BIDS

1. The date, time, and place of bid opening will be given to the Notice of Bidders.
2. All bids must be submitted on bid offer forms and in accordance with instructions provided by the Board.
3. All bids received after the time stated in the Notice to Bidders may not be considered and will be returned unopened to the bidder. The bidder assumes the risk of any delay in the mail or in the handling of the mail by employees of the school district. Whether sent by mail or by means of personal delivery, the bidder assumes responsibility for having his bid deposited on time at the place specified.
4. All information required by Notice to Bidders, General Conditions, Specifications, and Bid Offer, in connection with each item against which a bid is submitted, must be given to constitute a regular bid.
5. The non-collusive bidding certification must be included with each bid as required by General Municipal Law, Section 103-d.
6. The submission of a bid will be construed to mean that the bidder is fully informed as to the extent and character of the supplies, materials, or equipment required and a representation that the bidder can furnish the supplies, materials, or equipment satisfactorily in complete compliance with the specifications.
7. No alteration, erasure, or addition is to be made in the typewritten or printed matter. Deviations from the specifications must be set forth in space provided in bid for this purpose.
8. Prices and information required should be typewritten for legibility. Illegible or vague bids may be rejected. All signatures must be written. Facsimile, printed, or typewritten signatures are not acceptable.
9. Sales to school district are not affected by any fair trade agreements. (General Business Law, Section 369-a, Sub.3).
10. No charge will be allowed for Federal, State, or municipal sales and excise taxes since the school district is exempt from such taxes. The price bid shall be net and shall not include the amount of any such tax.
11. In all specifications, the words, "or equal," are understood after each article giving manufacturer's name or catalog reference, or on any patented article. The decision of the school district as to whether an alternate or substitution is in fact "equal" shall be final. If bidding on items other than those specified, bidder must in every instance give the trade designation of the article, manufacturer's name, and detailed specifications of item he proposes to furnish. Otherwise, bid will be construed as submitted on the identical item as specified.
12. Bids on equipment must be on standard, new equipment, of latest model, and in current production, unless otherwise specified.
13. All regularly manufactured stock electrical items must bear the label of the Underwriters' Laboratories, Inc.
14. When bids are requested on a lump sum basis, bidder must bid on each item in the lump sum group. A bidder desiring to bid "no charge" on an item in a group must so indicate; otherwise bid for the group may be rejected.
15. All prices quoted must be "per unit" as specified; e.g., do not quote "per case" when "per dozen" is requested; otherwise bid may be rejected.

16. Bidder must insert the price per unit and the extensions against each item in his bid. In the event of a discrepancy between the unit price and the extension, the unit price will govern. Prices shall be extended in decimals, not fractions.
17. Prices shall be net, including transportation and delivery charges fully prepaid by the successful bidder to destination indicated in the instructions to bidders. If award is made on any other basis, transportation charges must be prepaid by the successful bidder and added to the invoice as a separate item. In any case, title shall not pass until items have been delivered and accepted.
18. All bids must be sealed. They must be submitted in envelopes furnished by the school district, if any. Otherwise, plain opaque envelopes may be used, clearly marked "BID." Also the date and time of the bid opening as indicated on the Notice to Bidders must appear on the envelope. Bids must not be attached to or enclosed in packages containing bid samples. Telegraphed bids may be considered at the discretion of the school district. Telephoned quotations or amendments will not be accepted at any time.
19. No interpretation of the meaning of the specifications or other contract document will be made to any bidder orally. Every request for such interpretation should be in writing, addressed to the school district, not later than five (5) days prior to the date fixed for the opening of bids. Notice of any and all such interpretations and any supplemental instructions will be sent to all bidders of record by the school district in the form of addenda to the specifications. All addenda so issued shall become a part of the contract documents.
20. If the supplies, materials, or equipment are to be delivered over an extended period of time, or if the specifications so state, then the successful bidder may be required to execute an agreement in relation to the performance of his contract, such agreement to be executed by the bidder within fifteen (15) days after notification to execute such contract. If the specifications so state, the successful bidder also may be required to furnish a performance bond equal to the full amount of the contract to guarantee the faithful performance of such contract. Such performance bond shall be maintained in full force and effect until the contract shall have been fully performed. The surety company furnishing such performance bond shall be authorized to do business in the State of New York and must be satisfactory to the school district. The performance bond shall be executed by the successful bidder at the time of the execution of the contract by the successful bidder and the Board.

SAMPLES

21. All specifications are minimum standards; and accepted bid samples do not supersede specification for quality unless bid sample is superior, in which case deliveries must be the same identity and quality as accepted bid sample.
22. The school district reserves the right to request a representative sample of the item quoted upon either prior to the award or before shipments are made. If the sample is not in accordance with the requirement of the specification, the school district may reject the bid; or, if award has been made, cancel the contract at the expense of the successful bidder.
23. Samples, when required, must be submitted strictly in accordance with instructions; otherwise, bid may not be considered. If samples are requested subsequent to bid opening, they shall be delivered as directed for bid to have consideration. Samples must be furnished free of charge and must be accompanied by descriptive memorandum invoices indicating if the bidder desires their return and specifying the address to which they are to be returned provided they have not been used or made useless by tests. Award samples may be held for

comparison with deliveries. The school district will not be responsible for any samples destroyed or mutilated by examination or testing. Samples shall be removed by the bidder at his expense. Samples not removed within fifteen (15) days after written notice to the bidder will be regarded as abandoned, and the school district shall have the right to dispose of them as its own property.

