555 LOITERING ON SCHOOL GROUNDS

I. GENERAL STATEMENT OF POLICY

Any person loitering on or near the school grounds shall be identified. If such a person cannot readily provide a logical explanation for his/her presence, or if the school staff has any serious question about his/her presence there, and if school officials make a reasonable attempt to diplomatically deal with what might be considered to be an inappropriate presence of an unidentified person, law enforcement authorities should be notified.
