SUMMARY OF SKUSD

Southern Kern Unified School District, a school district in the State of California was established on July 1, 1962. The district is located in the southeast portion of Kern County and serves the community of Rosamond, California. The district encompasses roughly 298 square miles serving approximately 3,500 students. The district currently operates two elementary schools, one middle school, one high school, one continuation high school and one independent study school. The district currently employs 170 teachers, 204 classified, 9 confidential, and 15 management positions. The current student-teacher ratio is 24 to 1 in grades Pre-K to 3, 28 in grades 4 – 6, and 30 in grades 7 – 12. In PE classes secondary, no more than 56 students may be in any one class. Special Day Classes (SDC) should have no more than 15 students in a Mild/Mod. Class, 12 students in a Mod/Severe Class, and 12 students in an EDD class.

DISTRICT ORGANIZATION

The District is governed by a Board of Trustees (the “Board”). The Board consists of 5 members who are elected at large to overlapping four-year terms at elections held in staggered years. If a vacancy arises during any term, the vacancy is filled by either an appointment by the majority vote of the remaining Board Members or by a special election.

Child Abuse Reporting Procedure

IMPORTANT NOTE: With the passage of [AB 1432](#) in September, 2014, all school districts, county offices of education, and charter schools are required to:

1. Annually train, using the [online training module](#) provided by the State Department of Social Services, or other training, employees and persons working on their behalf who are mandated reporters, as defined in [Penal Code 11165.7](#), on the mandated reporting requirements.
2. A process is developed for all persons required to receive training under the bill to provide proof of completing this training within the first 6 weeks of each school year or within 6 weeks of that person's employment.

The training method and process used to assure compliance with [AB 1432](#) is outlined in this section, in addition to the procedures our school district uses for reporting cases of suspected child abuse or neglect.

Southern Kern Unified School District Administrative Regulation 5141.4

Child Abuse Procedures

Observing employee must notify authorities first and make a written report. **We are obligated by law to report anything where we may have doubt.** If we do not report to the following agencies and an abuse case is validated and we had prior knowledge, we can be fined, jailed or both. We are not to tell or discuss our calls on suspected child abuse to anyone except our supervisor or principal and, that is **only** if we wish to let him or her know.

Authorities to notify are:

- *Child Protective Services*
- **Kern County Sheriff should be called first if bruises are visible or if child is in pain) (661) 861-3110.**

Do not rely on others to contact CPS/Sheriff for you. By law, **you** must make notification if you have reasonable doubt.

For personal safety precautions, it is wise to have a witness when you call. Mark their name next to yours on the form. Also, have your witness sign his/her name and put "witness to call". The standard CPS form is to be sent to CPS after a call is made. Forms can be picked up in the office.

1. Phone # 661-631-6011

Suicide Prevention

(The SKUSD Youth Suicide Prevention Policy is posted on the Website)

Prevention

A. Messaging about Suicide Prevention

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, SKUSD along with its partners has critically reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide.

B. Suicide Prevention Training and Education

The SKUSD along with its partners has carefully reviewed available staff training to ensure it promotes the mental health model of suicide prevention and does not encourage the use of the stress model to explain suicide. Training shall be provided for all school staff members and other adults on campus (including substitutes and intermittent staff, volunteers, interns, tutors, coaches, and expanded learning [afterschool] staff).

Training:

- At least annually, all staff shall receive training on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and post prevention.
- All suicide prevention trainings shall be offered under the direction of School-employed mental health professionals (e.g., mental health therapists, school counselors, psychologists, or social workers) who have received advanced training specific to suicide and may benefit from collaboration with one or more county and/or community mental health agencies. Staff training can be adjusted year-to-year based on previous professional development activities and emerging best practices.
- At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment. Previously employed staff members shall attend a minimum of one-hour general suicide prevention training, options to be determined. Core components of the general suicide prevention training shall include:
 - a. Suicide risk factors, warning signs, and protective factors;
 - b. How to talk with a student about thoughts of suicide;
 - c. How to respond appropriately to the youth who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and an immediate referral for

- a suicide risk assessment;
 - d. Emphasis on immediately referring (same day) any student who is identified to be at risk of suicide for assessment while staying under constant monitoring by staff member;
 - e. Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide;
 - f. Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development. See the Cal-SCHLS Web site at <http://cal-schls.wested.org/>.
- In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff should include the following components:
 - a. The impact of traumatic stress on emotional and mental health;
 - b. Common misconceptions about suicide;
 - c. School and community suicide prevention resources;
 - d. Appropriate messaging about suicide (correct terminology, safe messaging guidelines);
 - e. The factors associated with suicide (risk factors, warning signs, protective factors);
 - f. How to identify youth who may be at risk of suicide;
 - g. Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on district guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on district guidelines;
 - h. District-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals). Such procedures should emphasize that the suicidal student should be constantly supervised until a suicide risk assessment is completed;
 - i. District-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior post intervention);
 - j. Responding after a suicide occurs (suicide post intervention);
 - k. Resources regarding youth suicide prevention;
 - l. Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide;
 - m. Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment while being

- constantly monitored by a staff member.
- The professional development also shall include additional information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:
 - a. Youth affected by suicide;
 - b. Youth with a history of suicide ideation or attempts;
 - c. Youth with disabilities, mental illness, or substance abuse disorders;
 - d. Lesbian, gay, bisexual, transgender, or questioning youth;
 - e. Youth experiencing homelessness or in out-of-home settings, such as foster care;
 - f. Youth who have suffered traumatic experiences;
 - g. Youth living in poverty and hardship

C. Employee Qualifications and Scope of Services

Employees of the SKUSD and their partners must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

D. Specialized Staff Training (Assessment)

Additional professional development in suicide risk assessment and crisis intervention shall be provided to mental health professionals (mental health therapists, school counselors, psychologists, social workers, and nurses) employed by SKUSD.

