KNOWLEDGE BOWL® Champions

In 1979, Lakes Country Service Cooperative purchased the rights to "Rural Knowledge Bowl®". The first year involved nine teams from that region. Over the years, more Minnesota Service Cooperatives across the state joined in, and the name was legally changed to Knowledge Bowl®. Once a statewide meet began, there were still several changes--most notably a 2-tier system that still exists today.

KNOWLEDGE BOWL® CODE OF ETHICAL CONDUCT

KNOWLEDGE BOWL® in Minnesota is unique in that team coaches also serve as competition officials. Because other sports and activities often don't employ their coaches in this dual role, this Code of Ethical Conduct is presented to help coaches determine what conduct is acceptable at KNOWLEDGE BOWL® competitions and what conduct is not acceptable.

We hope that no coach would ever do these things, but we feel the need to state them anyway. Hopefully for new coaches this will help clarify their role; for experienced coaches it will remind them of the responsibility they have, and for the students it will help maintain the fairness of the competition.

- **Coaches will not use knowledge gained at the officials' meeting to help their team.**
  Examples include but are not limited to:
  - telling team members answers to specific questions
  - telling team members what specific questions will be asked
  - telling team members about the general topics (science, literature, etc.) or difficulty of specific questions
  - telling team members that a specific round or the meet in general will have specific types of questions (e.g. lots of math in Round 3, lots of easy questions in Round 4)
  - using knowledge about the questions to make player assignments (e.g. putting geography expert in Round 2 where there are a lot of geography questions)

- **Coaches who are acting as readers, judges, or computer operators will not make decisions based on the effect they will have on their own or competing teams.**
  Examples include but are not limited to:
  - ruling one's own team correct when the answer was not correct
  - ruling a competing team incorrect when the answer was correct
  - enforcement of rules (timing, deferring, number pieces of information allowed in answer, protests, etc.) differently for own team than for other teams

- **Coaches will not communicate with their team members during a round of play (between Question #1 and #45, including score checks)**
  Examples include but are not limited to:
  - communicating answers to teams, either verbally or non-verbally
  - communicating strategies (e.g. buzz faster or slower, protest that, listen to Tim on geography questions, etc.)
  - communicating encouragement (e.g. take your time, relax, good job, etc.)
