

## Demonstrating the Four Pillars of NHS

Bear Creek National Honor Society is dedicated to upholding and demonstrating:

- **Scholarship**
- **Service**
- **Leadership**
- **Character**

As a chapter we have worked maintain scholarship and service of our members through ongoing expectations in these areas. In an effort to strengthen leadership skills for Bear Creek National Honor Society students, the chapter will be modifying its membership expectations for incoming members inducted in October. The requirements will include:

- **Scholarship:**
  - Maintain a 3.50 GPA
- **Service:**
  - 10 hours service/semester with at least one school sponsored activity/semester
  - To letter in NHS, students must complete 20 hours of service/semester (rather than 10)
- **Leadership:**
  - Attend the leadership workshop/presentation (or complete the web-based activity) each semester
- **Character:**
  - Instances of cheating will result in a review by the advisory committee to determine if the student can continue as a member of NHS

Students who are already members of NHS may choose to complete these revised expectations rather than those they were inducted under. If existing members prefer, they can continue with the expectations outlined at the time of their induction.