E. Parents, Guardians, and Caregivers Participation and Education

- To the extent possible, parents/guardians/caregivers should be included in all suicide prevention efforts. At a minimum, schools shall share with parents/guardians/caregivers the SKUSD suicide prevention policy and procedures.
- This suicide prevention policy shall be prominently displayed on the SKUSD Web page and included in the parent handbook.
- Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
- All parents/guardians/caregivers should have access to suicide prevention training that addresses the following:
 - a. Suicide risk factors, warning signs, and protective factors;
 - b. How to talk with a student about thoughts of suicide;

- c. How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.

F. Student Participation and Education

The SKUSD, along with its partners, has carefully reviewed available student curricula to ensure it promotes the mental health model of suicide prevention and does not encourage the use of the stress model to explain suicide.

Under the supervision of school-employed mental health professionals, and following consultation with county and community mental health agencies, students shall:

- Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress; Receive developmentally appropriate guidance regarding the district's suicide prevention, intervention, and referral procedures.
- The content of the education shall include:
 - a. Coping strategies for dealing with stress and trauma;
 - b. How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others;
 - c. Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help;
 - d. Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health and science classes).

The SKUSD will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Weeks, Peer Counseling Programs, Freshman Success Programs, and National Alliance on Mental Illness on Campus High School Clubs).

Intervention, Assessment, Referral

A. Staff

Two SKUSD staff members who have received advanced training in suicide intervention shall be designated as the primary and secondary suicide prevention liaisons.

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary designated suicide prevention liaison. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

- Under normal circumstances, the primary and/or secondary contact persons shall notify the principal, another school administrator, school mental health therapist, school psychologist or school counselor, if different from the primary and secondary contact persons. The names, titles, and contact information of multi-disciplinary crisis team members shall be distributed to all students, staff, parents/guardians/caregivers and be prominently available on school and district Websites. [Suicide Prevention Liaisons: Primary - Director of Special Education; Secondary - Associate Superintendent].

The principal, another school administrator, school counselor, school psychologist, social worker, or nurse shall then notify, if appropriate and in the best interest of the student, the student's parents/guardians/caregivers as soon as possible and shall refer the student to mental health resources in the school or community.

Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

If the student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911.

- Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary or secondary suicide prevention liaisons.
- Students experiencing suicidal ideation shall not be left unsupervised.
- A referral process should be prominently disseminated to all staff members, so they know how to respond to a crisis and are knowledgeable about the school and community-based resources.
- The Superintendent or Designee shall establish crisis intervention procedures to ensure student safety and appropriate communications if a suicide occurs or an attempt is made by a student or adult on campus or at a school-sponsored activity.

B. Parents, Guardians, and Caregivers

A referral process should be prominently disseminated to all parents/guardians/caregivers, so they know how to respond to a crisis and are knowledgeable about the school and community-based resources.

C. Students

Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they suspect or have knowledge of another student's emotional distress, suicidal ideation, or attempt. SKUSD employs

licensed mental health therapists who will determine the needs of the student to ensure safety and wellbeing.

D. Parental Notification and Involvement

Each school within the SKUSD shall identify a process to ensure continuing care for the student identified to be at risk of suicide. The following steps should be followed to ensure continuity of care:

- After a referral is made for a student, school staff shall verify with the parent/guardian/caregiver that follow-up treatment has been accessed. Parents/guardians/caregivers will be required to provide documentation of care for the student.
- If parents/guardians/caregivers refuse or neglect to access treatment for a student who has been identified to be at-risk for suicide or in emotional distress, the suicide point of contact (or other appropriate school staff member) will meet with the parents/guardians/caregivers to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build understanding of the importance of care. If follow-up care for the student is still not provided, school staff should consider contacting Child Protective Services (CPS) to report neglect of the youth. Kern County Department of Human Services - Child Protective Services, 100 E. California Avenue, Bakersfield, 93302, (661) 631-6417.

E. Action Plan for In-School Suicide Attempts

If a suicide attempt is made during the school day on campus, it is important to remember that the health and safety of the student and those around him/her is critical. The following steps should be implemented:

- Remain calm, remember the student is overwhelmed, confused, and emotionally distressed;
- Move all other students out of the immediate area;
- Immediately contact the administrator or suicide prevention liaison;
- Call 911 and give them as much information about any suicide note, medications taken, and access to weapons, if applicable;
- If needed, provide medical first aid until a medical professional is available;
- Parents/guardians/caregivers should be contacted as soon as possible;
- Do not send the student away or leave them alone, even if they need to go to the restroom;
- Listen and prompt the student to talk;
- Review options and resources of people who can help;
- Be comfortable with moments of silence as you and the student will need time to process the situation;

- Provide comfort to the student;
- Promise privacy and help, and be respectful, but do not promise confidentiality;
- Student should only be released to parents/guardians/caregivers or to a person who is qualified and trained to provide help.

F. Action Plan for Out-of-School Suicide Attempts

If a suicide attempt by a student is outside of SKUSD property, it is crucial that the LEA protects the privacy of the student and maintain a confidential record of the actions taken to intervene, support, and protect the student. The following steps should be implemented:

- Contact the parents/guardians/caregivers and offer support to the family;
- Discuss with the family how they would like the school to respond to the attempt while minimizing widespread rumors among teachers, staff, and students;
- Obtain permission from the parents/guardians/caregivers to share information to ensure the facts regarding the crisis is correct;
- Designate a staff member to handle media requests;
- Provide care and determine appropriate support to affected students;
- Offer to the student and parents/guardians/caregivers' steps for reintegration to school.