24. When a specification indicates that an item to be purchased is to be equal to a sample, such sample will be on display at a designated location in the school district. Failure on the part of the bidder to examine samples shall not entitle him to any relief from the conditions imposed in the proposal, specification, etc.

AWARD

25. Awards will be made to the lowest responsible bidder, as will best promote the public interest, taking into consideration the reliability of the bidder, the quality of the materials, equipment, or supplies to be furnished, their conformity with the specifications, the purposes for which required, and the terms of delivery.
26. The school district reserves the right to reject all bids. Also reserved is the right to reject, for cause, any bid in whole or in part; to waive technical defects; qualifications; irregularities; and omissions if in its judgment the best interests of the district will be served. Also reserved is the right to reject bids and to purchase items on state or county contracts if such items can be obtained on the same terms, conditions, specifications, and at a lower price.
27. The school district reserves the right to make awards within thirty (30) days after the date of the bid opening during which period bids may not be withdrawn unless the bidder distinctly states in his bid that acceptance thereof must be made within a shorter specified time.
28. Where a bidder is requested to submit a bid on individual items and also on a total sum or sums, the right is reserved to award contracts on individual items or on total sums, whichever is in the best interests of the school district.
29. If two or more bidders submit identical bids as to price, the decision of the Board to award a contract to one of such identical bidder shall be final. (General Municipal Law, Section 103, Sub.1).

CONTRACT

30. Each bid will be received with the understanding that the acceptance thereof in writing by the Board, to furnish any or all of the items described therein shall constitute a contract between the successful bidder and the school district. Contract shall bind the successful bidder on his part to furnish and deliver at the prices and in accordance with the conditions of his bid. Contract shall bind the school district on its part to order from such successful bidder and to pay for at the contract prices, all items ordered and delivered, within ten (10) percent over or under the award quantity, unless otherwise specified.
31. The placing in the mail of a notice of award or purchase order to a successful bidder, to the address given in his bid, will be considered sufficient notice of acceptance of contract.
32. If the successful bidder fails to deliver as ordered, or within the time specified, or within reasonable time as interpreted by the school district, or fails to make replacement of rejected articles, when so requested immediately or as directed by the school district, the school district may purchase from other sources to take the place of the item rejected or not delivered. The school district reserves the right to authorize immediate purchase from other sources against rejections on any contract when necessary. On all such purchases the

successful bidder agrees to reimburse the school district promptly for excess costs occasioned by such purchases. Should the cost be less, the successful bidder shall have no claim to the difference. Such purchases will be deducted from contract quantity.

33. A contract may be cancelled at the successful bidder's expense upon nonperformance of contract.
34. Cancellation of contract for any reason may result in removal of the successful bidder's name from mailing list for future proposals for an indeterminate period.
35. When materials, equipment, or supplies are rejected, they must be removed by the successful bidder from the premises of the school district within ten (10) days of notification. Rejected items left longer than ten (10) days will be regarded as abandoned, and the school district shall have the right to dispose of them as its own property.
36. No items are to be shipped or delivered until receipt of an official purchase order from the school district.
37. It is mutually understood and agreed that the successful bidder shall not assign, transfer, convey, sublet or otherwise dispose of the contract or his right, title, or interest therein, or his power to execute such contract, to any other person, company, or corporation, without the previous written consent of the school district.

INSTALLATION OF EQUIPMENT

38. The successful bidder shall clean up and remove all debris and rubbish resulting from his work from time to time as required or directed. Upon completion of the work the premises shall be left in a neat, unobstructed condition, and the buildings broom cleaned, and everything in perfect repair and order. Old materials are the property of the successful bidder unless otherwise specified.
39. Equipment, supplies, and materials shall be stored at the site only on the approval of the school district and at the successful bidder's risk. In general, such on-site storage should be avoided to prevent possible damage or loss of the materials.
40. Work shall be progressed so as to cause the least inconvenience to the school district and with proper consideration for the rights of other successful bidders or workmen. The successful bidder shall keep in touch with the entire operation and install his work promptly.
41. Bidders shall acquaint themselves with conditions to be found at the site and shall assume all responsibility for placing and installing the equipment in the locations required.
42. Equipment for trade-in shall be dismantled by the successful bidder and removed at his expense. The condition of the trade-in equipment at the time it is turned over to the successful bidder shall be the same as covered in the specifications, except as affected by normal wear and tear from use up to the time of trade-in. All equipment is represented simply "as is." Equipment is available for inspection at the delivery point listed for new equipment, unless otherwise specified.

If during this period such faults develop, the successful bidder agrees to replace the unit or the part affected without cost to the school district. Any merchandise provided under the contract which is or becomes defective during the guarantee period shall be replaced by the successful bidder free of charge with the specific understanding that all replacements shall carry the same guarantee as the original equipment. The successful bidder shall make any such replacement immediately upon receiving notice from the school district.

DELIVERY OF SUPPLIES, EQUIPMENT AND MATERIALS

- 44. Delivery must be made in accordance with the instructions to bidders and specifications. If delivery instructions do not appear on order, it will be interpreted to mean prompt delivery. The decision of the school district as to reasonable compliance with delivery terms shall be final.

- 46. Items shall be securely and properly packed for shipment, storage, and stocking in shipping containers and according to accepted commercial practice, without extra charge for packing cases, baling, or sacks.
