Help me understand . .	Tell me all about . . .
What were your thoughts and feelings at that time?	What were you hearing when this was happening?
You said X. I want to make sure I understand what you mean by X.	I don't want to make any assumptions, so can you explain what you mean by X?
I am going to ask some questions about X, because it is important that I understand X.	I am going to shift gears and ask about X.
What part of their body touched your body?	How did you know the other person wanted to do X?

Specific to Witnesses

- Advise witnesses of neutrality, lack of confidentiality and retaliation
- Ask about relationship to parties/conversations about interview
- Give the witness very little specific information about the allegations
- Last question is a catch-all

Interview Structure & Summarizing Interview

- Chronology of conversation v. order of summary
- Notes re: demeanor and physical observations
- Use of direct quotes and interviewee's own language

Other Evidence

- Texts/emails/voicemails
- Social media posts
- Police reports
- Photos
- Medical records
- Phone records

Understanding Relevance & Understanding Special Categories of Evidence

Logical connection between the evidence and facts at issue

Assists in coming to the conclusion – it is “of consequence”

Tends to make a fact more or less probable than it would be without that evidence

Relevance is Not...

- Strength of the evidence
- Believability of the evidence
- Based on type of evidence: circumstantial, direct
- Based on complicated rules of court

Is This Relevant?

1. Transcript
2. Letter from aunt that the complainant or respondent has always been nice kid
3. Polygraph exam
4. Photos of respondent making crude gestures
5. Photos of complainant drinking alcohol at a party

General Rules About Evidence in Title IX Investigations

1) Rule about a categories of evidence ?

2) Past conduct of respondent?

3) Past conduct of complainant?

“Rape Shield” Rules

1. Purpose
2. When is past conduct is considered?
3. Impact

Medical Records, Therapy Records, School Records

1. Release of records
2. Relevance?
3. Sharing with other party

Weighing evidence and making a determination

Weighing the evidence and making a determination

1) Evaluate the evidence collected to determine what factually is more likely to have occurred, and then

2) Analyze whether the conduct that happened constitutes a violation of the school's policies

How to determine if a person is credible?

EEOC says
to consider

- **Inherent plausibility:** Is the testimony believable on its face? Does it make sense?
- **Demeanor:** Did the person seem to be telling the truth or lying?
- **Motive to falsify:** Did the person have a reason to lie?
- **Corroboration:** Is there witness testimony (such as testimony by eye-witnesses, people who saw the person soon after the alleged incidents, or people who discussed the incidents with him or her at around the time that they occurred) or physical evidence (such as written documentation) that corroborates the party's testimony?
- **Past record:** Did the alleged harasser have a history of similar behavior in the past?

How to determine if a person is credible?

Jury
instruction
says to
consider:

- **Relationship** to the Plaintiff or to the Defendant
- Interest, if any, in the outcome of the case-- Anything to gain or lose from the case
- **Manner of testifying** – did they appear to be lying? Appear to be telling the truth?
- **Opportunity** to observe or acquire knowledge concerning the facts about which the witness testified
- **Candor, fairness and intelligence**
- The extent to which testimony has been supported or contradicted by other credible evidence
- **Any bias or prejudice?**
- **Inconsistency** within testimony? Reasonable/minor or significant?
- Use your **common sense** and your everyday experience in dealing with other people.

Credible, or Reliable?

You can
trust it

It is convincing

Credibility versus Reliability

Reliable evidence:

- I can trust the consistency of the person's account of their truth.
- It is probably true and I can rely on it.

Credibility:

- I trust their account based on their tone and reliability.
- They are honest and believable.
- It might not be true, but it is worthy of belief.
- It is convincingly true.
- The witness is sincere and speaking their real truth.

Being Convinced

It Is True, or Biased Conclusion?

**A credible witness may give
unreliable testimony**

I just *KNOW* They Are Not Telling the Truth

- Bias
- Can you really spot a liar?
- Understanding clues that are culturally different from your own

HOW TO
SPOT A LIAR

Preponderance of the Evidence

- Which party's account is supported by the majority of the evidence?
- Which party's account is most likely to have occurred?
- Which party's account is proven by the preponderance of the evidence?
- Equipoise: what it is and what it isn't

Evaluating Inconsistencies & Unanswered Questions

Policy Analysis

- Break down the policy into elements
- Organize the facts by the element to which they relate