G. Supporting Students after a Mental Health Crisis

It is crucial that careful steps are taken to help provide the mental health support for the student and to monitor their actions for any signs of suicide. The following steps should be implemented after the crisis has happened:

- Treat every threat with seriousness and approach with a calm manner; make the student a priority;
- Listen actively and non-judgmental to the student. Let the student express his or her feelings;
- Acknowledge the feelings and do not argue with the student;
- Offer hope and let the student know they are safe and that help is provided. Do not promise confidentiality or cause stress;
- Explain calmly and get the student to a mental health therapist, school psychologist, trained professional, guidance counselor, or designated staff to further support the student;
- Keep close contact with the parents/guardians/caregivers and mental health professionals working with the student.

H. Re-Entry to School after a Suicide Attempt

A student who threatened or attempted suicide is at a higher risk for suicide in the months following the crisis. Having a streamlined and well-planned re-entry process ensures the safety and wellbeing of students who have previously attempted suicide and reduces the risk of another attempt. An appropriate re-entry process is an important component of suicide prevention. Involving students in planning for their return to school provides them with a sense of control, personal responsibility, and empowerment.

The following steps shall be implemented upon re-entry:

- Obtain a written release of information signed by parents/guardians/caregivers and providers;
- Confer with student and parents/guardians/caregivers about any specific requests on how to handle the situation;
- Inform the student's teachers about possible days of absences;
- Allow accommodations for students to make up work (be understanding that missed assignments may add stress to student);
- Mental health professionals or trusted staff members should maintain ongoing contact to monitor student's actions and mood;
- Work with parents/guardians/caregivers to involve the student in an aftercare plan.

I. Responding After a Suicide Death (Postvention)

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on students and staff. Therefore, it is vital that we are prepared ahead of time in the event of such a tragedy. The Primary (Director of Special Education) and Secondary (Associate Superintendent) Suicide Prevention Liaisons for the SKUSD shall ensure that each school site adopts an action plan for responding to a suicide death as part of the general Crisis Response Plan. The Suicide Death Response Action Plan (Suicide Postvention Response Plan) needs to incorporate both immediate and long-term steps and objectives.

- Suicide Postvention Response Plan shall:
 - a. Identify a staff member to confirm death and cause (school site administrator);

- b. Identify a staff member to contact the deceased's family (within 24 hours);
 - c. Enact the Suicide Postvention Response Plan, include an initial meeting of the district/school Suicide Postvention Response Team;
 - d. Notify all staff members (ideally in-person or via phone, not via e-mail or mass notification).
- Coordinate an all-staff meeting, to include:
 - a. Notification (if not already conducted) to staff about suicide death;
 - b. Emotional support and resources available to staff;
 - c. Notification to students about suicide death and the availability of support services (if this is the protocol that is decided by administration);
 - d. Share information that is relevant and that which you have permission to disclose.
- Prepare staff to respond to the needs of students regarding the following:
 - a. Review of protocols for referring students for support/assessment;
 - b. Talking points for staff to notify students;
 - c. Resources available to students (on and off campus).
- Identify students significantly affected by suicide death and other students at risk of imitative behavior;
- Identify students affected by suicide death but not at risk of imitative behavior;
- Communicate with the larger school community about the suicide death;
- Consider funeral arrangements for family and school community;
- Respond to memorial requests in respectful and non-harmful manner; responses should be handed in a thoughtful way and their impact on other students should be considered;
- Identify media spokesperson skilled to cover story without the use of explicit, graphic, or dramatic content (go to the Reporting on Suicide.Org Web site at www.reportingonsuicide.org). Research has proven that sensationalized media coverage can lead to contagious suicidal behaviors.
- Utilize and respond to social media outlets:
 - a. Identify what platforms students are using to respond to suicide death
 - b. Identify/train staff and students to monitor social media outlets
- Include long-term suicide post intervention responses:
 - a. Consider important dates (i.e., anniversary of death, deceased birthday, graduation, or another significant event) and how these will be addressed
 - b. Support siblings, close friends, teachers, and/or students of deceased
 - c. Consider long-term memorials and how they may impact students who are emotionally vulnerable and at risk of suicide

Mental Health Policies and Procedures

A. Youth Suicide Prevention Policy

Southern Kern USD Board Policy 5141.52

The Board of Trustees of SKUSD recognizes that suicide is a leading cause of death among youth and that an even greater amount of youth considers (17 percent of high school students) and attempt suicide (over 8 percent of high school students) (Centers for Disease Control and Prevention, 2015).

The possibility of suicide and suicidal ideation requires vigilant attention from our school staff. As a result, we are ethically and legally responsible for providing an appropriate and timely response in preventing suicidal ideation, attempts, and deaths. We also must work to create a safe and nurturing campus that minimizes suicidal ideation in students.

Recognizing that it is the duty of the district and schools to protect the health, safety, and welfare of its students, this policy aims to safeguard students and staff against suicide attempts, deaths and other trauma associated with suicide, including ensuring adequate supports for students, staff, and families affected by suicide attempts and loss. As it is known that the emotional wellness of students greatly impacts school attendance and educational success, this policy shall be paired with other policies that support the emotional and behavioral wellness of students.

This policy is based on research and best practices in suicide prevention and has been adopted with the understanding that suicide prevention activities decrease suicide risk, increase help-seeking behavior, identify those at risk of suicide, and decrease suicidal behaviors. Empirical evidence refutes a common belief that talking about suicide can increase risk or "place the idea in someone's mind."

In an attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or Designee shall develop strategies for suicide prevention, intervention, and postvention, and the identification of the mental health challenges frequently associated with suicidal thinking and behavior. These strategies shall include professional development for all school personnel in all job categories who regularly interact with students or are in a position to recognize the risk factors and warning signs of suicide.

