

Title: Participation in Policy and Administrative Regulation Development

While the Council Bluffs Community School District Board of Directors is responsible for the development of District policies, input from the Superintendent, administrators, staff members and others as appropriate on the content is crucial to producing policies that are meaningful upon implementation. Administrative regulations may be necessary to implement policy.

It is the responsibility of the Superintendent to ensure administrative regulations are followed. As regulations are adopted or revised, employees, students and other members of the District community will be informed in a manner determined by the Superintendent.

The Board is also responsible for evaluating the effectiveness and efficiency with which the administration and staff implement Board policies.
