

January 3, 2024

Dear Haldane Community:

This morning we experienced a minor issue in the mechanical room of our Main Building that caused some smoke and the smell of rubber in the Middle School. The issue was immediately identified, the system was shut down, and faculty and staff were advised to open windows to clear the smell. Heating will be increased to address any issues with temperature.

We continue to closely monitor the area.

Sincerely,  
Phil Benante, Ed. D.  
Superintendent of Schools

Querida comunidad Haldane:

Esta mañana experimentamos un problema menor en la sala de máquinas de nuestro edificio principal que provocó algo de humo y olor a goma en la escuela secundaria. El problema se identificó de inmediato, se apagó el sistema y se recomendó a los profesores y al personal que abrieran las ventanas para eliminar el olor. Se aumentará la calefacción para solucionar cualquier problema con la temperatura.

Seguimos vigilando de cerca la zona.

Atentamente,  
Phil Benante, Ed. D.  
Superintendente de Escuelas