The Superintendent or Designee shall develop and implement preventive strategies and intervention procedures that include the following:

Overall Strategic Plan for Suicide Prevention

The Superintendent or Designee shall involve school-employed mental health professionals (e.g., mental health therapists, school counselors, school

psychologists, social workers, and nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, law enforcement, and community organizations in planning, implementing, and evaluating the district's strategies for suicide prevention and intervention. Districts must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources. [e.g., College Community Services, Mary K Shell Mental Health Center, Antelope Valley Hospital, Antelope Valley Community Health, Children's Bureau of Lancaster, Children's Center, Harbor UCLA Psychiatry, Kern County Sheriffs, etc.]

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, the district shall appoint an individual (or team) to serve as the suicide prevention point of contact for the district. In addition, each school shall identify at least one staff member to serve as the liaison to the district's suicide prevention point of contact, and coordinate and implement suicide prevention activities on their specific campus. This policy shall be reviewed and revised as indicated, at least annually in conjunction with the previously mentioned community stakeholders.

Resources:

- The K-12 Toolkit for Mental Health Promotion and Suicide Prevention has been created to help schools comply with and implement AB 2246, the Pupil Suicide Prevention Policies. The Toolkit includes resources for schools as they promote youth mental wellness, intervene in a mental health crisis, and support members of a school community after the loss of someone to suicide.

Additional information about this Toolkit for schools can be accessed on the Heard Alliance Web site at <http://www.heardalliance.org/>.

B. Emergency/Disaster Response Procedures

EARTHQUAKE DRILL PROCEDURES:

For drill purposes, you will hear: Shelter for earthquake 2X's rapid succession this signifies an earthquake has struck. Upon hearing this, staff are to drop and take cover under their desks. An all clear announcement will signal that the earthquake is over. Evacuate the offices to the same area as in a fire drill.

Proceed back to office after the all clear.

1. Do not lock your door, prop open.
2. Have your **disaster books**.
3. Take roll. Make eye contact!

EARTHQUAKE

Earthquakes usually strike without warning. The following actions, as time permits, will be accomplished:

I. INSIDE SCHOOL BUILDING:

- A. Try to avoid glass and falling objects. Move away from windows where there are large panes of glass and out from under heavy suspended light fixtures.
- B. Implement Action LEAVE BUILDING when the earthquake is over,
- C. Special consideration should be given to exit routes, as many California schools have heavy architectural ornaments over the main entrances. **DO NOT RUN.**
 1. Do not return to buildings for any reason until they have been declared safe.
 2. Guards should be posted at a safe distance from all building entrances to see that no one re-enters buildings.
- D. Do not light any fires after the earthquake.
- E. Avoid touching electrical wires which may have fallen.
- F. Render first aid if necessary.
- G. Take roll.
- H. Request assistance as needed, through channels, from the Emergency Services Office (county or city).
- I. Notify utility companies of any break, or suspected break.
- J. The Superintendent will determine the advisability of closing offices. If necessary, the Superintendent will try to procure the advice of competent authorities about the safety of the building.
 1. In most parts of California, the earth shock is the most severe, and subsequent shocks are less intense.
 2. In a few areas of California there is a historical pattern that indicates subsequent shocks may be more severe than the initial tremor.

FALLEN AIRCRAFT

If an accident, such as an auto wreck or plane crash happens on or near campus, or if a student or staff member is seriously injured on campus:

- I. If an aircraft falls near the district offices, the following will be accomplished:
 - A. The Superintendent will determine which action, if any, should be implemented. Where necessary, staff will take immediate action for their safety without waiting for directions.
 - B. All staff will be kept at a safe distance, allowing for possible explosion.
 - C. If possible, the Superintendent will determine whether the aircraft is military, commercial, or a private plane.
 - D. Notify the (local) Kern County Fire Department.
 - a. The telephone number is 256-2401.
 - E. Notify the (local) Kern County Police Department or Sheriff's Office.
 - a. The telephone number is 800-861-3110.

SEVERE WINDSTORM

- I. Warning: Kern County Sheriff's Office, telephone number 800-861-3110.
- II. The U.S. Weather Bureau can usually forecast severe windstorms with a high degree of accuracy. If time and conditions permit, Action GO HOME may be implemented prior to an emergency. However, if high winds develop during school hours with little or no warning, the following Emergency Actions will be accomplished.
 - A. Staff should be assembled inside shelters or buildings.
 - B. Close windows and blinds.
 - C. Remain near an inside wall, on the lower floors if possible.
 - D. Avoid structures with large roof spans.
 - E. Evacuate offices bearing full force of wind.
 - F. Keep tuned to local radio station for latest advisory information.
 - G. Take roll.
 - H. Notify utility companies of any break, or suspected break.

CHEMICAL RELEASE

Inside Offices:

- Call 911.
- Evacuate the building in a safe manner upwind of the affected area.
- Superintendent or designees will have security/utilities team isolate and restrict the area.
- Turn off the local fans, close windows, shut down the building's air handling system.
- Check for any staff having any contact with hazardous substance.

Outside the offices and localized:

- Superintendent/designee will direct staff to remove from the affected area and proceed upwind of area.
- If necessary, evacuate building upwind of affected area.
- Securities/utilities team will isolate and restrict affected area.

Surrounding Community:

Chemical accidents of disaster magnitude would include tank truck accidents involving large quantities of toxic gases. Should such an accident endanger the students or staff, the following will be accomplished.

- Determine the need to implement Action LEAVE BUILDING.
- Determine whether the staff should leave grounds.
- If appropriate, act to evacuate the building, and if necessary, the area.
- Move crosswind - never up, or downwind - to avoid fumes.
- Render first aid if necessary.
- Notify the (local) Kern County Fire Department. The telephone number is 256-2401.
- Notify the (local) Kern County Sheriff's Office. The telephone number is 800-861-3110.
- Take roll.
- The Superintendent/designee will direct other action as required.
- Staff should not return to grounds until Fire Department officials declare the area safe.

