment Literacy](#)

[KCWP 4: Review, Analyze and Apply Data Results](#)

[KCWP 5: Design, Align and Deliver Support](#)

[KCWP 6: Establish Learning Environment and Culture](#)

Activity: Actionable steps used to deploy the chosen strategy. There can be multiple activities for each strategy.

Measure of Success: Criteria that shows the impact of the work. The **measures** may be quantitative or qualitative but are observable in some way.

Progress Monitoring: Process used to assess the implementation of the plan, the rate of improvement, and the effectiveness of the plan. The description should include the artifacts to be reviewed, specific timelines, and responsible individuals.

Funding: Local, state, or federal funds/grants used to support (or needed to support) the improvement in

Requirements for Building an Improvement Plan

The required goals for elementary/middle schools include the following:

- State Assessment Results in reading and mathematics
- State Assessment Results in science, social studies and writing
- English Learner Progress
- Quality of School Climate and Safety
- Achievement Gap

The required goals for high schools include the following:

- State Assessment Results in reading and mathematics
- State Assessment Results in science, social studies and writing
- English Learner Progress
- Quality of School Climate and Safety
- Postsecondary Readiness (high school only)
- Graduation Rate (high school only)
- Achievement Gap

Using the Comprehensive School Improvement Plan Template

The template is a complement to the Needs Assessment for Schools. Using your determined priorities, you will set both short- and long-term targets and outline the activities intended to produce the desired changes.

- a. Develop your Strategic Goals using the [Comprehensive School Improvement Plan Template](#).

● **b. Upload your completed template in the attachment area directly below.**

Summarize the plan of action developed through your goal setting process.

Describe which objectives and strategies will be maintained and which will be added or modified to address current needs as outlined in your needs assessment diagnostic, especially those of any identified gap groups.