In the event of a serious chemical spill or bomb threat the procedures to evacuate the school site are as follows:

- The decision to evacuate will be made by the Superintendent/designee on the advice of the Kern County Sheriff's Department.
- Depending on the location of the threat, the earthquake bell or the fire bell will be used to sound the alert. The earthquake bell keeps staff in offices and the fire bell evacuates them.
- Evacuation will be crosswind - never up or downwind. If the wind is north or south, evacuation will be on Westland Drive. If wind is east or west, evacuation will be on Eagle Way.

DEMONSTRATION / WALKOUT

An unlawful demonstration/walkout is any unauthorized assemblage on or off campus by staff for the purpose of protest or demonstration.

- Notify Superintendent immediately.
- Notify Kern County Sheriffs if necessary.
- Initiate appropriate response action, which may include a Shelter-in-place.

DISORDERLY CONDUCT

This may involve a student or staff member exhibiting threatening or irrational behavior.

THE GOAL IS TO CALM AND CONTROL THE SITUATION AND ATTEMPT TO ISOLATE THE PERPETRATOR FROM OTHER STAFF TO THE EXTENT POSSIBLE UNTIL POLICE ARRIVE.

- Superintendent/designee will notify Kern County Sheriffs or Call 911 if necessary.
- Superintendent/designee will initiate appropriate immediate response actions, LOCKDOWN, OR EVACUATION.
- Superintendent/designee will assign a staff member to meet police and escort them to the location of the disturbance.

SCHOOL PERSONNEL AT THE SCENE OF THE DISTURBANCE:

- Clear bystanders and encourage students to “go about their business” and not to get involved.
- Intervene to defuse the situation to the extent possible without threatening your own or staff safety.

FLOOD

This procedure applies whenever storm water or other sources of water inundate or threaten to inundate school grounds or buildings. Flooding may occur as a result of prolonged periods of rainfall, where the school would have sufficient time to prepare. Alternatively, flooding may occur without warning as a result of damage to water distribution systems.

- Initiate appropriate immediate response actions; SHELTER IN PLACE, EVACUATE, or OFF-SITE EVACUATION.
- Call 911.

FLU

Influenza, also known as the flu, is a contagious respiratory disease caused by different strains of viruses. In the United States, there is a flu season that begins every fall and ends every spring. The type of flu people get during this season is called seasonal flu. Flu viruses spread from person to person when people who are infected cough or sneeze.

Anyone with a fever or other symptoms of the flu should stay home from work or school until at least 24 hours after the fever is gone (without medications).

Take these common-sense steps to stop the spread of germs:

- Wash hands frequently with soap and water or an alcohol-based hand sanitizer.
- Avoid or minimize contact with people who are sick (a minimum three feet distancing is recommended).
- Avoid touching your eyes, nose and mouth.
- Cover your mouth and nose with tissues when you cough and sneeze. If you don't have a tissue, coughing or sneezing into the crook of your

- elbow.
- Stay away from others as much as possible when you are sick.

LOSS OF UTILITIES

This procedure addresses situations involving a loss of water, power, or other utilities on school grounds. This procedure should also be used in the event of the discovery of a gas leak, an exposed electrical line, or a break in sewer lines.

- If water or an electrical line is broken, an effort should be made to turn off water or power to the affected area and notify the Superintendent or designee immediately.
- Upon notice of loss of utilities, the principal or designee will initiate appropriate immediate response actions, which may include SHELTER-IN-PLACE, or EVACUATE BUILDING.
- The Superintendent or designee will notify the Maintenance and Operations Department, and will provide the location and nature of emergency.
- If the loss of utilities generates a risk of explosion, such as a gas leak, refer to Explosion/Risk of Explosion.

LIGHTNING STORM

If thunderstorms and lightning are occurring in your area, you should:

- The Superintendent or designee will initiate appropriate response action, which may include a Shelter-in-place or Reverse Evacuation.
- Staff should take shelter in a sturdy building. Avoid isolated sheds or other small structures in open areas.
- Staff should avoid contact with electrical equipment or cords. Unplug appliances and other electrical items such as computers and turn off air conditioners. Power surges from lightning can cause serious damage.
- Staff should avoid contact with plumbing. Do not wash your hands; Plumbing and bathroom fixtures can conduct electricity.
- Staff should stay away from windows and doors.
- Staff should not lie on concrete floors and do not lean against concrete walls.
- Staff should avoid hilltops and open fields.
- Staff should avoid contact with anything metal
- Staff should avoid natural lightning rods such as a tall, isolated trees in an open area.

MOTOR VEHICLE CRASH

If an accident, such as a motor vehicle collision occurs on or near campus, or if a student or staff member is seriously injured on campus:

- Call 911.
- Contact the school office to report an incident and any persons injured or trapped.
- If **no** buildings are in endangered, instruct students to stay inside classrooms.
- If buildings are damaged, evacuate all staff from building as appropriate. Maintain control and take roll and complete accountability report.

If evacuated, wait for instructions from the Superintendent or designee.

ANIMAL DISTURBANCE

This procedure should be implemented when the presence of a snake, dog, bull, coyotes, mountain lions, or any other wild animal threatens the safety of students and staff.

- Call 911.
- The Superintendent/designee will initiate appropriate actions, which include LOCKDOWN or EVACUATION from the affected area.
- Upon discovery of an animal, staff members will attempt to isolate the animal from students.
- If the animal is outside, staff will be kept inside. If the animal gets inside the staff will remain outside. It is suggested that closing doors or locking gates as a means to isolate the animal.
- Call Animal Control.
- If conditions change or warrant it, the Superintendent/designee will initiate off site evacuation procedures.

HEAT WAVE

A heat wave is a prolonged period of excessive heat, generally 10 degrees or more above average, often combined with excessive humidity.

- **Excessive Heat Watch** - Conditions are favorable for an excessive heat event to meet or exceed local Excessive Heat Warning criteria in the next 24 to 72 hours.
- **Excessive Heat Warning** - Heat Index values are forecasting to meet or exceed locally defined warning criteria for at least 2 days (daytime highs=105-110° Fahrenheit).
- **Heat Advisory** - Heat Index values are forecasting to meet locally defined advisory criteria for 1 to 2 days (daytime highs=100-105° Fahrenheit).

Extreme Heat Instructions: (District Guidelines)

When the heat index reaches the range of 90 to 105 degrees, sunstroke, heat cramps, and heat exhaustion are possible. Everyone shall minimize prolonged, vigorous outdoor activity. Always provide adequate amounts of water to students and staff to maintain appropriate hydration and use shaded areas from direct sunlight.

AUTOMATIC EXTERNAL DEFIBRILLATOR (AED)

Southern Kern USD has enhanced the safety of its staff, students and visitors by instituting an internal AED Program at all its Campus sites.

The purpose of the AED (Automatic External Defibrillator) is to address cardiac emergencies by providing a valuable life saving device as well as training staff as lay AED responders. This will increase the response time in such emergencies. There is one AED located in the Nurse's Office.

- The AEDs are wall mounted and easily accessible during business hours.
- Site nurses are trained as AED responders and use the 2016 American Heart Association guidelines for its skills training and application.
- The AEDs are serviced and monitored by authorized district personnel.

COVID-19

COVID-19 affects different people in different ways. People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms may have COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Wash Your Hands Often

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- It's especially important to wash:
 - Before eating or preparing food
 - Before touching your face
 - After using the restroom
 - After leaving a public place
 - After blowing your nose, coughing, or sneezing
 - After handling your mask
 - After changing a diaper
 - After caring for someone sick
 - After touching animals or pets
- If soap and water are not readily available, **use a hand sanitizer that contains at least 60% alcohol**. Cover all surfaces of your hands and rub them together until they feel dry.
 - **Avoid touching your eyes, nose, and mouth** with unwashed hands.

COVID-19: Quarantine vs. Isolation

QUARANTINE keeps someone who was in close contact with someone who has COVID-19 away from others.

If you had close contact with a person who has COVID-19

- The best way to protect yourself and others is to [stay home for 14 days](#) after your last contact. Check your [local health department's website](#) for information about options in your area to possibly shorten this quarantine period.

- Check your temperature twice a day and watch for symptoms of COVID-19.

- If possible, stay away from people who are at higher-risk for getting very sick from COVID-19.

CS317422-A

12/17/2020 2AM

ISOLATION keeps someone who is sick or tested positive for COVID-19 without symptoms away from others, even in their own home.

If you are sick and think or know you have COVID-19

- Stay home until after
 - At least 10 days since symptoms first appeared **and**
 - At least 24 hours with no fever without fever-reducing medication **and**
 - Symptoms have improved

If you tested positive for COVID-19 but do not have symptoms

- Stay home until after
 - 10 days have passed since your positive test

If you live with others, stay in a specific "sick room" or area and away from other people or animals, including pets. Use a separate bathroom, if available.

COVID-19 How to Protect Yourself & Others

Know how it spreads

- There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19).
- **The best way to prevent illness is to avoid being exposed to this virus.**
- The virus is thought to spread mainly from person-to-person.
 - Between people who are in close contact with one another (within about 6 feet).
 - Through respiratory droplets produced when an infected person coughs, sneezes or talks.
 - These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
 - Some recent studies have suggested that COVID-19 may be spread by people who are not showing symptoms.

Everyone Should

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- It's especially important to wash:
 - Before eating or preparing food
 - Before touching your face
 - After using the restroom
 - After leaving a public place
 - After blowing your nose, coughing, or sneezing
 - After handling your mask
 - After changing a diaper
 - After caring for someone sick
 - After touching animals or pets
- If soap and water are not readily available, **use a hand sanitizer that contains at least 60% alcohol.** Cover all surfaces of your hands and rub them together until they feel dry.
- **Avoid touching your eyes, nose, and mouth** with unwashed hands.

Avoid close contact

- **Inside your home:** Avoid close contact with people who are sick.
 - If possible, maintain 6 feet between the person who is sick and other household members.
- **Outside your home:** Put 6 feet of distance between yourself and people who don't live in your household.
 - Remember that some people without symptoms may be able to spread virus.
 - Stay at least 6 feet (about 2 arms' length) from other people.
 - Keeping distance from others is especially important for people who are at higher risk of getting very sick.

Cover your mouth and nose with a mask when around others

- You could spread COVID-19 to others even if you do not feel sick.
- The mask is meant to protect other people in case you are infected.
- Everyone should wear a mask in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.
 - Masks should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- Do NOT use a mask meant for a healthcare worker. Currently, surgical masks and N95 respirators are critical supplies that should be reserved for healthcare workers and other first responders.
- Continue to keep about 6 feet between yourself and others. The mask is not a substitute for social distancing.

Cover coughs and sneezes

- **Always cover your mouth and nose** with a tissue when you cough or sneeze or use the inside of your elbow and do not spit.
- **Throw used tissues** in the trash.
- Immediately **wash your hands** with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

Clean and disinfect

- **Clean AND disinfect frequently touched surfaces daily.** This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
- **If surfaces are dirty, clean them.** Use detergent or soap and water prior to disinfection.
- **Then, use a household disinfectant.** Most common will work.

Monitor Your Health Daily

- **Be alert for symptoms.** Watch for fever, cough, shortness of breath, or other symptoms of **COVID- 19.**
 - Especially important if you are running essential errands, going into the office or workplace, and in settings where it may be difficult to keep a physical distance of 6 feet.
- **Take your temperature** if symptoms develop.
 - Don't take your temperature within 30 minutes of exercising or after taking medications that could lower your temperature, like acetaminophen.
- Stay home and follow CDC Guidelines if symptoms develop.

GUIDANCE FOR EMPLOYEES WHO HAVE BEEN EXPOSED to COVID-19

NOTIFY THE HUMAN RESOURCES DEPARTMENT AS SOON AS POSSIBLE IF YOU SUSPECT YOU HAVE COVID-19 OR HAVE BEEN EXPOSED TO SOMEONE WHO HAS A CONFIRMED CASE OF COVID-19.

Quarantine is used to keep someone who might have been exposed to COVID-19 away from others. Quarantine helps prevent spread of disease that can occur before a person knows they are sick or if they are infected with the virus without feeling symptoms. People in quarantine should stay home, separate themselves from others, monitor their health, and follow directions from their state or local health department.

Anyone who has been in close contact with someone who has COVID-19 must quarantine.

This includes people who previously had COVID-19 and people who have taken a serologic (antibody) test and have antibodies to the virus.

What counts as close contact?

- You were within 6 feet of someone who has COVID-19 for at least 15 Minutes
- You provided care at home to someone who is sick with COVID-19
- You had direct physical contact with the person (touched, hugged, or kissed them)
- You shared eating or drinking utensils
- They sneezed, coughed, or somehow got respiratory droplets on you

Stay home and monitor your health

- Stay home for 14 days after your last contact with a person who has COVID-19
- Watch for fever (100.4⁰F), cough, shortness of breath, or other symptoms of COVID-19
- If possible, stay away others, especially people who are at higher risk for getting very sick from

COVID-19 Who needs to quarantine?

Scenario 1: Close contact with someone who has COVID-19—will not have further close contact

- Your last day of quarantine is 14 days from the date you had close contact.
- Date of last close contact with person who has COVID-19 + 14 days= end of quarantine

GUIDANCE FOR EMPLOYEES WHO HAVE BEEN EXPOSED TO COVID-19

Scenario 2: Close contact with someone who has COVID-19—live with the person but can avoid further close contact

I live with someone who has COVID-19 (e.g., roommate, partner, family member), and that person has isolated by staying in a separate bedroom. I have had no close contact with the person since they isolated.

- Your last day of quarantine is 14 days from when the person with COVID-19 began home isolation. Date person with COVID-19 began home isolation + 14 days = end of quarantine

Scenario 3: Under quarantine and had additional close contact with someone who has COVID-19

I live with someone who has COVID-19 and started my 14-day quarantine period because we had close contact. What if I ended up having close contact with the person who is sick during my quarantine? What if another household member gets sick with COVID-19? Do I need to restart my quarantine?

- Yes. You will have to restart your quarantine from the last day you had close contact with anyone in your house who has COVID-19. Any time a new household member gets sick with COVID-19 and you had close contact, you will need to restart your quarantine.
- Date of additional close contact with person who has COVID-19 + 14 days = end of quarantine

Scenario 4: Live with someone who has COVID-19 and cannot avoid continued close contact

I live in a household where I cannot avoid close contact with the person who has COVID-19. I am providing direct care to the person who is sick, don't have a separate bedroom to isolate the person who is sick, or live in close quarters where I am unable to keep a physical distance of 6 feet.

- You should avoid contact with others outside the home while the person is sick, and quarantine for 14 days after the person who has COVID-19 meets the criteria to end home isolation below.

Consequences

Students may be counseled by a teacher, aide, or principal for a first and second infraction. Parents may be notified in writing and/or telephone call for repeated infractions, by the student's teacher and/or principal. Continued infractions may require a parent conference with the student's teacher and/or principal. Serious infractions may result in immediate suspension, alternate placement, and/or recommendation for expulsion for the student. **Through Positive Behavior Intervention and Support, all efforts will be made by the administration to avoid suspension.**

Alternative to Suspensions/Options

To correct the behavior of any student who is subject to discipline, the Superintendent or designee shall, to the extent allowed by law, first use alternative disciplinary strategies specified in AR 5144 - Discipline. (Education Code 48900.5) Alternatives to suspension or expulsion also shall be used with students who are truant, tardy, or otherwise absent from assigned school activities. Except for single acts of a grave nature or offenses for which suspension or expulsion is required by law, suspension or expulsion shall be used only when other means of correction have failed to bring about proper conduct or the student's presence causes a continuing danger to himself/herself or others.

Definitions

Suspension from school means removal of a student from ongoing instruction for adjustment purposes. Expulsion means removal of a student from the immediate supervision and control, or the general supervision of school personnel. (Education Code 48925)

The Governing Board desires to provide a safe, orderly working environment for all employees. As part of the district's comprehensive school safety plan, the Superintendent or designee shall develop strategies for protecting employees from potentially dangerous persons and situations and for assisting them in the event of an emergency situation.

The Superintendent or designee shall ensure that employees are informed, in accordance with law, regarding crimes and offenses by students who may pose a danger in the classroom.

B. Discrimination & Harassment Policy / Bullying Prevention

BP 5145.3- Nondiscrimination/Harassment

The Governing Board is committed to providing a safe school environment that allows all students equal access and opportunities in the district's academic and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying of any student based on the student's race, color, ancestry, national origin, national origin, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identify, gender expression, or genetic information; the perception of one or more of these actual or perceived characteristics.

This policy shall apply to all acts related to school activity or school attendance occurring within a district school and to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also includes the creation of a hostile environment through prohibited conduct that is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Governing Board shall ensure equal opportunities for all students in admission and access to the educational program, guidance and counseling programs, athletic programs, testing procedures, and other activities. Eligibility for choral and cheerleading groups shall be determined solely on the basis of objective competencies. School staff and volunteers shall carefully guard against segregation, bias and stereotyping in instruction, guidance and supervision.

The schools may provide girls and boys with separate shower rooms and sex education classes in order to protect student modesty. In physical education, when objective standards have an adverse effect on students because of their gender, gender identity, gender expression, genetic information, age, religion, race, ethnic group or disability, other standards shall be used to measure achievement and create comparable educational opportunities.

The Board prohibits intimidation or harassment of any student by an employee, student or other person in the district. Staff shall be alert and immediately responsive to student conduct which may interfere with another student's ability to participate in or benefit from school services, activities or privileges.

Students who harass other students shall be subject to appropriate counseling and discipline, up to and including expulsion. An employee who permits or engages in harassment may be subject to disciplinary action, up to and including dismissal.

Any student who feels that he/she is being harassed should immediately contact the principal or designee. If a situation involving harassment is not promptly remedied by the principal or designee,

a complaint can be filed in accordance with administrative regulations. The Assistant Superintendent of Human Resources shall determine which complaint procedure is appropriate.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools.

BP 5131.2 Bullying

The Board of Trustees recognizes the harmful effects of bullying on student learning and school attendance and desires to provide safe school environments that protect students from physical and emotional harm. District employees shall establish student safety as a high priority and shall not tolerate bullying of any student. The Governing Board affirms the right of every student to attend a school that is safe and secure. The District's Policy on Bullying (Board Policy 5131.2 and Administrative Regulation 5131.2) can be accessed on the District's website at www.skusd.k12.ca.us. Copies of the policy are also available at the school office.

All persons are to be treated with dignity and respect; therefore, the district, schools, students, parents/guardians and community have an obligation to promote mutual respect and safe, harmonious relations that support dignity and equality. To that end, the school district has in place policies, procedures, and practices that are designed to reduce and eliminate bullying and harassment as well as processes and procedures to address incidents of bullying and harassment when they occur.

These policies and procedures must be disseminated annually to staff, students, and parents/guardians.

The district will not tolerate bullying or any behavior that infringes on the safety or well-being of students, staff, or any other persons within the district's jurisdiction whether directed at an individual or group. No individual or group shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, retaliate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel. This includes but is not limited to bullying or harassment based on race, color, creed, national origin, ethnicity, gender, gender identity, gender expression, language, perceived or actual sexual orientation, physical or mental disability, political or religious ideology, physical appearance, or economic status, or association with a person or group with one or more of these actual or perceived characteristics. This policy applies to all acts while on school grounds, at a school sponsored activity, while traveling to and from school, on a school bus, during any activity related to school attendance.

Cyberbullying

Cyberbullying includes the creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device.

Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Bullying Prevention

To the extent possible, district schools shall focus on the prevention of bullying by establishing clear rules for student conduct and implementing strategies to promote a positive, collaborative school

climate. Students shall be informed, through student handbooks and other appropriate means, of district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying.

As appropriate, the district shall provide students with instruction in the classroom or other educational settings that promotes social-emotional learning, effective communication and conflict resolution skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

Such instruction shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

1. Discuss the diversity of the student body and school community, including their varying immigration experiences
2. Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims
3. Identify the signs of bullying or harassing behavior
4. Take immediate corrective action when bullying is observed
5. Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Based on an assessment of bullying incidents at school, the Superintendent or designee may increase supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias.

Intervention

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. In addition, the Superintendent or designee shall develop means for students to report threats or incidents confidentially and anonymously.

School staff who witness an act of bullying shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case

management, counseling, and/or participation in a restorative justice program as appropriate.
(Education Code 48900.9)

Reporting and Filing of Complaints

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee. Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report his/her observation to the principal or district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3 - Uniform Complaint Procedures.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3. The student who is the alleged victim of bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Investigation and Resolution of Complaints

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and the districts uniform complaint procedures specified in AR 1312.3.

If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Discipline

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

The chance of becoming a victim of either violent or property crime in Rosamond is 1 in 36. Based on FBI crime data, Rosamond is not one of the safest communities in America. Relative to California, Rosamond has a crime rate that is higher than 76% of the state's cities and towns of all sizes.

The school rules and procedures were developed and adopted in accordance with California Education Code 35291.5. This documentation represents the collaborative efforts of teachers, parents and other school staff and administration. These rules and procedures are intended as guidelines for enhancing the instructional climate and personal safety.

Standard Response Protocol (SRP)

A critical ingredient in the safe school recipe is the classroom response to an incident using a **common language**. Weather events, fire, accidents, intruders and other threats to student, staff and visitor safety are scenarios that should all be planned for and drilled by the school community. The Safer Schools Coalition of Kern endorses and recommends the use of the **Standard Response Protocol (SRP)**, a system of four key actions: Lockout, Lockdown, Evacuate and Shelter. In the event of an emergency, the action and corresponding directive is called. The SRP's four actions are as follows:

LOCKOUT!

GET INSIDE. LOCK OUTSIDE DOORS.

The **LOCKOUT!** Protocol is implemented when there is a potential threat or hazard outside of the school buildings or grounds. It requires increased situational awareness, but allows the educational process to continue with little classroom interruption.

Examples: Suspicious person; criminal/dangerous activity in neighborhood surrounding campus; Animal on campus.

LOCKDOWN!

LOCKS, LIGHTS, OUT OF SIGHT.

The **LOCKDOWN!** Protocol is implemented when there is an active or immediate threat in the schools building(s) or on school grounds. This protocol requires locking classroom doors, turning off lights, remaining silent and out of sight.

Examples: Life safety threat on or near campus like a hostile person, gunfire or direct threat.

EVACUATE!

TO A LOCATION

The **EVACUATE!** Protocol is called to move students and staff from one location to another.

Examples: Fire or Bomb threat. When conditions outside buildings or off campus are safer than inside or on campus.

SHELTER!

TO A LOCATION

The **SHELTER!** Protocol is called when the need for personal safety is necessary.

Examples: Earthquake, flood, or hazmat
